Vide preceding side

II The Talk was about the area or about the boundaries on the part of the Range Vakeel. The boundaries now inserted in the vernacular statement correspond to those in the Account of 1784. Hence the boundaries are confirmed here & the 46 Acre & 85 fents situated therein are registered here.

III The average income of this Village is 108 Rupees per annum as per statement of the Muzars - This is not true. I raise it to 150 Rupees with reference to the fertility of soil &c.

IV All the Muzars do work in the Just station & the surplus of the Revenue of the Village attached to it, after covering the charges of the Dargah, is enjoyed by them as shown in the margin of the preceding side.
