Register No. 850

This is one of the villages in the Jeminar of Puroganga. Portion of this is Juntan & the rest is Agam. It is not known from the public account to whom, or for what purpose the Juntan was granted. From an account of the Juntans furnished by the Jeminar in AD 1860 to the collector, it appears that this was granted originally to Puroganga for the services of Puroganga. Some say that the descendants of the Juntan are alive in some place in Sava gunga District. The Range Officer says that the Juntan portion of the village is ~~in~~ in possession of the Jeminar since AD 1878 which passed 46 years ago. That the holder of the Juntan relinquished it in AD 1875 as the income it was not sufficient to cover the Puroganga & other maintenance charges. This is an usual story. The Jeminar did not believe the Juntan, which they thought wrongly that a portion of the Jeminar land of the Juntan & treated as such hitherto. The Range Officer failed to prove that the former holder of the Juntan portion relinquished the Juntan legally by a Rajeemamar &c.

1 In the Jamabundary Account of 1813 the Tintam is entered in the name of Parangul...
 1 In the D D D D of 1814-10 1/2 acre out of the Tintam is entered in the name of one

1 In the Jamabundary Account of 1817-18 10 1/2 acre out of the Tintam is entered in the name of Rupar Painsi
 1 In the D D D D of 1819 - 10 1/2 acre is entered in the name of D D D D

From the above it would appear that the zemindars used to confer such portions of the Tintam as they thought proper upon the persons whom they choosed at times. The Rajas Taluk...
 documents to show that the Tintam portion is... in possession of the zemindar since 1819 legally -
 by the relinquishment of the same by the holders thereof. He produced the settlement account from 1827 -
 which shows that the entire village is in possession of the zemindar. He proved the zemindar's right of possession
 of 17 years - & not since 1819. However I think it may be supposed that from the Jamabundary Account

of 1802-1812 that the zemindar was enjoying a portion of the Tintam since the last half century -
 In the account of 1819, it is true, it is said that 10 1/2 acres then held as Tintam by one Rupar Painsi is
 reverted to the zemindar. It is not however stated that the subsequent years from want of records
 I doubt whether I will have to treat the Tintam as being still of the Rajas Taluk or as being

at the same time I am really afraid that such a measure will be viewed as a severe one.
 On the whole as it is proved clearly that the zemindar had a portion of the Tintam in his possession since the
 last half century & that he was meddling with it since the last half century, I recommended to confirm the
 Tintam portion on 1/4 of assessment upon the Rajas Taluk & the Rajas Taluk as they are in charge.
 I find no reason to suspect the genuineness of the account produced by the Rajas Taluk as they are in charge.
 bulky paper rolls. It appears from the first entry that when the Tintam was in possession of the
 Tintam, the Porup of the same was collected annually & the whole or portion of it was...
 at the pleasure of the Ruling zemindars. Since the Porup of Rupar (133-1071) entered in the Tintam Account on the Tintam
 is adopted in the settlement. In an account of 1811 of the Tintam sent to the Collector by the zemindar, the sum of Porup
 133-1071 is entered as the Porup of this Village & a remark is written on the Account that this Tintam fell in possession

the zemindar as the Tintam was ruling asked it, when it is not mentioned, & that every money payment is made annually to the
 descendants of the Tintamans. This proved to be untrue.

II. There are no distinct boundaries for the Tintam & Agur portions of the village. The boundaries of the entire village
 are inserted in the Account of 1866. The rays now added to the Agur area is apporportioned on the age area of the Tintam &
 Agur portion with a view to secure the interests of both the zemindars & the Govt. The boundaries of 1866 being a correct one,
 they are confirmed here & that 80 Acre & 80 Cuts are assigned here as
 the area of the entire village. (This must be checked)
