III The persons Nos 2 & 9 of 16 produced 6 Cattle Grants on fan Sayam leases for 1/6 Thottis — Nos
- to prove their Government being an old date -
The persons Nos produced a bundle of receipts granted to the Mahajanams by the Government commencing
having paid Peishcush These receipts of A.D 1794-1795-1796-1798-1799-1801-1850-1833
-1836-1837- contain the names of the ancestors of the persons No 2 & 9 Nos - These persons No 2 &
- say that their ancestors were enjoying in the Village two Thottis given to them Cattle bells & ankle or
- sincerely, in A.D 1794-1795-1796-1798-1799-1800 & that they pursued the remainder
1½ Thottis embezzlement - & again it is proved by tradition that the persons No 1 & 16 in a
- & the Cattle grants & others are in possession of the Village or of their chiefs since 1209 —
- Hence I am recommended to confirm the Village & the persons as No 16 on 18 Thottis assessment

Valuation.

III . . . Wetlands depend upon one Fund of moderate size - It is in repair - It is fed by
= Jungle Streams = of the Wetlands of the Village, the Mahajanam planted 6 Acres 30 Cents of
- as these remained unfit for Cultivation, among the Lands of Brumbotte - The remaining 13 Acres 82
- are Cultivated annually in full - Some of the Wetlands are Cultivated 2d time - Country Water
generally But it is a rich Country generally No Dryish Lands in the Village are Poor
Cultivated in the Village No grain crops are raised in the Village - Poultry are Sparingly
Kadambuguel - The average Wet assessment of the Village comes 6 5 Rupees per Acre —
The Mahajanam any Cultivation is no difference between the Lands of the Village & those of Kadambuguel
The average income of the Village per Cultivation of the Mahajanam 620 per annum This is not true —
In consideration of the fertility of soil I frame the valuation of the Village as follows —

Wet 17 Acres Cultivated annually	6 5 Rupees per Acre	65	—
Wet 1½ Acres Waste not	10 Rupees per Acre	—	12 —
		Total — 8	6 12 —
