V The zemindar's account of Fasli 1213 to 1249 shews that the 3/4 Village was purchased by the zemindar but I doubt whether it properly to the 3/4 Village in the name of the Rayo- which was given a few years Gulam & subsisted by the Ex-zemindar when he had regard & de- under a written deed of gift - The Rayo's Agent did resume or placed under attachment improperly removed of the Villages deposed of by the Ex-zemindar This is an arbitrary measure I registered the villages deposed of by the Ex-zemindar in the name of the aliences wherever the transactions proved the bonafides - For the case of the 3/4 Village in question Gulam Munto Labeb, zemin- appeared either in person or by Vakeel though he was well aware that his attendance is essentially necessary - The 3/4 Village is therefore to be placed under attachment -

VI Wet lands depend upon tanks which are sound - which are filled annually - Some of the Wet lands are fallow for two annually - Soil is good - Small extent of Wet lands - left waste annually - Scanty of Waters mostly felt - Some of the Dry lands - cultivated annually & with [illegible] - No [illegible] among the 3/4 Village - possessed the Rayo's Velaiti 221-9-5 The 3/4 Village are not very low - Income - fertility of soil &, I procure the value of the Village as follows -
