

This Chattram has three
3 Villages —

Sheet No. 1284

I think 3 villages are situated within the limits of the former grant - They were granted by Muller Raja Narayana Rao - The village known by the name of "Vajalchery" Chattram was built here - These are permanent grants - In the account of F.C.M. Pungia these villages were entered under the head of Darnesamans, still it is said that they were sold & assigned to the Chattram - In other accounts, these villages are entered in the name of the Chattram. It appears from by the brotherhood that the villages are in possession of the institution since the date of its formation which took place about 100 years ago - This Chattram was originally built in a village known by the name of Vajalchery - a large village on the highway - That building is not in repair - It appears from the statement of collector Mr Blackburne dated 16 February /38 & 19 April /39 - that a new Chattram was built at Pedar, a suburb of Seringpuram village, from the proceeds of the Chattram & of another Chattram known by the name of Ellangplem Chattram - & that the charity is conducted from the proceeds of these two Chattrams in the newly built Chattram - The new Chattram was built as the road on which the old Chattram stands lost its importance by its being less frequented by travellers - Seringpuram is on an important public road - This Vajalchery Chattram has only three acres - that appears in all Accounts - The Rango's Vakil says that these 3 villages yielded annually on an average 1172-8-0, that daily not exceeding 24 men are fed in the new Chattram at Pedar from the proceeds of the old Chattrams; that the charity is conducted for about 8 months in a year; & that the Chattram in Seringpuram and dat which is situated at a distance of 12 miles from Pedar is closed for a month during

a considerable annuity in the Chattram at Pooni & what at Timgirwar
 & that in some years the charity is conducted for a few months in one Chattram
 & for the remainder in another Chattram & that considerable portions of these
 Chattram Joms are entered in the accounts as being the wages of Libbendies - These
 Joms is not true - Such Joms as are or are inappropriately entered in the
 Accounts as Libbendy charges - The holders of these two Chattrams are paid
 annually monthly at 30 Rupees though they do nothing - On the whole as the
 proceeds of the Chattrams are appropriated to the use of the charity, I register these

Clauses here under Rule III of clause one -
 These 3 villages are brought on one & the same Register as the
 area of the same is given in lump in the Account of F 1211 -

No Talkara about the boundaries of these villages - on the part of the
 Rang's Vakeel - The boundaries inserted in the revenue account stand
 to defray for these villages correspond to those in the Account of F 1211

Since the boundaries are confirmed here at the 990 and 991
 situated therein are registered here - The average income of these villages
 is 1167 Rupees per annum as per statement of the Vakeel - With the same
 fertility of soil &c. I raise it to 2000 Rupees -

III This Chattram has another village named Hyatkhena - This village is entered
 as Hyat in the Tamil & Marathi Account of F 1211 - This is not entered in any other
 Account - in the name of the Chattram - It has no original documents
 to show that it was deducted from the assets upon which the Permanent Revenue
 based - Hence it is not brought under this settlement - Pongra now collected in lump
 in a sum of Rupees 270-9-0 on the 6 villages now in possession of the Chattram
 As this village of Hyatkhena is not brought under this settlement 49-12-0 is deducted
 out of its former Village the pongra now collected & the with reference to the Cpl. In
 of Well lands therein & the remaining sum of Rupees 220-7-3 is paid as the Pongra
 of the 3 villages to which this Register belongs - This is done in consultation with the
 Rang's Vakeel - Originally Pongra was paid on all the villages with reference to their
 total area & since deduction is made now for the Hyatkhena Village on the same
