The Mohajirs say that 28 Acres of Soil & 56 Jals of Dry are fallow
annually & 7 Jals are cultivated - There is a small Village - Some of the
Soil lands are cultivated annually 2 times - Nangah & Pungah Roads.

No. 1065

are of a medium character generally - The average income of this Village is 70 Rupees
per annum as per statement of the Mahajanams. This is not true - The Contiguous
Village is Pakudypatty - The average Wet assessment of this Village as
calculated for a period of 15 years previous to 1820 comes to 1072- per acre.
The Contiguous Dry lands assessment varies from 1-15-3 to 0-13-6 per acre.
The Mahajanams say that the soil of this Village is far inferior to that of the
Contiguous Dry Village. The rich & noted respectable Anubalagan of
the important Dry Village of Pothamangalam, who also cultivates some lands
in Pakudypatty says that the soil of this Dammaramam is not much inferior to
that of Pakudypatty land; but it may be said that there is some slight difference
in the soil of these two Villages. In consideration of the fertility of soil in Iyannam
the valuation of this Village as follows -
