

Vottango, Iowa

Quelque chose

1 This is one of the insignificant Damas areas in the Territory of Luvuvua. It was granted by the Government of 1811 to the people for subsistence -
 hereditary grant. There is no written possession of it but it is the title of the grant - The name Patta. It was lost. The Village is supported by all the people
 of 1812. It is taken about the area or about the boundaries on the part of the Government Patta. The boundaries correspond to those in the account of 1812.
 Hence the area of 109 acres & 72 fathoms is confirmed here. The exchange is a marked one. But it is attributable to the defect in the entry in the old account
 not to encroachment on the part of the Aborigines - The exchange is situated within the proper limits of the Village -
 2222. Perhaps is paid on the number of Turtles of the

- not to encroachments on the part of the Mohajirans - The village is situated within the proper limits of the Village -
- The village consists of 15 regular families - They are engaged in shown in the margin - The lands are undivided w. Porcupine pond on the number of families of
- permanently. The persons of 1-2-3 & 4 of 16 are descendants of the Original Grantee. They say that their ancestors sold the 6 families entire opposite to
- persons of 5 & 6 of 16 to the father of the Collector's age & that the father of the person N° 5 of 16 gave one family in gift to the late Assistant of the
- N° 6 long ago. No documents. Transactions proved the bonafide - Engagement proved -
- The water is good. They are in again - They are fed by Jungle Streams & by the tank of Nalini, further from the village
- 5.11.4. land passed as one

Scarcity of water is not felt generally - I have no vouchers to enter here the average assessed by
the agent of open lands, as the zemindar never furnished me with the detailed accounts they had
- have applied for this long ago. The average of the Malpinnam in whole the Village is estimated as given in
the margin the average income of the Village as per statement of the Malpinnam is 910 per
The average Dry assessment of the adjacent Agaw Village vary from 2-4-50 to 10-00 per Acre.
The highest is charged for small extent of lands that are full watered with Pungy oil seed &c.
These crops are not raised in the Village Pungy are raised in Dry kinds in the Village -
After weighing the fertility of soil &c, I frame the valuation of the Village as follows -

Wet 20% of area at 50 per per acre - 100-10-

Dry 6 1/2% of area full watered at 11 1/2 per per acre - 66-

Dry 12% of area, that is full watered only 6
1/2 per per acre -

Total - 172-10-0
