The Wet lands in this Village depend upon Tanks. They are in repair - The burden of the Village placed 28 Aug 1860
 & 30% of the Sugar & full water taxes & the rest as waste - The result of my enquiry go to prove that there is not
 such an extensive Waste in the Wet lands - One of the best & most fertile being cultivated annually & the
 Wet & dry lands are of superior quality The average in value of the Village as per statement of the Mahajan is
