III It appears that the Village is the Kottagram of Kottagrum Villages in A D 1849 — The Village was attached with several other Kottagrum Villages in A D 1849 — when the general survey was planned under the superintendence of Wards — On the 24 September 1856, — the then Collector Mr Porter recommended the reduction of this Village to the — Doraisawmy Iyengar, Brother in law of the proprietor — Doraisawmy Iyengar, Brother in law of the proprietor — sanctioned the arrangement in their Proceedings dated 8 April 1857 — N° 1094 — The Village of Poras appeals were made over to Doraisawmy Iyengar with their mesne profits — But as these Villages were absented to the pay of 1856, they are enjoying them — No deed of gift to show that these Villages were absented to the persons of 1856 by their — Father-in-law But the son of the Donatario is alive admits the transaction — The lands the Village are undivided — Poruppu is paid equally by the pay of 1856 —

IV ----- Wet lands depend upon one Tank of moderate size — It is in repair — by Jungle Streams — Wet & Dry lands are cultivated annually in full — One is wet cultivated 2 times — Soil of a superior quality generally — I have no material to enter here the average wet assessment of Kottagrum in which the Village under settlement is situated as given in the margin — It is higher the average income of the Village as per statement of the Mahazanamah — 70 Rupees per annum — In consideration of the nature of soil &c I propose the valuation of the Village as follows —

Wet 22¾ Acres cultivated annually once & partly 2 times at 6 Rupees per Acre	136—8—0
Dry 2¼ Acres at 1 Rupee per Acre	2—4—0
Total	138-12—0
