Chapman

Register No. 230
Sheet No. 279

I then saw the 2 Damasceni in the journey of Terengger. There was granted to the people of 13 for subsistence - This is a breed strong & stout -
- They have a Polla which is a registering one - The Damasceni is supported by all the account of 12 - No Talk was about the area or about the
- booms on the part of the Zemmouir Talkeel - The booms are supposed to be in the account of 4 & 4 - Hence the time of 170 Area & 70
- Cents is confirmed here. The edifice is a marked one. But it is reported to be within the limits. The Village consists of 12 Thistles of unequal balance
- which are enjoyed as shown in the margin - The lands are divided & they are exchanged periodically. Perhaps is fed on the number of the equal
- & forms account. The people of 13 are discussing the O. gl. Grants - Perhaps is fed on the number of the equal
- The Wet lands depend upon two kinds of large size - They are in repair - They are fed by the people. Perhaps is fed on the number of the equal
- Lands of Pased as waste are partly the thick and the Wet lands are not full watered & the time - No Tambine is raised - Plenty of water is felt in some
- The Damsel is a medium bearing generally - I have no means to enter but the average assessment of the adjoining of the large
- The Damsel is a medium bearing generally - I have no means to enter but the average assessment of the adjoining of the large
