Average rate of Government Salage per Acre

May 1-5-6

Net 4-6-1

Average Value of grain of Melworm on wet land in Pattamangalam
Kagavam consisting of Ayan Villages in the Salage of Trippattur
for the period of 15 years -

From 1250	Cultivated area in Acre	Gross out turn	Produce of Melworm - share at 45 percent	Average price of grain of grain	Value of grain per Acre	Rates per Acre
to 1250						
Rs. 1250	12239-15	*	71059-3-2	1-8-3	107906-2-7	8-13-7

* As the figures in Col 4 include "Varisapatt" or the quantity of grain for which some of the lands have been rented out and as the gross out turn of the Villages thus Rented out in kind is not known, the Col 5 is left blank. -

True Copy

The Mahazamans say that 32 Acre of Wet are cultivated annually in full. & that 8 1/2 Acre of Wet are of 10 years back & that the Waste may be brought under plough within one or two years if the Mahazamans exact themselves. Some of the Wet lands are cultivated annually 2 times. The area thus cultivated 2 times may be estimated as 1/4 or 1/2 of the irrigated area. The lands are of a superior quality generally. Harvest is good. The contiguous Ayan Village is Pattamangalam & its hamlets. The average income of Pattamangalam Village calculated for a period of 15 years previous to 1250 comes to 8757 per Acre. This average the Village may be higher. They also say that their lands are not as superior as those of Pattamangalam. The average average income of the Village as stated by the Mahazamans is 1000 Rupees per Acre. This is not true. The Village is in good state like the contiguous & adjacent Ayan Villages. In consideration of the fertility of soil & of the valuation of the Village as follows -

Wet 32 Acre at 7 Rupees per Acre - 224 -
Wet 8 Acre (Salt, Melworm & salt) 16 -
2 Rupees per Acre - 16 -
Total - 240 -
