There is a Larva Mangrove Village.

A large, stylized, handwritten flourish or signature on aged, textured paper. The ink is dark and the strokes are fluid, forming a complex, looping shape that resembles a calligraphic 'Z' or a decorative flourish. The paper is yellowed with age and shows some minor staining and texture.

Average 67 6/8
 As the entries in the account of 1811, could not be trusted & recommended to confirm the village boundaries in the settlement, Range of Paper 145298, being the average collected in the above mentioned years.

III No Talk was about the Area or about the boundaries on the part of the Range's Valued. The boundaries now inserted in the revenue statement correspond to those in the account of 1811. Hence the boundaries are confirmed & the 92 An & 54 fathoms extent therein are registered here as the area of the village.

IV. Wet land in the Village depend upon one tank - It is not in a thorough repair - It is in a very bad state - It is fed by a single stream - The Range's Valued field 538 An of which land of the Tentative Area as fallowed land 36 1/4 An as waste - The Range's that these waste lands are lying waste & uncultivated lands since the last 20 years from the negligence of the Genuessawaram & that they might be brought under plough as soon as the tank is restored - which might be done within the next 3 or 4 years - The farmers of the Village support the statement - The Range's land are of 10 An generally - The average income of the Tentative portion is 35-15 per annum - The average value of the Village is 6-6-8 per An as per Genuessawaram Account - The contiguous seven Villages are Pattamangaluru & Tazamangaluru & the average value of these Villages is 6-6-8 per An - In consideration of the fertility of soil & of the value of the Tentative land follows - There is some reason regarding the wetting of the land - as appears from the results of the surveying -
