General Remarks

In all the villages of the District, with the exception of those which formed a portion of the late Ranche Salas, the houses were classified and appraised in 1832. The extent of land in these Registros is according to the survey made by Don Antonio in 1828, and the rates of a person's tax there are those according to the revised scale introduced by Mr. Ramirez in 1835, on the Constitution. These rates have invariably been applied to the houses which have remained to Govt. or before since the revision. Mr. Nishols's rates were then accepted by the Govt. as being lower.
