

Page 10

This was originally a sarva dham grant of Jagadheva Rai's days. In Tipu's days the Village was resumed, and on the application of Vengambhat (the original grantee) and Anantaya, & Subhagiri chetty, the Village was restored but on a foot of Paper 9-2-11. In fudi 1209 & 10, a Shrotrium rent was fixed by Captain Graham. In fudi 1211 Mr. Bechbura resumed one half of the Village, which passed by sale into the possession of one Nimmati Rannabhadra Chetty, & confirmed the remaining half on the Trushwetham tenure. In effect, the Indumadars enjoy & remission of the whole cultivated area of the Village, and the Government take the remaining 5 of the Bering. The rent is supported by a small pool which is entirely rain fed. The rent of the pool is remitted every year for want of irrigation. The accounts commence with the account of fudi 1234.

As under the recent ruling no option is left to the Indumadar, as to declining both the modes of settlement. I recommend that land may be given to him in lieu of his average Shrotrium allowance which is Paper 9-7-8. Quit Rent at 1/8 1-4-0 agreed to. Remaining 8 Papers. Land to the value of 9-7-8 may be given him in communication with the Revenue authorities of the District subject to a fudi of 144-0.
