This man is of an older date than 50 years and is proved to have been continuously in the employment of the descendants of the original grantor. It is recommended to be confirmed to the party in the 18th column at the 10th rank. No. 10 - a man at time which has been agreed to.

This man was a slave of Indian attachment on the ground that the claimants did not appear before the Salmon Deputy Collector at the time of enquiry. But on petition presented by the claimants asking that a statement was put in but that the Deputy Collector refused to entertain it, the case was sent back to the Indian Commissioner with a request that should the facts of the man's having presented a statement before the Deputy Collector as alleged by the claimant be proved the case might be reconsidered and enquired into. An enquiry was accordingly held by the Assistant under the Acting Sub-Collector's orders and the result is that two statements were presented at the Deputy Collector's office to substantiate the facts of the alleged statement having been presented. The case has therefore been taken up and enquired into in the usual manner. The man being still under attachment it is requested that it be released on bail or order.
