The Ayakat value is Rs - 173 - 13 - 8 -
Average Beriz - 100 - 12 - 7
Circar share or [illegible] - 67 - 3 - ..
Inamdar's share } 33 - 9 - 7

The wet is supplied by irrigation from the Circar Tank in the village of Tijuvadi. The Tank had a Dasavandam Inam for its support & that Inam was lately [illegible]. The Inamdars of the village say they were never asked to contribute any share towards the repairs of the tank. So no settlement need be made in regard to the tank. The Dasavandamdar bore the responsibility of keeping the tank in repair, & that responsibility has transferred itself to Govt. by the resumption of the Dasavandam Inam.

O. [illegible]

Subbabhatta is the leading member, & the T.D. sho. be in his name. The village is poor, the soil being rocky, & the offers for cultivation being scanty. The Beriz has varied during the last 5 years from the minimum of 65 Rs to the maximum of 144 Rs 138 i.e. in a higher proportion than 2 to 1.

I would therefore recommend that the average Beriz of the past 5 years, may be adopted as representing the average [illegible] value of the [illegible] [illegible]
