Remark by the sub collector

Considering the present enhanced value of landed property in general and the higher profits realized by the Agricultural classes in these days, it appeared to him that the productive capabilities of this Agraharam were not estimated at their value. This led him to call for returns from the taluk and to compare the Borig of the last 5 years with that of the preceding five. The result shows a steady increase of Rs. one and a half anna per acre year after year. Including the prospective advantage to the Agraharamdar, I am of opinion that the average of the last 5 years should be taken as the basis for calculating the quit rent on this Agraharam.
