

To be Confirmed

This is a very poor village in respect to soil. The soil is what is called a B. 9. 3. 5. The present year being fluctuating most irregularly. The fluctuations during the last 5 years were in the ratio of 1 to 5. The average is necessarily the office complained against by the agriculturists as imposing on them a burden of 1000 which the village cannot yield for. In a word, under any circumstances. They do not therefore wish to take up the village on Khajam. The only Council left then is to give each sharee 1000 according to the amount of their holdings.

She is related in the wedding of 1824, as having
taken place long before. In the deed of
sale produced by Mrs. (1822) the sale to Tammaligai
is related.

She has an adopted son Venkateshwar. The existence
Tammaligai was known to the daughter's son. The adoption
took place 8 years ago. This adoption is not of a
nature to be recognized by us for the purposes
of this settlement. But Alani'samma & the boys
have come to an understanding that the Sanna's should
be registered in her name and that after her death
the inheritance should as a matter of course fall on
the adopted son. A very good arrangement, no way
interfering with our settlement.
