

Remarks on Case No. 12 Village of Spring Green and Lewis, Village of Spring Green, District of Columbia

Read the following letters.

- 1 From the Collector of Salem to Offg. Indian Commissioner,
dated 10 October 1886
- 2 From the assistant Collector of Salem to Collector
dated 3 September 1886
- 3 From the Offg. the assistant to the Collector of Salem
dated 25 January 1887

In this case it appears that certain remission
does exist, but the character of the remission is not
defined and it is clear that as there is no assignment
of land money the enjoyment of its claimants this department
cannot regulate ready money allowances as between multitudes
and Indians.

Under these circumstances there is no claim for settlement
in this department and the claim which the Return has
failed to substantiate is rejected.

The Collector with these papers before him will be able
to judge whether the multitudes Return should be raised in
consideration of a remission which has from that time since
remitted to him
