The owners of the
land on which
the Dargah
is situated
are the
Sons of the
Dargah
who refuse to
convey the land
to the Collector
and of the
proceeds of the
land for the
support of the
Dargah with the
necessary
of an annuities
of the outgoings

Remarks

At this distance of time, while the collection
of the land is in progress, it is not possible to
ascertain the exact value of the land. It is, however,
clear that the land is of great value and that the
proceeds of the land are sufficient to support the
Dargah and to provide for the necessary expenses
of the Dargah. It is, therefore, recommended that
the land should be sold and the proceeds should be
used for the support of the Dargah.

Age 50
Present trustee named
by order of Govt dated 3rd July 1848
as quoted in the Collector's Letter
to the Collector of Chikmagalur
dated 8th July 1848-

"The proceeds of the lands are not realised with due
promptitude nor applied with strict integrity. The
prescribed service has, however, not been altogether discontinued,
and the institution continues to be maintained though not in a very
satisfactory or efficient manner."
"I may add that the complaint brought before me
and which led to the enquiry above referred to, had reference more
to the personal character of the present trustee of the institution named
in your letter than to the manner in which it is kept up, and the result of
the enquiry made on the subject has by no means been favourable to his character
and qualifications as a trustee."

Under these circumstances, I beg to submit for consideration
whether it will not be expedient to withhold the title deed for this
pending such orders as may be passed by the Commission in the Tanjore
endowments as the Collector's opinion above given may prove to be correct
to call for the adoption, in communication with the Collector of Chikmagalur
arrangement calculated to ensure a better management of the
institution than at present obtains.

This institution being in
the Tanjore District where also
it possessed considerable landed
endowment, I wrote to the Collector
of that province to ascertain
whether it is efficiently maintained.
Mr. Cardell writes in answer
as follows.

"The management of this
endowment has very recently
been the subject of a full investigation before
me, and the result has been to show that
the proceeds of the lands are not realised with due
promptitude nor applied with strict integrity. The
prescribed service has, however, not been altogether discontinued,
and the institution continues to be maintained though not in a very
satisfactory or efficient manner."

Under these circumstances, I beg to submit for consideration

I believe in many
cases where the
institution is not
in existence it
is not required
to be kept up
to take any notice
of the maintenance
of the institution
who fall under
the eye of the
authorities of the
District. It
must be
enquired whether
the institution
is in existence
or not.

The title deed
may be withheld
if the institution
is not in existence
or if the proceeds
of the land are not
applied for the
support of the
Dargah.

whether it will not be expedient to withhold the title deed for this
