After the death the Kannan states that
there is 1.83 a/c of a small Kolan
(Lok) & Kanadi (Lok) which
are marked as such in the old Paimash
but which has been measured in the new
survey as part of the 1/4 of land
12813 - this is therefore deducted & remainder still shown
excess beyond 10 per cent - Decem 44, on which the fact asst.

To be continued as a Lok
as the Pagoda is maintained
The Dry portion of the Cham
is entered in the survey as part
it being considered a Lok
Kannan only - but the annual Patta
reads the land with its ass't. which would not
be the case if the Lok alone were the Kannan, as in
that case the Free tax alone would be entered - I therefore
treat the whole as ordinary Cham - There is excess both in the Dry & Wet
portion & on the former, it is 20 Decimals & above 10 per cent - but this excess has
been more than compensated for by a new road line cut right through the Lok, of about 20
The excess beyond 10 per cent on the Wet portion is 15 Decimals, of which the land paid excess was
is charged as a Lodi on the whole Cham - 21st Dec. 1861 Madadaw Pella
