The late Inquidor Askan Khan Saheb & the Amildar dated in Fasli 1247 in favor of Setturaja Chari - original Sanad for

Do Cheyer Setturajar proved to be entitled to ¼ of the Paulay & Rent, the gift having taken place here 30 years ago according to the evidence produced tho' the deed of gift is produced or pleaded - but an anomaly arises from the circumstance that while Registered holder has had half assd proposed to her as the basis of computation for Inams actually in her possession in other villages an allowance for her family is let off at the rate of ¼ - but as can be satisfactorily conversed that the alienation is an old & bonafide transaction should do not see how this anomaly can be got rid of except by a compromise between the two extreme rates & charging the Inamdar with one fourth of the Paulay -
