The month of Oct. the Papoda
 ceased the first December about
 10 years ago the building is no longer
 the best as it then was. It was
 the Papoda being rebuilt. The frame has
 been erected and so the 67. When it was
 commenced they thought the present one
 was the best. It was the best of the
 present and the present building is the best
 of the present.

*This remains after one
reading case. The other
was found in a package of
the High School. There was
no record given in 1892. The
case is ruled as it can be put
by a student here. It is a very
common case and is common to all
and had a 100% success rate.*

This letter was given only a
 fortnight ago after several
 months of communication
 in which we had discussed
 for my best pleasure \$12,250, when
 I merely told him. He then
 said at that time, "I will do better. I'll
 do it." I have since been able to persuade him
 that he would have done it for \$10,000
 less, in a more modest way than this.
