C. N.

… a whole same for Village. As regards the grants, [illegible] remark that the Registers of the whole Village of Tulasendrapuram the [illegible] in the 13th 14th 15th & 16th columns, are the same as those in the corresponding columns in the Register of Tulasendrapuram. Each shareholder's Panga is also the same as in the whole ^Village of Tulasendrapuram.

Moreover a Kádarambam Village. All the lands are dependant solely on the rains, & not on River or Tank irrigation.

Subjoined is the table of cultivation of

	Dy.	Wet	Gar
Fusli 68	39.66	9.72	3.30
69	35.66	6.61	3.30
70	35.66	6.61	3.20
71	59.50	13.24	3.31

The average rates of the adjoining Govt Villages are as follows

Dy.	1-0-0
Wet	1-4-
Gar	2-4-

Of the Dy waste,	
Sejigal or cultivable at the Survey but now lying waste	24.76
Sejigal Tarisi, land cultivated previous to the Survey, but lying waste at the Survey. It has since been lying waste	31.36
Látwár Tarisi or land cultivated 10 or 15 yrs before the Survey	35.44
Anádi Tarisi or immemorial waste	72.19
	163.75
Deduct Tope land which should properly be classed as cultivated	2.37
	161.38

Of the Manávári Wet waste	
Sejigal	5.53
Sejigal Tarisi	6.02
Anádi Tarisi	62.42
Layakh Tarisi	1.12
Látwár do	.45
Alar Tarisi, or Upper Kelim Salai	115.59
	191.11

Of these, Anadi Tarisi & Alar Tarisi appear to be unfit for cultivation.

The whole of the garden [illegible] is fit for cultivation.

Anadi Tarisi 72.19 is covered with low jungle entirely unfit for cultivation.

The assessment of the Dy Anadi Tarisi	72.19	72-2-2
The assessment of the Manavari Anadi Tarisi & Kelar Tarisi	178.01	220-8
	250.20	292-11-2

The soil is extremely poor, being saline. More than one half of the seed ~~[illegible]~~ are destroyed; the absence of regular periodical rains destroys the remainder. The young crops are generally scorched up by the heat of the Sun. The Manávári cultivation in this Kádarambam Village is therefore very precarious (delicate). The population of the Village is 200, who being without capital & [illegible] in the cultivation of their [illegible] lands [illegible] adjoining Villages, & neglect to improve the Samudram lands [illegible] who reside at the distance of [illegible] the Village of Ranganatha Tulasendrapuram agents, being content with receiving whatever is offered them by the agents, to secure even this small extent of cultivation. Under these circumstances, I would recommend the Anadi Tarisi lands 250.28 may be assessed at ½ of the full assessment.

It being	73 Rs
Assessment of the other lands	198 - Rs
	271 Rs
	80
	351 Rs

In consideration of a prospective increase of Revenue from the cultivation of waste lands & the improvement of the Village in general 80 Rs may be added

Which amount fairly represents the valuation of the Village, exclusive of the Kanil Tax

Tulasendrapuram ^partly at Rs [illegible] to 3 agents & people and VII
