Paraphrase

[illegible]

The wet winter, Anand Janm 20/38, is Kilar. The bed of the Tank is 5 Vels. The depth
 when full, is capable of supplying water to 15 Vels. in 99/38. The extension of the Tank is an
 Centim plateau, & highly desirable when a large portion of water lands, might be cultivated.
 The Village has hitherto been neglected, & principally therefor, Raina Phadra dyes, having been
 absent at Rajamandya for 10 years on employment in the Tel. & air. Tank may be applied as
 an aid. Ken. & Village of Anand Janm, 25- is. The value of the Golden Lyall
 Now is ample scope for of the Anand Janm. 100-12 is full for the tank, &
 the promise of Village. The applied to the tank. 737-1 is
 annual charges for repairing & 863-1 red. being to a dis. rate,
 tank, or to any amount to 20 Rs. between the right & the other
 tank, for the last 5 years.

22 Dec. 1862

The Deputy Collector having furnished
with his letter of the 19th ultimo no 42 becoming
known, a second notice of valuation of this village
the same is approved & sent attested accordingly
June 22nd 1895 to 254-

They to be sure, that the calculation of the whole village of Karakottai has been found to be a wrong calculation of the different items in the waste, the extent of waste land charged as Lick. Terasi is immemorial waste covered with jungle which is by mistake charged with full assessment instead of half the proper assessment & the extent of Anandi Terasi which is one grown with thick jungle & which is of little or no use has been charged with half the assessment instead of none having the assessment there of in toto. The assessment of the land under cultivation is only Rs 335-7-4.

There is a chance of the Lick waste being brought under cultivation, half the assessment attached to the Lick waste has been calculated for the Anandi Terasi

A revised Memo. exhibiting a correct valuation of the Village is submitted in the room of the one entered in the Register -

Revised Memo

4. Assessment of the Village inclusive of the Rawa. 1382-4-7.

Deine

Assessment of the Dry Land waste Dec. 20 35 - 27 - -
 Half assessment of dry land waste Dec. 39 45 - 21 3-10 228-3-10

Continuation of the West-Canada Waste Acc^y—20138-428—

Half assessment of the Laikl waste - do - 22.68 - 24-1-7 - 152 -

Plausibilis 7

Remains $\frac{691}{15} \cdot 2$

Under these circumstances the valuation of the Village may be fixed at 700 Rs only. This is fair & reasonable.
