Now 15-6-
Excess to be charged 2-25-12½
[illegible] --2-4

Also such as appeared fit for cultiv. the [illegible] were differently classed & was originally tope land — the simplest course in regard to the valuation of the Inam is to charge the entire extent with dry assmt., as all tope lands are dry & they are included under tent. land in F. 1216 & to charge the portions entd. in F. 1238 as dry wet & Tottakal with the assessment of the respective classes produces much confusion & complexity. The whole Inam excess may have to be charged full assmt. now [illegible] how to charge the excess Inam at what rate whether the wet or Tottakal or assmt. I have therefore charged the whole with dry assmt. in the village & if portions are cult. & taken under [illegible] the [illegible] may according to the practice of [illegible] collect water cess. The Inam is [illegible] to be confirmed [illegible] subject to the payment [illegible] for the excess of 2-5

1/2/62 Major [illegible]
dy. [illegible]

The portions of this Inam recorded as Wet & Tottakal [illegible] the whole of [illegible] to be tope — but parts of the tope having been [illegible] on account of the [illegible] of the trees were therefore cultd. & they were classed as Wet & Tottakal in the Paimash of F. 1238 according to the existing [illegible] [illegible] [illegible] [illegible] states that the fields entd. as Wet & are parts of the tope. It is [illegible] that there are only [illegible] fields or parts of fields that were cultd. & that were entd. as Wet — dry or Tottakal [illegible]
