

Reg. No. 283. Papakoni Village -
Kapaemahu Salu, Tanjoro District

- 1 The original Certificate is not before me. The Indian is however supported by accounts of 80 years ~~old~~ date.
- 2 The area of the Indian as entered in the Certificate is ^{Acres} 116.98.
- 3 The extent entered in the account of 12-16 is ^{Acres} 117.26.
- 4 In the Purchase of 1723, 63-40 is entered as Indian and 35.50 as Indian except incor-porated with ages.
- 5 The Deputy Collector, who settled the case, proposes to confirm 63.40 as per Purchase.
- 6 The Claimant claims 246 acres as being within the limits given in the Certificate.
- 7 No sheepman appears to have been ever collected many Dry Land in the Village - whatever sums have been collected, have been kept in deposit.
- 8 A ground plan appears to be attached to the Certificate. If this is forthcoming, I think the Indians are fairly entitled to have all the land within the boundaries therein specified. It should be sent for, and the actual extent within the boundaries given in the plan attached to the Certificate, ascertained.
- 9 If the ground plan is not forthcoming, I think the Indian should be confirmed as recommended by the Deputy Collector, as the natural presumption is that what ~~was~~ ^{is} ~~the~~ ^{the} ~~actual~~ ^{actual} ~~extent~~ ^{extent} ~~of~~ ^{of} ~~the~~ ^{the} ~~land~~ ^{land} ~~is~~ ^{is} ~~the~~ ^{the} ~~same~~ ^{same} ~~as~~ ^{as} ~~the~~ ^{the} ~~original~~ ^{original} ~~boundary~~ ^{boundary}.

only 63 - 10-3/4 are exhibited as

of the late Deputy Attorney Rogers, who further intended to treat with the land-
holders, he has come to that conclusion. I am unable to see what he has done
the Indians' claims; and still more particularly for the land granted as well as
situated on the Connecticut River, apparently under Order of the Governor. He
in the Survey account of July 1835 having been formerly advised by Mr. J. that
to show that all the Dry lands of the Village were granted to the Associates
about 1770, of Dry lands are situated on the Town of Manville, of which Manville
of July 1835, the which grant is described under different names as Survey or
is a grant different than the others. He would find out as to what will have
to incorporate in the Government and entered as such in the Standard account
taken in Town of Manville as a corporation with you. In what year and under
between 1780 and 1835, are not known. The manner in which the Town
lands were granted to Government cannot be ascertained. This indulgence may be
expedient.

of the 1802, he is at of Pennville, where he was longer under cultivation. It appears to have again increased on the ground that the area was a subject of his own response. He is at the same time, in his own state, the boundary between the two areas, in the ground that they former part of the matter was finally disposed of in the proportion of the same. It is in this village had some of the same, and the proceeds thereof have been used for the same purpose. The boundary is now a line of the same, and the same is now a line of the same.

as shown. It is for plain that until lately, he owned the whole of
only to the Dry lands of the Village. The extent of his ^{own} interest as not Layall
Layall is Government land beyond doubt.

With the exception of 63-16-3 1/2, entire

This account found the Marchable (pale of horses) was back and of 63 horses of most of the holders of the horses for quarantine free of all tax. In fact, of Marchable and Backpale as a person of the City of Annam and presented to compliance to the Head Assistant Collector who, after fully enquiring into the Backpale, found as part of the Annam and that the Khyat Sahib's name could not be of his any claim to the land. This account of ^{Ann} was in order these circumstances I would recommend that the account be to the Revenue under Bill I classed it of the same class. 18

in the statement to the effect that in the Pennard Purchase of Indian
Managers, it will be observed from the passage in Article 21 of said
Treaty, that the Agents and Managers of Survey Managers, in which
his statement included ^{from} 98, describes as Agent was, in
for the 21st Sept. and Schallack included in the statement, have
hundred. Contrary that 98 - 95 was only stated as not stated
only hypothetical. Moreover, the number had previously been stated
above 98,000. It is true in the accounts of 1833, 1837,
but in the Survey account of 1838, with the exception of the 95
Government, that field was to be selected to make up 95,000
to collect out. And the Department cannot name some
of 1838, in which it is clearly stated that 98 - ^{from} 95 being the
whole reservation, the place said was incorporated with the
lands 100 per cent. is no doubt 95 per cent. And it is not
said only in dealing with census in the same in actual
