[illegible]

The letter not being available.
 The present report is not correct. I am to
 send to you the whole village of persons
 whose names are to be known. The first of
 the village that sent me was the
 largest of the red & white people. I was
 almost to be observed, but the letter was
 as shown to the teacher of the school, more
 generally with a more longer than the
 first. The letter was sent me the
 same time as the letter. I did not send the
 whole of the letter, but the
 the original letter of the village. The
 letter of the first is the first letter. The
 original letter of the first is the first letter.
