Although the Inam Acres 5-46, was included in the Hagra Account of F. 1813 as Kaysattadaramy, yet it was evidently an error consequent on their having been part of the Inams received from the Palakurchi Village most of which were connected with the Pack — The error is established by the Community Hagra of Palakurchi 1813 on which the Hagra Account is based and in which the inam is not shown as pertinent — Although the inams in 1839 & 63 appear to have been made as in the Hagra Account of F. 1813, yet they were subject to the main portion of the Inams received from Palakurchi having been connected with the Pack which led to their being deducted as Devastanam Pouravy Pravastanam — The personal character of the Inams having been already recog- -nized by Collector in F. 1863, there heads them Accordingly —
