(Enclosure) —

I believe unfortunately — from the evidence
me that the Zamindars order of the 6
Could determine transfer of the registry was
made on improper grounds & insufficient
grounds swiftly on the strength of R 36 &
fraudulent Enquiry without enquiring as to
how R 36 acquired — It further appears
that R 37 if good instituted a suit R 363
of 1857 on the file of the Munsiffy but R Annan
Ganach R 36 for the recovery of the shares
The Court dismissed the suit on the ground
that neither of the parties had title to con-
-duct it as required by the laws —
If anew Enquiry the Zamindar directed the
transfer of the Arulbhagam only, instead
of the Mercapan rights, the proceeding
would have been defensible — and it
would be in accordance with the practice
followed in Tanjore —

But if the Court disapproves of this
views it is suggested that R 37 may
not be entered in the Regr and the
share of R 36 altered
into 2-8-11-0 —

The Zamindars have an account of
Cultivation & Collection to produce — They
keep mines — They are never the life anxious to
get the Pidagai confirmed to them as a very
low Jodi — To this end they say the lands
are very poor & that they yield much
below the Fixed rates — The Curnum keeps
no annual account of Cultivations such
as a guiding annual return of it is made
which he shews for 2 or 3 years which gives
the cultivation and wastes as follows —

For July 1266

Fasly	Description of Lands	Cultivation Extent	Cultivation Assessment	Waste Extent	Waste Assessment	Total Extent	Total Assessment

settlement &c — A charge for waste is also made at 5 Per Ct in consideration of the

Cultivation F. 1266 & 1271 is not long — Yet the average is considered fair — and it is satisfactory for
until to locally Complained — I therefore recommend as one Per Ct. as follows —

Total Jodi payable to the Sircar 3106-1-
Add 1 Per Ct on Cultivation of Cult. 182-6-
Add 1 Per Ct on Waste 11-9

Considered 113 15
