

[illegible]

Although there is no key or account of 1213 available to show the details of the Lower Village, yet in a map from the minor scheme in 2, the Village is set down as the main of the Pagoda in the same manner as in the Village of 1213, owing to the destruction of the village of 1236, & the survey was made under the supervision of Lord Dargy in 1254 & a preliminary plan prepared according to which this Register is prepared. The map only represents the difference of the calculations as made in 1213 and 1254, the area being the same. It is the aggregate of the 4 villages combined together & the northern part is designated as the Village of 1213. There is no ground for supposing any of these names which is not confirmed by either the Egan's map or the 1254 map. It is therefore assumed. The map in minor scheme is similarly allowed. The cleavage is made it to be within the original limits of them. A list of minor villages from 2 and the names in 1254 have been reserved from the rest of the record in which the village is entered as the Pagoda Village. The map in minor scheme is similarly allowed. The cleavage is made it to be within the original limits of them. A list of minor villages from 2 and the names in 1254 have been reserved from the rest of the record in which the village is entered as the Pagoda Village.
