There is a dispute between the
workshops & the newspaper
regarding the copyright.
The former copy of the paper &
the latter paper fields and workshops
under the copyright of the latter
country. The latter is to be
sent to from the other fields. &
consequently the copyright of the
former is to be referred to the latter
as a copy. I have explained
that the existing state of things is
not to be altered by the Law
of the copyright & recommended that
the Law be confirmed to the workshops
& the newspaper of the copyright for the law

For Re Copy
1-8-68.
