19 "I have read the report of that the Pagoda Affairs and have observed much merit therein, and that the Commission keeps an account of the Festival Contributions which are a considerable sum - Under all the circumstances, I am not likely to think that the Commission is actually the Pagoda, although - It is difficult to make up one's mind as to how much of the report is true and how much is false - The case is one for the decision of the Shipping Company, which is prepared by the Third Officer - I have therefore recommended the Commission that the Commission will not affect any radical change that he may propose to be made in the limited interference upon the Pagoda affairs - ed J.R. 2/5/1904 -
