The lands are of the temple Apt. Cultivate the land, and pay rent as tenants.

Ardhamaniyam in reference to the assessment.

Cultivated extent and not at any particular rate on the extent as Jodi

at 20 muth per Kani, I would recommend

1/4 to remission in the average which will be

3-8-0 remaining Jodi would be 10-7-0. If

this proposal be not accepted, the Sewar must

be added to Circular Agricut. The Sewar is

is willing to take revenue patta for full assessment.

(Sd) A. Narayana Rao

3-11-65. Deputy Collector, D.O.

This is an Ardhamaniyam Sewar. The Jodi exceeds the assessment. The Sewar likes as the last step to take Revenue Patta for the land. But as the Jodi was fixed along

to the assessment of the

particular rate on the extent as Jodi

at 20 muth per Kani, I would recommend

1/4 to remission in the average which will be

3-8-0 remaining Jodi would be 10-7-0. If

this proposal be not accepted, the Sewar must

be added to Circular Agricut. The Sewar is

is willing to take revenue patta for full assessment.

The Commission's proceedings 15th May 1865: No. 26 do not authorize the reduction in the Jodi that is recommended fully assessed. (Sd) T. Krishna Rao Deputy Collector & Acting Assistant to the Sewar Commission 2-12-65
