W Mr 12.10.68

This is an Inam granted by the Poligars subsequent to the annexation of the present holders for the purpose of studying the different Vedas - and the Inam appears to have been in uninterrupted possession of the original Grantee and their descendants and I would therefore recommend that the Inam be confirmed to the present holders subject to the payment of an annual Settlement of 1/8 of the assessment of the lands viz: 15 acres. whilst the present holders are prepared to pay.
