The available Ayacut is only 45 Kanis or 5-9-40 acres. The average Settlement rate prevailing in the neighbourhood in the villages of Gurumarappen Kovil, Kidarayen Gendam, Reliamur Chinavelgum is the 7th rate & the 1st group or Rs 1 per acre I have Calculated the assessment accordingly.

The former rates were

	Rs	as	p
1 Kani of Kanchu Crop	2	12	9
Varagu	2	1	3
Pulse ~~gram~~ Gram	1	6	3

These are evidently compared with the neighbouring assessment. By their continuance on the present Scale the village might probably be abandoned by Ryots for higher assessment in Cheras waste. I therefore do away ~~and~~ with these rates and go by the Survey rates of the neighbouring village

Note. The Ayakat of Fasli 1233 which was accordingly to the Survey of Fasli 1246 is now recorded viz 75-9-27 acres including the poramboke &c. The present Trignometrical Survey gave out an entire area of 1008.32 acres. This is owing to a more correct measurement. The Title deed should show this area and the Assessment proposed.
