Remarks in col 4 y continued

D in which he reports on the condition of the Nandavanam at the desire of the above member. He stated that it is in neglected state & not properly hedged - He says that but a small portion of the Nandavanam ground about 1/8 of a Kawny is occupied by flower trees at random - He therefore suggests the expediency as well as the practicability of the Nandavanam being improved under proper Management with the rents of three inams it possesses in several Villages which he says, are all under cultivation - The Manager shews a map of the Nandavanam marking the space occupied by the flower trees which does not more than 1/2 of the Nandavanam area - I am informed that he has taken very active steps for the improvement of the Nandavanam and the work of digging planting &c. is in rapid Progress - Under these circumstances, I have advised the Member of the Committee to proceed against the present Manager in the manner prescribed by the law for Securing the just interests of the Pagoda as involved in its Nandavanam -

There is another objection urged by the Zamindar by Vakeel - He claims the management of the Nandavanam for himself on the strength of a stone inscription stated to exist in the Nandavanam ground dated 11th Pye Sawari in which the word "Paria Nayaki Ayi Thanni" is engraved giving out that he is the Great Grand Son of Paria Nayaki and asserting that the present Manager is but an Agent of himself - But it does not appear that the Zamindar has ever exercised any sort of control over the Nandavanam affairs or held the present Manager in subordination to his orders in respect to them during the last 12 years or even taken any account from him of the Receipts or Disbursements on account of the Nandavanam - It is true however that the father of the present Nandavanam Manager was a servant in the Zamindar's Court and it was probable that at that time that his family acquired the right of Management over the Inam - I have advised the Zamindar to oust him by legal means, as I must respect the existing state of things against which I cannot make him the Manager -

To be confirmed in rent F. D free so long as the Nandavanam exists - T. Venkata Rao 6/2/65

The average assessment of this Village for 5 years is 3-14-8 ½ for Dry being a Pallacheikalagery Village

This Village was originally the Inam Village (Umbalam Village) of the Avalur Zamindar. It was resumed in F 1122. but granted to the family as a pattam of the Sathkon sometimes by Govt. The inhabitants in the Village are not recorded in any accounts. There is the doubt whether they owned Inams. The Zamindar recognises them as such & with his concurrence they are being settled. The account of F 1216 has been received from both the sides & is to take the validity of the income in question.
