100 to each one
 at Patham, & as to 100
 are held on the Patham
 because 2 settlements for each
 village are not possible & hence
 100 of 100 are not able to
 have been established together
 hence of 100, it is impossible
 of each village to establish
 show the best Patham settlement
 from 100 settlements &
 secondly, because the
 & may be granted for all
 to last of the village.

Sheet no. 105

(Continued) Luan Baga for the Fair of the Kingdom of Siam to the King of Siam & Sincerely Respects

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 = 17 18 19 20 21 22

Handwritten notes in the left margin, including dates like "16-10-1899" and "18-10-1899".

Handwritten notes in the middle margin, including names like "Pattana" and "Luan Baga".

Handwritten notes in the right margin, including names like "Luan Baga" and "Pattana".

This is a book which contains the names of the people who have been in the Kingdom of Siam for a long time. The names are written in the Thai script and are arranged in alphabetical order. The book is a very valuable one and it is very interesting to read. It contains a lot of information about the people of Siam and their history. It is a book which is very useful to people who are interested in the history of Siam.

Handwritten notes in the left margin, including dates like "18-10-1899" and "18-10-1899".

has been generally allowed remission of
wages, with a few exceptions.

2. As regards the extent of the Prize the survey at 1841 was $155^{\frac{1}{2}} - 2^{\frac{1}{2}}$, and in Mr. Rushington's Register of 1841, the actual extent of the Bottom land under cultivation was shown as $156^{\frac{1}{2}} - 16^{\frac{1}{2}}$. But it is to be observed, as recorded in Mr. Rushington's Register, was the measure of the entire Prize & the free benefit of the same is accounted as $154^{\frac{1}{2}} - 17^{\frac{1}{2}}$. It is only a small portion of the Prize land.

In 1844, a complaint having been made that the Prize people had encroached upon Government lands, a report was made to Board. This report showed that the claimed extent of the Prize was 100 ^{total} lots of land; in the survey, the land measured $155^{\frac{1}{2}} - 2^{\frac{1}{2}}$; that the extent by measurement in 1844, was found to contain $166^{\frac{1}{2}} - 6^{\frac{1}{2}}$; and that the resulting excess was $11^{\frac{1}{2}} - 4^{\frac{1}{2}}$, and Mr. Bishop explained that "the excess in the Bottom had been from time to time entered in the account since his order. The Board thereon approved of the explanation and the excess has been since treated as part of the Prize."

3. In the patent it appears some 2 holes of land were long ago taken up for a public Road.

4. The age of the present gran estate is Nupers 399-39
Its full Pattam on the ayakat comes to Nupers 1339-12-4. The last
5-year gumabam Pattam is Nupers 1337-2-4 which includes a Forest
grate Pattam of Nupers 295 on the amang over an extent of 400 ^{poles} of
land. The value of woods cleared was Nupers 21-10-9 a year for
reasons of "parks of fields cultivated". The ayakat Pattam is Nupers 1041-11-1.

This shows that land to the extent of
297 Rupees Pattern is lying waste.
It would appear that during the

Sheet no. 114

*. In fact 5 years, the largest extent of Pattan land cultivated did not exceed 137 kotars, against a waste of 28 kotars. According to the sanad, the waste was said to be charged the Pattan, and I find from earlier accounts that the cultivation never reached the degree, which it had attained during the last years which were specially advantageous years in having powerfully augmented every where the extent of cultivation.

As regards the Fiscal year of Patnam, it varied from 8 rupees to 452 Rupees but the average has levelled the inequalities to 290 on that account. Under the above circumstances, I think it proper to fix the rate at the average of the past 5 years - viz. Rupees 1337 2-4. The Patnam varied during the last 5 years from a minimum of Rupees 785 to the maximum of Rupees 1426 2-7.

The combined or fixed rate of rupees 1337 appears.

1420-127.
 20 lbs. contained in a fixed box of papers 1337 approx.
