1772 was the

336-6-9.
While the average of years 6 and
225-11-9, the difference exceeds 1/100th.
I therefore recommended that an average might be
struck on the actuals of 1854 & 1859 viz on the 225-11-9.

July 29th 1896
 Paid in the name of the State for the usual service
 24/10/1896

then on the west lands
 irrigated? If the lands
 were all irrigated, why
 should our farmers of it be
 now complaining as west
 irrigated, unless they are
 suffering under the present
 and even the can be
 needed on it

The wet lands are irrigated by
the Alambanar Tank. The Spatant
was not all Dry. The irrigable low
lands were wet, and the high ground
was Dry. So the Spatant has been
recorded. The Tank belongs to the
Inam - and it is kept up by the
Inamdar at his own expense.

Signature of N. Narain Rao
Deputy Collector
