The account available in the Drain Dettam abstract of 1813, but this does not contain the extent of the Dettam. The Palegar's Kabil has got a Karakam Ayakat account of 1812, which gives the particulars of the Ayakat and on which the present Ayakat has been drawn up.

Note
The Palegar's Dettam
Specifies the Bering
at 186-120. But I
would fix it at the
Ayakat Bering, as
in the village where
the Bering was higher
we took only the
Ayakat Bering.

The Dettam was partly
personal and partly
in one title
Dettam as shown
in the columns.
But the Dettam
it would appear
have given away
this moiety for the
choully, but no more
to show when such
transaction took
place. The Dettam
have appeared for
Gondampath, and
filed statement that
they have not included
with 1/3 of the
Dettam. They also
declare, that their
moiety was relinquished
by their forefathers
for the choully. I
would therefore
confirm the whole
for the choully
at 1/3 of the village

 He states the Dyakat
 at 612 Kair and after
 deducting Jocababakete
 he states the net dham
 after deducting Perabale
 + Dham as 444 chav. He
 does not show any account
 as the standard of the Dyakat;
 but he says that his Karmam
 keeps the cultivation account
 in this manner. It includes all the
 successful ^{revenues} now & then
 in the Karmam. The only account
 showing Dyakat is the Pallegar's Dyakat
 Tamsah of 1213, and the
 present Dyakat has been
 drawn up accordingly.
