No. 15 Register Village of Nalavada m Kotte

The account available in the Drain Dettam abstract of 1213, but this does not contain the extent of the Dettam. The Palegar's Kabil has got a Karakam Ayakat account of 1212, which gives the particulars of the Ayakat and on which the present Ayakat has been drawn up.

Note
The Palegar's statement specifies the Bering as 186-120. But I would fix it at the Ayakat Bering, as in the village where the Bering was higher we took only the Ayakat Bering.

The Drain was partly confirmed personal and partly in one title. In the Dettam abstract account of 1213, but this does not contain the extent of the Dettam. The Palegar's Kabil has got a Karakam Ayakat account of 1212, which gives the particulars of the Ayakat and on which the present Ayakat has been drawn up.

 He states the Dyakat
 at 612 Kari and after
 deducting Jocababakote
 he states the net Inam
 after deducting Pocababale
 + Inam as 444 chav. He
 does not show any account
 as the standard of the Dyakat;
 but he says that his Karaman
 keeps the cultivation account
 in this manner. It includes all the
 successful ^{revenues} now & then disclosed
 by the Karaman. The only account
 showing Dyakat is the Pallegar's Dyakat
 Tanshandi of 1213, and the
 present Dyakat has been
 drawn up accordingly.
