The American people are being misled by
 what has been said in 1945 by a speaker that has
 been known to give us our President's official ad-
 dress. He says that between the children and the
 children of the world, there is a great divide. He
 says that the children of the world are the children
 of the world. He says that the children of the world
 are the children of the world. He says that the children
 of the world are the children of the world. He says that
 the children of the world are the children of the world.

Extract from the Fair Drain Register
 No. 15 Register Village of Nalavada m Kottai Table of Ottapadesam in the District of Tinnevely

The account available in the Drain Dettam abstract of 1813, but this does not contain the extent of the Dettam. The Palegar's Kabil has got a Karakam Ayakat account of 1812, which gives the particulars of the Ayakat and on which the present Ayakat has been drawn up.

The 1st of 228

Case No 1 Dettam Ayakat as per Tamahadi

 Annadana Chalam
 Trustee Palegar
 Mutteelani
 Tage Vera Rame
 Mettiappa Naiti

Note
 The Palegar's statement specifies the Bering as 186-120. But I would fix it at the Ayakat Bering, as in the village where the Bering was higher we took only the Ayakat Bering.

The Drain was partly confirmed personal and partly in one title. In the Dettam abstract account of 1813, but this does not contain the extent of the Dettam. The Palegar's Kabil has got a Karakam Ayakat account of 1812, which gives the particulars of the Ayakat and on which the present Ayakat has been drawn up.

 This is a Shrotriams gadi Village, the tali being paid to the Palegar; The accounts available are the Jamma book of 1213.

Personal Ayakat as per Entire Inam Village	19 23/64	162.23	No deduction of Pannabala Inam - 45/64	5.89
Remainder	18 42/64	156.34		115.42
Ayakat Net 13.13 1/2	25.19		Deduct Pannabala 15.50	9.69
No more Inams				
Remainder net	8.8 1/2	15.50		53.55
Total	171.84		166.97 ayakat value	

The Inamdar's statement, in which they state down the Ayakat as 32 1/2 kani and the net as 14 1/2 katta. But they show no accounts to establish the Ayakat at this amount. They allege that their cultivation accounts for 1273, show the Ayakat to be 32 1/2 kani, but the cultivation accounts of such village contain so much of karnam's account, so much that no dependence can be placed on them. The only account available by which we could go, is the amsham Jamma book's ayakat account of the Palegar.
