Extract from the Fair Drain Register
No. 15 Register Village of Nalavada m Kotte Table of Ottapadesam in the District of Tinnevely

The account available in the Drain Dettam abstract of 1813, but this does not contain the extent of the Dettam. The Pallegar's Kabil has got a Karakam Ayakat account of 1812, which gives the particulars of the Ayakat and on which the present Ayakat has been drawn up.

The 228

Note ✓

The Pallegar's statement specifies the Bering at 186-120. But I would fix it at the Ayakat Bering, as in the village where the Bering was higher we took only the Ayakat Bering.

The drain was partly confirmed personal and partly in one title. In the title, the drain was confirmed to the Chattam in the column. But the Brahmins, it would appear, have given away their moiety for the chaully, but no more to show when such transactions took place. The Brahmins have appeared for half being Goundampath, and an alienated filed statement that is change they have not included with 1/3 of their village in their statement. They also declare, that their moiety was relinquished by their forefathers for the chaully. I would therefore confirm the whole for the chaully at 1/3 of the village half of the village to be confirmed.

 This is a Shrotriams gadi Village, the tali being paid to the Palegar; The accounts available are the Jamma book of 1213.

Personal Ayakat as per Entire Inam Village	19 23/64	162.23	No deduction of Pannabala Inam - 45/64	5.89
Remainder	18 42/64	156.34		115.42
Ayakat Net 13.13 1/2	25.19		Deduct Pannabala 15.50	9.69
No more Inams				
Remainder net	8.8 1/2	15.50		53.55
Total	171.84		166.97 ayakat value	

The Inamdar's statement, in which they state down the Ayakat as 32 1/2 kani and the net as 14 1/2 katta. But they show no accounts to establish the Ayakat at this amount. They allege that their cultivation accounts for 1273, show the Ayakat to be 32 1/2 kani, but the cultivation accounts of such village contain so much of karnam's account, so much that no dependence can be placed on them. The only account available by which we could go, is the amsham Jamma book's ayakat account of the Palegar.
