held under a positive restriction against transfer and when such transfer takes place as mortgages or sales may take place in English and appended such alienated shares are resumable to the Register for under the usage of the district followed reference.

upto this day - The godi was originally fixed in a lump on the whole body of the Inrasidars. The engagers then district linked the godi among the hamlets according to the capabilities of soil and other circumstances. Each hamlet contains a certain number of shares and the godi appertaining to the hamlet is divided on the shares equally.

Hence the godi is not a fixed uniform one on all the shares of the village. The Revenue of each individual contains an addition of his respective number of shares and their godi. No individual patras can therefore be attempted to be given. The ayakat and Cultivation of each hamlet is not known to any correctness. The village should therefore be settled on a joint basis on one title deed. XXXX

on one title deed. XXXX

XXXX
I have attempted to give engagements of each individual according to his proper right but owing to a spirit of discord among the people and the prevalence of non-unanimity in stating their engagements truthfully and owing to the absence of many, I have not been able to carry out my original plan of giving detailed individual engagements. I have then called upon the Karmam to give in a copy of the engagements as recorded in his account of farti 1273. The Jamil account of

*8
gives for each hamlet the individual enjoyments and the shares and godi including both dry and wet. The statement B gives the detailed enjoyments of the wet. Lulavasi ayakat distinctly. These two accounts are attached to the Register as the latest record of enjoyments obtaining in the village and any subsequent transfer, such as releases from old mortgages and subdivisions of the shares should be got registered by the parties hereafter before the Revenue authorities. I would therefore settle the village collectively in one joint title-deed according to the memo of enjoyments given in by the Karmans.

Signed) W. Robinson
Dean Commissioner

② The only question remaining to be settled is as to the mode of charging the quitrent under the special tenure of the holding, by which each share, subject to transfer is liable to be fully assessed. This practice obtains in the district from ~~1854~~¹⁸⁵¹ apparently under the orders of Board of Revenue on the subject already forwarded with my reports on ^{various points} ~~various points~~.

The transfers seem to be but few and I would therefore recommend that the whole Khattingutaga property may be charged at a uniform ^{rate} rent of $\frac{1}{8}$. The aysakat being which is in fact the jamabandi being, the whole extent being under cultivation is Rs 1296-4-1. The jodi is Rs 223-10-7. The ~~net~~ ^{gross} income is Rs 1572-8-6.
