FINANCE DEPARTMENT

G.O. No. 780, dated 19th July 1949

Establishments—Temporary—General principles regarding permanent retention—Further instructions—Laid down.

READ—the following papers :—

Memorandum No. 539612 (A) E-II-1 Finance, dated 9th January 1937.

Memorandum No. 16708 E-II/48-8, Finance, dated 15th February 1949.

Order—No. 780, Finance, dated 19th July 1949.

Under existing instructions, no proposals for making any temporary establishment permanent should be taken up for consideration until the establishment has been in existence continuously for five years. Departments which are normally liable to expansion or contraction from year to year and posts created solely to meet war-time needs like administration of controls, rationing, etc., should, however, continue to be on a temporary basis. In view of the considerable expansion in the normal activities of all departments of the Government in recent years, the Government have been considering whether the above general principles laid down in the memorandum first cited (printed as Annexure) need revision or modification.

2. A considerable number of Government servants who are nearing their age of superannuation have been holding their posts in a temporary capacity for several years and unless their posts are made permanent soon, they will have to retire on a pension which will fall far short of the pay drawn by them in their present posts. The present five years' rule thus causes them much hardship. It has, therefore, been suggested that the question of making such temporary posts permanent should not be deferred any longer.

3. The Government have carefully examined the question and hereby direct that all temporary posts in the offices of Heads of Departments and in subordinate offices

which are over five years old and 50 per cent of those between three and five years may be made permanent immediately, *provided* it is established that they are permanently required for dealing with the normal work of the Government. This decision will not apply to departments which are normally liable to expansion or contraction from year to year, nor to posts which have been created for schemes that cannot with certainty be treated as permanent. Where, in any office, there is only one temporary post in a particular category between three and five years old, that post may be made permanent.

4. The decision in paragraph 3 above is intended only as an *ad hoc* measure for the purpose of giving relief to present temporary Government servants. Future proposals for making temporary establishments permanent should, therefore, be formulated on the basis of the usual five years' rule.

5. Heads of Departments are requested to send up to the administrative department of the Secretariat concerned, proposals for the permanent retention of temporary establishments in their offices on the basis of the orders conveyed in paragraph 3 above. These proposals will be entertained only after final orders have been passed by the Government in respect of their departments regarding the 12½ per cent cut in staff recommended by the Retrenchment and Reorganization Committee.

ANNEXURE.

Memorandum No. 39612 (A) E-II-1, Finance, dated 9th January 1937.

The Finance Department have had under consideration for some time past the question of laying down some definite principles to be followed in dealing with proposals, often submitted to Government by heads of departments for making temporary establishments permanent. In dealing with this question, it has been considered necessary to make a distinction between departments which are normally liable to expansion or contraction from year to year and those which normally are not.

2. The Survey and Settlement, the Labour, the Jail, the Agriculture, the Veterinary, the Co-operative and the Public Works departments are instances of the former. In regard to these departments, the question of placing any portion of the temporary staff on a permanent basis will have to be guided largely by considerations of administrative policy. For example, in the Survey department a large portion of the temporary staff will have to be disbanded, if Government decide to give up or simplify survey operations. In regard to the Settlement department, the Board of Revenue has itself stated that there is no need to place any portion of the temporary staff on a permanent basis as the temporary establishment in the department varies from time to time according to the requirements of each party. As regards the Labour department, the Commissioner of Labour has stated that no portion of the temporary staff in that department need be made permanent as the work in that department is essentially of a temporary character. In the Jail department, the jail population which varies from time to time determines the strength of the subordinate staff required. In the Agricultural department, a large temporary staff is employed on various schemes of research work and this staff will necessarily have to be disbanded from time to time as and when the research work on which they are engaged is completed. In regard to the Veterinary department, the Government have accepted the recommendation of the

Retrenchment Committee that, for some years to come, especially until the success or otherwise of the attempt to popularize the new methods of rinderpest inoculation is demonstrated, any expansion of the staff should be on a temporary footing. In the Co-operative department, the staff of auditors to be employed has to be determined with reference to the question of policy of employing Government or non-official agency. In the Public Works Department the establishments have to be capable of expansion and contraction to suit the expenditure programme of the department and, a fairly large portion of the staff has necessarily to be kept on a temporary basis so that, if the grant for expenditure is suddenly curtailed, it should be possible to dispense with a portion of the staff without entailing a large expenditure on compensation pensions.

3. In the case of other departments it is considered that, as a general principle, all additions to existing establishments should be sanctioned on a temporary basis in the first instance, and that no proposals for making any temporary establishments permanent should be taken up for consideration until the establishment has been in existence continuously for five years. Even then, the establishment should not be made permanent unless experience has shown that the staff is permanently required to deal with the normal volume of work, each case being decided on its merits.

4. Departments of the Secretariat are requested to keep the above principles in view in dealing with proposals for making temporary establishments permanent submitted to them by the Heads of Departments.

C. K. VIJAYARAGHAVAN,
Deputy Secretary to Government.

FINANCE (BUDGET-GENERAL) DEPARTMENT

G.O. No. 867, 16th August 1949

Income-tax—Evasion—Prevention of—Financial patronage and favour conferred by Government—Restriction to honest tax payers and genuine newcomers—Orders passed.

Order—No. 867, Finance, dated 16th August 1949.

The Madras Government have had under consideration the question of setting up effective liaison arrangements between the officers of the Income-tax department and the various spending departments of the Provincial Government with a view to withholding from persons with a bad income-tax record any financial patronage at the disposal of the Government. They have decided that the financial patronage at their disposal, e.g., in the matter of granting contracts, placing orders for supplies and services, grant of permits and licences, etc., should be given only to those who produce a certificate of income-tax verification from the income-tax authorities on the analogy of the procedure adopted by the Government of India in respect of applications for export and import licences. The Heads of Departments are accordingly informed that applications for contracts, supplies, permits, licences, quotas and priorities, etc., should not be considered unless the individuals concerned produce the income-tax verification certificates in the forms appended to these proceedings. The production of the certificate may, however, be waived when the value of the contract will not exceed Rs. 10,000 or when the anticipated turnover of the individual applying for a permit or licence will not exceed Rs. 10,000 per annum.

2. The applicant or his authorized agent should fill in the particulars as required in the prescribed form and send it (in triplicate) for verification to the Income-tax Officer of the Circle, Ward or District where the applicant

is assessed or assessable to income-tax and in the case of the applicants in Madras City to the Inspecting Assistant Commissioners, Central Range, Madras. The income tax authority will arrange for the prompt verification of the particulars given by the applicant, subscribe the necessary verification certificates in all copies and return two copies to the applicant, retaining one copy for his record.

3. The certificate once produced will be valid for all applications made by the applicant throughout the calendar year in which the certificate was issued. For proprietary and partnership firms it will be necessary to produce the certificate for the proprietor or proprietors and for each of the partners, as the case may be.

4. The following classes of applicants will be exempt from the necessity of producing the certificate:—

(i) Such Government and semi-Government institutions as are not liable to income-tax;

(ii) Firms, individuals or companies in Indian States where no income-tax is levied and who have no place of business in the Indian Provinces;

(iii) Other types of persons who are not otherwise liable to income-tax under Section 4 (3) of the Indian Income-tax Act;

(iv) Firms and individuals claiming to be exempt from income-tax should give particulars of their income and state fully the circumstances in which they claim to be exempted from the tax.
