CRIMINAL JUSTICE, ADMINISTRATION OF —		
<i>Criminal Justice.</i> —Report on the administration of — for the second half of 1845, submitted by Foujdaree Udalt with observations	11th April	5
Government proceed to review the report (Para. 1). Village Police, considered to have been of very limited operation except in the districts of Madura, Bellary, Canara and Trichinopoly, and to have been entirely inoperative in Vizagapatam. The inefficiency of the Police in Chingleput ascribed to want of adequate provision direct from Government to Village Moonsiffs, and the same in Tinnevely to the village watchers being in fact the offenders and to the defects of the present <i>carel system</i> both by Magistrates and Session Judges. Communicated to Board of Revenue and their attention again directed to the subject. Presentation to Village Moonsiffs in Madura of printed vernacular regulations, supported by Foujdaree Udalt but the consideration of the question deferred by Government pending the orders of Government of India on the proposition of Law Commission to abolish the jurisdiction (Criminal) of the Village Moonsiffs, and confining them to the exercise of functions of officers of Police (Paras. 2 to 4).

<i>Penitentiary.</i> — <i>Defects of —.</i> Report of the Committee appointed to enquire into the practicability of obviating them, submitted by Military Board	8th "	24
The Right Honourable the President states that the reports have only confirmed the views already recorded by him; records objections to the suggestions of the Committee, repeats his former recommendation that all further work be discontinued, and the whole correspondence be sent to the Honourable Court with a request to authorise the demolition of the buildings and the application of the materials to the erection of another Penitentiary in a more suitable position	8th "	25
The Honourable Mr. Elliot records his observations, sees no reason to doubt that the defects can be remedied by the means which they propose, states that as to the reduction of the height of Wards, has no hesitation in saying that, when altered as proposed, they will afford better accommodation than any prison for Natives he has seen in India, and as a comparison submits a description of the House of Correction in Calcutta	8th "	26
The Right Honourable the President states that a further perusal of the papers has only strengthened the reasons detailed by him that the Penitentiary buildings cannot be altered so as to adopt them for a prison. States there are other weighty objections which prevent Government from incurring so large an expense as the suggestions of the Committee involve, without submitting the whole question for orders of Honourable Court	8th "	27
His Excellency the Commander-in-Chief does not think the lowness of the lower rooms of the Penitentiary would be objectionable enough to give it up altogether; but to accomplish this he fears the space inside would be come in heavy rains one mass of deep mud; but if it were practicable to remedy this, as well as to cover in the drains, the Penitentiary might, as far as the buildings go, be occupied by prisoners	8th "	28

AFFRAYS, OUTBREAKS, DISTURBANCES, &c.—cont.	1851.	
<i>Malabar.</i> —Report on the last Moplah outbreak by the Assistant Collector with the remarks of the Collector, reviewed. The Right Honourable the President, the Honourable Messrs. Elliot and Thomas record their minutes separately.		
<i>Do.</i> —No Immediate Cause for the outbreak seen by Government, Komu Menon not having since some months exasperated the Moplahs (Para. 2).		
Komu Menon's murder observed to have been premeditated (Para. 3).		
Causes of the outbreak guessed (Para. 4).		
Outbreak caused not by the wild excitement of a moment but traceable to the teaching and influence of the Tangals (Paras. 5, 6 & 7).		
The above view borne out by the difference of the present from the former outbreaks (Paras. 8 to 11).		
Possibility of finding evidence on the Tangals' complicity, and of his removal for some time from the Province to be reported on (Para. 12).		
Traces of plundered property, to be found by Magistrate by the offer of rewards.		
Complicity of Kolatur Moplahs, its extent also to be ascertained (Para. 13).		
Removal of the Priest, demand of security from suspected parties and finding out the stolen property with a view to the prosecution of all concerned pointed out by Government as the measures to be adopted and should the Court interfere, an appeal to be made to Foudaree Udalut and the matter reported to Government (Para. 14).		
Privity of many to the outrage, noticed. It is an offence termed "Misprison" and punishable under Mahomedan Law. Foudaree Udalut to give their opinion on this view of the law, and submit draft of a Proclamation for warning the Moplahs, &c, the same law to reach the Tangal too (Para. 15).		
Doctrine of Martyrdom among Moplahs, noticed (Para. 16).		
This doctrine to be discouraged by Magistrate and capture of the insurgents rather than their destruction to be effected in future (Para. 17)	25th Nov.	3-8
<i>Malabar.</i> —Replacement of Moplah employes in Shernad, Ernad and Walloowanad by Hindoos, suggested by the Hindoo inhabitants of the district with reference to the late outbreaks. The explanation of Magistrate on the subject considered satisfactory. Government cannot consent to depart from the course they have hitherto pursued for employing in their service Moplahs indifferently with others		
Entertainment of a corps of Nairs to act as a check on the Moplahs, the proposal for it also considered by Government inadmissible. The Magistrate to communicate these sentiments to petitioners	2nd Dec.	16, 17
<i>Removal of the causes to the disturbances in Nyaghur Zemindary in Cuttack.</i> —Honorable Court trust that the measures adopted for it have been attended with success. Communicated to Magistrate of Ganjam	9th "	6

<i>Operation of Act IX of 1850.</i> —Working the Court by two efficient Judges and securing the services of E. F. Elliot, Esq., for the new Court. Despatches from the Honourable Court on the subject, forwarded by Government of India; and under the opinions expressed by the Right Honourable the President, and of the Honourable Members of Government, Government state their inability to meet the requisition of the Honourable Court calling for information on the subject until they are prepared to supply the report called for as to the success of the operation of Act IX of 1850 and which cannot be tested by the experience of less than a year. Meanwhile, the Judge of the Supreme Court requested to submit returns of the number of causes instituted, tried and decided before him under section XI and remaining on his file for every month of the half-year ending 30th June 1851 and the fees paid thereon under section XIX and to state whether it would be possible for a single Judge to aid in the

<i>Number, salary and duties of the officers of the new court, the old establishment and jurisdiction in suits to the amount of Rs. 400 and the transfer of the old officers to new Court on what salary and duty.</i> The Government of Bombay request information on the subject. Government resolve to furnish it; but being unable to meet the further requisition request the Judges of the Court to supply information on these particulars. <i>Operation of Act IX of 1850.</i> —Returns furnished by Honourable Puisne Judge of Supreme Court and by Judges of the Small Cause Court of the number of suits instituted, tried and decided before them and fees paid thereon under the Act for the first six months of 1851 received by Government		
The arrangement proposed by the Honourable Judges of the Supreme Court, in consequence of a single Judge of them being unable to aid in the execution of the Act to the extent he has hitherto done of hearing only causes of Rs. 100 and upwards, observed by Government to be likely to increase the causes devolving on the Small Cause Court to nearly three-fold the number before the late Court of Requests and about 35 fold of the causes the Supreme Court would take. The expense of the administration of the Small Cause Act in the Supreme Court considered, with reference to the allowance granted to the Prothonotary, &c., to be comparatively heavier. The fees to be realized will not allow of these allowances being continued when the number of causes in the Supreme Court will be reduced as above (Paras. 1 to 3).		
<i>The above returns</i> to be furnished to Supreme Government and Honourable Court with the intimation that other similar returns and the report called for on 16th May last, will be sent at the expiration of the year (Para. 4).		
<i>Similar returns</i> from 6th December 1850 to 31st December 1851 to be submitted by Small Cause Court soon after the close of the year (Para. 5).		
<i>Investigation of suits above Rs. 100 by Supreme Court in the meanwhile not objected to by Government and though with reference to the little aid thereby afforded, Government doubt the expediency of dividing the jurisdiction</i> (Para. 6).		
<i>Modifications of the office establishment of Small Cause Court sanctioned as proposed and will be reported to Government of India and the working of the revised establishment to be reported on at the end of year</i> (Para. 7).		
<i>Recommendation of gratuities to displaced parties.</i> The subject referred to Pension Department with observation (Para. 8).		

COURT OF SMALL CAUSES—*cont.*

The Honourable Judge of the Supreme Court and the Government of India addressed accordingly ...

Establishments maintained in the late Court of Requests and in the present Court of Small Causes.—The Court of Small Causes submits four statements. The statements forwarded to Government of Bombay with the information that a separate establishment is also maintained by the Puisne Judge of the Supreme Court acting under section XI, Act IX of 1850 and that it is likely to be reduced as the Judges intend to confine themselves to the disposal of suits not exceeding Rs. 100 and that the late Court of Requests had jurisdiction in suits for simple debts to the amount of Rs. 420 ...

Hearing of causes in the order they stand on the file in — or otherwise on information obtained from the Judges on the subject by means of an official memorandum. The Judges desired to submit a statement showing in how many instances the rule for hearing cases as they stand on the file has been departed from for the last six months and the proportion these bear to those taken in order and Government of Bengal requested to state what course is pursued in this respect in the Calcutta Court ...

Administration of estates.—The Accountant-General and the Honourable Company's Solicitor report the course to be adopted by them to ascertain the value of the property of the sureties of the Administrator-General. The Accountant-General offers observations on a letter from the Honourable Company's Solicitor on the subject of the forms of account to be adopted by the Administrator-General here. The Government of India submit their opinion on the questions raised in regard to the competency of the Administrator-General under Act II of 1850 to administer to certain classes of estates, and do not think that any alteration of the Law is necessary for carrying into effect, an uniform system in regard to the grant of administration to intestate estates by the Madras Supreme Court. The Honourable Company's Solicitor requests to know whether the Government have approved of the gentlemen named by Mr. Serle as his sureties. The Military Secretary to Government explain the extent of authority he possesses under the Military Act in regard to the administration to Military Estates. Government accept Messrs. Richardson as Mr. Serle's sureties and direct the forms of security bonds to be drawn by the Honourable Company's Solicitor according to the Calcutta form and sent to Government office. The Government are of opinion that the Bengal rules and forms for the guidance of the Administrator-General and for the custody of assets and securities coming into his possession should be adhered to except where the Company's Solicitor and Advocate-General may concur in advising a deviation. The rules prepared accordingly sent to Administrator-General and published and the instructions addressed to him on 11th March 1850, to cease to have effect from the date on which the rules and forms come into operation. With regard to the classes of estates to be administered to by the Administrator-General, Government review the correspondence with the Accountant-General and communicate the views of the Government of India to him and to Administrator-General and instruct them to consult the Advocate-General as to the course to be taken to obtain from Supreme Court a formal construction of the Act in support of the view of Government of India.
