The Officer Commanding the Company of Gentlemen Cadets having Requested the Commander in Chief to cause the Gentlemen reported by him as ready for inspection to be examined as to their progress in the Study of the Hindoostance Language and their knowledge of Military Duty

Duty by persons deputed from Head Quarters for that purpose, the Right Honorable the Governor in Council, is pleased to publish in General Orders the following Extracts from the Report of the Deputy Persian Translator to Government who Conducted the examination of the Hindoostanee students

Extract from the Report of the Deputy Persian Translator to Government

In consequence of the instructions of Government Communicated to me by you, I proceeded to Tripasoore for the purpose of examining the Gentlemen Cadets in the progress they had made in the Study of the Hindoostanee Language. I have now the honor to lay before you for the information of His Lordship in Council my Report on that occasion.

Having ascertained from the Commanding Officer on that Station the period of time that had been dedicated by the Gentlemen Cadets to the Study of the Hindoostanee language, I formed a plan of examination as was adjudged by the Commanding officer and myself, Most suitable for determining and appreciating their respective merits and attainments at the Close of the examination, having most strictly inspected the different exercises Submitted to the Gentlemen Cadets for Translation, I am enabled to Classify them in the following Order.

"Mr. Leach was prevented by ill health
"from attending at the examination, - By the Report made to me
"by the Commanding Officer of Mr. Leach's proficiency, he would be
"entitled to a place in the first Class."

"It is with infinite satisfaction that I
"make most particular mention of the proficiency, that the Gentle-
"men Composing the first Class have attained in the short period
"of a few Months, who notwithstanding their important Military duties
"and Studies have been enabled to prove themselves so eminently
"successful in this part of their General instruction. Their attention
"having been thus peculiarly attached to Acquirements totally
"unconnected with their Studies in the Hindoostance Language,
"His Lordship in Council will find additional motives for
"expressing his Approbation of that Vigilant and Active industry
"and Assiduity, of which the Gentlemen of the first Class, have
"afforded such ample and unequivocal testimony. -

"The progress that the Gentlemen forming
"the second and third Classes have made in this branch of their Studies is
"such as could only be expected from young men of undoubted talent
"and steady perseverance, I have Consequently much pleasure
"in recommending them to the Consideration of His Lordship in Council.

"On a general Review of the late examina-
-tion I am justified in stating that it has terminated in a manner

the

"the most satisfactory, as being in every respect highly creditable to the
"Gentlemen themselves, honorable to the Director of their studies, and
"affording a convincing proof that the most sanguine expectations may
"be entertained of their future success and advancement."

"As during my stay at Tripassore, it became
"a part of my duty to investigate the system, which had been adopted
"by the Commanding Officer for the instruction of the Gentlemen Cadets in
"the Hindoostance Language, I should be guilty of the greatest injustice, were
"I to pass over unmentioned the Meritorious exertions and indefatigable
"zeal, that the Commanding Officer has invariably evinced in forwarding the
"Studies and ensuring the progress and improvement of those Gentlemen in the
"acquisition of this useful Language. I feel myself fully Authorized to
"assure His Lordship, that the proficiency attained by the Gentlemen Cadets
"must be Chiefly attributed to the unremitted attention and Assistance
"of the Commanding Officer, who by his practical knowledge of that
"Language, and by the uniform exertion of his Judgement and abilities
"has obviated difficulties and inconveniences as few in a similar
"situation would have attempted to surmount, and have been the means of
"establishing an institution which may eventually prove of the most
"extensive benefit and utility not only to the individuals who may
"reap the advantages of his immediate instructions, but also to the
"Company's Government throughout this part of India.

The

The Deputy Adjutant General of the army who by Order of the Commander in Chief inspected the Military proficiency of the Gentlemen Cadets has reported in the most favorable terms the qualifications of those who were in Consequence of that Report promoted by General Orders of the 18th and 28th January last.

The Right Honorable the Governor in Council has much pleasure in publishing Official documents so highly Creditable to the Gentlemen who came forward for examination, and trusts that the progress they have made in the short period of their residence at Trepassore will prove an incitement to others for the exertion of similar diligence.

The acquirements of the Gentlemen Cadets Recently Reported Reflect much Credit on the Zealous and unremitted attention given to their instruction by Captain Bose, Commanding the Cadet Company, and Lieutenants Mannestry and Orrinsby who were Selected by him to Assist in that duty, and the Right Honorable the Governor in Council Considers the highly meritorious exertions of Captain Bose in the discharge of the arduous and important trust Confided to his direction as deserving his fullest Approbation

General Orders By His Excellency the Most Noble the Governor General in Council –

Fort William the 12th April 1804

The Governor General in Council is pleased to direct that the following Extract of a letter from Major General the Honorable Arthur Wellesley to the Governor General dated at Camp Jaffierabad 17th January 1804 be published in General Orders –

In

"In the course of the Campaign I have
"had frequent opportunities of reporting the good Conduct of the Troops
"to your Excellency, and I have likewise to report that their patience
"under fatigue and the persevering activity with which they perfor-
"med all the duties required from them, were equal to their
"bravery when opposed to the Enemy in the Field, and the consequence
"of all those good qualities is, that notwithstanding the distance
"and difficulties attending our Communication with the
"Sources of our supplies, the great bodies of the Enemy's Horse, & the
"disaffected and disturbed State of the Countries under the
"Government of the Company's Allies, I am enabled to state that
"throughout the Campaign, we did not lose one Convoy, or an
"article of the Company's property of any discription."—

The Troops composing the Division
under my immediate Command were assembled from the most
distant parts of the Country, and have been in the Field during
two Monsoons. That on the Eastern Coast in the Winter of 1802.—
and that on the Western Coast in the Summer of 1803. These
Circumstances and the exhausted state of the Countries from the
Kistna to the Tapti have been the cause of the loss of the equip-
-ments of the Officers of the Army three or four times in one
year. Those belonging to the Subsidiary Force were equally

unfortunate

unfortunate and all must have suffered the greatest inconveniences from the great advance of price of all the necessaries of life in the Countries which have been the seat of the War."

The Governor General in Council having received from Major General the Honorable Arthur Wellesley a report of the Treasure and other Articles being the public property of the Enemy Captured by the Troops under the Command of General Wellesley during the progress of the late Splendid and memorable Successes of the Army in the Dekan against the Confederated Marhatta Chieftains amounting to 11,52,196 1/2 Hydrabad Rupees, deems it to be the duty of this Government Conformably to the General principle Established by the General Orders of the Governor General in Council directing a distribution of Prize Money captured by the Army under the personal Command of His Excellency the Commander in Chief in India, to anticipate the Sanction of His Majesty and of the Honorable the Court of Directors for the distribution of this Sum as a testimony of the applause and Gratitude with which the British Government views the examplary valour discipline, Zeal and firmness, displayed by the Army under the Command of Major General Wellesley during the recent arduous and glorious Campaign

The

The Governor General in Council accordingly authorises and directs Major General Wellesley to make an immediate distribution of the sum above-mentioned to the Troops under his Command, in such proportions as may be conformable to the usage of the British service in similar Cases.

Major General Wellesley will determine and name in public Orders the several Corps, Divisions or Detachments of the Army employed under his special Command in the Dekhan which are to participate in this distribution. Major General Wellesley will also determine and publish the General Rules by which the shares of the respective Officers and Soldiers are to be apportioned, and will report his Proceedings in the execution of these Instructions to the Governor General in Council, and to the Governors in Council of the Presidencies of Fort St. George and Bombay.

All Ordnance, and Military Stores, taken by the Troops composing the Army under Major General Wellesley during the War, are to be reserved entire for further Instructions.

The Governor General in Council will not fail to afford to the Zeal, gallantry, and energy of the Army

Army / employed in Services of arduous labor and peril and remote from their Sovereign and their Country / the most liberal and prompt encouragement which may appear compatible with the rights of the Crown and of the Company, and with the due principles of discipline, public order and just oeconomy —

The Governor General in Council in Consideration of the severe hardships and fatigues, experienced by the Officers of the Army under the Command of Major General Wellesley, during the protracted time they have been in the Field on active Service, and also in Consideration of the heavy expences to which the Officers of the Army employed under the Command of Major General Wellesley during the recent arduous operations in the Dekan, have been subjected by the repeated loss of their Field Equipments Combined with the inadequate Amount of Prize to be destributed among them, deems it to be equitable and Consistent with a liberal and wise policy, that this Government should award compensation to those Officers, with the view to alleviate in some measure the hardship of their Case, without establishing a precedent for incurring an unnecessary and improper expense in future. —

The Governor General in Council is

therefore

therefore pleased to Authorize a Donation for the Officers who have been Serving with the Troops employed under the command of Major General the Honorable Arthur Wellesley during the late War in the Dekan against the Marhatta Confederates equal to Six Months Full Batta of the rank in which they have been respectively Serving during the War.

The Right Honorable the Governor in Council is pleased to publish the following Extracts from a letter of the Honorable the Court of Directors to the Governor General in Council dated the 20th of April 1803 —

Para 1st. 'For a Considerable time past we have had — under our view the papers that have been transmitted from our several Presidencies, containing the applications of the General Officers requesting us to reconsider our Orders of the 6th June 1798 / by which the Major Generals and Colonels of Regiments were directed to abide by the Regulations relative to furlough and retirement prescribed

for —

for Officers of the army at large - / and intimating to us their hopes that they might be permitted to remain in Europe with the enjoyment of their Pay and their Shares of the Off reckonings according to the practice in His Majesty's Service. —

2d. The General Officers who were on furlough in Europe, have also addressed us to the same effect, and Joint applications have likewise been preferred from a number of Officers of different ranks at home, / including some of the foregoing / Suggesting a new mode of distributing the Off reckoning Fund, by which the advantages from this Source of emolument might be extended in a greater degree than under the present System, and not be Confined to the Colonels of Regiments or Corps Conformably to our Orders of the 8th January 1796. —

3d. "We Observe that a proposition of a Similar nature was submitted to your Government in 1797, by several Lieutenant Colonels and other Officers of the Bengal Army —

4th "Before we enter into a consideration of the subject thus brought our notice, we cannot omit taking this opportunity to express in the most pointed terms, the disapprobation with which we have seen the general associations of Officers of different ranks formed for these and similar purposes, associations completely Subversive of that System of Military Correctness and Subordination, which it must be yours, and our duty in future, more strictly to enforce, since any relaxation in a point of such essential consequence, would infallibly be attended

with

with the most fatal disorders as repeated experience has too often proved when such practices have been permitted to prevail.—

5th "It will at all times be our inclination to attend to the comforts and to the interests of every part of our Army, when made known to us through the proper channel of Communication, but we at the same time must transmit to you our most positive injunction to adopt the strongest measures, which circumstances may require, to discountenance associations of the description to which we have above referred, if a sense of propriety should not render such interference unnecessary.—

6th "We cannot however but entertain a sanguine hope, that the Officers of our Army of all ranks will be impressed with a just sense of the liberal emoluments which they respectively enjoy, and desist hereafter from discussions which are only calculated to sow division among the several ranks of the service, to breed a discontented spirit in the Army at large, and to exhibit a course of proceedings, which never can exist but to the destruction of discipline and subordination, and consequently to the degradation of the character of the Army itself.—

14th "We have determined to assimilate the organization of the Native Cavalry as nearly as possible, to that of the Native Infantry, that two Regiments shall constitute a Brigade of Cavalry, Commanded by a Colonel drawing his share of Off reckonings, and having a Lieutenant Colonel and Major as at present attached to each Regiment.—

18th "It may possibly be thought necessary to — increase the Cavalry of the Fort St. George establishment, by the addition of an Eighth Regiment in consequence of the enlarged extent of Territory now subject to that Government, and the Subsidiary engagements with the Nizam, who, by Treaty, is to have a considerable body of the Company's Cavalry in his Employ, we therefore direct that this Subject be maturely Considered by our Governor General in Council, to whom we leave it to make the arrangement suggested above, if it shall be thought expedient or necessary.

21st "By the regulations established by Marquis Cornwallis in 1788, for the annual Computation of the Off reckonings, those of the European Artillery and Infantry, are calculated upon the actual strength, but in regard to the Native Corps, the established strength is taken whether the same be complete or not; hence if these Corps be deficient, the company are charged with off reckonings for a greater number than are cloathed, and the cloathing being issued to the effectives only, the Fund for distribution is thus encreased.—

22. It does not appear that these dificiencies in the Native Troops, have occurred in any great degree at Bengal, but at Madras and Bombay, they have been considerable, and this in some measure accounts, for the shares of the Off reckoning Fund at these Presidencies, having been greater than those at Bengal.—

On

23d On the Reduction of the Native Infantry to the Peace Establishment, it may be expected, that the Regiments will without difficulty be Kept Complete, but as the mode of Calculating the off-reckonings above noticed appears exceptionable, we direct that in future the stoppages from the Men Actually Cloathed, be Considered as the Fund applicable to distribution, and that the Off reckonings shall be Calculated upon the effective Strength only, of all the Corps.—

24th The Town Major at Madras Receives the Surplus off reckonings of the Native Invalids who are attached to Divisions of the Army, and the amount is greater than the Shares drawn by Colonels of the Regular Corps.—

25th "The large Emolument thus given to the Town Majors, we consider both unnecessary and improper. These Officers draw Considerable Staff Allowances, and if there is any trouble attached to their Appointment Relative to the Corps in question, they will be Sufficiently Rewarded for the same, by a much less proportion of the profits from the Off reckonings, and the Surplus must be thrown into the General Fund for distribution amongst the Colonels.—

26th Having Stated these Observations Respecting the formation of the General Fund, the next point for Consideration is, the description of Officers who are to share in it.—

27th The arguments Adduced by the late

Commander

Commander in Chief in India (Sir Alured Clarke,) against the adoption of the proposal made in Bengal in 1797 for distributing the Surplus of the Off Reckonings in certain shares as far as as it would go, are in our minds Conclusive, his Reasonings are Just and Convincing, and Clearly point out the inexpediency of such a Measure.—

28th. "Several propositions have been submitted to our Consideration for extending the distribution of the Surplus Off Reckoning Funds, by including a certain number of Lieutenant Colonels in the participation thereof, but many Objections present themselves to such an extension."—

29th. "With respect to the Lieutenant Colonels in actual Command of those Regiments, the Colonels of which are in Europe, and whose Claims to participate in the Fund are supported on that Ground, we Conceive that their Situation differs in no way from that, in which they are placed by the Colonel being a Major General either on the Staff or not, and Resident in India, In the first Case, the Staff General may Command at a Station where his Regiment is not posted, in the Second, the General is precluded from any interference in the duty of the Regiment, whether present with, or at a distance from it, added to which, it may frequently happen that the Colonel of a Regiment is employed on Service although his Regiment forms no part of the force he Commands, in all these instances—

instances the Claim of the Lieutenant Colonel has as good a founda-
tion as when the Colonel is in Europe.—

30th. Further as the Regiments of Native
Infantry Consist of two Battalions, with a Lieutenant Colonel to
each, and it not unfrequently happens that the Battalions are
Seperated, if the Colonel be Absent altogether, each of the Lieute-
nant Colonels may Consider himself as Commanding a Corps, or if
the Colonel be present with one Battalion, the Lieutenant
Colonel in Charge of the other may equally lay Claim to a parte-
cipation in the Off reckoning Fund.—

31st. "Again Supposing the Colonel and both
Lieutenant Colonels absent from the Regiment, whether on
furlough or otherwise, which is not an improbable Case, the major in Com-
mand must equally be Considered as entitled to participate in the Fund,
and thus the inconveniencies and difficulties of an extension of the
Off reckonings in the manner proposed, would be increased to an
indefinite degree, and the leading principles of the arrangements made
in 1796. be entirely distroyed.—

32d. "Among the arguments brought forward
in support of the subdivision of the Off reckonings, it has been Suggested
that the Officer in actual Command of a Regiment during the
absence of the Colonel, is exposed to Additional expence, we are by
no means prepared to admit the force of this argument, it is not
Consistent as we understand, with the practice in His Majesty's, or

any

any other Service, that a Commanding Officer should Consider himself as Called upon to incur extraordinary expence in Receiving and entertaining the Officers of his Corps, we see no reason why in our Service as in all others, the Commanding Officer should not live at mess with his brother Officers, without Affecting an expense which is inconsistent with the fair emoluments of his Situation. Individuals may feel it difficult to break through an established practice of this nature, however Objectionable and inconvenient in itself, but it is the duty of the Government, to discountenance habits of useless expence incompatible with the well regulated Constitution of any army, and to relieve by the weight of their Sanction and admonition, the feelings of Officers who might otherwise be Reluctant to depart from what may have grown up into a General habit.—

33d. The extension of the distribution of the Offrecks-ining Fund to Lieutenant Colonels has been also proposed upon another principle, Viz. by allowing a certain number of that Rank to retire from the Service with an addition to their Pay from the fund, but as we are of opinion that the provisions already made for this Class of Officers on their retiring from our service are ample and on a more liberal Scale than that which obtains in any other Service, as the adoption of a measure of this nature would infallibly occasion a great augmentation of expense, and as it would probably lead to Claims of a Similar discription from the Officers of the next inferior rank, we have thought proper to reject the

proposal

proposal.

34th In fact we are convinced that the Interests of the Lieutenant Colonels are amply provided for in the prospects held out to them by the Arrangement for distributing the Offreckonings, which after mature deliberation we have resolved on and which is as follows.

1st That the Offreckonings at all the Presidencies from the Regular Corps of Artillery, Infantry, and Cavalry, Calculated as above directed, be thrown into a General Fund.—

2d That a retired list of General officers or Colonels be formed, who are to be struck off the strength of the army, and Considered altogether out of the Service, the number to be Twenty one viz.t nine from Bengal, eight from Madras, and four from Bombay, the senior officers from all the Corps at each Presidency according to the dates of their Commissions to form this list, unless it shall be thought proper by our Governments to reserve any of this Class of Officers for the Staff Appointments.

3d That each of the retired Generals or Colonels abovementioned be allowed the sum of £543.15. per Annum, from the Offreckoning Fund in addition to the full or half Pay they may be entitled to, According to the length of their Actual Services in India

4th That the remainder of the Offreckoning Fund be divided among the Colonels of the Regiments of Infantry and Cavalry, and of the Battalions of Artillery.—

5th That the Officers last mentioned be allowed

to

to reside in Europe with their shares of Offreckonings and their Pay; subject always to the Court's orders for their return to their duty in India, and if they decline so to do, they are to relinquish their shares of Offreckonings and retire from the service on their Pay only:—

6th " That when an Augmentation of the Armies in India takes place, increasing the General Fund, the shares to the Colonels abovementioned in the service are to be augmented accordingly; on the other hand if the Armies be reduced, so as to diminish the General Fund, their shares are to be reduced in proportion, it being our intention that whatever Surplus remains after providing for the Retired List in the manner stated in the 3d Article, it is to be divided amongst the Colonels who Continue in the service.—

7th " That if a Reduction in the number of Regiments takes place, the Colonels of the reduced Regiments are not thereafter to participate in the Offreckonings, until by vacancies occurring, they are reinstated in the Command of Regiments.—

8th " That the General Officers not on the Staff or kept in India by orders of our respective Governments to succeed to the Staff Appointments (if such a measure should be thought necessary) be allowed only their pay and share of Offreckonings, whether resident in India or in Europe, such Officers not being Compensated by the existing Regulations to do duty with

them

their Regiments; if however these officers shall be employed on actual Service, they are to be allowed the usual Batta.—

35th. We have also to inform you that after mature deliberation, we have resolved that General Officers on the Staff shall Continue to hold the Staff-appointments for four years only, at the end of which, they are to be relieved by other Officers, unless our Governments should reappoint them to the Staff at the expiration of the four years, Subject of Course to our approbation.—

36th. By the foregoing plan an opening is made for an extension of promotion in the army, by the retired List, in view to which and the other advantages they will derive, when they come to the higher ranks, the situation of the Lieutenant Colonels is greatly improved, at the same time a liberal provision is made for Officers of the higher ranks, whose constitutions may not admit of their being employed in active Service, while those who Continue in Command of Regiments and Corps have the option of Coming to Europe without a precise limitation of the time of furlough, and with the enjoyment of a fair and reasonable proportion of emolument.

37th. But in forming this arrangement it has been impossible for us to overlook to the pretensions of those General Officers and Colonels, who have already retired from the Service on their pay only; under the idea that our Orders of June 1798 were to be strictly adhered to, some doubts perhaps may also be

fairly

fairly entertained; whether these Orders were Strictly Compatible with those of 1796, under the construction of which, those Officers came to Europe, the alteration in the Orders of 1798, by the present arrangement which in a great degree reverts to that of 1796, gives the Officers abovementioned a just and equitable claim to participation in the benefits derivable from the change of System, and we have therefore agreed to admit them on the retired list. —

38th. The Surviving Officers of this discription are Generals, Morgan, Forbes, Jones, Johnstone, and Hussey from Bingal, and Colonels Cuppage, and Wynch, from Madras, therefore four Generals from Bengal, and six from Madras, remains to be added to the retired list for those Presidencies. —

39th We shall make the Payments to the Officers on the retired List now at home. We have in our former dispatches noticed the great delay that occurs in adjusting the annual offreckoning accounts at the Several Presidencies, and trust that means will be adopted for remedying the inconveniencies resulting therefrom, in future. This becomes the more necessary by the plan now prescribed because it will be impossible to make the distributions correctly before a General Account of the Surplus at all the Presidencies is formed. —

40. In the mean time we shall not object to your Continuing to issue a certain proportion of the Offreckoning shares to Colonels in India, according to your resolution of the 16th July 1799, and the same rule may be adopted at the other

Presidencies

Presidencies Care being taken that Such proportions do not exceed two thirds of the probable amount of Shares, the remainder to be paid, when the annual Accounts are adjusted, and with Regard to the Colonels at home we shall pay them annually the Sum of Five hundred Pounds each, on account of their Offreckonings, leaving the balance to be adjusted when the Accounts (which must be forwarded as early as possible) are received, for all payments made here Account Current London is to be Credited on the Military Books of the Several Presidencies, and when the Colonels Come home, the proper Certificates of the dates to which their Off-reckonings have been paid in India must be regularly transmitted —

43d. In future the Chief Engineer is to be paid a Sum equal to the shares of the Offreckonings actually drawn by the Colonels, and his Staff allowance exclusive of the allowances for Drafts-men &c. —

44th. The Chief Engineer's Staff allowance at Madras is to be Star Pagodas 208:14 per Month. —

45th. The Chief Engineers are to be allowed to reside in Europe, and receive their Pay and the equivalent for Off-reckonings in the same manner as Colonels in Command of Regiments. The Right Honorable the Governor in Council with the view of Carrying into effect the preceding arrangements directed by the Honorable the Court of Directors, has by General Order of the 1st May 1804 placed on the retired List of Officers Major Generals Sir E. The Right Honorable the Governor in Council Recurs with sentiments of Cordial Satisfaction to the repeated Occasions on which this Government has been called upon to manifest the Generosity and favor of the Honorable Company towards the Native troops of this Establishment and as His Lordship in Council Continues to be impressed with a Just Sense of the meritorious Services of those troops His Lordship will always derive a Correspondent degree of Gratification when an Opportunity may be afforded for the demonstration of his Lordship's Sentiments on that Subject.

His Lordship in Council under these impressions considers it to be peculiarly incumbent upon the Justice and liberality of the British Government that provision should be made for the families of the Native Officers and Soldiers who may die in Battle, in all cases when the services of the troops shall have been found deserving of Approbation, and His Lordship in Council Can Consider no case more Justly to merit the application of that

principle.

principle than in regard to the Native troops who were employed during the late memorable Compaign in the Deckan.—

His Lordship in Council has Accordingly been pleased to adopt and to publish the following Resolutions for General information.—

1st "That the half pay of his rank shall "be allowed to the nearest heir of every native Officer and Soldier of "Cavalry, Infantry, Pioneers, and Gun Lascars, who has died in "Battle, or in Consequence of Wounds Received, during the late "War against the Mahratta Confederates.—"

2d "That in Cases where the deceased "Officers and Soldiers may have left Sons the provision shall "be Continued during the term of 12 years only."—

3d "That in Cases where the families of "the deceased Officers and Soldiers may Consist only of Women "and aged persons, the provision shall be Continued during "the life of the nearest heir of the family."—

4th "That Committees of European "Officers shall be assembled in each Battalion under "instructions from the Commander in Chief to ascertain "the heirs of the deceased Officers and Soldiers, the term "for which they may be intitled to provision According to the "foregoing Rule, together with the places of their Residence, and "to take such precautions as may be requisite to secure the

public

"public from being exposed to loss by false Claims—"

5th "That this arrangement shall not Commence
"in respect to the families of the Coast troops Serving at Poonah until
"their return within the territories dependant upon this Government,
"until which time the provision Ordered to be made in the
"G. O. of the 11th October 1803 shall Continue to be paid to those
"families—"

His Lordship in Council Requests that the Commander in Chief will Adopt such measures as may be necessary for the translation of this Order into the Native languages of this Coast and for the promulgation of it to the Native Corps of the Establishment of Fort St. George—

Dispatches of which the following are Copies and Extracts have been received by His Excellency the Most Noble the Governor General from His Excellency the Commander in Chief.

To His Excellency the Most Noble Marquess Wellesley
Governor General &c. &c. &c.

My Lord, I have the honor to report to your Lordship my arrival

arrival at this place —

Jeswunt Roa Holkar proceided from this Neighbourhood this Morning to Koorjah and by every Account his object is to Cross the Jumna wherever he can find a Ford.

I shall Continue to pursue him closely, which will effectually prevent his doing much mischief to the Country, and must Cause his followers great distress, who by every account, are already very discontented and are anxious to leave the Doab, as they Cannot effect their object of plunder, and with difficulty find Subsistence for their selves and Horses.

My Lord,

I have the honor to inform your Lordship of my arrival at

at this place.

Jeswunt Rao Holkar appears to have taken the direct Road to Futteh-Ghar, where however he Cannot effect any mischief, as there are Troops there sufficient for its defence, and I shall press him very close, should he attempt to remain there. I can hardly imagine that it is his intention to penetrate so far, as he would find it difficult to effect his retreat out of the Doab.

The Governor General has received a Dispatch from Captain Menzies, of His Majestys 22d Regiment of Foot, Major of Brigade to Major General Frazer, addressed to His Excellency's Military Secretary, dated Camp near Deeg November 13th 1804, of which the following Copy is published for General information.

Camp three Miles W. of Deeg November 13th 1804 Sick P.M.

To Captain Armstrong

Military Secretary to His Excellency the Governor General and Captain General &c. &c. &c.

My Lord,

I am directed by Major General Frazer, to acquaint you for the information of his Excellency the Governor General, that the army under his Command, arrived within three Cos of the Fort of Deeg yesterday and found the Enemy very strongly encamped, with their left extending to deeg and a large Jeel of water extending to their Right and

Covering

covering the whole of their Front. From the late hour at which the army encam=
=ped, and not having Correct information of the Enemys position, the General
thought it advisable to delay the attack until this Morning. Having made
his arrangements for the Security of his Camp he marched with the 1st.
Brigade of Infantry, under the Honorable Lieutenant Colonel Monson, the
2d. under Lieutenant Colonel G.S Browne, and the two Regiments of Native
Cavalry under Lieutenant Colonel J. Brown, and part of the park, under
Lieutenant Colonel Ronsford, at three Oclock this Morning. We made a circuit
to our left round the Seel, to enable us to come on their Right Flank;
a little after day break we formed in two lines attached and Carried a
large Village which was on their Right Flank. The Major General imme=
=diately pursued his Success, and marched down on their line, and took
possession of their Guns and Howitzers which are now bringing into
Camp. I regret to say that General Frazer has been severely wounded
while at the head of the Troops leading them into action, and in Conse=
=quence, was obliged to be Carried off the Field. The Honorable Colonel Monson
then assumed the Command, and atchieved what General Frazer so
happily Commenced. We drove the whole of the Enemy under the Fort of
Deeg, when the people in the Fort opened a very heavy fire on us. The
Number of Guns is not yet ascertained, nor that of the killed and wounded,
but our loss has been Severe. Regular Returns of the Number of Guns
and of the Killed and Wounded, will be sent by the Honorable
Colonel Monson tomorrow, who will likewise give a detailed account of
the Action. Major General Frazer feels it impossible to express his

high

his high Sense of obligation to the whole of the Troops under his Command for their undaunted Courage and Gallantry particularly to His Majestys 76th Regiment, who have on this occasion as on every former one, done honor to themselves and their Country.
