"Maxwell, widow of Lieutenant Colonel Maxwell of His Majestys 19th Regiment
of Dragoons who fell gloriously at the head of the Cavalry in the Battle of Ajaye,
"leaving a young and deserving Woman destitute of any provision"—

12 "In considering this case, altho we find that there is no-
"example of the Company's making any Allowance to the Widow of a Kings Officer
"on account of his having served or fallen in India; and tho at the same time
"we are aware the establishing a precedent may seem to have the dangerous ten-
=dency of opening a door to Claims from the surviving Relatives of Kings Officers, which if
"yielded to, would in time render the load of Military expense already so enormous
"still more intolerable, yet we consider the Case of Lieutenant Colonel Maxwell
"to be altogether a very singular and extraordinary one—In circumstances the
"most critical and hazardous, when after prodigies of British Valour and the
"fall of the Flower of the British Army, the Battle of Ajaye was nearly carried
"by the vastly superior numbers of the Enemy Lieutenant Colonel Maxwell by
"charging with the Cavalry in the most heroic Style, turned the fortune of the day by
"which the fate of the War, and perhaps of British India, was in a great
"measure determined—In the moment of this brilliant and happy achieve-
=ment Colonel Maxwell lost his Life, and an enterprize productive of Sin-
=gular glory and advantage to his Country reduced his Wife to a state of absolute
"want."—

13 "Under all these circumstances, we have Unanimously
"resolved to settle an Annuity of £ 300 on the Relict of Lieutenant Colonel Maxwell

"Service rendered to the Company and the Nation by that gallant Officer."

"the Widow and Family of the late Major General Fraser, who received a mortal
"wound on the 13th November last, while in the Command of the British Forces at
"the Battle of Deeg, and being informed that the pecuniary circumstances of
"Mrs. Fraser and Family are very confined, and being of opinion that to appre-
"ciate and to reward meritorious Services as far as may be prudent and consistent
"with the circumstances of the Company are equally consistent with justice and
"policy, we have on considering the important Services rendered to the East India
"Company, by the Skill gallantry and intrepidity of General Fraser, displayed
"at the memorable Battle of Deeg, and of whom an high and honorable panegyric
"is likewise recorded by General Lord Lake, resolved to grant a Pension of £ 200 Pr.

G. O. By Government

The Right Honorable the Governor in Council has great Satisfaction in publishing to the Army of this Presidency the following Extract of a letter addressed by the late Acting Resident with Dowlet Row Scindia to the Secretary of the Government at Fort William containing an Honorable testimony of the meritorious conduct of the Officers and Men composing the Escort of the Acting Resident under circumstances of extreme difficulty and embarrassment —

Extract from a letter to Mr. Secretary Edmonstone under date the 19th. October 1805. —

On the present occasion it is a solemn obligation of my public

public duty independently of the Sentiments of affection, gratitude and admiration which are impressed on my heart towards those whose personal attachment and fidelity have so uniformly supported me through a long period of difficulty and danger, to record my deep sense of the Eminent merits of the Gentlemen of my family and of the very deserving conduct of the Native troops and Ser=
=vants of the Residency collectively and individually manifested during the late unfortunate events —

From Lieutenant Stewart who Commands my Es=
=cort I have received on every occasion the most Zealous and useful Assistance. That Officer has been present at almost every conference which I have held with Dowlut Row Scindea or his ministers since my accession to the Residency, and his Exten=
=sive acquaintance with the Persian and Hindostanee languages and with the general nature of our relations with the native courts of India, having led me to employ him as an Assistant. I have derived very considerable advantage from his Zeal and information in the performance of the duties of that station. I attri=
=bute eminently to the activity and prudence of Lieutenant Stewart, aided by Lieutenant Green the other Officer attached to the Residents Escort, the meritorious conduct of the native troops on this very arduous and disagreeable Service —

I have already had the honor to represent for the favorable notice of Government the active exertions of these officers respectively during the two attacks upon the British camp by the Pindarries, as well as the meritorious services of the native

Commissioned

Commissioned and non Commissioned Officers and Men Composing the Residents Escort on those occasions, and I trust that the Services of Lieutenants Stewart and Green, the latter of whom was severely wounded at Sagur, and the Exemplary fidelity and fortitude which have so uniformly been displayed by the troops under their command throughout a most trying Situation since those occurrences will be considered to intitle them to the particular favor and approbation of Government ——

To Mr. Wise Surgeon to the Residency I cannot sufficiently express my gratitude. The active humanity which that Gentleman has ever displayed in the duties of his professional character, under a combination of difficulties to embarrass and impede their successful exertion, was particularly conspicuous after the last attack upon the British Camp, and the chearful assiduity with which although under the pain of a severe wound, that Gentleman continued to afford his Assistance on so distressing an occasion, has entitled him to my warmest acknowledgements. I take the liberty of recommending Mr. Wise to the favorable notice of the Honorable the Governor General in Council —

In expressing my sense of the merits of the Natives who are still attached to the Residency and who have universally manifested an attachment and fidelity which no events could impair, I am particularly solicitous to call the attention of Government to the

Services

Services of Ramappa Brahmin my Chief native Servant. Ramappa both previously and subsequently to the death of Mr. Webbe has acted in the capacity of Marhatta Moonshee and has been employed by me in all intercourse with the Durbar which did not require my immediate attendance. He resigned a Situation of considerable trust and emolument to accompany Mr. Webbe on this Service. He is brother to Shistnapa who accompanied Colonel Malcolm on his late Mission to the Court of Scindia and whose merits have been rewarded by the grant from the Supreme Government of a Jaghire in the Ceded provinces — under the presidency of Fort Saint George. I trust that the Honorable the Governor in Council will deem it proper to recompence the particular Zeal and attachment of Ramappa by some Solid mark of approbation —

A True Extract

/ Signed / R. Jenkins

late Actg. Resident —

In addition to the foregoing communication, His Lordship in Council is pleased to publish the following extract of a letter from Mr. Jenkins to this Government —

In that Extract His Lordship in Council will perceive that I have stated in general terms my sense of the Meritorious conduct of the Troops Composing the Residents Escort. Their Steady conduct during the two attacks on the British camp and the Extraordinary fidelity

and

"and fortitude which they uniform-ly manifested during a long course of hard-
"ships and under the most trying circumstances Subsequent to those attacks, cannot
"be sufficiently applauded."

"I observe that the Right Honorable the Governor in
"Council has been pleased to grant to the families of those Native Officers and
"Men of His Lordships Body guard attached to the Residency who fell in the
"attack on the British camp on the 25th January 1805 the same indulgence which
"is enjoyed by the families of those who were Killed during the Marhatta War.
"That indulgence was in my opinion justly due to the brave conduct of the individuals
"who fell, and I beg leave to express my approbation of the very excellent behaviour
"of the party on that as well as on every other occasion, but particularly under
"the hardships which were sustained Subsequently to the plunder of the British
"Camp, and which the loss of their Horses rendered to them peculiarly severe."

I should not however be doing justice to the Native
Commissioned and Non-Commissioned Officers and Men of the two Companies
of Madras Native Infantry attached to my Escort did I not bear an equal Testimony
to their Steadiness and discipline. The merits of Lieutenants Stewart and Green have
fully represented to this Government, and I cannot express in terms of too high
applause, My Admiration of the fortitude and attachment displayed by the
two Companies under their Command throughout this very arduous and trying Service.

With this impression I take the liberty of recommending
to

"to the Right Honorable the Governor in Council to extend, in favor of the families
"of those native Officers and Men of the Native Infantry who fell or who have
"been disabled in the attacks of the Pindarries and on other occasions connected with
"the late service an indulgence similar to that which has already been granted to
"the party of cavalry attached to the Escort among the severe losses sustained by the
"Infantry . . . I particularly regret the death of Khepseram Soobahadar of
"the 5th Company 2d Battalion 11th Regiment Native Infantry who was Killed
"during an attack made upon the British Residency on the March from Sindias
"Camp in the Month of September 1805, the long and faithful Services of this Officer
"are of course duly appreciated, and I trust that the claims of his family likewise
"will be admitted by the Right Honorable the Governor in Council" —

His Lordship in Council has much gratification in expressing his entire concurrence in the sentiments stated by the late acting Resident in the above extract, and His Lordship has accordingly resolved to make the same provision for the Native Officers and Men of the Infantry attached to the Escort of the Acting Resident who may have been disabled, as well as for the families of those who may have been killed on that Service, as has been granted to the troops who have been disabled, or to the families of those who were killed during the Mahratta War. The Commander in Chief is accordingly requested to direct the necessary Returns to be prepared of the persons who may be entitled to the stated provisions.

The Right Honorable the Governor in Council having received

received from the Commander in Chief a particular report which has been submitted to His Excellency by Colonel Gillespie of the services rendered by the Officers of the detachment employed in the suppression of the Insurrection at Vellore on the morning of the 10th Instant, as well as of the services of the Officers of the Garrison of Vellore who survived that catastrophe, His Lordship in Council has deemed it proper to publish an extract from the Report of Colonel Gillespie in General Orders. His Lordship in Council is happy at the same time to avail himself of this opportunity to express his warmest approbation of the meritorious conduct of those Officers who distinguished themselves on the trying occasion on which they were called to act, and his cordial thanks for the success of their exertions —

Extract of a Letter from Colonel Gillespie of His Majesty's 19th Dragoons — Dated 20th July 1806 —

"Colonel Gillespie begs leave to state in a summary "manner to His Excellency the Commander in Chief the sentiments he entertains of the "meritorious conduct of the troops under his Command as well as that of the remains of "the 69th Regiment who composed the garrison of Vellore on the 10th Instant —

"To H. M. 19th Dragoons and the whole of the Cavalry "Stationed at Arcot too much praise cannot be given, and in particular to the advanced "Squadron under Captain Young conducted by Colonel Gillespie in person, and supported "by a strong troop of the 1st Native Cavalry under Lieutenant Woodhouse" —

"To these troops he cannot sufficiently express his thanks "for the alacrity promptitude and Gallantry with which they obeyed all his Orders, on "that perilous Morning, in executing the necessary manœuvres they were employed on

antecedent

"antecedent to the Attack on the fortress" —

"To the Officers of the 69th who in the early part of "the insurrection assembled their Men to make head against the barbarous enemy "who were attacking them on all sides, too much praise cannot be given, and Colonel "Gillespie has particularly to regret that the gallant exertions of Captains Barrow "and M.Lachlan, Lieutenants Mitchell Cullet and the other wounded Officers were so "soon lost to the Regiment from those Officers being unfortunately disabled early in "the day — The remains of this valuable Corps, fought gallantly for several hours "without an Officer and the Colonel begs leave to express his Admiration at their — "undaunted resolution" —

Colonel Gillespie here recurs with much satisfaction to the good conduct of Doctors Jones and Deane whom he himself observed as he approached the Gate gallantly exerting themselves with Muskets in their hands —

He also understands that early in the Morning Lieut.t Ewing of the 1.st Battalion 1.st Regiment behaved in a manner highly meritorious in assembling various Straggling parties of Europeans and encouraging them to make a vigorous defence till compelled to quit the fortress by a Superior Enemy —

Colonel Gillespie feels particularly obliged to Lieutenant Blakeston of Engineers for the prompt and effectual manner in which he — applied the Guns of the 19.th Dragoons to the Gate as well as for his unremitting per-severance and exertions in almost every capacity during this arduous service —

Colonel

Colonel Gillespie cannot but consider himself highly indebted to Captain Shelton of His Majesty 19th Dragoons for the gallant manner in which he headed the rapid and effective charge of the Advanced Squadron into the body of the Place —

To Lieutenant Colonel Kennedy and the Officers and Men of the 19th Dragoons, to Captains Manson and Doveton with the Officers and Men of their respective Corps Colonel Gillespie returns his most sincere thanks for their prompt and effectual assistance — Colonel Gillespie cannot help mentioning in terms of the highest approbation Serjeant Brady and the remains of the 87th Regiment who so bravely followed him in the sally from the ramparts and drove the enemy from their lurking place, previous to the charge of the Cavalry. In a detail of this Nature it will be the height of injustice in Colonel Gillespie to overlook the very conspicuous merits and unremitting exertions of Lieutenant Colonel Forbes to whose judicious conduct in taking possession of the hill fort too much praise cannot be given —

Lastly Colonel Gillespie considers it his duty thus publickly to acknowledge the Obligations he is under to Captain Wilson of the 19th Dragoons —

That Officer who accompanied him as his aid de Camp the whole day acted immediately under his eye and was of great

use

use and Assistance to him as well from his good understanding as personal bravery —

Colonel Gillespie assures His Excellency the Commander in Chief that the promptitude and valor displayed by all the Troops on this occasion will remain indelibly impressed upon his memory to the last hour of his existence —

The long established Reputation of His Majesty's 19th Regiment of Dragoons could leave no doubt in the mind of His Lordship in Council of the utmost exertion of their zeal and gallantry on any duty where the Services of that Corps might be required, but from the extraordinary energy which was manifested in the Suppression of the daring revolt excited in the Fortress of Vellore, and from the happy effects which have been produced by the prompt overthrow and punishment of the Insurgents, His Lordship in Council has considered the Troops employed on that Occasion to be particularly entitled to commendation and reward, and has accordingly resolved that a gratuity of one Month's pay shall be presented to such of the Non Commissioned Officers and Privates of the 19th Dragoons as were present at Vellore as a mark of His Lordship's public Approbation —

It has been in every instance the earnest desire of this Government to distinguish Such of the Native Troops as may have particularly

particularly Signalized themselves in the performance of their duty, and the Right Honorable the Governor in Council considers the application of this principle to be forcibly called for in the case of the Detachment of Native Cavalry which proceeded to Vellore under the command of Colonel Gillespie –

In adverting to the circumstances with which the Insurrection at Vellore was attended, His Lordship in Council considers the alacrity and Ardour manifested by the Native Cavalry in the re-establishment of order to have been in the highest degree meritorious, and His Lordship has accordingly resolved to confer on the Native Officers and Troops of the Cavalry who shared in the honor of that Service a reward proportioned to their Merit –

His Lordship in Council has been pleased to resolve that a Gold Medal with a Suitable inscription shall be presented to each – of the Native Commissioned Officers, and that a Silver Medal shall be presented to each Non Commissioned Officer and Private Trooper who – accompanied the party of Troops which proceeded from Arcot on the Morning of the 10th Instant, and it has been at the same time resolved to make a Similar provision for the families of those Officers and Troopers

now

in the events of their death as was conferred by the General Order of the 3d Sept=
tember 1804 on the families of the Native Officers and Soldiers who lost their
lives during the late Mahratta Campaign –

The Commander in Chief is requested to give every
practicable degree of publicity to the intention which has been stated in this Order –

By Order of the Right Honorable the Governor
in Council –

G O. By Government

The Right Honorable the Governor in Council having had under His Lordships particular consideration the detailed Reports which have been submitted relative to the circumstances attending the late unhappy Insurrection of the Garrison of Vellore, His Lordship in Council announces to the Army the deep concern which that distressing event must indelibly fix in His Lordships Mind.—

It being the wish of the Governor in Council to make generally known the origin and effect of an event so extraordinary in its nature, it is deemed proper to state that early on the morning of the 10th. Instant the greatest part of the Native troops stationed in the fort of Vellore consisting of the 1st. Battn. of the 1st. and of the 2d. Battalion of the 23d. Native Regiments threw off their allegiance to the British Government and availing themselves of the advantage of darkness and surprize endeavoured with circumstances of savage ferocity to effect the destruction of the European Officers and Soldiers of the Garrison — In this attempt they unhappily succeeded to an extent which must excite sentiments of the utmost horror and concern. While however the Mutineers were successful in accomplishing the death of the Commanding Officer of the Garrison and of many other valuable Officers and Men, it pleased Providence to permit that their disastrous progress should be arrested by the efforts of the brave troops of His Majesty's 69th. Regiment

who

who were so fortunate as to be enabled to elude and to resist the Murderous intention of the Mutineers until the arrival of the succour which were hastened for their relief —

To the expeditious arrival of that aid under the orders of Colonel Gillespie of His Majestys 19th Dragoons may be imputed the happy escape of the remaining part of the detachment of His Majestys 69th Regiment, and of the Surviving Officers of the Garrison of Vellore from the imminent danger with which they were threatened. Intelligence having reached Colonel Gillespie in a few hours of the Catastrophe at Vellore that Officer with the utmost promptitude proceeded from Arcot with a detachment of His Majestys 19th Dragoons and of the Native Cavalry (being afterwards followed by a reinforcement of Cavalry) and having reached Vellore at a period of the most critical difficulty was enabled in person to effect a junction with the remaining detachment of European troops within the Garrison, and to aid by the most judicious exertions the operations of the reinforcement of troops which had been brought under his orders to the Gate of the place — His Lordship in Council will ever reflect with sentiments of the greatest satisfaction on the complete success with which those united efforts were attended; the combined attack having been in a short time followed by the overthrow of every obstacle which had been opposed by the Mutineers to the progress of the troops by the complete dispersion of the force of the Insurgents, and by the signal punishment of the atrocious crimes which they had perpetrated —

His Lordship in Council in reviewing the events

referred

referred to in this Order considers Colonel Gillespie to be imminently entitled to public gratitude and applause — From the extent of the plans which are ascertained to have been connected with the Insurrection at Vellore the early suppression of that daring confederacy became an object of the utmost political importance, and as its speedy overthrow may be in a great degree ascribed to the bravery energy and judgment so signally manifested by Colonel Gillespie on the Morning of the 10th. Instant, His Lordship in Council will always entertain in regard to the conduct of that Officer, sentiments proportionate to the Services which have been rendered to his country by his meritorious exertions —

His Lordship in Council deems it proper on this occasion to make known to the Native Army of this Establishment that the late occurrences at Vellore have tended in no shape to diminish the confidence of the Governor in Council in that spirit of zeal fidelity and attachment which the Native troops have so frequently displayed in the Service of the British Government. From the result of the most careful enquiry there is every cause to believe that the Insurrection at Vellore was excited by interested persons and was fostered by the deepest intrigue in which the Native Army of this Presidency had no part with the exception of the two Battalions composing the unhappy Garrison —

His Lordship in Council therefore desires that the Native troops will banish from their minds all anxiety on account of any supposed diminution of confidence. It will be His Lordships continued wish to

evince

evince that sacred regard which has ever been entertained for their religious principles and customs, and as the Native troops cannot be otherwise than sensible of the benefits and protection which they and their families injoy in the service of the British Government, His Lordship in Council is satisfied that they will be faithful in the execution of their duty, and that they will continue to merit that praise which their conduct has frequently and justly obtained on occasions of trial and difficulty —

The Right Honorable the Governor in Council is pleased to publish in General Orders the following Copy of a Letter from Lieutenant Colonel Lang late Commanding Officer of the Subsidiary Force of Hydrabad addressed to the Commander in Chief. —

To His Excellency Lieutenant General Sir J. F. Craddock K. B.
Commander in Chief
&c. &c. &c.

Sir

By desire of your Excellency I have now the honor to address you on the subject of Butchinah Private Sepoy in the 2d. Battalion 11th. Regiment who discovered the intrigues in camp amongst certain men of the 6th. Regiment of Cavalry, and I beg leave to suggest that the reward of a Pension which has been granted to him or such part of it as your Excellency thinks proper may be continued to his Family —

Presuming to suppose that at the present period Government would be well pleased to have opportunities of rewarding instances of Zeal fidelity and good conduct manifested by Individuals amongst our Native Troops, I take the liberty to request your Excellency's favorable consideration of the merits of Syed Noor Subadar in the 2d. Battalion 11th. Regiment, of which the late Colonel Haliburton, when in Command of the Subsidiary Force was so sensible, that it

was

was his intention had he lived, to have represented them in the strongest terms to your Excellency —

This Native Officer in times of the greatest Scarcity during the late Campaigns in the Deckan, was constantly attached with the Benjaries in the Collection of Grain for the Army and on this Service which required infinite address and was attended with much difficulty and danger, he at all times acquitted himself with Zeal and fidelity, procuring supplies of Grain from distant quarters and escorting these supplies to camp in Safety thro a country over-run by the Enemy's Pindaries and freebooters —

These essential services were performed too at a time when that useful Body of men the Benjaries had been most infamously deprived of their dues, and had nigh lost all confidence in the British Character —

Should your Excellency deem the Services of Subidar Syed Noor worthy of public notice or reward, allow me to request that they may be represented in a favorable light to the Right Honorable the Governor in Council —

I have

I have the honor to be

With the utmost respect.

Your Excellencys most Obedient

humble Servant

That each patient be provided with a Matt and Cumbly on being admitted into the Hospital, for the care and preservation of which the female Superintendent or Head nurse to be held responsible. The Matts and Cumblys to be Supplied by the Paymaster of the Station on the Surgeons indent —

That the Sum of One Madras fanam and forty Cash /1.40./ be granted for the diet only of each native patient. The above allowance for Victualling will in general be fully sufficient, but at some particular Stations where grain the chief Article of food with the Natives is scarce and consequently high priced, it may be found inadequate in such cases. the Medical Board would recommend that one Seer of Rice and half a fanam in money for each patient —

Where a public building cannot be allotted for an Hospital it will be found expedient to rent or erect a House for that purpose on the Sanction of Government being previously obtained, the expense of which must necessarily vary according to situation and circumstances —

His Lordship in Council is further pleased to abolish such part of the General Orders of the 15th April last as may not be consistent with the above Regulations —

On the occasion of the intended return of His Majesty's 19th Regiment of Light Dragoons to Europe, the Right Honorable the Governor in council feels the greatest Satisfaction in testifying in the most public manner his highest approbation of the conduct of that distinguished and valuable Corps — from the period of the arrival of his Majesty's 19th Dragoons in India in the year 1782 — until the present time, that Regiment has shared in almost every action of difficulty and of glory in which the British Arms have been engaged during that long and eventful interval, and has deservedly established a degree of reputation Seldom equalled and never surpassed —

His Lordship in Council deems it unnecessary at this moment to enumerate the various instances in which His Majesty's 19th Dragoons have rendered the most important Service to their country. But the glory acquired by that Regiment in the fields of Assaye and the important advantages which resulted from its bravery discipline and activity on a late memorable occasion, an instance which cannot be omitted and which can never be obliterated from the Annals of this country, or from the Memory of the British Nation —

His Lordship in Council was pleased by a General Order under date the 27th August 1805, to confer a particular mark of His

Lordship's

Lordships approbation on His Majesty's 74th Regiment at the period of the embarkation of that distinguished Corps for Europe by granting to the Officers a donation of three Months full Batta impressed with Similar Sentiments on the present occasion, His Lordship in Council has in consideration of the long and brilliant Services of His Majesty's 19th Regiment of Light Dragoons resolved to extend to the Officers of that Regiment a donation of the same amount which is accordingly directed to be paid previously to their departure for Europe -

G. O. By Government

The Right Honorable the Governor in Council — having been called upon to consider with particular attention the grounds of orders — lately issued by His Lordship in Council for the discontinuance of the allowance — of Full Batta to the Subsidiary Force stationed in Travancore the result of the enquiry has entirely satisfied His Lordship in Council of the accuracy of that Resolution and it is hereby confirmed accordingly —

It is proper to state that the reconsideration of this subject was forced on the attention of the Governor in Council by an urgent representation of Lieutenant Colonel R. M. Grant the late Commanding

Officer

Officer of the Subsidiary Force founded on alleged complaints of the Officers and Men under his command with respect to the insufficiency of their allowances which supposed complaints appear to have been conveyed by Lieutenant Colonel Grant to the Commander in Chief in opposition to the repeated admonitions of the Resident at Travancore and in contradiction even to Lieutenant Colonel Grant's own Assurances to the Resident —

It being at all times the desire of His Lordship in Council to receive with attention any just representation affecting the interests of the Army particularly when supported by the authority of Officers exercising important Commands the communication which had been submitted relative to the allowances of the Troops at Travancore obtained His Lordship's fullest consideration and the necessary Statements having been received of the prices of the articles of consumption in Travancore they were referred to the Military Board for the purpose of undergoing an accurate investigation —

From the result of that investigation it has been distinctly ascertained that the prices of the articles of life in Travancore are not only not high but are unusually moderate and it has been established that the usual Pay "is more than ordinarily adequate to every necessary expence" in that country. It has been proved from unquestionable evidence that the alleged complaints which had received the strenuous support of Lieutenant Colonel Grant had no foundation in any just grounds and that Officer has been so forgetful of the duty which he owed to the Government and to his own character as publickly to

recommend

recommend the revocation of a formal Resolution for reasons which enquiry has shewn to be unfounded —

In all cases it is obviously the first duty of Commanding Officers to repress groundless clamour in the Officers or men serving under their orders for it is by such discrimination only that justice can be rendered in those cases where just claims are brought to attention and that the foundations of Military discipline can be preserved — His Lordship in Council has therefore observed which extreme concern on the present case an utter perversion of that principle and by encouraging representations calculated to convey to the Governor in Council an erroneous impression of the state of the Force under his Command Lieutenant Colonel Grant has manifestly departed from the line of his public duty and has Subjected himself to the high displeasure of His Lordship in Council —

The Right Honorable the Governor in Council is willing to hope that the explanation of these sentiments will impress on all Officers a due sence of their public duty but it is considered proper in the present occasion to observe — that His Lordship has had repeated occasion to notice the extreme laxity manifested in the proceedings of Committees of Officers which have been constituted on different public occasions — His Lordship in Council directs that it may be understood that when Committees of Officers may be assembled for the purpose of reporting on objects of public enquiry the Reports of such Committees shall not be received as communications of form but that Officers who may be employed in the execution of a solemn duty of that nature shall be held responsible for the accuracy

accuracy of their opinions and when the duty may appear to have been executed with negligence or remissness the offending persons shall be made liable to the utmost Severity of reprehension and punishment —

The Right Honorable the Governor in Council having determined to attach to the Cadet Company a Corps of Boys to be formed in the first instance from the Sepoy recruits attached to Battalions of Native Infantry, is pleased to direct that the Establishment of Sepoy Recruits with each Battalion of Native Infantry shall be reduced to 70 from the 1st of January Next –

The Commander in Chief will be pleased to give the necessary orders for the allotment of 400 Boys from those now on the Establishment of Battalions to form the proposed Corps, for attaching to them from the Non effective List such Native Commissioned and Non Commissioned officers as are required by the detailed plan for its Establishment which has been approved by the Government, and generally for completing the objects of that Plan from the 1st of January next – such Boys as may remain supernumerary to the reduced Establishment in the several Corps after supplying their Quota to the Corps at Cuddalore, will be borne as such till vacancies occur to place them on the regulated strength of the Recruit Establishment. –

G. O. By Government

The Right Honorable the Governor in Council has resolved to revise the existing arrangements of the Native Invalid Establishment, and with a view to the Comfort of the Old and faithful Soldier to increase the Number of Invalid Companies and Stations so that each Native Commissioned Officer Non Commissioned Officer and Soldier on being transferred to the Invalid Establishment may reside in the vicinity of his Family and Friends -

It is therefore ordered that from the 1.st of January 1807 the establishment of Native Infantry Invalids shall consist of 46 Companies that each Company shall be considered to be attached to an effective Battalion of Native Infantry, shall be permanently Stationed in the District where that Battalion was raised, or of which a large proportion of its men may be Natives and shall recruit for the Battalion to which it is attached in the vicinity of that Station. When in due Course of time the effect of this System shall have

fully -

fully realised the connection of the Battalion with the Company of Invalids attached, and with its local position that Station will become the Depot for the Sick for the Youngest Boys on the Recruit Establishment, and for the Families of the Battalion when Ordered on Field Service who will there be left in the protection of their Connexions in the vicinity of their Families, and when practicable under the superintendance of an European Officer of the Corps, who will regulate their payment and Communication with the Corps —

Native Commissioned Officers Non Commissioned Officers and Privates on being Invalided to be allowed a Choice of the Companies to which they may wish to be attached. On the Operation of the foregoing Plan being completed they will however naturally prefer the Invalid Companies of their respective Battalions. The Strength of the Companies must necessarily depend on Circumstances Subjecting them to Constant variation as at present: but their Establishment of Commissioned and Non Commissioned Officers will be 3 Subadars, 3 Jemedars, 10 Havildars and 10 Naigues each, all others to be borne Supernumerary until vacancies occur agreeably to the existing Regulation —

The Commander in Chief is requested to publish the detailed arrangement for the formation, allotment to Corps, and distribution to Stations of the Companies of Native Infantry Invalids on the above principle, and the Right Honorable the Governor in Council is further pleased to resolve that from the 1st of the ensuing Month the pay of Private Sepoy of

Invalids

Invalids shall be the Same as that of Effective Sepoys, that the full Pay of Native Commissioned and Non Commissioned Officers, Drummers and Puchalays of Invalids shall correspond with that of Similar Ranks on the effective establishment, and that the half Pay of those Commissioned Officers who are not on the Strength of Companies or by Wounds entitled to full Pay shall be regulated in the same proportion –

G. O. By Government,

The Right Honorable the Governor in Council having been informed that much inconvinience and embarrasment is frequently experienced equally by Officers of the Army as by the Office of Audit from the circumstance of the Musters and Inspection Reports of Camp Equipage not accompanying the Pay Abstracts in which the Charges for Tent allowance are included, and also from the Abstract Muster Roll which at present accompanies Pay Abstracts not affording the necessary information to answer the end for which that Voucher was established, it has been resolved that from and after the 1st January 1807 the following regulations shall have effect for the purpose of obviating the inconvenience which has resulted from the former System in regard to Muster Rolls –

1st That the regular Musters of Corps Departments – Camp Equipage Cattle Artificers Carriage and followers of every description – now subject to Muster, Shall Continue to be taken as at present by Commanding or Staff Officers every two Months Viz.t January, March, May, July, September, and November –

2d That in the intermediate Months Viz.t February April June August October and December Similar Musters in every respect shall be taken by heads of Corps and of all Public Departments, the

Rolls

Rolls of which are to be made out under precisely the same regulation in regard to form Signature and Declaration of the mustering Officer as is at present observed in regular Musters —

3d That in future the original Muster Rolls of Corps &c. and the Muster and Inspection Reports of Camp Equipage are to accompany the Pay Abstracts to which they have reference when sent for payment in the same Manner as the Abstract Muster Roll has hitherto done, and are to be considered by Paymasters as indispensible Vouchers by which the Pay Abstracts are to be compared and checked by them previous to payment, and subsequently passed in their Accounts by the Military Auditor General —

4th That in Consequence of the foregoing Regulations it is ordered that the transmission of Muster Rolls of Troops Camp Equipage &c. directed to the Office of the Military Auditor General by mustering Officers shall be discontinued, and that the Seperate Abstract Muster Roll which has hitherto accompanied the Pay Abstracts shall be abolished, the original Muster Roll being intended to supply the Place of that Voucher, it is however to be understood that the Abstract at the foot of each Muster Roll is to be continued as formerly —

5th That in Order to defray the additional expense of Stationary which will be incurred by Officers Commanding Troops and Companies from the Operation of these regulations, the allowance at present granted for Stationary is increased in the following proportions Viz.t —

To

To each Troop of Native Cavalry, each Company of European Artillery and Infantry, and each Company of Native Infantry — { From 21 to 30 fanams per Month —

To each Division or three Companies of Gun Lascars — { From 1 Pagoda to 1 Pag. 9 18 fs. per Month —

To every One hundred European Invalids and Pensioners ..... { From 21 to 30 fanams per Month —

To every three Companies of Native Invalids and Pensioners ..... { From 21 to 30 fanams per Month —

The returns of Camp Equipage to the Quarter Master General of the Army to be continued as directed by the Regulations of the 22d May 1802 —

The attention of Paymasters is particularly directed to those Regulations by which the Muster and Inspection Report of Camp Equipage Signed by the Mustering Officer is uniformly required to accompany all Abstracts in which Tent allowance may be included when presented for Payment —

The above Regulation is considered equally applicable to His Majesty's as the Honorable Company's Service as far as regards the Muster of Artificers Puckallies Followers and all public Servants attached to Corps including Camp Equipage Cattle and Carriage of every description which are now Subject to Muster —

Command — It appears that on that impression without any appearance of improper conduct on the part of the troops that Officer proceeded to the extremity of disarming almost the whole of the Native troops attached to the Subsidiary Force —

Without at present animadverting on the proceedings of Lieutenant Colonel Grant, His Lordship in Council deems it necessary to take the earliest opportunity of making known to those Troops that the measure adopted by that Officer was entirely unauthorized, and that it has excited the greatest regret in His Lordship's mind — His Lordship in Council desires that it may be explained to the Troops that entire confidence is entertained in their fidelity and good conduct, and that His Lordship is satisfied that no adequate reason existed for imposing upon them the degradation which they have experienced —

His Lordship in Council has been pleased to resolve that these sentiments shall be explained to the Troops through the channel of Lieutenant Colonel Macaulay Resident at Travancore —
