receive from Government. The Commissary correspond direct with Government thro' the of the Secretary in the Military department.

6.—The whole of the accounts of the Commissariat shall be made upon oath; and the form which was adopted by the O of Government under date the 13th of April, is hereby ordered to be established for that department; viz.

"I, A. B. (here entering the designation of the Officer of the Commissariat) " do hereby solemnly swear that neither directly or indirectly, have I derived, nor will I derive, any profit, "emolument, or advantage whatever from my situation, by the "receipt, supply, expenditure or otherwise, of the money or "stores of my department, beyond the regular allowance granted "me by Government for the current quarter, commencing" (here entering the quarter according to the period,) " and that no "person or persons, have within the same period, with my "knowledge or concurrence, derived any profit emolument or "advantage, directly or indirectly by the same."

7.—The Assistants Commissary General and Sub Assistants will forward to the Commissary General monthly, estimates of the probable expences which will be incurred by them in the ensuing month; and which shall always be dispatched so as to reach the Commissary General on the 10th of the month, preceding that, for which the estimates made, when these estimates shall have been approved of and returned to the Assistants or Sub-Assistants, they will thereby be authorized to draw to the amount of them, by bills on the Commissary General in favor of the Paymasters of their respective stations or divisions; but the money required for every separate branch shall be drawn by separate bills.—These bills of exchange shall be denominated, "Commissariat drafts," which when accepted by the Commissary General shall be transferred to the Military Paymaster General. The latter Officer will debit the department of the Commissariat for the amount, and give credit accordingly to the Paymasters

of the divisions or stations, who may have paid the
the first instance. The Commissary General shall
Military Auditor, with duplicate copies of the approved estim
and that Officer will countersign one set of those copies and
forward them immediately to the Paymasters concerned;
Paymasters are not to consider themselves authorized to advance
any additional sums on account of the Assistant Commissaries
drafts, except to their personal debit on cases of emergency, and
under the special written authority of the Commanding Officer,
but which sums shall be adjusted only on the accounts being
approved of by the Commissary General. If disapproved, the
sums that have been charged to the personal debit of the
Assistant Commissaries shall be recovered by the Paymaster
from the amount of their next regularly authorized estimate, and
the Assistant Commissary be held responsible to make good the
amount. Any unexpended balance remaining after the disburse-
ments of the current month shall invariably be credited in the
estimate for the next month and deducted from the amount of
that estimate.

8.—Copies of all drafts in favor of Paymasters shall be sent
immediately to the Commissary General, and every draft shall
specify on what account it has been made. If on account of
the authorized estimate, that shall be stated on the face of the
draft; and if the money be required for an emergent occasion,
the draft shall describe the circumstances of it. The presentation
of a draft by an Officer of the Commissariat department for a sum
of money on emergency, accompanied by an order in writing,
from the Commanding Officer, will be sufficient authority for
any Paymaster of a division or station, to obtain immediately
the amount from the Resident or Collector, if his own treasury
cannot at the time supply the demand. The Officers of the
Commissariat may occasionally be authorized to draw for money
on Residents and Collectors, but when the nature of the service
may render it necessary to adopt that measure, the special
authority of Government will be communicated to the parties
concerned.

9.—When retrenchments are made from any of the Commis-
sariat accounts, the Military Auditor General shall furnish audits
to the Commissary General in the usual way and at the earliest
practicable period of time, If the Commissary General should
himself

himself be enabled to give a satisfactory explanation in support of the objectionable charges, which will always be expected by the Government, he will proceed to do so without any delay. If not, he will call on the parties to reply to the observations of the office of audit, and their replies shall be submitted direct by the Commissary General to the Military Auditor General.

10.—The advances of money required by the Commissary General for the current expences of that branch of the department, with the conduct of which, his office at the Presidency will be considered to be immediately charged, will be made on estimates approved by Government, and he will draw on the Military Paymaster General for the whole or such part of that estimate as he may judge to be most convenient to the public service; taking care that the drafts shall be distinct and separate for the several branches as prescribed in the 8th paragraph of this order. The drafts being accepted by the Paymaster General, he will accordingly debit the Commissariat department, and the amount of them will be discharged on their being presented at the General Treasury. Sums of money which may be required on emergency by the Commissary General, will be applied in the same manner, but will be placed to his personal debit, and he shall be held responsible for the amount of them until they shall have received the sanction of the Government, and the accounts of the emergent charges regularly passed.

11.—The establishments of servants, whether European or Native, are to be left entirely to the discretion of the Commissary General; and no subordinate Officer of the department is to employ any servant without the special sanction of the Commissary General, whose authority in writing will necessarily be furnished as a voucher for the expence. Servants of the department will also be liable to be discharged or removed by an order from the Commissary General, who will make a report to Government of such discharge or removal of Servants, when such may appear to be necessary to be made known, to that authority.

12.—The Commissary General shall make monthly returns of public cattle and sick carriage to the Quarter Master General of the Army, and quarterly returns of all the departments under his controul, for the information of the Military Board.

13.—The manner of making the different supplies, authorized

ired by the regulations of the department or specially by Government, is entrusted to the discretion and responsibility of the Commissary General, but when he considers it advisable, that any supplies should be made by contract he will invariably submit these contracts for the approval and confirmation of Government.

14.—The station of the Commissary General is not fixed, but he will take up his residence, from time to time at such places where the business of the important department committed to his charge, may seem to require his presence. The actual travelling expences of the Commissary General (or his Assistants when regularly authorized by the former) unavoidably incurred on the public service, by dawk, will be defrayed by Government, the amount shall accordingly be charged on their monthly accounts, supported by such receipts for the disbursement, as the nature of the service may require.

15.—It will be the duty of the Commissary General, to be well informed in regard to the best sources from whence every species of Military supply under his direction, can be obtained; of the extent of supplies procurable in the territories of the Honorable Company or those of its allies; and it will be the duty of all Assistants and Sub Assistants, to be indefatigable in procuring every kind of that information. The latter will be held responsible for the efficiency and conduct of the departments entrusted to their immediate management; and they will also be expected, in due time to be able to afford the fullest information to the Officers Commanding their respective divisions, with regard to the resources of those divisions. It will be their special duty to know the correct amount of draft or carriage cattle, which it will be practicable to engage for the service of the public within the shortest period of time. It will also be equally incumbent on them to know correctly the exact amount of supplies at all times available for the Cavalry, and for the European and Native troops, as well as the rates at which those supplies are procurable. They will also be expected to possess the most minute knowledge of the number of Dooley Bearers at all times procurable, and available for the carriage of the sick of the Army.

16.—The success of the Commissariat will in a very great measure depend on the constant exertions, attention, and zeal

of

missary General and his Assistants, in learning with the whole of the resources of the country, and the certain and economical means of rendering those supplies applicable to the purposes of the service; and although the Honorable the Governor in Council is disposed to place the fullest reliance on the Officers whom he has been pleased to appoint to the several stations of the Commissariat, he thinks it at the same time necessary to declare, that any ignorance of that most necessary part of their duty, will be considered as a disqualification to their being further employed in the department. In order therefore that every facility be given to the Commissary General and his Assistants, in procuring the necessary information, the Commissary General is hereby authorized to correspond direct for that purpose with all Magistrates and Collectors in the territory of the Honorable Company, and the Assistants of the department are also authorized to correspond with the Magistrates and Collectors of their respective divisions. These Civil Officers will accordingly be directed to communicate fully on all points connected with the general resources of the country, with the Officers of the Commissariat department. But the success of the Commissariat will *chiefly* depend on the strict integrity of the Officers appointed to execute its duties; and the Honorable the Governor in Council relies with confidence, that those who have been selected for the appointments in the department, will never be found deficient in that most indispensable of all qualifications.

The following appointments will take place immediately.

Captain W. Morison of the 1st Battalion of Artillery to be Commissary General, with the official rank of Major, and with a seat at the Military Board, until the pleasure of the Honorable the Court of Directors shall be known.

The Native servants employed in the Grain department of the Military Board Office, will be transferred to the Office of the Commissary General, with exception of one Accountant and one common Writer, who will be required for the audit duties of that office. He will also have access to all the records of that office, connected with every department of Military supply.

The establishment of the Garrison Storekeeper of *Fort St. George*, and all the records of his office shall be transferred to the office of the Commissary General on the 1st December 1810; and such of the servants will be retained in the Commissariat office at the Presidency, as the Commissary General may think proper. The stores and buildings at present in charge of the Garrison Storekeeper shall be received under the survey of a committee, and the Commissary General will grant receipts in duplicate for all articles which he may receive from that office. One set of these receipts shall be kept by the Garrison Storekeeper, and a set shall be sent by him to the Military Board. The servants and departments of Garrison Storekeepers at outstations shall be transferred to the Officers of the Commissariat, in the manner which has been ordered to be observed, with regard to the garrison stores, &c. at the Presidency.

The Agent for the Supply of Military stores at the Presidency will transfer his office establishment, department, and records to the Commissary General; and the Officer Commanding the Dooley corps will in like manner transfer the whole of his department to the same Officer.

As

An Officer of the Commissariat department will be placed in charge of the Karkhana department in *Mysore*; but will not be considered as permanently appointed to that duty. The general Agency for Cavalry supplies will cease from the 1st of December 1810, and as the duties of the Agent for remount Horses will be conducted by the Commissariat, the appointment of that Officer will cease from the same period.

The appointments of all Barrack Masters on the establishment, on their present footing, will cease from the 1st of December 1810, at which period they will deliver over the public buildings under their charge, to Officers of the Quarter Master General's department, or to such other Staff Officers as may be ordered to receive them. The Officers of the Commissariat will from the same period supply the troops with Barrack articles, oil for the arms of corps, and supply and repair the Barrack Cots according to regulations, which will be published at a future period.

The public buildings will be received from the Barrack Masters under the surveys of a committee, who will be ordered to report their exact state in point of repair and condition, and who will also ascertain all deficiencies with reference to the last Barrack returns, which will be furnished for the guidance of the committee, by the Quarter Master General of the Army. The proceedings will be transmitted by the Quarter Master General to the Military Board and by the latter laid before Government.

The cots will in like manner be received by the Officers of the Commissariat department under the surveys of committees, who shall report their exact state. These proceedings will also be required to be forwarded to the Quarter Master General, for the purpose expressed in regard to the proceedings on public buildings; and such further orders will be given after the consideration of these papers, as may appear to the Government to be necessary.

The appointment of Deputy Judge Advocate of King's Troops shall be discontinued when vacated by Captain Barrow. 4.—Field Officers will not in future be considered eligible to hold the appointment of Barrack Master, and there will be only two situations of that denomination kept up after the 1st of December next; viz. one at *Bangalore*, and one at the Presidency. Captain Waugh the present Barrack Master of *Malabar* and *Kanara*, is accordingly appointed Barrack Master at *Bangalore*; and Lieutenant Duncombe, the Barrack Master of the Southern Division is appointed to the Presidency, and will have charge of public Military buildings at *Fort St. George*, and *St. Thomas's Mount*. That salary will be inclusive of all charges with exception of the staff pay of the Barrack Serjeants.

The Cantonment Adjutants at *Arcot*, and *Wallajahbath*; and the Fort Adjutants of *Vellore*, *Seringapatam*, and *Poonamallee*, will be charged with the same duty. These Officers

Officers will be assisted by the Barrack Serjeants at present in the department, and will each draw an extra monthly allowance of Pagodas 5 for Stationary; and they will act according to the existing regulations which relate to Military buildings. 6.—The appointments of Town Major at *Seringapatam*, and of the Fort Adjutants of *Bangalore*, and *Cannanore*, will be discontinued from the 1st of December.

Captain Taylor of the 10th Regiment of Native Infantry is accordingly appointed to be Superintendent of Bazars at *Jaulnah*, on the monthly allowance of Pagodas 100.

8.—The appointment of a Quarter Master of Brigade is considered to be necessary for the conduct of the duties at *Goa*; and His Excellency the Commander in Chief is requested to propose an Officer for that appointment.

9.—The Honorable the Governor in Council having resolved, that the appointment of the Military Paymaster General, shall be discontinued as soon as the books of that department can be brought to a close, and that the current business of that office shall cease at the earliest practicable period, it is hereby directed that all the accounts which are forwarded at present to the Paymaster General, shall from the 1st of December, be transmitted to the office of the Accountant General.

Bills will be drawn on the former from the 1st of December; and the present regulations, with these exceptions, will remain in force, until a code for the conduct of the new department shall have been prepared and published for general information.

Fort St. George, the 9th of October 1810.

GENERAL ORDERS BY THE HONORABLE THE GOVERNOR IN COUNCIL.

1.—The Governor in Council has been pleased to increase, and fix the monthly salaries of the Members of the Medical Board, as follow, viz.

1st Member	Pags. 800.
2d Member	700.
3d Member	600.

2.—The Governor in Council has also been pleased to increase the salaries of Superintending Surgeons and to fix them at Pagodas 450 per month.

3.—The Governor in Council directs that the Secretary of the Medical Board shall in future execute the duties of Superintendent of Vaccination; and receive on that account Pagodas 100, in addition to the monthly salary attached to his situation. The allowances of Pagodas 50 will also be granted to

for the monthly pay of the Native Practitioners immediately under him; but no extra establishment will be authorized, as he will derive every aid from that of the Medical Board office. He will make returns and reports as already prescribed for the Superintendent of Vaccination, and at the conclusion of every quarter, lay before the Medical Board, for report, if necessary, copies of all correspondence connected with that branch of his duty.

4.—Mr Surgeon Ord is relieved from the medical duties of the Jails and Black Town, as the General Hospital already under his charge, is considered of sufficient importance to constitute the executive duty of that Officer. The patients in the General Hospital are numerous, and require the undivided attention of the Surgeon, however diligent and active.

Mr. Assistant Surgeon Salmain is accordingly appointed to the Jails and Black Town on a monthly allowance of Pagodas 70, he is also appointed permanent Assistant to the General Hospital on an allowance of Pagodas 20 per month.

5.—Mr Surgeon Dalton Superintendent of the Lunatick Hospital, will also superintend the Native Infirmary, and give medical attendance to the Male Asylum. He will draw the additional monthly allowance of Pagodas 60 for the execution of these duties.

6.—The Medical Storekeeper at the Presidency, will be relieved from the 1st of January next, from the duty of supplying country medicines, and will from that period be charged only with the custody, preparation, and transmission, of Medical Stores. *European Medicines* will be continued to be issued from his department, according to the rules which obtain at present, and Camphor and Opium shall in future be issued as *such*, to Medical Officers charged with the attendance of European Troops.

7.—All country medicines at present supplied by the Medical Storekeeper, with exception of Camphor, and Opium, will be supplied from the 1st of January next, by Surgeons and Assistant Surgeons in charge of European troops, and in order to enable them to do so, they will be permitted to draw from that period, medical allowances at the rate of 70 Cash in lieu of 60 Cash for each man per day. The superior medical allowances which are drawn by the Surgeon of the Horse

Artillery,

Artillery, and by other Medical Officers in charge of certain detachments of Europeans will be continued, but they will supply the country medicines for the consumption of their own Hospitals, without any additional allowance.

8.—Batavia Arrack will be supplied to Surgeons of European corps, by the Contractors for spirituous liquors, at all stations, with exception of *Hyderabad*, and *Jaulnah*; but at those places that article, will be issued by the Officers of the Commissariat at the rate of 40 fanams per gallon. The rates to be paid to the Contractors, will correspond with the fixed price of the station, where the issues are made.

9.—Madeira from the Company's Stores, will be placed in the Stores of the Commissariat at the Presidency, and at out-stations, for the purpose of answering the demands of the Surgeons of European corps, and the quantities which may be issued to them from these stores, shall be paid for at such rates, as will secure the public from loss. The Indents for Wine are required to be sent quarterly to the Medical Board, and when passed by that authority, will be complied with, by the Officers of the Commissariat department. The Medical Board will lay before Government quarterly estimates of the quantity of Madeira, likely to be required at the several stations of the army during each quarter, and instructions will accordingly be given to the Commissary General for the provision of the necessary supplies. Duplicates of these estimates shall at the same time be sent by the Medical Board, for the information of the Commissary General.

10.—For the recovery of the value of the Wine, which may be issued under the sanction of this order, the Officers of the Commissariat who make the issues, shall prepare bills for the amount, and forward them to the station Paymaster, who pays the Regiment. The Paymaster will deduct the amount from the next abstracts of the Regimental Surgeon, or the estimate of the Regimental Paymaster, giving credit for the same in his public accounts, and granting a bill on the Military Paymaster General in favor of the Commissary General, for the sums thus recovered. The bills will be drawn by the Accountant General after the 1st of December next.

11.—In consideration of the loss which will be sustained by the Medical Storekeeper, at *Fort St. George* by the proposed medi-

mode of supplying country medicines, on the amount of which he has hitherto derived a certain commission, and of the important duties which will still be required to be executed by him, the Governor in Council has been pleased to fix the monthly salary of that situation at Pagodas 200.

12.—The appointment of Superintending Surgeon of the Centre Division shall be discontinued from the 1st of November next, and the Hospitals of it, shall in future be inspected by the two Junior Members of the Medical Board; in rotation. But as *Sankerrydroog*, which is within the limits of the Division, is at a distance which might render it inconvenient for the Junior Members to proceed thither, consistently with the due performance of their other duties, it is directed that the Medical department at that station, shall be controuled by the Superintending Surgeon of the Southern Division of the Army.

13.—The appointment of Staff Surgeon in *Travancore* shall also be discontinued from the 1st of November next, and Mr. Gilmour will stand appointed from that period to the situation of Staff Surgeon at *Goa*. His Excellency the Commander in Chief is accordingly requested to direct Mr. Gilmour to proceed to that station without delay.

14.—It having been brought particularly to the notice of the Government, that with thirty-one Regiments of regular Native Cavalry, and Infantry, there are only nine full Surgeons, it has appeared that such an arrangement, cannot be otherwise, than highly incompatible with the proper medical treatment of the sick of the Native army. It has therefore become the duty of the Governor in Council to endeavour to apply an immediate remedy to a system so erroneous.

15.—There are upwards of sixty full Surgeons on the establishment of *Fort St. George*; but the manner in which they have in general been distributed, has deprived the Army of the efficient services of a great part of that number. In order therefore, to complete the vacancies of full Surgeons, which are required to be filled up immediately, in the different corps, it will be necessary either to promote a great number of Assistants, or to attach to Regiments many of the full Surgeons at present appointed to fixed stations, where their services are not so necessary as with the corps of the Army. It would

be

be highly inexpedient to promote so many Assistants as are at present required to fill the vacancies of full Surgeons. That measure would be the cause of a great and unnecessary expense, and swell the list of full Surgeons beyond all proper bounds, consistently with the extent of the Military establishment of this Presidency. It has therefore been resolved to reform the present Medical establishment, and to render by means of it, the medical duties of the Army, as efficient as may be practicable, under existing circumstances.

No full Surgeons will hereafter be appointed to Garrisons with exception of *Fort St. George*, *Poonamallee*, and *Seringapatam*, and all Medical Officers of that rank, now holding the situation of Garrison Surgeon, with these exceptions, will be considered from the 1st of January 1811, to be disposable to be appointed, and attached to Regiments. Assistant Surgeons will be appointed to execute the Medical duties of the Garrison of *Ganjam*, *Vizagapatam*, *Jagersm*, *Masulipatam*, *Cuddalore*, *Negapatam*, *Cannanore*, *Trichinopoly*, *Vellore*, *Bellary*, and *Bangalore*. Assistant Surgeons of not less than three years service in *India* will be considered eligible to be appointed to these Garrisons; and the Commander in Chief is requested accordingly to recommend for them. The Assistant Surgeons appointed to *Masulipatam*, *Trichinopoly*, *Bellary*, and *Cannanore*, will also be charged with the duties of Deputy Medical Storekeepers, and shall draw a monthly staff allowance of Pagodas 40; and those that are appointed to the remainder of the above stations, will each receive a staff allowance of Pagodas 20. The management of the Medical Stores at *Seringapatam*, and with the *Hyderabad* force, will be continued as at present.

Full Surgeons are considered ineligible to be appointed to Residencies, or to Zillah Courts, and the Medical Officers of that rank now doing duty with either of these branches of the Civil Service, will in like manner with the Garrison Surgeons above detailed, be attached to corps on the 1st of January next, with the exception of Mr. Ingledew at *Mysore*, and Mr. Jefferies at *Poona*, whose appointments have been confirmed by the Supreme Government. Assistant Surgeons of not less than 4 years service will be appointed to Zillahs when necessary. The medical duties of the Northern and Southern Circuit

Courts

Courts will respectively be performed by the Senior Regimental Surgeons at *Masulipatam* and *Trichinopoly*; and the Circuit Court at *Chittore* from its peculiar situation will be allowed for the present the services of the full Surgeon now attached to it.

The Governor in Council will provide for the performance of the medical duties of the Zillahs, which may be deprived by this order of medical assistance, by the appointment when necessary, of Assistant Surgeons of not less than four years service, and the Commander in Chief is requested to complete, as far as may be practicable, the vacancies in the several corps of the Army, agreeably to the following establishment, viz.

	Full Surgeon.	*Assistant Surgeon.*
Horse Artillery	1	1
8 Regiments of Native Cavalry	8	8
2 Battalions of Artillery	2	4
1 Regiment of European Infantry	1	1
23 Regiments of Native....do.	23	46
2 Battalions of Pioneers		2
Total	35	62

The Honorable the Governor in Council, in consideration of the number of public followers attached to Regiments of Native Cavalry, and of the accidents to which the men of that line of the service are continually subject, in the execution of their common duty, has been pleased to direct, that medical allowance at the rate of ten Pagodas for every hundred effective men shall be drawn by the Surgeons and Assistant Surgeons in charge of corps of that description, and that five Pagodas for every hundred men shall be drawn for the effective strength of corps of Native Infantry. These allowances will be drawn whether the corps be in the field, or in garrison, and will commence with the accounts of arrears for the month of November next.

The Honorable the Governor in Council is sensible that in carrying into effect these necessary arrangements, it will not be practicable to avoid occasioning considerable inconvenience to individuals, but as all Medical Officers, properly belong to the Military department, they will be aware that their services

should

should at all times be held disposable for it alone; and when they may be employed on Civil duties, that it can only be considered as a matter of indulgence.

By order of the Honorable the Governor in Council.

Sec. to Government.

Fort St. George, the 9th October 1810.

C. O. BY THE COMMANDER IN CHIEF.

His Excellency the Commander in Chief has perused with regret the following G. O. by the Honorable the Governor in Council of *Bombay*, which is published to the army under this Presidency, for general information.

"GENERAL ORDERS."

"BOMBAY CASTLE, 29TH SEPTEMBER 1810."

"The Honorable the Governor in Council, having had "repeated occasion to observe, that Officers resorting to "*Bombay* for the benefit of their health from the Military "establishment of *Fort St. George*, delay, without appa- "rent necessity, their applications for leave to go home "on sick certificate until there is no longer time to obtain "an answer from their own Government; thereby "obliging that of this Presidency to extend its sanction "to their departure under circumstances, which cannot "be here so appropriately determined on, as at *Ma- "dras*."

"It is accordingly signified, that, in future this "Government will not be disposed to exercise any "extraneous interposition of this description, unless in "those special instances, in which it may be clearly made "to appear, that the Officer's application for leave could "not reasonably be expected to have been preferred in "due time, to the Government of the Presidency to "which he belongs."

The Commander in Chief will expect from every individual Officer of this establishment a strict attention to the spirit, as well as letter of the above order and trusts, that in future the Officers of the Coast Army will only be noticed in the Orders of the other Presidencies on such occasions as may occur to mark their attention and regard to Military discipline.

G. O. By Government.

The Honorable the Governor in Council is pleased to publish for the information of the Army, the following extract of a general letter from the Honorable the Court of Directors dated 25th April 1810.

To England 21st October 1807. Para. 438-439, noticing that a greater number of Field Officers are on furlough than the regulations allow.

Para. 158.—"On the remark in the "439th Para. relative to Field Officers who "have remained on furlough for a very "long period, we have to observe, that "this has arisen from the ill health of those "Officers who have therefore been permit-"ted to remain in *Europe* longer than the "time generally limited by the regulations, but on this subject "of the stay of Officers in *Europe* beyond the period of their "furloughs, we intend to issue general and strict prohibitory "regulations."

468. Memorial from the corps of Engineers.

174.—"We have taken into considera-"tion the memorial of the Engineer Of-"cers, and being satisfied by their repre-"sentation,

" sentation, that the promotion in that corps has not kept pace " with that of the other branches of the Military Service, we " have resolved upon the following establishment for the " Engineers."

Present Establishment.	
1 Colonel.	One Colonel.
1 Lieutenant Colonel.	Two Lieutenant Colonels.
1 Major.	Two Majors.
4 Captains.	Nine Captains.
4 Captain Lieutenants.	Eight Lieutenants.
8 Lieutenants.	Eight Ensigns.
8 Ensigns.	

175. " This establishment is to be considered as having " effect from the 1st January 1806, but the Officers of Engineers " who are promoted in consequence are to receive only the " difference of pay from that date."

483 to 89, proceedings relative to Captain Seton, subsequent to his dismission from the service by sentence of a General Court Martial.

188.—" The very extraordinary conduct " of Mr. Seton after he was dismissed from " our service by the sentence of a Court " Martial, as communicated in these para- " graphs and the proceedings to which " they refer, fully justified your resolutions " regarding him: Mr Seton has applied " to us to be re-instated in our service, but it is almost needless " to say, his application has been rejected."

583 to 8, on the subject of a memorial addressed to the Supreme Government by Lieutenant Colonel St. Leger of the Cavalry, complaining of injury by certain appointments of King's Officers to Commands &c.

223.—" Having in our separate letter of " the 12th June 1807, directed the aboli- " tion of the appointment of Inspecting " Officer of Cavalry, to which Lieutenant " Colonel St. Leger in his address to your " Government of the 17th August 1807, " has urged his pretensions in preference " to Colonel Gillespie then in possession of " the appointment, and having in the same " despatch discussed at a considerable length the several sub- " jects of complaint contained in Lieutenant Colonel St. Le- " ger's memorial to the Governor General in Council of the " 28th August, 1807—it is unnecessary to enter into the " consideration of the circumstances which have been brought " forward in that memorial."

224.—" But whatever may have been the opinion of Lieu- " tenant Colonel St, Leger as to his preferable claim to the " offices abovementioned, your rejection of that claim could not

" have

" have constituted any ground for the proceeding subsequently
" adopted by him in addressing a memorial to the Supreme
" Government in which he has not confined himself to the
" particular instance of Colonel Gillespie's appointment, but
" has introduced a variety of cases of alleged grievance suffered
" by his Brother Officers although not complained of by them,
" nor does he appear to have had their sanction for stating
" their supposed grievances."

225.—" The Government under which he served was ex-
" clusively competent to decide upon the sole point on which
" the first address from Lieutenant Colonel St. Leger was
" founded, and would have been justified in withholding their
" assent to the transmission of his memorial to the Supreme
" Council. If an appeal were thought necessary it should have
" been made to the Court of Directors, but on an attentive
" perusal of the minutes of your late President and Commander
" in Chief upon that point, we can see no objectionable ground
" for such a measure, this proceeding was the less excusable
" in Lieutenant Colonel St. Leger from his knowledge of
" the recent arrangements regarding His Majesty's warrant
" of March 1805, for the effects of which he had waited,
" conformably to the request of Sir John Cradock, it is pro-
" bable all ground of complaint would have been removed."

226.—"On a deliberate view of all the circumstances re-
" corded on your proceedings to which the paragraphs under
" consideration refer, the conduct of Lieutenant Colonel St.
" Leger has our decided disapprobation."

589 to 98, disapprobation of the conduct of Lieutenant Colonel Alexander Cuppage in forwarding disrespectful applications to Government.

227.—" We have perused the papers
" referred to in these paragraphs together
" with Lieutenant Colonel Cuppage's me-
" morial mentioned in a subsequent para-
" graph (728 &c.) upon the same subject,

228.—"Whatever feelings of dissatisfaction Colonel Cuppage
" may have experienced on the publication of the order ap-
" pointing Colonel Hare to the command of *Nundydroog*,
" his letter to the Governor in Council of the 17th July 1807
" was in a high degree objectionable, and we are surprized
" that he should have transmitted that address to the Governor
" in Council in opposition to the advice of the Commander

" in

" in Chief, or should have hesitated to apply for permission
" to withdraw it, after his communications with Lord
" William Bentinck, in which he must have been fully ap-
" prized of the circumstances under which Colonel Hare's
" appointment had taken place.

229.—" On these communications we shall only observe,
" that they evinced a strong desire on the part of his Lordship
" to avoid the necessity of having recourse to any measure of
" severity; it is stated in Colonel Cuppage's Letter of the 26th
" August 1807, that his letter to the Commander in Chief
" recorded on that day but written on the 27th July preced-
" ing, had been shewn to the Governor, from whom Colonel
" Cuppage learned that certain obstacles opposed the admission
" of the explanation contained in that letter, but received
" assurances of consideration. The particulars of what passed
" in the conversations which took place between the different
" parties concerned in this transaction not being before us,
" we cannot say whether this letter ought to have been placed
" upon the records at the time it was received by the
" Commander in Chief. On the contents of it, however, we
" must observe, that though it disclaims any intention of
" giving offence by the former letter of the 17th July and
" expresses Colonel Cuppage's regret at having been misun-
" derstood, it does not acknowledge any impropriety in the
" language of that paper, but appeals with confidence to the
" interpretation which the Commander in Chief upon reconsi-
" deration of the subject will give it, nor can we consider it as
" sufficient, for an Officer having transmitted a letter so
" justly deemed offensive by his Government as that of the
" 17th July 1807, simply to declare to the Commander
" in Chief, with a view to its removal from the records, that
" he is " willing" to withdraw it without making any
" request or expressing any desire on his part that it
" should be removed; on the whole, we are unable to
" discover in the proceedings of Colonel Cuppage with
" reference to the letter under consideration any circum-
" stances, which should have protected that Officer from
" the displeasure on the part of our Government, which the
" contents of that paper was calculated to excite. The
" justice of your remarks on the " spirit of insubordination"
" and " cabal" among the Officers of the Madras Army has

" been

" been fatally verified, though, we trust that the consequences " which have resulted from the manifestation of that spirit " will ultimately tend to crush and extinguish it.

(857 to 859) memorial of Lieutenant Colonels Taylor and Marriott on the date of their promotion in consequence of the dismission of Colonel Oliver.

342. " On the 19th November 1806 " we came to the resolution to dismiss " Colonel Oliver from our Service; the " promotions in consequence are to take " effect from the following day, conformably with the regulation, which " directs promotion to take place from " the date of any casualty occurring in Europe."

G. O. By Government.

The Honorable the Governor in Council is pleased to publish for the information of the Army, the following extracts of general letters from the Honorable Court of Directors.

Letter dated 4th May 1810.

2d. "We have received an official communication that His "Majesty has been graciously pleased to approve of Major "General Frederick Augustus Wetherell being placed upon "the Staff of the Army serving in the *East Indies*."

3d. "We have appointed the Reverend Charles Henry "Sampson a Chaplain on your establishment."

4th. "We lately took into our consideration the state of our "Artillery and Engineer corps at your Presidency, and "with a view to ensure in future an adequate supply of "properly qualified Officers, we have established an institution under our immediate controul and superintendence, "for the express purpose of educating young men destined "for this line of service. We anticipate many advantages "from the measure, and we look forward not merely to a "more effectual and expeditious mode of filling up the several "vacancies, in this branch of our service, as they occur; but "we may reasonably expect that such Cadets as we shall "hereafter send out, will be well grounded (previous to their "leaving this country) in every branch of theoretical and "practical knowledge requisite for forming the complete "Artillery and Engineer Officer."

5th. "In this institution, among other studies, we have "embraced that of the Persian and Hindostanee languages, "whence we trust, you will no longer find it necessary to "detain Officers any length of time at your Cadet establishment in order to their completion in this necessary part of "education."

Duncan Sim,
John Coventry,
Robert Hopper,
Alexander Anderson,
John Gamage.

6th. "The urgent necessity which appeared to us to exist for filling up the several vacancies in your Artillery and Engineer corps, as early as possible, "has induced us to permit the several young Gentlemen "(whose names are mentioned in the margin) to proceed to "your

" your Presidency by the present fleet and although the " limited residence of several of them at our Military Semi- " nary has indisposed the Superintendent and Public Examiner " to declare his opinion of their complete qualification for " commissions in the corps of Engineers which requires " the more scientific branches of a Military education, (an " observation which we make at the request of, and in justice " to Colonel Mudge) we nevertheless assure ourselves that " few Cadets have ever been sent out to *India* better qualified " than the present."

7th. " From the very favorable reports which we have " received from time to time of the assiduity and unblemished " deportment of these young men, their close attention to " their studies and their strict subordination and obedience " to their superiors during residence at the institution, we " are induced to entertain a very favorable opinion of their " character and abilities, and we trust that their future " conduct and proficiency will amply compensate us for our " care and liberality in fitting and preparing them to pursue " with credit to themselves and advantage to the public " service so honorable a profession."

8th. " As it has hitherto been your practice to examine " into the abilities and qualifications of the several Cadets, " intended for our Artillery and Engineer service, previous to " their being posted to either of those corps, we direct that " you pursue the same method with respect to the Cadets " now proceeding, and we further desire, that you transmit " us a report of the result of such examination together with " any observation you may think necessary to make on their " respective attainments, or which may appear to you as likely " to conduce to the ultimate object of our wishes, the future " success of this Institution.

9th. " We have permitted the following Military Officers " to return to their rank on your establishment, viz.

" Major George Custance,
" Captain E. W. Smythies,
" Captain J. Rimington,
" Lieutenant Stephen Rolleston."

10th. " We have appointed the following persons Assistant Surgeons for your Presidency, viz.

" John White,
" Alexander Ras,

11th,

11th. "In the fifth paragraph of our Military letter to your Presidency dated 28th January 1807, we informed you, that we had appointed Mr. John Fulton, late Midshipman on board the Lord Nelson (but who was at that time confined a Prisoner of War in France) a Cadet for the Infantry on your establishment of the season 1806. Mr. Fulton having effected his escape from confinement, we have permitted him this season to proceed to his duty at your Presidency: Mr. Fulton's pay is to commence from the time of his arrival in *India*."

12th. "We have permitted Mr. William Stewart to proceed to *Madras* by one of the ships now under despatch, with a view to his being appointed a Cadet of Infantry on that establishment, upon his completing his sixteenth year. His order of rank will be transmitted to you at a future opportunity.

Letter dated 9th May 1810.

To England 21st October 1807.
772. Establishment of a Medical Fund, Court's protection & patronage solicited.
773. Meeting of Officers permitted for establishment of a Military Fund of the same nature.

2d. "We have attentively perused the proceedings referred to in these paragraphs and in your subsequent letters of the 24th December 1807, para. 44, and 29th February 1808, para. 89 and 90, upon the institution of the Medical and Military Funds."

3d. "We highly approve the principles of such institutions and are much gratified to find they are becoming general throughout our settlements; with regard to the regulations established for the different funds as far as a cursory examination of them enables us to speak, they appear well adapted to the objects in view and to make reasonable provisions for those who are to receive benefit from the funds."

4th. "The Military Fund instituted at your Presidency we remark embraces the Medical establishment and it would thence seem unnecessary to have a separate Medical Fund, but as the regulations for the latter in some respects differ from those of the Military Fund, we conclude the parties interested have thought it most eligible to have a separate fund for the Medical establishment and to this we do not mean to offer any objection.

5th,

5th. "In testimony of our approbation of these institutions, "and in view to promote the benefits thence derivable to our "Military and Medical Servants, we hereby authorize you to "subscribe on the part of the Company the sum of Pagodas "five thousand per annum to the Military, and of Pagodas "1000 per annum to the Medical Fund."

G. O. BY GOVERNMENT.

The Honorable the Governor in Council having been pleased to resolve, that a certain sum of money shall be paid as a gratuity

gratuity to the troops who were employed in the territories of the Rajahs of *Travancore* and *Cochin*, at any period between the 30th of December 1808, and the 24th of February 1809, which are considered the dates of the commencement and suspension of hostilities; Officers in command of corps or detachments employed in the countries of *Travancore* and *Cochin*, within the periods above specified, will forward to the Secretary of the *Seringapatam* Prize Committee at *Fort St. George*, rolls of those corps and detachments, specifying such individuals as have been invalided, pensioned, or discharged—or who have died or deserted, or otherwise left the service; and in all cases where such individuals as may be deemed entitled to share in the gratuity were not furnished with certificates of their service in *Travancore* and *Cochin*, before leaving their corps, Commanding Officers will adopt measures for transmitting certificates to them.

Officers who were on the staff and may not be included in the rolls of corps or detachments will transmit their claims individually, to the Secretary to the *Seringapatam* Prize Committee.

Garrison and Cantonment committees to be assembled for the purpose of receiving the claims of invalided, pensioned, or discharged Soldiers, and for ascertaining the heirs of those deceased, who may be entitled to share in the gratuity;—the proceedings of these committees to be forwarded likewise to the Secretary of the *Seringapatam* Prize Committee.

The claims of corps and individuals to share in the *Travancore* gratuity, not on foreign service or stationed at *Ceylon*, are directed to be sent in to the Committee on or before the 1st day of February 1811, after which no further claims with the exceptions abovementioned will be attended to.

Claims of corps and individuals on foreign service are to be sent in to the Committee with the least possible delay.

The parties preferring claims to share in the gratuity are directed to forward at the same time all such vouchers as they deem requisite in support thereof for the purpose of preventing unnecessary delay.

Orders will be issued for paying the amount of the gratuity which may be due to corps or individuals on receipt of the Committee's report on their respective claims for the final decision of Government.

G. O. BY THE COMMANDER IN CHIEF.

The following extracts from the confirmed proceedings of a General Court Martial assembled at *Seringapatam* on Saturday the 10th day of November 1810 and continued by adjournment until Wednesday the 14th of the same month, in virtue of authority from His Excellency the Commander in Chief, and of which Lieutenant Colonel J. Lindsay of the 6th Regiment Native Infantry, is President, are published to the Army.

SERINGAPATAM, OCTOBER 19, 1810.

CRIME.—Timothy Driskell Private His Majesty's 33d Regiment, confined on the following charges,

For

For frequent acts of insubordination subversive of Military discipline, particularly in the following instance.

Mutinously striking Lieutenant Longden the Adjutant of the Regiment, when he Timothy Driskell was Prisoner in the Barrack Guard, he having previously declared his intention to do so, and to resist by that means a regimental order. (Signed) ARTHUR GORE

Lieut. Col. 33d Regt.

BY ORDER,

(Signed) T. H. S. CONWAY,

Adjutant General of the Army.

SENTENCE.—The Court having maturely weighed the evidence against the Prisoner, as well as what he has urged in his defence, are of opinion, that he is guilty of the two first parts of the charge, viz.

1st.—For frequent acts of insubordination subversive of Military discipline.

2d.—For mutinously striking Lieutenant Longden the Adjutant of the Regiment when he Timothy Driskell was prisoner in the Barrack Guard: but acquit him of the latter part, viz.

"He having previously declared his intention to do "so, and to resist by that means a regimental order."

The Court finding the prisoner Timothy Driskell guilty in the abovementioned instances, which are a breach of the articles of war, do consequently sentence him the said Timothy Driskell to receive (1300) thirteen hundred lashes on his bare back in the usual manner; at such time and place, as the Officer confirming the sentence may think proper to direct.

(Signed) J. LINDSAY,—LIEUT. COLONEL *and President.*

CONFIRMED.

(Signed) S. AUCHMUTY, LIEUT. GENERAL.

(Signed) G. W. AUBREY,—LIEUT. *1st Bat. 2d Regt. N. I. Act. Dep. Judge Advocate.*

In publishing the above sentence, the Commander in Chief thinks proper to observe, that in his opinion there are not any circumstances stated on the proceedings, that so far alter the nature of the crime, as to warrant the lenient award of the Court, and that his duty to His Majesty, and his attention to the troops entrusted to his charge would have impelled him, to have

have ordered the execution of the prisoner, if he had been capitally convicted.

By the decision of the Court Martial, his life has been spared and the Commander in Chief has determined, tho' he cannot approve of the Sentence, to confirm the proceedings, trusting that this expression of his sentiments may have the effect, which a more awful example was certain to have produced, and that the repetition of so atrocious an act under the mistaken idea, that circumstances can palliate the guilt of the offender, may be prevented. Should the Commander in Chief be disappointed in this hope, the discipline of the Army will imperiously demand the severest remedy and the Commander in Chief declares his determinaton to carry into effect, whatever punishment may be awarded for so serious an offence.

The Officer Commanding in *Mysore* will direct the execution of the above sentence, in obedience to orders that will be sent to him for that purpose.

The Commander in Chief directs that the foregoing charge and sentence together with his decision thereon, shall be read at the head of every European corps and detachment at three successive parades.

Upon the promulgation of these orders at *Seringapatam* the General Court Martial of which Lieutenant Colonel J. Lindsay of the 6th Regiment Native Infantry is President, will be dissolved.

HEAD QUARTERS: CHOULTRY PLAIN, *15th December* 1810.

G. O. BY THE COMMANDER IN CHIEF.

The Commander in Chief has lately received copies of various complaints which have been transmitted to the Government, from the Magistrate of the zillah of *Ganjam*, against certain Officers of the Army, who have presumed to inflict corporal punishment on persons over whom they had no legitimate controul, and even to mal-treat the Native Officers employed, under the authority of the Magistrate, in the direction of the interior duties of police in the zillah of *Ganjam*.

The Commander in Chief deemed it to be his duty to ascertain, that the complaints were well founded, before he proceeded to act upon them.—He directed the necessary enquiries to be made, and called on the parties accused to reply to the accusation.—Their answers have admitted the fact of their unauthorised assumption of authority; and, whatever weight may be given by the proper authority to the circumstances of provocation, which they have stated in palliation of their offences, it becomes the duty of the Commander in Chief thus publicly to record his strong disapprobation of their conduct.

When the behaviour of any public servant of the Government, in the police or other departments, is such as to require correction, the parties aggrieved by such misconduct have a regular channel for obtaining redress, by an application to the superior

superior Civil authorities in the district, or, if necessary, to the paramount authority of the Government; and complaints regularly made, on reasonable and just grounds, will assuredly meet with attention:—but, when Military Officers arrogate to themselves powers, which the regulations of the Government have expressly and exclusively entrusted to the Civil Magistrates, they must not expect to escape the punishment which attaches to a breach of established orders, nor will that punishment in future be limited to the expression of censure.

That the character of the Officers of the Army at large, may not be subjected to imputation from the culpability of a few, the Commander in Chief deems it necessary to name the Officers whose irregularity of conduct has called for this animadversion; and thus publicly to censure Captain John Simons of the 11th Regiment of N. I. for an undue assumption of authority, in causing certain grain dealers on the bazar of *Chicacole* to be flogged; and Lieutenant James Jobson, and Assistant Surgeon Gibbon of the 4th Regiment of N. I. for striking and otherwise mal-treating, at different times, the Cutwalls of villages in the zillah of *Ganjam*, whose conduct had given them cause of offence.—The contrition these Officers have expressed, with circumstances which they have stated in excuse, have in the present instance induced the Commander in Chief to confine his notice of their error to the expression of his disapprobation; but he desires it may be fully understood that "irritation and passion" cannot be admitted as justifying the breach of positive regulation, or any deviation from that respect which is due from every member of the community to the Officers, or subordinate Agents of the Civil power.

The Honorable the Governor in Council is pleased to publish for the information and guidance of the Army, the following Regulation for facilitating the progress of detachments of troops through the Company's territories, &c.

A. D. 1810. REGULATION III.

A REGULATION *for facilitating the progress of detachments*

ments of troops through the Company's territories; for affording any requisite assistance to persons travelling through the territories; and for the guidance of the Civil Officers in applying for Military guards. PASSED *by the Governor in Council of Fort St George, on the 6th November* 1810; *corresponding with the* 23d *Urpeee of the Year Prumadoota* 1731*st year of Saleewagune, and with the* 8*th Sauwwal* 1225 *Hijree.*

Preamble. Whereas it is expedient to enact into a regulation, for general information and observance, the rules for facilitating the progress of military detachments through the Company's provinces; for ascertaining and defraying any necessary expence incurred for that purpose and for providing a compensation, when any material damage may be sustained in the cultivation of the country from the march or encampment of troops; whereas it is also judged proper to command the local Officers of police to afford such reasonable assistance as may be required by travellers (whether European or Native) proceeding through their respective jurisdictions in procuring the means of prosecuting their journies; and whereas it is farther necessary to establish rules prohibiting, with certain exceptions, the use of the uniform of the Company's native troops; the sending of sepoys or lascars into villages for the purpose of procuring provisions; or of pressing coolies, cartmen, bullockmen, boatmen, or others, and the employing of badged peons or other public servants wearing badges; and whereas it is likewise necessary that fixed and defined rules should be established for the guidance of the Magistrates and other Civil Officers in applying for detachments, guards or escorts for the public service from the regular battalions; the following rules have been enacted to be in force throughout the whole of the provinces subject to the immediate government of the presidency of Fort St. George, from the date of their promulgation.

Timely notice to be given to Collectors and Magistrates by Officers Commanding detachments, proceeding throughout any part of the Company's territories.

II. Whenever a detachment of troops, or a single corps shall be ordered to proceed, through any part of these territories, the Commanding Officer of such detachment or corps is required to give the earliest practicable notice to the Collectors of the revenue of the zillas, through which the troops are to pass,

of

of the probable times of their arrival within the district, and the particular places where supplies may be required, together with a specification of the supplies which will be wanted. The Commanding Officer shall likewise notify to the Collectors the probable period of the arrival of the troops at any rivers or nullahs intersecting their march, where boats or temporary bridges may be necessary for crossing the troops, and the baggage attached to them. The Commanding Officer shall at the same time communicate to the Magistrates of the zillas through which the troops are to pass, the probable time of the arrival of the troops within their respective jurisdictions.

In what manner the Collector shall proceed on receiving the above notice.

III. *First.* On receiving the notification mentioned in the foregoing section, the Collectors shall immediately issue the necessary orders to the landholders, farmers, tuhseeldars, or other persons in charge of the lands through which the troops are to pass, for providing the supplies required; and for making any requisite preparations of boats or temporary bridges, or otherwise, for enabling the troops to cross such rivers or nullahs, as may intersect their march, without any impediment or delay. The Collector shall at the same time depute a creditable Native Officer to accompany the troops through his jurisdiction, for the purpose of aiding in procuring the necessary supplies, and of facilitating the march of the troops. It shall be the duty of such Native Officer to provide the troops with whatever bearers, coolies, boatmen, carts, and bullocks, may be indispensably necessary to enable the troops to prosecute their route. Should he experience any difficulty in the performance of this duty, he is at liberty to apply for assistance to the nearest police Officer, who is directed to afford his aid in providing the number of persons, and of carts and bullocks, required.

Police Officers to assist in providing bearers, coolies, boatmen, carts, and bullocks.

At what rates supplies furnished to troops marching through the Company's territories, shall be paid for.

Second. The supplies furnished under the foregoing clause (including earthern pots, firewood and every article of supply) shall be paid for by the persons receiving the same, at the current buzar prices of the place at which they may be provided; and all Officers commanding detachments of troops marching through any

any part of the Company's territories, are strictly enjoined to make immediate enquiry into any complaints which may be preferred to them by the persons furnishing such supplies, or in their behalf against any person or persons under their command, and to afford such redress to the complainants as the nature of the case may appear to require.

Certificate to be granted by the Commanding Officer, when troops shall be provided with boats, bridges, or other accommodations, under this regulation, to enable them to prosecute their route.

IV. *First.* Whenever a detachment of troops or a single corps, shall be provided with boats, temporary bridges, or other accommodations, by any landholder, farmer, tuhseeldar, or other person, for the purpose of crossing the troops and their baggage over rivers or nullahs, conformably to the orders of the Collector of the zilla, the Commanding Officer of such detachment, or corps, shall grant a certificate to the person furnishing the same, specifying the number of boats and persons employed, the burthen of each boat, and how long employed on the public service. In instances, in which temporary bridges or rafts may be constructed for the above purpose, the certificate to be granted by the Commanding Officer is to specify generally, the dimensions of the bridges or rafts and the materials of which they may be composed.

Such certificate to be transmitted to the Collector by the person receiving it, with a detailed account of the expense incurred.

The account to be transmitted by the Collector to the Commanding Officer.

What to be certified thereon by the Commanding Officer.

Second. The certificate, mentioned in the foregoing clause, shall be immediately transmitted to the Collector of the zilla, by the person receiving it, accompanied by the detailed account of the expense incurred for the purposes therein specified. The Collector shall without delay, communicate the particulars of the account to the Officer Commanding the detachment, or corps, on whose account the expense may have been incurred, who shall certify generally thereon, whether the services charged for in it were performed, or shall state such exceptions as he may have to offer to any of the charges.

The account and vouchers to be transmitted by the Collector, with his report on the charges there-

conformable to the usual rate of labor, and hire in the zilla; and shall transmit the account, with the vouchers and certificates relating to it, with any requisite observations thereupon, through the prescribed channel to the Governor in Council. After the account shall have undergone the examination and report, prescribed for all military contingent charges, the Governor in Council will pass such final order as may appear proper.

In the mean time the Collector is empowered to pay such proportion of the charge, as he may consider reasonable, inserting the amount at the foot of his treasury account.

In the mean time the Collector is empowered, in such cases, to pay the amount of the charge, or such proportion of it as he may consider reasonable, to the landholder, farmer, or other person entitled thereto; inserting the amount so disbursed at the foot of his treasury account, in explanation of his treasury balance, in the mode prescribed for similar cases.

In what manner landholders and other persons farming or holding land, are to proceed, who shall have sustained any injury from the march or encampment of troops.

Certificate to be granted by the Commanding Officer on such occasions.

V. *First.* Whenever a proprietor, farmer, tenant, or manager of land, through which any detachment or corps of His Majesty's or of the Company's troops may march, or on which they may be encamped, shall consider himself entitled to compensation for any injury sustained from the march, or encampment of the troops, he shall immediately furnish the Commanding Officer of such troops, with as accurate a statement as can be prepared of the nature and extent of the injury sustained; when the Commanding Officer is required to certify generally thereon, whether or not the damage represented to have been sustained has been actually committed, together with his opinion respecting the justice and extent of the claim.

The person receiving such certificate is at liberty to present the same with a statement of his claim to the Collector within ten days from the date of the certificate.

Exception to the foregoing rule.

Second. If the proprietor, farmer, tenant, or manager, after receiving such certificate, shall consider himself entitled to compensation, he will be at liberty to present the statement of his claim with the Officer's certificate thereon to the Collector of the zilla (either in person or by his vakeel) within ten days from the date of the certificate, but no claim of this description shall

shall be received by the Collector, after the expiration of that period, unless the person preferring it shall assign good and satisfactory reason for the delay.

Rule for the conduct of the Collector on receiving such statement and certificate.

To report his proceedings to the Board of Revenue for the orders of Government.

With the exception specified in this clause no claim will be received, unless accompanied by the prescribed certificate of the Commanding Officer.

Third. The Collector on receiving a statement of damage, and the Commanding Officer's certificate thereon, within the prescribed period, or afterwards if sufficient reason be assigned for the delay, shall forthwith adopt such measures as may appear requisite to ascertain whether or not the claim be well founded, and shall report his proceedings to the Board of Revenue, accompanied by his opinion on the merits of the claim, for the consideration and orders of Government. It is however, declared that no claim will be received, unless accompanied by the prescribed certificate of the Commanding Officer of the troops, by whom the damage may be stated to have been committed; excepting in instances, in which the claimant can shew good and sufficient cause for not having obtained such certificate. In such cases, if the Collector be satisfied with the cause assigned by the claimant for not having obtained the prescribed certificate, he shall transmit the petition and statement of the claimant to the Officer Commanding the troops by whom the damage may be stated to have been committed, and shall wait his reply thereto, previously to determining whether or not the claim be entitled to investigation.

In what manner the Magistrates are to act on receiving the notice mentioned in Section II.

In what manner police Officers are to assist, in facilitating the march of troops.

VI. Immediately on receiving the notification mentioned in section II, the Magistrate shall transmit orders to the several police darogahs, or other local Officers of the police on the route of the troops, to afford every assistance in their power to facilitate the march of the troops through their respective jurisdictions; and to co-operate, as far as necessary, with the person deputed on the part of the Collector, in procuring the requisite supplies; as well as in adjusting any disputes, which may arise respecting the prices of the articles furnished, and in preventing any alarm to the inhabitants of the country.

VII. Officers

What report to be made to the Commander in Chief, by Officers Commanding troops on their march through the Company's territories.

In certain cases, any misbehaviour of the troops to be reported by the Collectors to the Board of Revenue, and by the Magistrates to the Governor in Council.

VII. Officers Commanding detachments of troops, or single corps, on their march through any part of the Company's territories, are required to report to the Commander in Chief, in what manner the troops have been supplied, in passing through the districts in their route. In like manner, the Collectors are directed to report to the Board of Revenue and the Magistrates to the Governor in Council, any complaints which may be made to them of the misbehaviour of the troops, whenever such complaints shall appear to be well founded, and of sufficient importance to require communication to Government.

Police Officers are empowered, in cases of necessity, to assist travellers in prosecuting their route.

VIII. Whenever any Military Officer, not commanding, nor proceeding, with a corps, or detachment of troops, or any other person (whether European or Native) not restricted by Government from passing through the country, may be proceeding within any part of the Company's provinces, either on the public service, or on his private business, and shall be in need of assistance during his route, to enable him to prosecute his journey, he shall be at liberty to apply to the nearest local Officer of police to aid him in providing any requisite bearers, coolies, boatmen, carts, or bullocks, or any necessary supplies of provisions, or other articles.

In what manner such assistance shall be afforded.

On receiving an application of the above nature, the police Officer to whom it may be made, shall furnish the aid required, or cause it to be furnished by the proper person or persons; provided that a sufficient number of persons who have been accustomed to act as bearers, coolies, or boatmen, or the requisite number of carts and bullocks, not exclusively appropriated to the purposes of agriculture, and occasionally let for hire, can be procured within his jurisdiction. But all police Officers are strictly forbidden, under pain of dismission from office, (under the rules prescribed by Regulation I, 1809,) on applications of the above nature, to compel any persons, not accustomed to act as bearers, coolies, or boatmen, to serve on such occasions, or to furnish a traveller, or cause him to be furnished,

Persons and carts, and bullocks, of certain descriptions, not to be employed in furnishing such assistance.

Penalty for a breach of the above rule.

Persons employed under this section to be at liberty to return from the first police station in the next zilla, unless they may have engaged to the contrary.

nished, with bullocks or carts, kept for private use and not for hire, or exclusively appropriated to the purposes of agriculture. Persons so employed, and the persons in charge of carts and bullocks so provided, shall be at liberty to return from the first police station in the next zilla through which the corps or detachment is to march, unless a voluntary engagement to the contrary may

be entered into by such persons. The police Officers are further enjoined to be careful, that a proper compensation for the bearers, coolies, boatmen, carts, or bullocks, employed, and a just price for the provisions or other articles provided, be secured to the persons entitled thereto; for which purpose, the police Officers are authorized to adjust the rate of hire to be paid for the bearers, boatmen, carts, or bullocks, required, and the price of any articles provided. Should any traveller refuse to comply with the adjustment so made by a police Officer, he will not be entitled to any assistance from the Officers of Government under this regulation.

Prohibition against private servants appearing dressed like sepoys and lascars, with certain exceptions.

IX. *First.* All persons, whether European or Native, within the Company's provinces, (excepting such privileged persons as the Government may specially exempt from the operation of the rule contained in this section) are positively forbidden to dress any of their servants, either for the purpose of parade or of business, in the uniform of the Company's sepoys and lascars, or in a dress so nearly approaching to that uniform, as to enable the persons wearing it to impose themselves on the country people for sepoys and lascars.

The above rule extended to all natives, with certain exceptions.

Second. All natives, excepting those actually in the Military service of the Company, or belonging to persons specially exempted by Government from the operation of this rule, are forbidden to wear a dress similar to that mentioned in the foregoing clause.

Officers of every description not to clothe their public servants with a military dress.

Third. Officers of every description, employed in the service of the Company, who are allowed establishments of peons, in their official capacity, or who may have occasion to employ persons of that description, in such capacity, are prohibited from clothing them with a military dress.

Fourth. With

What Officers are employed to deprive of a military dress any person who shall wear it in opposition to these orders.

Fourth. With the view of giving full effect to the orders contained in the preceding clauses, the Military Commanding Officers of stations, and of detachments, in the interior parts of the country, and the several zilla Magistrates are hereby authorized and required, to deprive of a military dress any person who shall wear it contrary to these orders. The local Officers of police are also empowered and directed to apprehend all persons of the above description, and to send them to the Magistrate, who will deal with them in the manner above prescribed.

Police Officers to apprehend and send to the Magistrate persons of the above description.

All persons to whom escorts may be allowed, are forbidden to send sepoys or lascars into the villages, to procure provisions, or to press bearers, coolies or boatmen.

Fifth. Military Officers, or other persons, to whom escorts may be allowed, when travelling through the country, are forbidden to send sepoys or lascars into the villages, for the purpose of procuring any sort of provisions, or of pressing bearers, coolies, or boatmen. Every local Officer of police, upon proper application, will, under Section VIII, of this Regulation, grant such assistance as he may be able to afford; and all violent measures, therefore, will be considered equally illegal and unnecessary.

No person excepting the Public Officers of Government, to distinguish his servants with badges.

Sixth. No person shall be allowed to distinguish his peons, or other servants, with badges, except the public Officers (Civil or Military) employed in the service of the Company, who are allowed establishments of peons, in their official capacity, or who may have occasion to employ persons of that description, in the public service. The several zilla Magistrates are empowered, and directed to apprehend any person (not being in the service of a public Officer of the Government, authorized to entertain such servants) who shall wear a badge, in opposition to the prohibition contained in this clause, and to deprive him of the badge. The local Officers of police are also authorized and directed to apprehend persons of the above description, and to send them to the Magistrate,

The Magistrates to apprehend and deprive persons of their badges, who shall wear badges contrary to the above prohibition.

The Police Officers to apprehend persons of the above description and send

them to the Magistrate.

Magistrate, by whom the offender will be dealt with as above directed. Any European, not being a public Officer of the Government, to whom such description of public servants is allowed, employing badged peons, or other description of servants wearing badges contrary to this prohibition, will be liable to the severe displeasure of Government on representation of the circumstances of the case by the Magistrate, who is directed to report all such instances for the information and orders of the Governor in Council.

The Magistrates to report to Government every instance of any European, not a public Officer, employing servants with badges.

Applications to be made in writing by Magistrates requiring detachments, stating the service to be performed, and Military Officers to determine the force requisite for such service.

X. *First.* Whenever the Magistrates may require detachments of troops from the regular battalions, for the apprehension of public offenders, or for the maintenance of the peace in their respective districts, they shall state in writing as fully and circumstantially as may be practicable, the nature of the service required to be performed, to the Officer commanding the division, leaving it to him, on a consideration of the circumstances stated, to judge of the strength of the force, which should be employed in the execution of the duty in question. In cases however of emergency, the Magistrates are at liberty to apply for aid to the Officer commanding the nearest military post, informing the Officer commanding the division of such application.

Civil Magistrates responsible for calling in the aid of the military, in cases of emergency, and Military Officers not to exercise any discretion in granting or withholding such aid. Report to be made to Government by the Magistrates.

Second. The power vested in the several Magistrates by the foregoing rule, being founded upon the nature and exigence of the case, which may frequently require promptitude and decision, and will seldom admit of a reference to Government, it shall be the duty of Officers commanding divisions, corps, or detachments, immediately to furnish the necessary military aid, whenever applications may be regularly and publicly made to them by the Magistrates, for troops, for the maintenance of the peace, or for the support of the general police of the country. By these means the responsibility of calling in the aid of the military, will rest with the Civil Magistrates, and the allotment of the force will depend upon the Officers commanding troops; who are not, however, on occasions of this nature,

nature, to exercise any discretion in granting or withholding the required aid. But as it is at the same time, essential to restrict the employment of military force to cases of absolute necessity, the Magistrates are hereby enjoined to confine their requisitions for military force, to cases of that description, and to report to Government, whenever they may apply for military aid, under the rule contained in this section, at the same time furnishing the Governor in Council with the necessary information respecting the circumstances upon which the application for such aid may have been grounded.

Military Officers to report their compliance with such applications to the Commander in Chief.

Third. The Officers commanding troops, by whom such detachments may be furnished in pursuance of the applications of the Magistrates, shall immediately transmit the necessary reports thereof to the Commander in Chief.

Rules for supplying the permanent guards required by the several Civil Officers.

XI. *First.* The permanent guards required by the Magistrates, by the Collectors of the land revenue and customs, by the Commercial Residents, and by any other public Officers, authorized to require such guards for the protection of the public treasuries, stores, or other property, shall be in future furnished from the regular battalions, or companies of invalids, or provincial battalions. The Civil Officers requiring guards, shall accordingly state fully and circumstantially, the nature of the service necessary to be performed, to the Officer Commanding the division. On the receipt of such information the Commanding Officer of the division shall issue immediate orders for furnishing guards of such strength as he may deem necessary; provided that no public objection shall occur to a compliance with the application, and that he shall be satisfied, that the Civil Officer, from whom the application may have been received, was entitled to make it, by the general rules and usages of the service. But as the same necessity does not exist for vesting Magistrates and other public Officers, in cases of this nature, with the extensive powers entrusted to the Magistrates by section X, of the present Regulation, the Officer Commanding the division shall be at liberty, in case he shall deem it necessary or proper on any public grounds, to suspend compliance with the application, and to refer the case to the Commander in Chief, who will forward the representation

to

to Government for its decision, or pass such orders on the subject as may appear to him to be proper. With the view likewise of preventing abuse of the powers vested in the Civil Officers, in applying for guards from the regular battalions, the Magistrates and other Officers in the judicial department shall on the receipt of the present regulation, transmit to the Governor in Council a statement of the permanent guards employed or required by them, for his consideration and orders. In like manner the Officers in the revenue and commercial departments shall transmit to the Board of Revenue, and Board of Trade, a statement of the permanent guards required by them in the discharge of the duties of their respective offices; and the Board of Revenue, and Board of Trade shall forward the statements received from the Officers acting under their authority, with any remarks which they may deem necessary, for the consideration and orders of Government.

Permanent guards not to be increased without the previous sanction of Government.

Second. When the permanent guards required by the different Officers in the Civil department of the service shall have been fixed under the rule contained in the preceding section, no augmentation shall be made in the number or strength of such guards, without the express sanction of the Governor in Council.

Rules for supplying Civil Officers with temporary escorts.

XII. The temporary escorts which may in future be required by the Magistrates, by the Collectors of the land revenue and customs, by the Commercial Residents, and by any other public Officers authorized to require military aid, for the remittance of treasure, of stores, or of other public property, or for other purposes connected with their respective official situations, are in future to be furnished from the regular battalions, or companies of invalids, or any provincial battalion. The Civil Officer requiring any such escorts, is accordingly to state fully and circumstantially, the nature of the service necessary to be performed, to the Officer Commanding the division in which the corps may be stationed, from which the required escort is to be furnished. On receipt of such information, the Officer Commanding the division shall furnish an escort of such strength, as he may deem necessary, for the performance of the duty in question; provided that no substantial public objection shall occur to a compliance with the application, and that he shall be satisfied, that the Civil Officer, from whom the application may have been received,

was

was entitled to make it by the general rules and usages of the service. But if not, the Officer Commanding the division shall be at liberty to suspend compliance with the application, and to refer the case to the Commander in Chief, who will forward the representation to Government for its decision, or pass such orders on the subject as may appear to be proper.

Civil Officers in the judicial, revenue, and commercial departments, to send monthly ſtatements of guards, detachments, and escorts, employed by them, to Government, the Boards of Revenue and Trade respectively.

XIII. It shall be the duty of the Magiſtrates and other Officers in the judicial department to transmit to Government, on the first of each month, a statement of the guards, detachments, and escorts employed by them in the preceding month. The Collectors, Commercial Residents and other Officers in the revenue and commercial departments shall in like manner transmit to the Board of Revenue and Board of Trade, on the first of each month, a statement of the guards, detachments, and escorts employed by those Officers respectively in the preceding month; and the Board of Revenue and Board of Trade are hereby required to report to Government whenever they may be of opinion, that the guards, detachments, or escorts, employed by the Officers subject to their control were not requisite for the public service.

The foregoing rules not applicable to the presidency ſtation; applications for guards &c. in Madras or its vicinity, how to be made.

XIV. The foregoing rules are not to be considered applicable to the presidency station. Whenever guards, detachments, or escorts may be required by the Magistrates of Madras, or by any of the other Civil Officers, for the discharge of any public duty connected with their respective official situations, they are to make the necessary application for that purpose, agreeably to former usage, to the Governor in Council, through the channel prescribed for conducting the public correspondence.

BY ORDER OF THE COMMANDER IN CHIEF.

HEAD QUARTERS: CHOULTRY PLAIN, 29*th December* 1810.

G. O. BY THE COMMANDER IN CHIEF.

The Commander in Chief is pleased to publish for general information, the following copy of a circular letter to Colonels of Regiments on the British Establishment, dated Horse Guards, 28th of April 1810, and to direct the attention of Officers in Command to that branch of their duty which relates to the clothing and equipment of the Regiments serving under them, whether of His Majesty's or the Honorable Company's service, as applicable to the articles of dress worn by each, and His Excellency expects they will report to Head Quarters any deviations from these or other existing regulations on the subject of dress and appearance.

HORSE GUARDS, 28*th April* 1810.

SIR,

The Commander in Chief has, with much concern, observed in various instances, in the clothing and equipment, both of the Cavalry and the Infantry, such deviations from His Majesty's Regulations on these heads, as require his immediate interference; and he has commanded me to address myself to you on the subject at this particular season, when the patterns of clothing for the ensuing year are about to be sealed, not doubting that he shall receive from you the most ready and effectual assistance, to check in the Regiment under you command an evil productive of the most serious bad consequences to the Soldiers, and to the service.

The first point to which it is the Commander in Chief's wish to call your attention, is the make of the coat, which is in some Regiments so cut away, as literally to afford no covering, or protection to those parts of the body, where warmth is most

essential,

essential, viz. the lower parts of the belly, and the hip joints; they are moreover made so tight that they are with difficulty buttoned over the waistcoats, and they diminish the power of action in a mode highly prejudicial to the health and vigour of the Soldier, drawing the body together, and checking that freedom and alacrity of motion in the body, and arms, that are so conducive to the growth and expansion of the young, and to the comfort and health of all.

The shortness of the coat necessarily occasions a corresponding diminution in the length of the waistcoat, which, by that means, is reduced so much in its dimensions; as to afford little warmth in winter, and to be totally useless for one essential purpose for which it was intended, viz. as a fatigue dress in Barracks during the summer;—To remedy these evils, the breeches are made of a preposterous length, and the waistband is brought so high upon the body, as to be extremely inconvenient, and detracting from the Military appearance of the men.

The caps of the Infantry are not to be worn on one side as is the practice in some Regiments, but are to be placed even on the Men's heads, and brought well down on the forehead, and the cap-makers are responsible, that the caps are of a size, which will admit of their being so worn.

The patterns of the clothing of the Army were fixed on by Officers of great experience and judgment, and the regulations on this subject, which have received His Majesty's authority, it is the Commander in Chief's determination to enforce with the most scrupulous exactness. He will request from the General Officers composing the clothing board, (to whose vigilance and exertions the Army is already much indebted) the greatest attention in sealing the patterns, and he will give the most positive directions to the General Officers in command of brigades, whose particular province it is to examine the clothing on the men's backs, as soon as it is fitted, instantly to reject, and send back to the Clothiers, any clothing which is not made up strictly according to the King's Regulations; and it will remain to be determined as it may, whether the expense attending the loss, shall fall on the Officer, who after such repeated warnings, shall presume to authorize a deviation from His Majesty's Commands, or on the Clothier, who has the imprudence to obey instructions, which he knows are not in conformity to those plain rules, which are laid down for his guidance.

There is another article of dress, to which, though not furnished

nished by the Colonel, the Commander in Chief desires to call your attention, viz. The Soldier's stock, which in some Regiments is made of such a breadth, as to be not only uncomfortable to the Soldier, but injurious to his health; by pressing on the glands of the neck, and by that means exciting scrophulous swellings in constitutions where there is a tendency to that disorder. The stock, like every other part of the Soldier's dress, should be adapted to the size and shape of the man.

The Commander in Chief requests you will make an immediate communication of the contents of this letter to the Officer in the actual command of the and direct that the letter may be entered in the Orderly Books of the Regiment.

I have the honor to be,
SIR,
With much respect,
Your very obedient
and humble servant,
(Signed) HARRY CALVERT,
Adjutant General.

To
Colonel of the Regiment.

28th December 1810.

Fort St. George, 1st December 1810.

G. O. By Government.

The Honorable the Governor in Council has been pleased to establish, until further orders, the following regulations for the immediate conduct of the Commissariat Department, under the Presidency of *Fort St. George*; and to direct that all other orders or regulations, relating to those branches of the service which have been placed under that department, shall be considered as having been annulled from the date thereof.

SECTION I.

Regulations for the Grain and Provision Department in Garrison and Cantonment.

1.—The supply and charge of Grain and Provision at th Presidency, shall be in the Office of the Commissary General; and at out-stations in that of the Assistants and Sub-Assistants of the Commissariat department, or in others appointed to act in that capacity, when the exigency of the service may render it necessary to employ Officers on that duty, who have no fixed situations in the Commissariat. These Officers will be held responsible for rendering a faithful account of all the purchases

purchases made by them, and of the stores under their charge; neither shall they receive nor issue any stores without regular authority.—They will also be considered responsible for the quality and due preservation of every article of store under their charge.

2. The Commissary General shall make a quarterly return for the information of the Military Board, of all the provisions received, issued or remaining, at the Presidency and at out-stations.

3. The Assistants and Sub Assistants will, at all times, receive their orders for the supply of Grain from the Commissary General or from his Office by his orders, except on such occasions as the Government may consider it to be necessary to communicate directly with them, of which however immediate notice will be sent to the Commissary General, by the Secretary of Government in the Military department.

4.—All accounts of Grain and Provision Stores shall shew correctly not only the quantity and quality of the grain and all other articles of provision store; but must also exhibit the following particulars; viz. of what year, when received into store, the present state, and the period which in the opinion of the Officer in charge, every article may be expected to remain in good condition and preservation.

5. The accounts of the purchase of provision stores and the monthly expense of establishments of this branch, will appear only in the accounts of the Commissariat and in those of the Accountant General; but when Provision stores are sold at the Presidency or out-stations, the proceeds, accompanied by accounts sale, shall be paid into the hands of the Military Paymaster, who will grant a bill for the amount on the Accountant General in favor of the Commissary General.—That bill will be forwarded to the Commissary General, who will take credit in his general accounts for the amount, and transfer it to the Accountant General, who will immediately debit the Paymaster of the station for the amount of it, and give credit at the same time to the Commissariat.

6. The Officers of the Commissariat in charge of Grain shall invariably account for it on their returns, in Madras Garces, Marcals and Seers; and all gunny bags, whether full or empty, shall also be accounted for on their returns, in columns ruled for the purpose and headed "Gunny bags full," "Gunny bags empty;" but other articles of provision store which are received by weight, shall be accounted for by weight, in the returns, in Candies, Maunds, and Pounds; stamped measures and regulated weights, will be furnished from the Military Board for the service of the Commissariat department; and all receipts

receipts and issues will be required to be made by those measures and weights.

7. When rice is issued to the native troops in cantonment, where field allowances are not paid to them, it shall never be granted to a greater extent than at the rate of one seer per man, for every native commissioned, non-commissioned, drummer and private, and they shall pay for it at the rate of 70 Pagodas per Madras Garce, or 12 Seers for 7 Fanams 70 Cash.
