The Honorable the Governor in Council is pleased to direct, that the following Extract from a letter from the Honorable the Court of Directors to the Supreme Government, under date the 12th of March 1802, be published in General Orders for the information and guidance of the Army of this Presidency.

"We have determined to allow the period of time, during which Officers may be "absent under regular permission, either to the Cape of Good Hope or the other Set- "tlements, to be included in their length of service, in calculating the period required "to entitle them to retire on full Pay; but it must be clearly understood, that such "absence is occasioned by ill health only, for if Officers are permitted to proceed to "the other Settlements on their own private concerns or for their own pleasure, it "seems no more than reasonable that the period of such absence, on these accounts, "should be considered in the same light, as if they had been allowed to come to Eu- "rope on similar causes."

G. O. G. 24th January 1823.

The following extract from a Letter from the Honorable the Court of Directors in the Military Department, under date the 26th of June 1822, is published in General Orders.

G. O. G. 21st January 1823.

With reference to the General Order of the 6th September last,* the Honorable the Governor in Council has been pleased to direct, that the option of Residence therein conferred on all Native Pensioners, be confined to the Station or District, which they may choose on first being transferred to the Pension List. If in any special case a change of residence should afterwards be solicited or become expedient, an application is to be made to the Superintendent of Pensions who will give the necessary instructions on the subject; but without his previous authority no removal is to take place.

The Civil Authorities in whose districts Native Pensioners have taken up their residence, are required to furnish the Superintendent with a Register of their Names, Rank, Class and Residence—and with regular Monthly Returns, of the Pensioners who are mustered and paid by Collectors, &c. in their districts respectively.

Any Casualty occurring by death or removal from one district to another is to be carefully notified, and, in the former case, the Pension Certificate of the deceased is to be forwarded with the first Monthly Return after such casualty shall have taken place.

The Superintendent of Pensions is authorized to correspond with the different Civil Authorities on subjects connected with these duties.

On the death of a European Officer at any Military Station, the Commanding or Staff Officers, and in any District where there may be no Military Station, the Civil Authority will report such Casualty to the Superintendent of Family Payments and Pensions.

G. O. C. C. 12TH FEBRUARY 1823.*

In consequence of certain changes in the Uniforms, having been ordered for His Majesty's Army, The Commander in Chief, with a view to preserve the corresponding Uniformity of Dress, which as far as practicable it has always been considered desirable to observe, is pleased to publish to the Army the following Memorandums, for the Dress of the General and Staff Officers, and for all Officers belonging to the Establishment of Fort St. George.

His Excellency General Sir Alexander Campbell, Bart. and K. C. B. therefore directs, that all orders and regulations heretofore issued on the subject of Dress, and which militate against those now published, are hereby annulled.

All Officers *on duty* are expected to be dressed in strict conformity to the costume which has been laid down.

In order to protect Officers from incurring any immediate or unnecessary expense, while they may not be in want of new appointments, The Commander in Chief leaves them the option of postponing the adoption of any change, specified in this Order, until the 1st of January next, when none but the new Uniforms herein prescribed, will be permitted to be worn: It is at the same time to be understood, that all Officers, on coming into the Service, shall provide themselves according to the new Patterns.

When Officers wear Great Coats they must be according to the Uniform Pattern, and always with the Sword and Sash over them: The only exception is, when Officers are taking exercise, or engaged in sporting, or amusements in the open air.

The Commander in Chief holds General Officers, and Commanding Officers of Stations and Corps, responsible, that these orders for regulating the Dress in all its particulars, shall be punctually obeyed.

Should information be required respecting any particular parts of Dress, reference is to be made to the *Adjutant General's Office*.

The Honorable the Governor in Council deems it expedient to call the attention of the Army to the General Order under date the 7th of November 1788, re-published on the 8th of October 1805,* regarding the reception of claims to alteration of rank, and again to declare, that as every Officer must be supposed in the course of one year to have obtained a thorough knowledge of his proper situation in the Company's Service, and to have been able in that time both to make known claims and to procure every testimony necessary in support of them, no retrospect on the subject of rank shall be made beyond twelve months, from the date of the General Order, under which the date of rank of the Officer concerned, shall have been first fixed.

G. O. G. 7th February 1823.

The Governor in Council further authorizes all Officers to whom the above Regulations have reference, equally in the Field, as within the Provinces, to hire Lascars when those of the regular Establishment may not be available—that circumstance being certified by the Quarter Master of Brigade or other Officer in charge.

G. O. C. C. 14th February 1823.

Remarks by The Commander in Chief on the trial of Subadar Mahomed Ally, 2d Battalion 13th Regiment N. I.

The Commander in Chief having been pleased to approve and confirm the sentence awarded Subadar Mahomed Ally of the 2d Battalion 13th Regiment by the General Court Martial assembled at Trichinopoly for his trial, has directed it to be published to the Army, in order that the Native Officers may be apprized, that no consideration of past services, will induce His Excellency to pardon an offence so injurious to the discipline of the Army, disgraceful to their character and station, repugnant to their religious principles, and setting so bad an example to the Non-commissioned Officers and Privates under their command.

General Sir Alexander Campbell, Baronet and K. C. B. regrets it has not been in his power to pay attention to the recommendation of the Court in favor of Subadar Mahomed Ally; and His Excellency pledges himself to the Army, that during the period he may hold the Command, he will in no instance extend his pardon to any Native Officer who may be convicted of drunkenness, before a General Court Martial, and adjudged to be cashiered.

His Excellency further directs Officers Commanding Corps will report to Head Quarters any Native Officer under their command who may be addicted to the disgraceful crime of drunkenness, that measures may be adopted if necessary, for their removal from the Service.

The foregoing crime and sentence, with The Commander in Chief's remarks, will be furnished to Corps respectively in the Native Languages; and Officers Commanding are directed to have it read, and explained to their Men at three successive Parades to be ordered for that purpose; after which the Native Officers of each Corps, are to be required to affix their signatures or marks to the translation, that no excuse may be offered for not knowing the orders now published.

After the signatures of all the Native Officers belonging to Corps are affixed to the translation (which must be done in presence of the Commanding Officer) it is to be returned to the Adjutant General's Office, for the information of The Commander in Chief.

G. O. C. C. 22d February 1823.

The Powder Horns, and loose Ball Pouches now carried by the Corps of Light Infantry, being considered at present unnecessary, they will be returned into the Stores nearest to the Quarters of those Corps, respectively.

The Brass Ornaments on the Turbands will be also discontinued, and a top and rim will be substituted, covered either with black or green cloth—The tape and rosette, or tassel will be of black, and not of white tape, as at present.

The Officers will wear a green tuft in their Caps, instead of a feather.

G. O. G. 25th February 1823.

The Honorable the Governor in Council is pleased to direct that Sashes shall no longer be considered to form part of the Clothing of the Non-Commissioned of the Veteran Battalions, the Pioneers or the Gun Lascars; the issue of Sashes with the Clothing of those Ranks, is accordingly to be discontinued for the future.

The rates of Compensation and Off-reckoning of Subadars and Jemadars of Gun Lascars having come under consideration, it has been deemed expedient, that a modification of them should take place; the following rates are therefore established in lieu of those which have heretofore prevailed.

Subadars of Gun Lascars, ...	Off-reckoning per Annum, Rups. 42 0	Compensation for one year's Clothing Rs. 12 4
Jemadars of Gun Lascars,	" 17 8	" 6 8

G. O. G. 7th March 1823.

The Honorable the Governor in Council deems it expedient to rescind that part of the 95th Para. Page 318, of the Code of Pay Regulations under which the personal Allowances of Staff Officers have hitherto been drawn, in their absence, by the Acting Staff Officers, and to direct that those allowances shall not be drawn in future, until the return of the parties to their Corps or Stations, when the allowances to which they may be entitled, are to be drawn under the general Regulations of the Service by themselves, or the Heads of the Departments, to which they may belong.

The Allowances for Office Establishments, or other Public Servants are to be drawn Monthly (as heretofore) by the Acting Staff Officer, in the same manner as if the Staff Officer himself was present.

G. O. G. 14th March 1823.

The Honorable the Governor in Council is pleased to direct the following modification of the Regulations of the Military Pay Department, to have effect from the 1st of May next.

Replies to retrenchments, are to be forwarded through the Paymasters from whose accounts the retrenchments were made, if the Officers continue within their range of payment—otherwise thro' the Paymasters of the stations where the Officers happen to be.

When documents or explanations forwarded (as above directed) by an Officer, in reply to a retrenchment, shall be found to warrant the admission of the charge, the Military Auditor General (in lieu of passing the amount on reaudit as heretofore, to the credit of the Paymaster from whose accounts the retrenchment was made) is to direct the Paymaster, who forwards the reply, to pay the amount on a Bill, or Abstract, and receipt of the claimant; and to enter the charge in his accounts disbursements of the month in which the payment takes place.

When appeals to Government are desired, the above course is, in every respect to be observed; the periods within which both replies and appeals are to be forwarded remaining as heretofore.

It is to be fully understood that payments of charges retrenched, are never to be made without the previous authority of the Military Auditor General, and that the circumstance (should it occur) of the party not having refunded the amount, is not in any manner to affect the course of proceeding above directed.

The proceedings both of Officers and Paymasters in regard to objectionable charges, are not in any manner affected by the above provisions.

In cases when it may be necessary to recover sums that have been disbursed under special authority, (as in the case of an Officer, who after receiving passage money to proceed to Europe, declines to avail himself of his furlough,) the Military Auditor General, in place of retrenching the amount, is to direct it to be recovered by stoppages in the manner prescribed, in regard to retrenchments.

The Military Auditor General will issue such subsidiary instructions to Paymasters, as may be necessary for giving full effect to these orders.

Under the foregoing provisions the reaudits heretofore transmitted to the Accountant General in the Military Pay Department, and to Paymasters, will become unnecessary, and are to be discontinued accordingly.

G. O. G. 14th March 1823.

The Honorable the Governor in Council is pleased to publish the following Regulation, for the information and guidance of the Army.

No Officer will henceforth be appointed to fill any situation on the General Staff of the Army, who shall not have served four years, three of which, in the actual performance of Regimental or Staff duty with a Corps.

An Officer may hold the situation of Aid-de-Camp after having served one year with his

his Regiment; but the period passed in that situation, except when employed upon Field Service is not to be counted in the Regimental duty as described above.

None but Officers who have actually done two years Regimental duty, shall be eligible to fill the situations of Adjutant, and Quarter Master and Interpreter.

The General Orders of the 9th of October 1810, and 29th of October 1813, are hereby cancelled.

G. O. C. C. 17th March 1823.

The Commander in Chief has observed with considerable regret, that the Quarterly Reports of the progress of Officers in the study of the Native Languages, do not exhibit so general an attention to this important duty, as His Excellency had expected from his orders, and advice would have been manifested, therefore directs, that Officers Commanding Corps in which vacancies of Regimental Staff Appointments may occur, will forward to Head Quarters, the names of such Candidates only, as may be prepared to undergo an examination in the Hindoostanee Language; and the Commander in Chief will appoint Officers duly qualified either at the Presidency, or Out-Station, to examine, and report upon the qualifications of such Officers.

However important, and necessary the acquirement of Language may be, yet, it must be understood, that it will not form an exclusive claim, although an indispensible pretension to Regimental Staff employ; general character, exemplary conduct, and attention to professional qualifications, being equally essential to the attainment of such distinction.

G. O. C. C. 27th March 1823.

That part of the General Orders by the Commander in Chief of the 12th February 1823,* which relates to the Dress of the Military Auditor General's Department, is cancelled.

Referring to the General Orders of the 17th December 1814,† for the transmission weekly, of "Reports of Progress by Officers Commanding Corps, or Detachments on route" to the Quarter Master General of the Army; the Commander in Chief is pleased to desire, Officers Commanding in preparing their Weekly Reports, to state any extraordinary circumstances that may occur during the march, particularly such as affects the health, or comfort of the Troops under their Command.

G. O. G. 21st March 1823.

In consequence of the delay which has unavoidably occurred, in fixing the rank as a Cadet, of Cornet E. B. Gould, and posting him to a Regiment in the manner usually adopted, the Honorable the Governor in Council, with a view to do ample justice to the interest of the individual, in such manner as to cause the least inconvenience to the Service at large, and in order that the unavoidable supercession, may on the best principle of equal justice to all Corps, be determined by chance, is pleased to direct that Cornet Gould do take Rank in the Army from the 6th April 1820: and to give him the benefit of that Rank, the Honorable the Governor in Council is pleased to order and direct, that Cornet Gould shall be posted to the first Regiment of Cavalry, in which a vacancy may occur, by the death, promotion or otherwise, of an officer in the Cavalry—and which shall become known at the Office of the Adjutant General of the Army, after

* *Vide Vol. 5, page 5.* † *Vide Vol. 3, page 123.*

after this date;—Cornet Gould will take rank in such Regiment above all Cornets junior in the lists of Cadets to Cornet J. C. Wallace of the 8th Regiment Light Cavalry.

G. O. G. 25th March 1823.

The Honorable the Governor in Council is pleased to direct, that from the 31st Instant, the Troops at the Presidency Cantonment shall form a part of the Garrison of Fort Saint George.

G. O. C. C. 1st April 1823.

Several instances of Individuals permitted to continue upon the Rolls of corps for years, as *Sick Absent*, having been recently brought to notice; His Excellency The Commander in Chief directs, Officers Commanding Stations, and Posts to communicate on the 1st day of each month, with corps to which any Native Commissioned, Non-commissioned Officer or Rank and File may belong, who remains in the Hospital of the Station under his command; forwarding a Medical Officer's report of the case, which is to state the period when the Patient may be expected to be discharged—if however, after a lengthened time, the Individual may be considered as unlikely to become fit to perform his duties, the Officer Commanding the corps to which he belongs, will communicate (through the prescribed channel) with Head Quarters on the subject, specifying the period of his absence from the corps, his length of service, and if he has any claim upon the Service, in order that His Excellency The Commander in Chief may determine upon the mode of his disposal.

Officers commanding corps are enjoined to be punctual in making particular enquiries after individuals of the corps under their respective command, who may be admitted into Hospital, that their cases may be brought to the notice of the Officers commanding the Stations, at which they may remain.

Officers commanding Divisions of the Army, Subsidiary and Field Forces are requested in performing their Annual Tours of Inspection, to ascertain that none, but Individuals labouring under such diseases as prevent them proceeding to join their respective corps, are permitted to remain in Garrison or Field Hospitals.

The particular attention of Commanding and Staff Officers is required to the rules of the Service in immediately notifying to their respective corps, the admission of Soldiers into Hospitals when absent from their corps on furlough or duty.

G. O. C. C. 1st April 1823.

It having been brought to The Commander in Chief's notice in frequent instances of reference to Regimental Records, that corps have during the late service, in which the Army was employed, left their Records behind them in different Garrisons: The Commander in Chief is pleased to direct, that Officers commanding corps, will adopt immediate measures for returning them to its Head Quarters, and directs General Officers will at the periodical Inspections, report when any such are deficient, and commanding Officers respectively, will be held responsible for their completion and are immediately to account for deficiencies.

There are few instances, in which it may be necessary for corps to leave their Records behind—there being an ample provision made by Government for the conveyance of them, and the practice in future is strictly forbidden, without special authority from the Commander in Chief.

SIR;

I have the honor to convey to you at the request of the Nuwaub, his entire satisfaction with the uniform good conduct of the Troops composing his Escort during his late tour to the Southward. From the commencement to the termination of the journey, not a single complaint was made to His Highness against any of the men either Cavalry or Infantry, while to their steady behaviour and attention to discipline he chiefly ascribes the peace and good order which at all times prevailed in his camp. These circumstances you will, he trusts, do him the favour to bring under the early notice of Government.

I have the honor to be, &c. &c.

G. O. G. 11th July 1823.

It having been represented to the Government, that a Custom of Mortgaging Pension Certificates prevails, by which great distress has been occasioned to the Families of Native Pensioners, and to the Pensioners themselves, the Honorable the Governor in Council is pleased to notify in General Orders that Pension Certificates are not transferrable, and that the Pensions are payable only to the Individuals in whose names they may have been granted and to their vakeels.

Officers wearing Hats are not on any occasion to take them off in saluting; but when their Swords are not drawn they are to salute, by bringing up the right hand to the forehead horizontally on a line with the eye-brows.

The Honorable the Governor in Council deeming expedient, that accounts of Horses and Horse appointments belonging to Government, in use with the Horse Artillery Brigade, His Majesty's Light Dragoons, and the Corps of Light Cavalry, should be kept in the Office of the Military Board, and checked under the General Regulations applicable to audits of Quantities, is pleased to establish the following rules for that purpose.

G. O. G. 26TH SEPTEMBER 1823.

With reference to General Orders under date the 16th of February 1813*, the Honorable the Governor in Council is pleased to direct, that Indents for Cloth, &c. required by young Officers and Assistant Surgeons, and by Officers on leave at the Presidency, shall be complied with when countersigned by the Adjutant General of the Army, or the Town Major of Fort St. George.

G. O. G. 9TH SEPTEMBER 1823.

The following extract from a letter from the Honorable the Court of Directors in the Military Department under date the 30th of April 1823, is published in General Orders.

Para. 2. "Having had under our consideration the reports from time to time made to us of the state and proceedings of the Funds established at your Presidency by our Servants in the Military, Medical and Ecclesiastical Departments, we have adopted the following resolutions.

G. O. G. 10th October 1823.

The Honorable the Governor in Council is pleased to publish the following copy of a General Order of the Supreme Government, and to direct that its provisions shall be considered in force at this Presidency.

General Orders by the Honorable the Governor General in Council.

Fort William, 31*st July*, 1823.

No. 83 A. of 1823.—1. A question having arisen as to the effect of Article 3d, Sec. 19, of the Articles of War of 1822, in excluding the Estates of Officers of His Majesty's Regiments serving in the East Indies from the operation of the Act of Parliament, under which the Registrar of the Supreme Court of Judicature is empowered and required to apply for Letters of Administration of the Estates of British Subjects dying intestate, the Governor General in Council, with a view to remove any doubt on the subject, directed a reference to be made to the Advocate General, whose opinion is to the following effect, viz. That the Article and Section above quoted cannot be legally held to bar the right of the Executor or Administrator, within the territorial possessions of the East India Company, to receive the surplus effects of a deceased Officer, after payment of his regimental debts and expenses of interment; and that, it being a part of the public duty of the Registrar of the Supreme Court to apply for Letters of Administration of all British Subjects dying intestate within the territories subject to the Presidency of Fort William, the right in question generally devolves on that Officer.

2. In order therefore to afford the Registrar the most early and authentic information of the state of the assets of British Officers dying under such circumstances, the Governor General in Council directs, that the Presidents of the Committees which assemble on the demise of Officers *dying intestate*, whether in His Majesty's or the Honorable Company's Service, shall forward directly to the Registrar of the Supreme Court a copy, duly authenticated, of the Proceedings of the Committee as soon as they are closed.

3. For a definition of the words "Regimental Debts" and what are to be so considered, the Advocate General refers to the Act of the 58th year of the late King, Cap. 73, Sec. 1, which declares to be such—"All sums of money due in respect of any Military Clothing, Appointments and Equipments, or in respect of any Quarters or of "any Mess or Regimental accounts, and all sums of money due to any Agent or Paymaster or Quarter Master or any other Officer on any such account or on account of "any advances made for any such purpose."

Adverting to the definition of "Regimental Debts" given above, any payments made by authority of Commanding Officers not coming within the intent and meaning of the Act will be at their own risk.

G. O. C. C. 3d November 1823.

The Commander in Chief has great satisfaction in publishing in General Orders the following Extract from a Report of a Board of Officers assembled at the Presidency, for the examination of Lieutenant Seton, Adjutant of the Golundauze Battalion of Artillery, with regard to his proficiency in the Hindoostanee Language.

"The attainments of Lieutenant Seton, in this branch of study appeared to us of the "very first description, his versions both from English into Hindoostanee and from "Hindoostanee into English were made without a single mistake, and in the former "task, (confessedly the more difficult of the two,) the translation was not only faultless, "but extremely elegant. The pronunciation of Lieutenant Seton was not quite so unexceptionable as we had reason to expect from his written performances, but it was "perfectly intelligible—and we have no doubt but that he can execute with perfect "facility to himself, any duties of a colloquial nature that may be required from him, in "the situation of Adjutant."

His Excellency has had also the pleasure of receiving a Report from a Board of Officers assembled at Bellary, for the examination of Lieutenant Fryer of the 10th Regiment, and of Lieutenant Sparrow of the 13th Regiment, in their knowledge of the Hindoostanee Language.

The

The exactness, and facility with which Lieutenant Fryer performed the exercises given to him, and the success that attended his examination, reflects great credit upon his acquirements.

Lieutenant Sparrow is also entitled to praise for the great proficiency he has attained, and the unembarrassed display of his knowledge of the Language, when called upon to converse in it, which evinces the attention that Officer must have given to its cultivation.

The Commander in Chief has also received a very flattering Report from a Board of Officers assembled at Trichinopoly for the examination of Lieutenant Bell, of the 14th Regiment, with regard to his proficiency in the Hindoostanee Language, which declares that Officer's "acquirements to be of the very first order."

G. O. G. 21st November 1823.

The Honorable the Governor in Council has been pleased to resolve, that Officers placed in Command of Garrisons, or Cantonments, by order of Government, shall be entitled to draw the established Brigadier's allowance, without reference to the number of Corps, under their Command.

G. O. C. C. 26th November 1823.

Whenever the Finding and Sentence of a Native General Court Martial is published to the Army, the Commander in Chief expects, that Commanding Officers of Native Regiments and Battalions will not content themselves with barely having the same read at the head of their respective Corps. They must use their best endeavours, through the medium of their Interpreters, to cause the whole subject, including the Commander in Chief's decision and remarks, to be fully understood at least by the Native Officers. This is to be considered as a Standing Order of the Service, and to be entered in the Book of General Regulations with each Corps.

G. O. C. C. 8th December 1823.

In consequence of the alterations which have been made in the Dress of the Army since the publication of the G. O. 12th February 1823,* and to correct inaccuracies which have inadvertently been made, The Commander in Chief is pleased to cancel the above order, and to publish to the Army the following Memoranda for the Dress of the General and Staff Officers, and for all Officers belonging to the Establishment of Fort St. George, *to have effect from the 1st January* 1824.

When Officers wear Great Coats they must be according to the Uniform Pattern, and always with the Sword and Sash over them: The only exceptions, when Officers are taking exercise, or engaged in sporting, or amusements in the open air.

The Commander in Chief holds General Officers, and Commanding Officers of Stations and Corps, responsible, that these orders, for regulating the Dress in all its particulars, shall be punctually obeyed.

Should information be required respecting any particular parts of Dress, reference is to be made to the Adjutant General's Office.

CHARGES—1st. For conduct incompatible with the duty of an Officer, in traducing the Government under which His Majesty's orders had placed him, by describing and characterising a public resolution, and measure of that Government relative to Lieutenant Colonel Robison as a Military Officer, " as an unwarrantable tyrannical " exercise of authority, which reduces every Officer in India to a state of slavery " equal to that of the Gentlemen in the Russian service," the above malignant expressions forming part of the first paragraph of a Letter, dated 9th June 1822, addressed, and sent by Lieutenant Colonel Robison to, and received by the Chief Secretary to the Supreme Government, and in which, instead of offering any explanation of his conduct, or soliciting any redress, he declares that, " he does not " entertain the smallest hope of justice or redress, from a Government capable of " acting as the Government (as he therein alleges) had acted towards him."

2d. For having pointed insulting and scandalous remarks at the head of the Supreme Government, who was at the same time Lieutenant Colonel Robison's Military Commander in Chief, in the eighth paragraph of the above letter, and in particular, in stating that he hoped the head of the Government would promulgate that, it " is resolved to turn any Officer out of the Country at 24 hours' notice, " who dares to publish a single comment or sentiment upon public affairs displeasing to them, no matter what motives actuated him; if the Government fancy it " contains the least offensive matter, the writer shall be turned out of his House " and Quarters like a Dog with the mange at the point of the Bayonet, and left, " sick or well, ready or not ready, to march off and embark for Europe if the Sea " Coast be 700 miles distant."

3d. For abusive and grossly insubordinate language applied to and highly reflecting on the Commander in Chief in the 10th and 11th Paragraphs of the above Letter, charging the Commander in Chief with " taking to himself the peculiar " merit of inflicting on him (Lieutenant Colonel Robison) truly despotic, degrading " and inhuman measures," and accusing The Commander in Chief of more inconsistencies, acts of injustice, and barefaced abuses of power and patronage during his command of the Army in India, than are to be found in the annals of Military Transaction for fifty years before he came out to India.

FINDING AND SENTENCE.—" The Court having maturely weighed and considered all that has been adduced in support of the prosecution, as well as what has been brought forward on the defence, are of opinion, that the Prisoner Lieutenant Colonel William Robison of His Majesty's 24th Regiment, is guilty of all and every part of the Charges preferred against him, with the exception of the word " scandalous" contained in the second Charge, of which they do therefore acquit him."

" The Court having found the Prisoner guilty as above specified, do therefore adjudge him, the said Lieutenant Colonel William Robison, to be reprimanded in such manner as the Officer approving this sentence may think proper.

" The Court are induced to award this lenient sentence in consequence of Lieutenant Colonel Robison's long and meritorious services, and the high character which he has produced on his defence from the late Governor General as a Confidential Servant of Government."

and President.

DISAPPROVED.
(Signed) HASTINGS.

I have the King's Commands to acquaint you, that His Majesty, adverting to the nature of these proceedings, and to the character of the charges of which Lieut. Colonel Robison was found guilty, has felt it necessary, notwithstanding the death of that Officer, which occurred upon his passage to England, to order me to convey to you such observations upon the circumstances which produced the trial and upon the Proceedings of the Court, as may impress upon the Army in India, a more correct feeling than it is apprehended may be entertained by them (if the proceedings in question are allowed to remain unnoticed) of the importance which attaches to the maintenance of discipline and subordination, and of the necessity of checking attempts made by inferior Officers to set the highest authority at defiance, and grossly to insult those who administer Command in His Majesty's name.

The

The King was pleased to observe, that it would be difficult to produce any instance in which a spirit of insubordination and of contempt for superior authority has been carried to a greater length than upon this occasion, or any instance in which the sentence of the Court Martial has been more calculated to encourage rather than to prevent the recurrence of crimes of so grave a nature and of so dangerous a tendency.

That this is shewn by simple reference to the Charges, which are literal extracts from a letter addressed by Lieutenant Colonel Robison to the Chief Secretary of the Supreme Government in India, remarking at the same time, that these Charges were not only not denied, but that the contents of them were attempted to be justified by Lieutenant Colonel Robison, and that the criminal nature of them was established against Lieutenant Colonel Robison by the sentence of "guilty" pronounced by the Court.

That Lieutenant Colonel Robison's rank and long service instead of being brought forward in justification of the "*lenient*" sentence passed by The Court would seem to have offered additional ground of censure, inasmuch as The Court must have been aware, that the influence of such conduct upon others must ever be proportionate to the deference paid to the rank and character of the individual—That individual had, by deliberate acts, wholly inconsistent with the duties of his profession and with the trust reposed in him, subjected himself, in the first instance, to a strong censure passed by the Government of India and to the consequent order for his immediate departure from that country;—in the next to trial before a General Court Martial on charges resulting from his obstinate adherence to the unjustifiable course which had drawn upon him so deserved and so necessary a censure.

His Majesty Commands me to say, that he cannot reprobate in terms sufficiently strong, the extraordinary and culpable latitude and license which Lieutenant Colonel Robison had permitted himself to assume in his communications, whether as conveyed to the Press and avowed by him, or as addressed to the official authorities; the first, shewing a determination to bring into public contempt and to thereby subvert that Government under which he was employed in the command of an armed force; the second, deliberately setting at defiance all authority, Civil and Military, and tending to the destruction of those principles of military subordination, which it is the first duty of an Officer to support and to inculcate by example and precept.

The King was further pleased to observe, that if such proceedings were tolerated, if they were not most decidedly checked, the troops intended for the protection of the State would, in the hands of men disposed to resort to them, or to sanction them, become the active engines of its destruction.

That nevertheless, the Officers composing the Court Martial which tried Lieutenant Colonel Robison, who were sworn therefore to decide upon the charges brought against him, according to evidence, without partiality or favor, and according to their consciences, have thought fit, in the discharge of the duty thus solemnly imposed upon them, deliberately to pronounce Lieutenant Colonel Robison guilty of traducing the Government under which he was serving, and of falsely imputing injustice and abuse of power to the Commander in Chief—and at the same time to declare under the same solemn obligation, that there was, in their opinion, nothing *scandalous* in such guilty conduct—and that the Court having in administering justice according to their oaths, found Lieutenant Colonel Robison guilty of the charges preferred against him, have placed beyond the possibility of doubt, the sense which they entertain of the extent of the crime, by applying to it only a reprimand of the slightest character.

Finally—The King, deeply impressed with the dangerous tendency of this extraordinary proceeding, has been pleased to command me to express his strongest disapproval of the Sentence of the Court and of the feeling by which the Members of it must have been actuated in their Finding upon this occasion, and in passing so inadequate a sentence, and His Majesty directs that the sense which he entertains of the whole of the proceedings may be promulgated to the Army in India, in confirmation of the sentiments expressed in a General Order issued by General the Marquis of Hastings when he directed the Court to be dissolved.

I am, &c.

(Signed) FREDERICK, Commander in Chief.

Remarks by His Excellency The Most Noble The Commander in Chief, dated General Orders 9th November, 1822.

The Commander in Chief of all the Forces in India disapproves of the above Sentence from considering it to be so incommensurate to the Crime found by the Court, and not disavowed by the Prisoner, as to be, in His Excellency's opinion, a serious attaint to discipline. The

The Court exonerating the Prisoner only from the imputation of "scandalous" attached to the procedure set forth in the second Count, pronounces Lieutenant Colonel Robison guilty of two offences: one being an outrageous insult to that Government, which under the orders of his Sovereign he was bound to reverence and obey; the other being a virulent and gross criminiation of the Commander in Chief, applying unequivocally to His Excellency's official conduct in that character. Then to such flagrant violations of military subordination, the Court awards a punishment appropriate solely to the lowest class of deviations from military regularity.

To account for the extraordinary nature of the Sentence, the Court states its advertence to Lieutenant Colonel Robison's long and meritorious services—The consideration was not within the competence of the Court in the mode assumed. If such were the Court's opinion of Lieutenant Colonel Robison's professional desarts, it would have been fitly brought forward with a recommendation grounded on it to clemency, in the quarter where alone the circumstances could be duly appreciated. But the oath which each Member of a Court Martial takes, binds him to judge strictly on the substantiation, and the degree of the crime submitted to his verdict, and to pass such a sentence upon it, as the established rules, or practice of the Army prescribe in a special case of that quality, without contemplating matter foreign to the immediate charge.

In this instance the Court could not be blind to the magnitude of the transgression, and the extenuation was null.

When the Prisoner admitted the imprudence and impropriety of the step he had taken he expressed no contrition, so that his sense of error appears to have extended merely to the consequences of which he supposed himself to be in peril. He simply accounts for the intemperance of his language, by saying, that he had written under the impulse of an irritated spirit, an excuse inadmissable in itself—while he defeats even that plea by distinctly maintaining the principle on which he acted, in a manner that aggravates the original offence.

It is with pain the Commander in Chief of all the Forces in India promulgates these remarks. He would however, deem himself essentially wanting in the discharge of his duty, did he not seek to counteract the dangerous encouragement to insubordination, which the sentence in question would afford, were not its incorrectness thus exposed.

By order of His Excellency The Commander in Chief.

The Commander in Chief has also been pleased to direct, that the following General Order be published for the information of the Army.

HORSE GUARDS, 30*th April*, 1823.

At a General Court Martial held at *Brimstone Hill, St. Christopher's* on the 20th November 1822, and continued by adjournments to the 2d December, following, *Brevet Major Andrew Wilder*, Captain in the 35th Regiment of Foot, was arraigned upon the undermentioned Charges, viz.

1st. "For scandalous and disgraceful conduct unbecoming the character of "an Officer and a Gentleman, in conducting himself in a most riotous and disorderly manner, in or near the Mess Room, on the night of the 2d of July, 1822, "and striking, or attempting to strike or kick *Lieutenant William Macalister*, "on the Half-pay of the 35th Regiment, Private *William Loader* (the Mess "Waiter,) and *Ann Loader*, his wife."

2d. "For conduct unbecoming the character of an Officer and a Gentleman, in behaving in a riotous and disorderly manner, on the night of the 3d "of July, 1822, in or near the Gallery of the quarters occupied by *Captain Henry Thomas Rutherford*, and other Officers, of the 35th Regiment, and Challenging any Officer to turn out, saying "he was their man," or words to that effect, "to the annoyance of the Officers, and the disturbance of their Families residing "in the said Gallery: such conduct tending to lower himself as an Officer in the "opinion of the Men, and thereby destroying the Discipline of, and respect due "to the Service."

Upon which Charges the Court came to the following decision:

"The Court having separately, and maturely, and deliberately weighed and considered the Evidence adduced on the part of the Prosecutor, as well as what has been "offered by the Prisoner in his Defence, is of opinion as follows, viz.

"That

" That the Prisoner *Brevet Major Andrew Wilder*, Captain in the 35th Regiment of " Foot, is *Guilty* of the First Charge, with the exception of that part of it, which re- " lates to the striking *Lieutenant William Mudalister*, of the Half-Pay of the 35th " Regiment, no proof having been brought forward to establish that fact.

" With respect to the Second Charge, the Court is of opinion that the Prisoner, " *Brevet Major Andrew Wilder*, Captain in the 35th Regiment is *Guilty* of the whole " and every part thereof.

" The Court having thus found the Prisoner *Brevet Major Andrew Wilder*, Captain " in the 35th Regiment *Guilty* of the First Charge, with the exception of that part of " it referred to, and to the full extent of the Second, the same being in breach of the " Articles of War, doth sentence and adjudge him, the said *Brevet Major Andrew* " *Wilder*, Captain in the 35th Regiment, to be *discharged His Majesty's Service.*"

" The Court having performed a duty it was incumbent on it to do, most humbly " begs leave, in consideration of the length of service of *Brevet Major Wilder*, of his " having been wounded in the Battle of Maida, the consequent impression on the " minds of the Court, from the wound having been in the head, that a very small porti- " on of Wine may affect him, as also the destitute situation in which his Wife and Family " will be plunged, to recommend him to the most gracious clemency of His Majesty."

" The Court cannot close its Proceedings without adverting to their extraordinary " length, solely to be attributed to the multiplicity of questions which it has been com- " pelled to ask, in consequence of the vague and contradictory answers given by Offi- " cers, from whose rank and situation they had a right to expect clear and unbiassed " testimony."

" The Court must remark upon the Evidence given by *Lieutenant Dewson* of the " 35th Regiment, which in its opinion was evasive, with much difficulty extracted, " and with equal difficulty recorded."

" However painful it may be to animadvert upon the conduct of an old Officer, the Court " feels itself imperatively called upon, and cannot consistently with its duty withhold " its strongest displeasure and indignation at the conduct of *Brevet Major Edgeworth*, " 35th Regiment, from the commencement of this unfortunate business ; in the first " place making a totally unfounded report to his Commanding Officer, by misleading " him altogether as to the transaction of the evening of the 3d of July in his Letter of " the 5th of that month, (No. 15) which must, undoubtedly, have prevented *Lieutenant* " *Colonel Mudalister* from acting with the promptitude which might have otherwise " been in his power, and which certainly would have prevented many of the unpleasant " matters which appeared upon these proceedings ; but the Court spares itself the " additional pain of commenting upon the inconsistency of this Officer's Evidence with " his report, or with common sense, feeling convinced it must be too obvious not to " forcibly attract the attention of higher Authority."

" His Majesty was pleased to approve and confirm the Finding and Sentence of the " Court ; But in consideration of the recommendation of the Court, His Majesty was " graciously pleased so far to extend his clemency to the Prisoner as to allow him, *Bre-* " *vet Major Wilder*, to receive the regulated value of his Regimental Commission.

The King was further pleased to command, that, in consequence of the evasive and objectionable manner in which *Lieutenant Dewson* appears on the face of the proceedings to have given his testimony, His Majesty's displeasure should be marked by the immediate *removal of that Officer from the 35th Regiment to the Half Pay of his rank ;* and that, in consideration of the circumstances set forth in the proceedings, together with the observations of the Court thereon, affecting the conduct of *Brevet Major Edgeworth*, His Majesty was also pleased to command that the said *Brevet Major Edgeworth* should be *removed from the Service*, receiving the regulated value of his Regimental Commission,

His Majesty was pleased to observe, that the facts which have been proved before the Court, and have led to the dismissal from the Service of one old Officer, the removal of another old Officer, and the placing upon Half-Pay of a third of inferior rank and service, appear alike disgraceful to the character of the Officer and the Gentleman, and that His Majesty could not reprobate in terms sufficiently strong, such shameful habits of intemperance as have been evinced in the case of *Brevet Major Wilder*, habits which must ever produce scenes of riot and disorder, prejudicial to the discipline of a Corps ; inasmuch as by exposing the individual concerned in them, to the contempt of his inferiors, and thus effectually destroying every claim to confidence, they deprive him of that authority which cannot be properly supported, unless it be founded upon due respect for character and conduct.

The circumstances upon the face of the proceedings appearing to justify the strong observations

observations of the Court upon the conduct of *Brevet Major Edgeworth*, His Majesty had no alternative than to support the well-being of the Service, by visiting that Officer with a strong mark of his displeasure; who forgetful of his rank and long service, appears to have entirely lost sight of what he owed to his own character, and to the credit of his Regiment, in failing to check the disorderly conduct of those subordinate to him; and in misleading his Commanding Officer by an unfounded report of the disgraceful transaction of which he was an indifferent spectator.

With regard to *Lieutenant Dawson*, His Majesty was pleased to express a hope, that the mark of displeasure with which he has also found it necessary to visit that Officer's conduct, will be received as a general caution, that a witness giving Evidence upon Oath before a Court of Justice, is bound by the most solemn obligation to give the Court, in answering the questions put to him, the fullest and most unreserved information in his power; and that evasive and reluctant answers on the part of a witness, being totally inconsistent with an obligation to speak the truth, and the whole truth, must, in all cases, when brought under His Majesty's notice, subject such witness to the consequence of a course of conduct so highly improper.

His Royal Highness the Commander in Chief directs, that the foregoing Charges against *Brevet Major Andraw Wilder*, Captain in the 35th Regiment, together with the Finding and Sentence of the Court, and His Majesty's pleasure thereon, shall be entered in the General Order Book, and read at the head of every Regiment in His Majesty's Service.

By Command of His Royal Highness The Commander in Chief.

HENRY TORRENS, *Adjutant General.*

G. O. G. 5TH DECEMBER 1823.

Surgeon John Goldie, First Member of the Medical Board, is permitted to resign the Service of the Honorable Company in compliance with his request from the 31st Instant.

The Honorable the Governor in Council takes this opportunity of expressing in General Orders his entire approbation of the manner in which Surgeon Goldie has discharged the duties of the several important situations which he has filled as a Medical Officer of this Government during a course of service extending to thirty-four years.

G. O. C. C. 12TH DECEMBER 1823.

The Commander in Chief has great pleasure in publishing to the Army the following letter from the Committee for the examination of Officers in the Hindoostanee Language.

To His Excellency

General Sir ALEXANDER CAMPBELL, *Baronet and K. C. B.*

Commander in Chief, &c. &c. &c.

Sir,—Cornet Garstin of the 2d Regiment Light Cavalry having appeared before us, for examination with regard to his proficiency in the Hindoostanee Language, agreeably to your Excellency's instructions, conveyed in the Adjutant General's letter of the 28th ultimo, we have the honor to report that the result has been entirely satisfactory.

The usual papers having been given to Cornet Garstin, for translation, we have great pleasure in stating that his execution of them reflected the highest credit on his talents and assiduity. In his English Version he gave the complete sense of the original; and his Hindoostanee translation was so perfect that neither ourselves nor the Moonshee who assisted us in the examination could discover a single error of either Orthography or Grammar in the whole composition. The latter performance was indeed distinguished by an elegance and purity of style much beyond the ordinary standard, and which could have only been the result of long and attentive study of the best models.—Mr. Garstin's

Garstin's hand writing is very good, his pronunciation clear and accurate; and we have no doubt but that he is fully competent to discharge, with credit to himself, and satisfaction to his superiors, the duties of either Translator or Interpreter in any situation, in which such qualifications may be required.

We have the honor to be, Sir,

Your Excellency's very obedient humble Servants.

(Signed) J. LEITH,
R. B. OTTO.

Fort St. George,
8th Dec. 1823.

Cornet Garstin having passed so creditable an examination, his Excellency has not hesitated to recommend him to Government, to fill one of the vacant Regimental Staff employments in the Corps to which he belongs.

Pensions to Officers, Officers Widows and Out-Pensioners of Chelsea Hospital.

The Honorable the Governor in Council deems it expedient to direct that, with the exceptions noted in the margin, all Abstracts of European and Native Pensioners of this Presidency, shall be authenticated by the Superintendent of Pensions before payment.

All Officers to whom the duty attaches of drawing the allowances of the Pensioners above referred to are accordingly to transmit their Abstracts accompanied by Muster Rolls, to the Superintendent of Pensions as soon after the 1st of each month as may be practicable; and it will be the duty of that Officer to compare them with his Register, and to certify each Abstract on the face thereof in the following manner.

Certified that the Pensions included in this Abstract amounting to Rupees ——— correspond with the Register kept in my office.

(Signed) R. S.
Superintendent of Pensions.

Or, otherwise, to note at foot of the Abstracts in what respect they may be incorrect, and the Superintendent is directed to return the Abstracts, so certified or noted to the parties by whom they are forwarded, with the least possible delay.

The Superintendent's certificates are, however, to be considered as applicable only to the name, rank, and amount of the allowance drawn for each individual, the correctness of the Abstracts in other respects, as regards additions, and calculations, period of Arrear, prescribed Vouchers, double Charges, &c. remaining as hitherto, subject to the Paymaster's examination, and ultimate check of the Office of Audit.

On the correction of an Abstract noted objectionable, it is not to be referred a second time to the Superintendent, but to be presented to the Paymaster, who will examine it with reference equally to the Superintendent's remarks, as to the general Regulations under which such payments are now made, and if found unobjectionable, the Abstract is to be discharged, otherwise to be referred to the Military Auditor General before payment, under the provisions laid down in page 335 of the Code of Pay Regulations.

The Reports of Casualties of Pensioners now furnished by the Superintendent to the Military Auditor General are to be discontinued.

G. O. G. 9th December 1823.

The Honorable the Governor in Council has been pleased to resolve that Officers dismissed, discharged or cashiered, or who may be permitted to resign the Service of the Honorable Company shall receive the regimental allowances of their rank up to the date on which the General Order striking them off from the strength of the Army shall be published at the stations at which their Corps may be posted.

G. O. G. 23d December 1823.

Para. 1. The Honorable the Governor in Council having determined that the Regimental allowances of Medical Officers employed exclusively in the Civil Department shall be consolidated with their civil allowances, those Officers are accordingly to be considered entitled to their Regimental subsistence only in the Military Department, and should local circumstances require in any case, that their civil allowances should be drawn from Military Paymasters, the specific sums to which they are entitled will be notified to the Military Auditor General, who will direct the amount to be disbursed, and brought to account as *Civil* charges.

2. Medical Officers having regular established duties, both in the Civil and Military Departments, are to draw their Regimental allowances in the latter as *Military* charges, including Tent allowance or House rent, according to the nature of their Military duties.

3. It is however to be understood, that the nomination of a Medical Officer holding a permanent Civil appointment to any occasional Military duty is not to authorize his drawing Regimental allowances; such temporary duty will give him a claim to the regulated, or established Medical allowances only as Military charges.

4. The above provisions are not to be considered applicable to Medical Officers attached to Political Residencies, whose pay and allowances will continue to be drawn and brought to account as at present.

G. O. C. C. 8th January 1824.

The Commander in Chief has much pleasure in publishing the following Extract from the Proceedings of a Board of Officers assembled at Jaulnah, for the purpose of ascertaining, and reporting upon the proficiency of Lieutenant W. D. Barclay, Adjutant 2d Battalion 12th Regiment in the Hindoostanee language.

"Lieutenant Barclay executed a translation from Hindoostanee into English with "that degree of readiness and accuracy that induced the Board to suggest his under- "taking the more difficult task of translation from English into Hindoostanee, and "they selected accordingly a short Fable for that purpose—This translation, though "not entirely free from error, was in its general character, such, as to evince a very "considerable knowledge of the language, and in more than one instance the mode of "expression adopted, shewed a familiar acquaintance with, and command of its "idiom—The Board had likewise the satisfaction to find that Lieutenant Barclay "expresses himself in Hindoostanee with fluency and correctness, and writes a re- "markably good hand."

G. O. C. C. 8th January 1824.

The Commander in Chief has great pleasure in publishing to the Army the following extracts from letters received from Committees assembled at the Presidency and Secunderabad for the examination of Officers in the Hindoostanee language.

From the Committee assembled at the Presidency.

2d Bat. 6th Regiment.

"We have great pleasure in stating that the result has "been, on the whole extremely satisfactory, for, although "we detected some passages in Lieutenant Harding's Eng- "lish Version, in which he had not literally rendered the original, yet his translation "was true to the general sense; and we are willingly to attribute the above trifling "inaccuracies to the circumstances of the task submitted to him being in the Dukunnee "Idiom instead of the Oordor, the Dialect in which he appears to have been instructed. "—Of that dialect he exhibited a very favourable specimen in his Hindoostanee "translation, which was executed in a manner deserving of high commendation.

"For the colloquial part of the examination, Lieutenant Harding appeared to still "greater advantage, conversing with great fluency and command of language, and

"with

" with a justness of pronunciation, which we consider quite unexceptionable, and of " very rare attainment, and we have no hesitation in stating in conclusion, that we " consider him competent to discharge the duties of an Interpreter, whenever his ser- " vices may be required for that purpose."

From the Committee assembled at Secunderabad.

3d Regiment Light Cavalry.

" The style of Lieutenant Bullock's version from Eng- " lish into Hindoostanee was remarkably pure, idiomati- " cal, and for the most part elegant; his translation from " Hindoostanee into English though not entirely faultless, sufficiently indicates his ex- " tensive acquaintance with the language.

" Mr. Bullock's conversation though fluent and unembarrassed was not quite so un- " ceptionable as we were led to expect from the masterly style which characterized " his translation from English into Hindoostanee.

" The Board however conceive that Mr. Bullock has attained a very considerable " degree of proficiency in the Hindoostanee language.

2d Battalion 16th Regiment.

" The exercises of Lieutenant Rudiman, were performed " with considerable accuracy, particularly his translation " from English into Hindoostanee which was distinguished " for its justness of idiom, grammatical excellence, and the beauty of the (Nustalik) " character in which it was written.

" The fluency and remarkable correctness with which Mr. Rudiman conversed fully " corresponded with his written performances, and reflects the highest credit on his " talents and capacity."

The Honorable the Governor in Council is pleased to establish an Institution at the Head Quarters of the Artillery, for the purpose of completing the professional education of the Junior Officers of the Corps, and of imparting to the Non-commissioned and Privates of the Artillery, a certain degree of theoretical knowledge, in the duties of their profession.

2. The Officer appointed to the charge of this Institution will be designated "Director of the Artillery Depôt of Instruction," and will have charge of the Repository of Models, and Drawings of all Ordnance Carriages, and Machinery attached to the Artillery, as well as the patterns of Stores of every description in use with that branch of the Service; the Institution to be formed, and conducted under the immediate orders and control of the Commandant of Artillery, according to a plan which has been approved of by Government.

3. This office will also be considered, the Repository of all Artillery experiments, and the proper place of record for all Artillery practice; and it will be an important part of the duty of the Director of the Depôt, to arrange the results in such a manner as to be of most advantage, and of easiest access to the Officers of the Corps of Artillery; not only of such practice as may now be on record at the Artillery Head Quarters, but such as may take place in future.

of all references to the Select Committee, upon questions on which their report may be required whether originating with superior authority or otherwise, and any reports required by the Military Board in the course of their own proceedings, will be procured in like manner. In order however to encourage enquiry and useful professional discussion amongst the Officers of the Corps of Artillery, an exception to this rule will be allowed in their favor, and any of them having improvements to bring forward, will accordingly be at liberty to apply as usual, to the Commandant of Artillery, who may refer the subject at once to the Select Committee, laying the result if necessary, before the Military Board with his own opinion; a mode which will afford every facility to the Officers of the Corps, without carrying the discussion beyond it, unless the advantage of the Service should be evident to the Select Committee, and the Commandant of Artillery.

7. No alterations of the Ordnance Carriages or Articles of Artillery or Magazine Equipment, will in future take place, without being previously reported on by the Select Committee, and in cases where the Military Board may be desirous of introducing changes contrary to the opinion of the Committee, a reference on the question at issue, will be made for the final decision of Government.

8. No part however of these Regulations or of the plan now generally approved of, is meant to give authority for the adoption of changes in the Ordnance Department, involving encreased expense, without the previous sanction of Government.

9. The Honorable the Governor in Council is pleased to appoint Captain J. H. Frith of the Artillery to be Director of the Artillery Depôt of Instruction, on the allowances of a Commissary of the First Class and the Full Batta of his rank; with the following Establishment, viz.

For every 100 Native Commissioned, Non-Commissioned Rank and File and Public Followers.

Gamblers	100

8.—Officers in Command of Corps and Detachments, or in charge of Departments, will accordingly be entitled to indents on the Commissariat for these articles in the above proportions, with exception of the Hammocks, which will be shipped by the Commissariat and placed in charge of the Commanders of the Transports. The Indents are required to be sent in the Quarter Master General of the Army to be checked and passed, when the articles will be issued to Corps, Detachments and Departments, before their embarkation, under such arrangements as may hereafter be made for that purpose by His Excellency the Commander in Chief.

9.—The Commanders of the Transports are held responsible for the Custody and Expenditure of the Provisions issued on board of their respective Ships, and will receive from the Officer Commanding Troops, Indents for the daily issues, which Indents will specify the number of Europeans or Followers, whether Public or Private,

bound Transports carried into effect.—The Officer in Waiting to be considered as the Officer of the Guard.—When the numbers embarked will permit, a Captain of the Day is to be appointed, to whom the Officer of the Regiment, the Sergeant Major and the Watch, will report all circumstances for the Commanding Officer's information.

A Guard, the strength of which to be proportioned to the number of Soldiers embarked, or received by the Transports required, must mount every morning at nine o'clock. In Harbour and in fine weather, the Guard will be exercised with arms particularly to practising the Soldiers more acquainted with the security of the Vessel, and the performance of every duty required. In Harbour, the Soldiers upon Deck are to mount with their proper Arms, and Ammunition only.

The Men of each Watch serve alternately in Divisions, so that they best assist the Sailors in working the Vessel. The Non-Commissioned Officers and Soldiers not belonging to the Watch are to be allotted to their proper Quarters by the Master of the Transports, in order that they may not impede the working of the Ships.

The Officer Commanding on board each Transport must make an arrangement in concert with the Master of the Vessel, for Quartering the Men, so that in case of Alarm either Boys Fire, or the Ship's Crew, every Man may be at his proper Quarter. In making this distribution, the Commanding Officer may be careful not to have too many Men upon Deck at once who are not wanted, as the Crew, or cannot conveniently be employed with small arms, or in assisting the Sailors, are to be formed as a reserve between Decks.

The Troops are to parade at [illegible] with their Knapsacks, without shoes and stockings, in every Fine Morning when [illegible] Officer at his discretion will allow his hands, face, and feet washed; and the Men mustered; they are to parade again at half an hour before sun-set.

The Cooks attached to Companies are to appear there as parade once a day.

As warm weather the frequent washing of every part of the body is strongly enjoined as an essential requisite to the preservation of health; circumstances will admit of it, two large tubs are to be [illegible] Commanding Officer, [illegible] Men under [illegible] proper [illegible] Soldiers [illegible] every day the body will prove an effectual [illegible]

The Troops [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] they are to be aired, and [illegible] [illegible] [illegible] [illegible] [illegible] that they should be [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

It is the duty of the Medical Officers to guard the Men, against costiveness, and as on the arrival of the Transports at any Port, a great number of Canoes usually come off with fruit, plantains, &c. generally very green and bad, the European soldiers are not to be allowed to buy such trash, and should only be supplied with fruit and vegetables, as the Medical Officer on board may deem proper.

If the European soldiers are cleanly, well messed, and attended to in the several particulars above directed, every reasonable hope may be entertained of their continuance in health.

Regularity and decency of conduct, which are on all occasions highly estimable in the Military Character are particularly requisite on board of ship; and it is the duty of the Commanding Officer to repress, by the most decided and summary measures, any tendency to insubordination, and to check every *species* of immorality and vice, and to discountenance to the utmost of his power, in any individual under his Command, whatever may disturb the comfort of others, or interrupt the harmony and good understanding which should subsist on board.

The foregoing Regulations cannot be so properly concluded, as by most earnestly recommending to the Officer Commanding on board each Ship in which European Troops may be embarked to cause Divine Service to be performed on every Sunday when the weather will permit. In case there be no Clergyman on board, the Commanding Officer is to perform this duty, or to commit it to some intelligent and respectable Officer. Independent of the strong reason which, in a religious view, demands the discharge of so important and sacred a duty, the regular performance of Divine Service has ever been found to produce and promote cleanliness and good order among the European soldiery.

The Regulations of the Service dispense with the Muster of Camp Equipage and Carriage when on Foreign Service without prejudice to the Tent Allowance of Officers.

The Troops European and Native, will receive Rations agreeably to a Table which has been published in Government Orders.

When Troops are embarked on board of Ships of War, or other ships regularly Commissioned, the Officers and Soldiers, (Europeans and Natives) from the time of Embarkation, are (as enjoined by the 23d Section of the Articles of War) to conform themselves strictly to the Regulations established for the government and discipline of the Ship in which they are embarked, and to consider themselves as under the Command of the Senior Officer of the Ship, as well as of the Superior Officer of the Fleet (if any) to which such Ship belongs.

European and Native soldiers embarked on board Transports are under the Command of their respective Officers, and are to be punished by order of the Military Commanding Officer only. Every attention is to be paid to the request of the Commanders of Transports, who will always apply to the Commanding Officers for assistance, and although the Native Troops are not to be forced to assist in working the Ships (unless on emergency) the Commanding Officer on board will encourage them to assist and promote harmony and good-will between the Soldiers and Sailors as much as possible.

The Commander in Chief has great pleasure in publishing to the Army the following letter from the Committee for the examination of Officers in the Hindoostanee language.

To His Excellency
General Sir ALEXANDER CAMPBELL, *Baronet*, K. C. B.
Commander in Chief,
&c. &c. &c.

SIR,

We have the honor to report, that agreeably to the instructions contained in the letter of the Adjutant General to our address of the 17th Instant, we proceeded to the examination of Lieutenant Chalmers of the 1st Battalion 11th Regiment N. I.

The usual tasks being assigned to Mr. Chalmers, both were speedily performed in a most satisfactory manner—The translation from English into Hindoostanee exhibited a knowledge of Grammar and a command of Language which entitle Mr. Chalmers to a place

place amongst the first class of our Hindoostanee Scholars—It was indeed executed in so masterly a manner, as would have reflected credit even on an experienced Moonshee: and in neither of the translations were we able to detect an error of any description—The writing of Mr. Chalmers also in the Persian Character is particularly good.

Mr. Chalmers expresses himself with considerable fluency, but his pronunciation is perhaps not quite sufficiently distinct.

We have the honor to be,

Sir,

Your Excellency's very obedient Humble Servants,

Lieutenant Chalmers having passed so creditable an examination, His Excellency has not hesitated to recommend him to Government, to fill the vacant Regimental Staff Appointment in the Corps to which he belongs.

The Commander in Chief has great pleasure in publishing to the Army the following letter from the Committee for the examination of Officers in the Hindoostanee Language.

To His Excellency
General Sir Alexander Campbell, *Baronet*, K. C. B.
Commander in Chief,
&c. &c. &c.

Sir,

We have the honor to report agreeably to the instructions conveyed to us in the Adjutant General's letter of the 25th Instant.

We have proceeded in the examination of Lieutenant Williams of the 1st Battalion 3d Regiment N. I. in the Hindoostanee Language—although the attainments of Mr. Williams are not of a nature to place him in the first rank of Hindoostanee Students, his knowledge of the Language is nevertheless sufficient to qualify him for the discharge of the duty of an Interpreter.

His translations were executed in a plain intelligible style, and were free from any defect in idiom or grammar.

His conversation was ready and distinct.

We have the honor to be,

Sir,

Your Excellency's very obedient humble servants,

3. The regulation under which European and Native Commissioned Officers receive the pay of the advance Rank on Regimental promotion, from the date of the Casualties to which they succeed, is extended to the European and Native Non-Commissioned Ranks of all Corps.

4. When the *established* Medical Allowances on account of Troops and followers may be drawn by Medical Officers whose appointment or nomination to such medical charge

charge may not have been communicated to the office of Audit, the Military Auditor General is authorized notwithstanding to pass their charges on the counter signature (to the Abstracts) of Commanding or Staff Officers, who will be held responsible that the Medical Officers were in regular charge, and performed the duties during the period drawn for—this provision is not however to prevent the usual reports of Medical appointments being made by Commanding Officers for the confirmation of His Excellency the Commander in Chief.

5. The 2d Paragraph, Page 74 of the Code of Pay Regulations prescribing that a copy of the authority, under which Deserters are received and brought on the strength of Corps shall be forwarded to the Office of Audit with the Regimental Abstracts is rescinded; and the Military Auditor General is authorized to pass the regulated charges on their account although supernumerary to the establishment, on the authority of the Muster Rolls specifying that the Men have been received from Desertion; but the sanction of His Excellency the Commander in Chief is, notwithstanding, to be obtained as heretofore, without which the Deserters are not to be brought on the returns.

6. Questions having arisen regarding the right of Officers, when proceeding on service by Sea, to draw for the periods of being on board Ship the established allowances on account of Regimental Messes, and for carriage of Treasure, of Regimental and Battalion Books, and of Medicines, the Honorable the Governor in Council is pleased to authorize those charges, it being presumed that the Officers concerned incur expenses connected therewith preparatory to the service on which they may be employed.

7. The Commanding Officer's Certificate that a well regulated Mess has been established as prescribed by the 27th Paragraph, Page 372 of the Code of Pay Regulations to be forwarded each month with the Regimental Abstracts of Corps in support of the charge of Mess allowance is dispensed with, in cases of Field and Foreign Service; but Commanding Officers of Corps will be held responsible that the allowance is not drawn unless a regular Mess is kept up.

8. That part of the 16th Paragraph, Page 238 of the Code of Pay Regulations which directs the names of Horsekeepers and Grasscutters attached to European and Native Regiments of Cavalry to be inserted in the Muster Rolls is rescinded, and it will be sufficient in future that the aggregate numbers of each are included in the Abstract Muster Rolls.

G. O. G. 6th April 1824.

1. The Honorable the Governor in Council is pleased to publish the following additional regulations in continuation of those contained in the General Order of the 30th ultimo,* on the subject of rations.

2. The subsistence of horses being private property, is to be paid for by the owners, at the rate of one Rupee a day, and the amount is to be recovered by stoppages in the usual manner.

3. Native Followers allowed to be attached to Native Commissioned Officers and Sepoys, and to European Non-commissioned Rank and File, and all public Office Servants not being *Europeans*, Conicopolies, &c. are to receive rations on Ship board, the same as the Native Troops, and gratis.

5. As in the course of service *cases* of *emergency* may happen when the European Commissioned and Warrant Officers may find it impracticable to supply themselves with provisions on shore, they will be permitted, in such cases only, to draw from the Commissariat, the same daily rations as are allowed to the European Troops, paying for the same at the rate of 8 Annas per diem.—The Officers to whom rations may be so issued will be included in the usual victualling Registers furnished from the Commissariat to the Pay Department, in order that the amount may be recovered from the parties.

* 6. Office Servants and private Followers in like manner, may sometimes find it impracticable to subsist themselves, on shore, and they will be permitted also, in such cases of actual emergency, to receive one Seer of rice daily from the Commissariat Stores, upon Indents from the Corps or Departments to which they belong. The private followers allowed to the Native Troops and to the European Non-Commissioned Rank and File and who *bonâ fide* embarked with them from India, and Office Servants, will receive that allowance gratis; but the private followers of Officers, Commissioned or Warrant, will pay for this issue at the usual rate on field service, viz. One Fanam (or Anna 1 Pice $2\frac{33}{80}$) per seer, the amount being recoverable from the parties to whom such followers belong—on no occasion however will Officers be entitled to draw rice for their private servants beyond the following numbers, viz.

G. O. C. C. 8th April 1824.

The Commander in Chief having seen under Arms the whole of the Force assembled at the Presidency for Foreign Service, has great pleasure in declaring his entire approbation of their soldier-like appearance, and the efficiency of their Equipments in every respect: These are points of the first importance, and their uniformity and fitness reflect the greatest credit on the Commanding Officers of Corps, and those under their Command.

The efficiency, cheerfulness, and spirit of the whole Force, is the best pledge, that they will do honor to themselves, and fulfil every expectation of the Government, their Countrymen, and brother Soldiers.

G. O. G. 30th March 1824.

The Honorable the Governor in Council having reason to believe that in several instances an improper use has been made of the privilege of franking letters on the Public Service, deems it proper to notify that all letters franked as on the Service, respecting which there shall appear to be ground of suspicion, will be liable to be opened previously to delivery, and that any Officer who may be discovered to have used the privilege improperly, will incur the serious displeasure of the Government.

G. O. G. 9th April 1824.*

The Honorable the Governor in Council has been pleased to establish the following Regulations for the Regimental Pay Department of Corps of the Company's Service.

2. All Pay and Allowances at the Head Quarters of Corps are to be drawn by the Regimental Paymasters, whose duty it also is to procure and forward to Station, Division, and Field Paymasters, as the case may be, the regular vouchers and explanations in reply to objectionable charges and retrenchments from the abstracts of their Corps—to pay particular attention that the replies so forwarded, (which are in all cases to be countersigned by the Officer Commanding), are competent to remove the objections made to the charges—and to superintend generally the whole Pay Department of their Corps.

3. Regimental Paymasters are to consider it their duty to ascertain, and bring forward all just claims of the Non-commissioned Rank and File within the regulated periods, in order to prevent their being forfeited by delays, whether arising from the ignorance or inattention of the parties immediately concerned.

4. The receipts (in words at length) to the abstracts of Regimental Paymasters, and all Officers drawing the Pay of Troops, Companies, &c. are not merely to be signed, but written entirely by those Officers; and, in order further to guard against the interpolation of unauthorized charges in the general Abstracts, or alterations in the figures to encrease their totals, (several instances of which have occurred,) it is directed that an abstract statement in the form given in the margin shall be annexed to each general Monthly Pay Abstract.

5. Every Regimental Paymaster is, in future, to receive the Pay of his Corps at the Station or Field Pay Office *in person* (assisted by the Vakeel), taking a list of the coins in which it is paid—Officers Commanding Detachments who draw the pay of Troops, Companies, &c. are likewise to attend at the Pay Offices to receive the amount *in person*; and Division and

and Field Paymasters are accordingly directed not to issue the Pay of Corps or Detachments, except to the Officers in person who pass their receipts for the amount.

6. On receipt of the monthly pay of Corps, Regimental Paymasters are to make immediate reports to their Commanding Officers specifying the amount and the coins, with their rates, in which the Abstracts have been discharged, which coins are to be paid at the same rates to Officers Commanding Troops, Companies, &c. and those issued to each invariably recorded in the Regimental Paymaster's Books.

7. When the receipt of the pay of a Corps shall have been reported, as above directed, Commanding Officers are to order the personal attendance of the Officers in charge of Troops, Companies, &c. at the office of the Regimental Paymaster, in order to receive the amount drawn for each—and it is specially required of Commanding Officers to enforce uniform attention to this and the foregoing provisions.

8. The Governor in Council considers it necessary to direct the most particular attention of Regimental Paymasters to the Family Certificate Department of their Corps, and to declare them responsible for the amount of any deficiencies in the stoppages, to be made on that account, except in the case of casualties or other unavoidable prevention.

9. In order further to ensure a strict observance of these provisions monthly reports, for regimental record, are to be made by all Regimental Paymasters, to their immediate Commanding Officers of the stoppages brought to public credit in each month on account of Family Payments; and, if deficient of the amount of the Family Certificates, the reports are to contain the most particular detailed account of such deficiency, with the requisite explanations in reference to the instructions of the Superintendent of Family Payments applicable to the contingencies which may have prevented the recovery of the amount.

10. It is considered necessary on this occasion, to make known that the aggregate Staff Pay and Allowances granted to Quarter Masters of Corps of the Company's Service are considered by Government as a remuneration equally for their duties in the Pay Department, as for those in their capacities of Interpreter and Quarter Master.

G. O. G. 9th April 1824.

* 13th. It is not intended that in carrying the present Orders into effect, Officers should be permanently removed from the particular Battalion in which they may long have served and wish to remain, provided that by an interchange between Officers standing the same number of removes from promotion, each could be retained in his particular Battalion, and both are willing to make the exchange and shall prefer an application for that purpose within four months from the date at which the present arrangement shall take effect, or within twelve months where either of the parties shall be absent on furlough.

14th. The Officers who by the above arrangement become Colonels or Lieutenant Colonels Commandant of Regiments or Battalions in each branch of the Service, shall succeed

succeed according to the Seniority to a Half Share of Off-reckonings, the two Seniors being admitted to this benefit on the occurrence of each vacancy among the present Colonels of Regiments: But each Officer who stands first at the date assigned to this arrangement, for succession to the benefits of the Off-reckoning Fund in each branch of the Service, and all who may succeed to Off-reckoning Shares within *two years* from the same date (1st May) shall receive direct from the Treasury an allowance equal to the difference between the Amount of the Share actually enjoyed by him under the new plan and that which he would have been entitled to under the existing system, and from such date only as he would have been entitled had that system continued.

15th. His Excellency the Commander in Chief will be pleased to give effect to this arrangement as early as possible, as far as respects the Bengal Army; and the Governments of Fort Saint George and Bombay are requested to issue the necessary Orders to the Armies of those Presidencies respectively.

The Commander in Chief has much satisfaction in publishing to the Army the following Extracts from the Proceedings of Committees assembled at Trichinopoly and Secundrabad, for the examination of Officers in the Hindoostanee Language.

From the Committee assembled at Trichinopoly.

26th Regiment N. I. (late 2d Bat. 15th Regiment N. I.)

"Lieutenant Johnson, considering the very short time that he has regularly studied the language, has passed his examination in a manner highly creditable to himself.

"In reading and translating from the Char Derveish and Nusr-é-bé Nuzeer he was perfect—His translation from English into Hindoostanee exhibits a knowledge of words and idiom which convinces the Board that he has studied diligently, and that if he perseveres, he must be a perfect master of the language.

"In conversation Lieutenant Johnson does not possess the fluency that could be wished, but his terms are well chosen, and the Board have no doubt from the solid foundation he has laid, that a short continuance of his meritorious exertions, will make him master of this comparatively easy part of his pursuit."

From the Committee assembled at Secundrabad.

40th Regiment N. I. (late 2d Bat. 20th Regiment N. I.)

"Ensign Dyce's translation from Hindoostanee into English, an exercise which in his former examination was somewhat disfigured by error, was in the present, executed with great accuracy, and discovers a very considerably improved knowledge of the idiom of the language.

"The style of Mr. Dyce's version from English into Hindoostanee, was remarkably pure and correct: his conversation, though not equal to his written performances, is sufficiently fluent and intelligible.

"The Board on the whole conceive Mr. Dyce to have attained a very considerable proficiency in the Hindoostanee language."

The General Order of the 17th March 1810 providing, that Officers doing duty with Corps, other than their own, are to rank as Junior of their respective ranks, is not to apply to Officers now removed by the New formation of Battalions into Regiments, who are, so long as they may be detained, to enjoy their Rank as if still Regimentally attached.

The Commander in Chief desires to notify to all Officers named to the Staff, since the publication of his Orders of the 17th March 1823,* that although the calls of the public service have hitherto prevented their examination in Hindoostanee, yet, it is His Excellency's intentions to order them to undergo such proof of their qualifications as soon as circumstances will admit, and that all appointments are to be considered temporary till their proficiency is declared.

The Commander in Chief has much satisfaction in publishing to the Army the following Extracts from the Proceedings of a Board of Officers assembled at Bangalore for the examination of Officers in the Hindoostanee Language.

49th Regiment N. I. (late 1st Bat. 25th Regt. N. I.)

"Lieutenant Douglas's translation of a Story from the Persian Moonshee into Hindoostanee was performed in a highly creditable manner, and exhibited but a few slight errors in Orthography; the translation was rendered in a neat and clear hand-writing."

"The Proceedings of a Native Line Court Martial were also given to Lieutenant Douglas to translate into Hindoostanee, which he effected in a short space of time, and which, although not free from trifling errors, shewed him to possess a very competent knowledge of the Idiom of the Language—His translation from Hindoostanee into English was performed in a free style though the sense of the original was preserved."

"In the colloquial part, Lieutenant Douglas expressed himself with great ease and fluency, and the Board have no hesitation in pronouncing their opinion, that he is well qualified to fill the situation of an Interpreter."

With reference to the recent alteration in the numbering of Corps of Infantry, the Commander in Chief directs, that the several Regiments of Infantry, according to their new Numbers, will retain the Colour of Facings and Lace, each respectively wore as a Battalion of a Regiment.

The Honorable the Governor in Council is pleased to notify in General Orders that under His Majesty's Warrant, dated the 2d of February 1823, the deduction to be made from the Pay of Non-Commissioned Officers, Corporals, Trumpeters, Drummers and Private Men of His Majesty's Regiments of Dragoon Guards, Dragoons and Infantry of the Line when on their passage to and from the East Indies in Ships employed by the East India Company and not finding their own provisions, shall be the same as on the passage to and from other Stations abroad, viz. six pence per diem.

This Regulation is to take effect from the 25th of March 1822, as to Troops embarked for India, and from this date as to Troops embarking from Madras or other Ports subject to the Presidency of Fort St. George.

G. O. G.

G. O. G. 2d July 1824.

The following Extract from a letter from the Honorable the Court of Directors to the Supreme Government under date the 8th of October last, is published for general information.

Para. 10th. In our Letter of the 11th December 1816, in the Military Department, we called your attention to a subject seriously affecting under the then existing Post Office Regulations, the Relations in this Country of the Non-Commissioned Officers and Private Soldiers of His Majesty's and the Company's Army serving at the different Presidencies in India, and we stated that in consequence of an irregularity in the transmission of Letters from Non-commissioned Officers and Privates Europeans to their relatives at home, a heavy expense for Postage had been incurred by the individuals to whom the Letters were addressed, that several instances of the kind had then occurred, and that upon application for relief being made at the Post Office the answer uniformly was, that none could be afforded where the provisions of the Act had not been complied with.

11th. The payment of one penny which was at that time required to be made in India on each letter from a Soldier being put into the Post Office, and which was in a great measure the cause of the above inconvenience has been discontinued, and by the Act of 4 Geo. 4, Cap. 81, Sec. 73, Seamen and Soldiers in His Majesty's Service whilst actually employed in His Majesty's Service in the East Indies and at St. Helena, and Soldiers in the Company's Service may send under certain regulations and restrictions, single letters, provided that the party in Great Britain or Ireland receiving the same shall pay one penny for the Inland postage, and two pence for Sea Postage, unless such letters be put into one of His Majesty's Post Offices free of all expense to Government (this alludes to the expence of two pence for Sea Postage which by 54 Geo. 3, Cap. 169, Sec. 6, or other Acts the Post Office pay to Captains of Ships bringing Ship Letters to England) and may receive (under similar regulations and restrictions) single letters, free of Postage, except one penny to be paid for each single letter upon its being put into any Post Office in Great Britain or Ireland.

12th. The regulations and restrictions referred to in the present Act are contained in the Act 46, Geo. 3, Cap. 92, and prescribe, That upon all single Letters sent from Soldiers, the name of the Soldier, his rank (whether Serjeant, Corporal, Trumpeter, Drummer, Fifer, or Private) and the Regiment, Corps, or Detachment to which he belongs shall be superscribed.

13th. That upon all such single letters shall be written in the hand-writing of and signed by the Officer in the actual Command of the Regiment, Corps, or Detachment, his name, rank and the Regiment, Corps or Detachment commanded by him.

14th. It is to be clearly understood that this indulgence is limited to single letters.

15th. The Act (of 46 Geo. 3, Cap. 169 before mentioned) also directs, that if any Officer having the command of a Regiment, Corps or Detachment, shall wilfully and knowingly write his name upon any letter that is not from such Soldier and upon his private concerns only, such Commanding Officer shall forfeit and pay the sum of five pounds.

16th. That a similar penalty shall attach to any person who shall (with an intent to evade the full rate of Postage) obtain the signature of the Officer Commanding, to letters not on the private concerns of Soldiers.

17th. Further, that if any Officer not having at the time the command of the Regiment, Corps or Detachment shall write his name upon a Soldier's letter, he shall forfeit and pay the sum of five pounds.

18th. As the indulgence in the present Act (of 4 Geo. 4, Cap. 81, Sec. 73,) extends to Seamen in His Majesty's Navy whilst actually employed in His Majesty's Service subject to the same regulations and restrictions as before mentioned, it is requisite that upon every letter to be sent the name of the writer and his class or description in the Ship or Vessel to which he shall belong shall be superscribed, and that upon every such letter, there shall be written in the hand-writing of, and signed by the Officer having at the time the command of the Ship or Vessel, his name and the name of the Ship or Vessel commanded by him.

19th. The Act does not extend to Seamen in the Company's Service.

20th. It appears necessary in order to avoid the expense of Sea Postage (mentioned in Act 54 Geo. 3, Cap. 169, Sec. 6) on letters from Seamen and Soldiers in His Majesty's Service and Soldiers in the Company's Service in India and St. Helena, that the letters from those persons should be sent to England in the Company's Regular or Extra Freighted

Freighted Ships, or in such other Ships only in which Company's Dispatches are forwarded and not in any Ship without Company's Dispatches whose Packets or Bags of Letters may be required to be delivered at the Post Office, and in order that these several classes of Individuals may in future, be relieved from the expense from which the Legislature in contemplation of their inability to bear it, intended they should be exempt, we direct that you will immediately on receipt of this dispatch issue orders for strict attention being paid to the regulations which we have now expressed, and particularly those respecting the address of letters from Soldiers and the Officers' signatures on the same.

21st. And to prevent Officers and others from incurring the penalties prescribed by the Act of Parliament, we direct that the utmost publicity be given to the clauses on the subject.

G. O. G. 9TH JULY 1824.

The following Extract from a Letter from the Honorable the Court of Directors in the Military Department under date the 6th of January last is published in General Orders.

Para. 2. "We have resolved that for the period of the necessary residence in India of a General Officer in His Majesty's Service after the date of his removal from the Staff, he be allowed to draw the full Batta of his Regimental Rank until the day of embarkation. That this period shall however in no instance exceed three months from the date of the announcement of the removal in General Orders at the station where he may be serving.

3. "This Regulation is to take effect from the date of promulgation in General Orders."

G. O. G. 23D JULY 1824.

The Honorable the Governor in Council has been pleased to resolve that the Bills which Paymasters are permitted to draw on the Accountant General in favor of Officers of the Army for a proportion of their Pay and Allowances, the grant of which is regulated by the Accountant General according to the convenience of financial arrangements, shall in future be payable only to the first endorsee.

G. O. G. 6TH AUGUST 1824.

The Honorable the Governor in Council is pleased to direct, that the Establishment of the Native Infantry Regiments of this Presidency employed on Foreign Service shall be increased to 900 Privates, with an additional Havildar and Naigue per Company, and that any Corps hereafter warned for Foreign Service shall from that date be upon the increased Establishment.

The Commander in Chief will be pleased to issue the necessary subsidiary orders for carrying this increase into effect—either by drafting Volunteers from the Regiments of the Line or by Recruiting.

The Honorable the Governor in Council is further pleased to direct, that the establishment of the remaining Regiments of Native Infantry be for the present fixed at 800 Privates.

G. O. G. 10th August 1824.

The Honorable the Governor in Council is pleased to direct, that salt-fish be issued occasionally as a part of the Rations for European Troops on board Ship or on Foreign Service, in the proportion of one pound and a half of salt-fish, in lieu of one pound of salt meat, whenever the want or scarcity of salt or fresh meat, may in the discretion of Commanding Officers, render such issues necessary or adviseable.

G. O. G. 13th August 1824.

His Excellency The Commander in Chief having laid before the Government a Report of a Committee for the examination in the Hindoostanee Language of Lieutenant D. Babington of the 17th Regiment of Native Infantry, the Honorable the Governor in Council is pleased to publish it in General Orders.

To His Excellency
General Sir Alexander Campbell, *Baronet*, K. C. B.
Commander in Chief,
&c. &c. &c.

Sir,

We have the honor to report, that in conformity with the Orders of Government communicated to us in Mr. Clive's Letter of the 2d Ultimo, we have examined Lieutenant Babington of the 17th Regiment of Native Infantry with regard to his proficiency in the Hindoostanee Language. Lieutenant Babington was given the usual papers for translation both into Hindoostanee, and, from that language into English, and we have great satisfaction in bestowing our unqualified approbation on both performances; Lieutenant Babington's Hindoostanee version was not only free from every kind of grammatical or orthographical errors, but was remarkable for elegance of style and freedom of expression: and we consider him to rank amongst the best scholars who have appeared before us. His translation into English was as might have been expected from his previous execution of the severe and difficult task of translating into Hindoostanee, perfectly correct and accurate, and his conversation was liable to no objection either with regard to pronunciation or command of language. Under all these favorable circumstances, we have no hesitation in stating our opinion, that Lieutenant Babington is perfectly competent to perform the duties of either Translator or Interpreter in any situation in which such services may be required.

We have, &c. &c.

G. O. G. 24th August 1824.

The Honorable the Governor in Council is pleased to direct, that the existing Regulations with regard to the proportion of Maistries to be allotted to a given proportion of Bullocks supplied by the Commissariat or otherwise for the Public Service, shall be in part cancelled and the following rules substituted.

That one Maistry shall be allowed when the Bullocks supplied amount to 50, and for higher numbers in proportion of one Maistry to every 50 Bullocks, but when the additional Bullocks exceed half that number, an additional Maistry is to be employed and drawn for, thus 50 to 75 Bullocks authorizes one Maistry, 76 to 125 two Maistries, 126 to 175 three Maistries, and so on in the same proportion.

G. O. G. 27th August 1824.

2. In the calculation of the number of days for which Travelling Batta is payable, if the odd number of miles amounts to half the distance, for which a day's Batta is authorized an additional day's batta is to be drawn; but, if less than half, no charge is to be made on that account.

G. O. G. 3d September 1824.

In obedience to instructions from the Honorable the Court of Directors, the Honorable the Governor in Council notifies in General Orders, that the Rank of Brevet Captain will not in future be granted to any Officer until he shall have completed a period of 15 years service, reckoned from the date of his first commission as Second Lieutenant, Cornet, or Ensign.

The Honorable the Governor in Council having lately been pleased to award a gratuity of Five Hundred Rupees to Lieutenant and Brevet Captain W. N. G. O. G. 12th October 1824.

The Governor in Council is pleased to publish the following notification.

2. Officers

2. Officers who have been removed to the Invalids on account of age, wounds, or infirmities rendering them unequal to the active duties of the line, will generally be stationed at Invalid Garrisons or Posts occupied chiefly, or wholly, by Invalided Soldiers, and where their duties will interfere either not at all, or but little, with those of Officers of the effective part of the Army; but should they chance to be at a station for effective regular Troops, it is not required or desirable, that they should be put upon a Roster for general duty, or interfere with the command of such Troops; and their duties should be confined to their own Corps, which is entitled to indulgences by the Public Regulations of all Services: But an Officer of the Invalids or of the effective part of the Army may at any time be specially appointed to the General Superintendence of Troops of either or of both branches at a Garrison station, should the Commander in Chief, or the Governor in Council think fit so to direct.

G. O. G. 12TH OCTOBER 1824.

The Honorable the Governor in Council is pleased to authorize Chaplains to grant Family Certificates, when employed at Stations or in situations, where the Troops are entitled to that indulgence—the amount to be regulated on the principle laid down in the 2d paragraph of the General Order 18th June 1824.*

† If in any case of sickness duly attested by a Medical Certificate, it may be found necessary to transmit such an application to Head Quarters or to Government, before the Officer applying has adjusted any public demands against him, the application is to be accompanied by a Certificate from his Paymaster, that security has been, or is about to be given, for the amount due, together with a statement of that amount and a full explanation why it cannot be adjusted, when, in the event of that explanation being approved, the leave will be granted immediately, if security has been given; if it has not, the leave will be granted *on* security being given.

In the case of Officers having regular accounts of disbursements, the Regulations heretofore in force with regard to security are to continue applicable.

G. O. G. 19TH OCTOBER 1824.

An allowance of Rupees 30 per Month for Stationary is authorized, for the Command of each Troop and Company of all regular Corps, including the Rifle, and Pioneer Battalions, but not the Governor's Body Guard. This allowance which is to commence with the new scale of Regimental Pay and Allowances is to cover all charges for Stationary on account of Detachments and absent Details, and the allowances heretofore authorized on the same account, are to be discontinued.

At all other Stations an Officer occupying Public Quarters (whether on payment or otherwise) is disqualified from drawing House Rent.

Advances of Subsistence to Officers of the Honorable Company's Service proceeding to Europe, &c.

9. The advance of regimental Subsistence to Officers of the Honorable Company's Service proceeding to Europe is not to commence at the Europe rate, until the 1st of the month following that in which they embark.

10. The advance of Regimental Subsistence to Officers of the Honorable Company's Service proceeding to Sea or to other Settlements and eventually to Europe is to be made at the Europe rate commencing on the 1st of the month following that in which they embark, subject to retrenchment if they return, without having proceeded to Europe.

Abolition of Senior List, &c.

29. All Officers, who may have been on the Senior Lists of the three Presidencies on the 1st May 1824, shall only draw from the Off-reckoning Fund the sum of £543 15 0 per annum, the Honorable the Court of Directors undertaking to pay to those Officers the difference between that sum, and the annual accruing full share ; and the fund in consideration of this arrangement, shall admit as full sharers from the same date, all those Officers who were then on the Junior Lists.

30. As casualties occur among the Officers on the Senior Lists of the three Presidencies, and among those still remaining on the Old Retired List, the sum of £543 15 0 per annum respectively drawn by them from the Fund will go to the encrease of the General Fund, and will thereby augment the amount of Shares.

G. O. C. C. 15th December 1824.

G. O. By Lieutenant General Bowser, *Commanding the Army in Chief.*

Bangalore, 15th December, 1824.

Lieutenant General Bowser succeeds to the Command of the Madras Army, with no common feelings of pride, and satisfaction ; its long established character and encreasing fame, he has witnessed through every rank. The high principles of military pride and devotion to the Service, which have long characterized this Army, and which were supported and impressed by the late lamented and distinguished Commander in Chief, His Excellency General Sir Alexander Campbell, *Bart.* and K. C. B. with such energy, as justly to mark the value and ability of that gallant Soldier, who was so devotedly attached to his profession, and so true a friend to the Madras Army : an Army in which he had served with such enviable reputation, that the Lieutenant General cannot but express his hope, that these principles will be strictly attended to, and he pledges his assurance that he will not fail in his best endeavours to unite with Sir Alexander Campbell's professional pride, and zeal, his never ceasing anxiety for the honor, and interest of the Madras Army, which will long deplore the irreparable loss of such a Man and such an Officer.

Lieutenant General Bowser desires that all orders issued by His late Excellency General Sir Alexander Campbell, *Bart.* and K. C. B. may be strictly obeyed, and he feels every confidence in the zealous support and and unceasing attention of the Officers of the Army, to maintain its character, for discipline, efficiency and obedience.

The late brilliant successes of the Army under the Command of Brigadier General Sir Archibald Campbell, K. C. B. in defeating the Burmese Army, in successive attacks on its position at Rangoon, affords Lieutenant General Bowser, a pleasing opportunity to congratulate his Brother Officers and Soldiers on the gallant conduct displayed by their comrades employed on that service.

The Governor in Council is pleased to publish in General Orders, the following Report of the Committee appointed to ascertain the proficiency of Lieutenant Chalmers, 22d N. I. in the Persian language.

To
The Acting Secretary to Government,
Military Department.

Sir,

We have the honor to report, for the information of the Honorable the Governor in Council, that in conformity with the instructions contained in your letter of the 9th Instant, we have examined Lieutenant Chalmers of the 22d Regiment N. I. with regard to his proficiency in the Persian language, and that the result has completely realized the expectations entertained from the distinguished manner in which he passed his previous examination in Hindoostanee.

The

The portion of a Story from the Goolistan was rendered by him into English, with perfect accuracy ; and the more difficult task of translating from that language into Persian was executed by him in a manner, which would have reflected credit on a Native Moonshee. A very simple English translation of a Story from the Buhar-Danish was paraphrased by him into Persian with remarkable elegance and facility of expression and in a style so perfectly idiomatic as to indicate a very extensive knowledge of the language. The value of these high attainments was not impaired by a single deficiency in either orthography or grammar, and the hand writing was liable to no exception.

Lieutenant Chalmers expressed himself in the colloquial part of the examination, with great fluency and a good pronunciation : and we have great satisfaction in stating, as the result of our entire examination, that we consider this Officer as eminently qualified to execute the duties of either Interpreter or Translator, in any situation in which they may be confided to his charge.

That they shall have been originally obtained from the remount lots, and not have been four years in use ; that they shall be reported fit for the Service by a Committee consisting of the three Senior Cavalry Officers present at the Station ; and that the sum to be repaid on account of each Horse shall be regulated on the principle of decreasing in value at the rate of Rupees 100 per annum, according to the period the Horse may have been in use.

8. Under the above provisions, if 12 Months shall not have elapsed, in the cases alluded to, from the date of selection of a Charger, to that of the return of the Horse to the Ranks, the full price (Rupees 700) is repayable ; if above one, and under two years shall have elapsed, Rupees 600 only is to be repaid ; if above two and under three years Rupees 500 ; if above three and under four years, Rupees 400 ; but if the Horse had been four years in use, it is not to be received into the Ranks.

His Excellency the late Commander in Chief having brought to the notice of Government, the distinguished gallantry displayed by Sepoys Shaik Mullick and Fazl Beg of the 5th Regiment Native Infantry in the late insurrection at Kittoor; the Governor in Council has great satisfaction in directing agreeably to his late Excellency's recommendation, that the above mentioned Sepoys be immediately promoted to the rank of Havildar, respectively, and borne as Supernumeraries of that rank on the strength of the 5th Regiment until vacancies shall occur.

G. O. C. C. 3d January 1825.

Lieutenant General Bowser having arrived at the Presidency, desires the Officers and Troops composing the Mysore Division of the Army, to accept his acknowledgments for the cordial support he has received from all the Officers and for the orderly and Soldier-like conduct of the Troops, during the four years he has had the honor to Command them. The zeal and public spirit which has animated all ranks, will ever secure their discipline and efficiency, so characteristic of the Service in general: and he takes his leave of them, as their immediate Commander, in the full confidence of a continuance on their part, of the Military principles and zealous exertions, which he has witnessed with so much satisfaction.

Lieutenant General Bowser having reviewed and inspected His Majesty's 13th Regiment of Light Dragoons on the eve of his departure from Bangalore, desires Lieutenant Colonel Boyse, C. B. and the Officers and Men of that distinguished Regiment, to be assured, that he is fully sensible of their merits and zeal, the benefit of which is as valuable to their country, as honorable to themselves: the Lieutenant General assures Lieutenant Colonel Boyse, that in his opinion, he may boast the Command of as efficient, orderly, and as serviceable a Regiment as any in His Majesty's Service—Its gallantry has been too often recorded to need remark.

The 1st Regiment Light Cavalry, the 24th Regiment Native Infantry, the 33d Regiment Native Infantry, and the Infantry Recruiting Depôt at Wallajahbad, having been inspected by the Lieutenant General, on his route, he has much satisfaction in expressing his approbation of their general appearance and efficiency---The state of the equipments of the 24th Regiment, and its compact and systematic marching order, is decisive of the zeal of Major Green, and of his attention to this essential point, to fit a Corps for Service---The Infantry Recruiting Depôt, under Captain Leggatt, at Wallajahbad, is so well composed of eligible men, in the hands of so zealous and fit an Officer to discipline and equip them, that the Officer Commanding the Army in Chief is satisfied, they will soon join the ranks of their distinguished and zealous Regiments, and prove a valuable addition to their strength.

Ordered that the following Extract from the Honorable Company's General Letter in the Military Department dated the 16th June 1815, be published in General Orders.

"In consequence of the numerous applications which have been preferred to us by our Servants on leave of absence in this Country for advances of Money on loans, we think it proper to recal your attention to our Orders in the Military Department of the 26th February 1808, upon this subject. Those orders declared our determination

determination not to make any pecuniary advances to Officers at Home beyond what they are allowed by the existing Regulations of the Service, and you were required to publish them in General Orders to the Army; but as a resolution of this description in order to be generally known to a body which is continually receiving an accession of new members should be occasionally republished, and being fully persuaded that a strict observance of this resolution will prevent much trouble and inconvenience, besides loss to the Company, we direct that our orders above adverted to, be in future circulated for the information of the Army in the month of January in every year, and we shall take the necessary steps for reminding Officers who may arrive in England upon furlough of our determination upon the subject in question."

To
G. J. CASAMAJOR, Esquire,
Acting Secretary to Government,
Military Department.

Sir,

In reply to your Letter of the 31st Ultimo, we have the honor to state for the information of the Honorable the Governor in Council, that we have examined Lieutenant Russell of the 32d Regiment and Ensign Woodfall of the 1st Regiment N. I. with regard to their proficiency in the Hindoostanee Language, and we are happy in being able to state that the acquirements of both are very considerable in that branch of Study.

The Translations of both these Gentlemen into Hindoostanee were distinguished by an exceedingly pure and idiomatic style, and were liable to no exception whatever, with regard to either Grammar or Orthography, and it is scarcely necessary to add, that their Versions from Hindoostanee into English were equally free from errors. The hand-writing of Ensign Woodfall was particularly good.

In the colloquial part of the examination, both Officers acquitted themselves entirely to our satisfaction, and in answering the interrogatories of the Moonshee, expressed themselves with both fluency and elegance.

The result of our entire examination is, that we consider Lieutenant Russell and Ensign Woodfall well qualified to perform the duties of either Translators or Interpreters in the Hindoostanee language whenever they may be required to perform such services.

We have the honor to be,
Sir,
Your most obedient Servants,

In publishing for the information of the Army, the following Copy of a General Order issued by the Supreme Government, the Honorable the Governor in Council is pleased to direct that its provisions shall in future be considered applicable in every respect to Officers of other Governments who may occasionally come to this Presidency.

No. 21 of 1825.

General Orders by the Right Honorable The Governor General in Council.

Fort William, 21st January, 1825.

In order to provide against inconvenience and delay in payments to Officers of the Madras and Bombay Establishments resorting to this Presidency *on duty*, and also with the view to prevent difficulty and confusion in the adjustment of their accounts at those Presidencies, it is hereby notified that when an Officer of the Madras or Bombay Establishment applies for his pay and allowances to the Presidency Paymaster at Fort William, he be required to append to his Bill an Official Copy of the General Order under which he came to Bengal together with his last pay Certificate, exhibiting the several allowances he is entitled to draw during his absence agreeably to the rules of the Presidency to which he belongs.

This Bill is to be submitted for previous Audit, and the Military Auditor General is authorized to pass the same to enable the Paymaster to pay the amount and to furnish the Officer on his return with a last pay Certificate from himself in lieu of the one surrendered, which is to be sent appended to the first Bill to Fort St. George or Bombay,

as

as the case may require for adjustment in the usual manner as receipts for advances have been hitherto forwarded by the Accountant Military Department.

The following arrangements renders applications to Government from Officers of the other Presidencies when here on duty for sanction to draw advances on account, no longer necessary, and as by the Act of the 33d of Geo. 3, Chap. 52, Section 37, the provisions of which the Honorable the Court of Directors have ordered to be strictly enforced, no Officer absent from his own Presidency from any other cause than public duty can draw salary or allowances until his return thereto—the Governments of Fort St. George and Bombay are requested to make the necessary notification to the armies of those Presidencies that Officers coming to Bengal on private business, or sick certificate or in progress to Europe, must make their own arrangements, *as no advances will be made to them in Bengal.*

Under these orders, which circumstances have rendered expedient, it becomes necessary to cancel that portion of the 2d Para. of General Orders 11th April 1817, which runs thus, "Officers arriving at Fort William on sick leave or otherwise from the other Presidencies, &c." to the conclusion of the paragraph—The Order Books to be corrected accordingly.

The Officers of the Bengal Establishment are hereby directed to make their pecuniary arrangements so as to render any application for advances to the Governments of Fort St. George and Bombay, or to any Settlement or Colony beyond Sea unnecessary *except when detached on duty*, as those Governments will henceforth decline such applications.

This Order is not meant to apply to Officers of the Establishments of Fort St. George and Bombay on Service in the Burman Dominions, the payment of whose allowances when visiting Bengal is provided for in General Orders No. 366 of 1824.

The Honorable the Governor in Council is pleased to direct that medical aid be afforded to such Dooly Bearers as are now in employment and may hereafter be hired under the provisions of the Commissariat Regulations Section 7, Para. 12; the same rate of medical allowance will be payable on that account as for Corps of Native Infantry.

G. O. C. C. 14TH MARCH 1825.

Lieutenant General Bowser having concluded the Inspection and Review of the whole of the Corps of Artillery (Horse and Foot) at its Head Quarters St. Thomas's Mount, has great reason to be gratified with the excellent condition and efficient appointments of that fine body of Men and Horses.

The Practice was excellent, and the Military appearance of all the Corps under Arms, their steadiness combined with precision and celerity of movement, was highly creditable, and the interior economy of each individual Corps, is a proof of the existence of that esprit de Corps, which never fails to mark the value and attention of the Officer towards his Soldiers. Lieutenant General Bowser congratulates Lieutenant Colonel Limond, the Acting Commandant on his valuable exertions being so well seconded by all Ranks.

The following Extract from the Proceedings of the Honorable the Governor in Council in the Judicial Department is published in General Orders.

JUDICIAL DEPARTMENT.

Extract from the Minutes of the Honorable the Governor in Council.
Dated 25th March, 1825.

The Honorable the Governor in Council deems it necessary to lay down the following rules relative to the exercise of the authority, with which Civil Magistrates and other Officers acting in a similar capacity are vested for calling out Military force to preserve the peace of the Country.

1st. The first and most important rule is, that no Civil Officer shall call out Troops until he is convinced by a mature consideration of all the circumstances that such a measure is necessary.

2d. When the Civil Officer is satisfied of the necessity of the measure, he should, before carrying it into execution, receive the sanction of Government, unless the delay requisite for that purpose is likely to prove detrimental to the public interests. In that case also, he should fully report the circumstances to Government.

3d. When the Civil Officer may not deem it safe to wait for the orders of Government, he should address his requisition for troops, not to any subordinate Military Officer, but to the Officer Commanding the Division, to whom he should communicate his object in making it, and all the information he may possess regarding the strength and designs of those by whom the public peace is menaced or disturbed. His duty is confined to these points. He has no authority in directing Military operations.

4th. The Officer Commanding the Troops has alone authority to determine the number and nature of those to be employed; the time and manner of making the attack; and every operation for the reduction of the enemy.

5th. Whenever the Officer Commanding the Division may think the troops at his disposal inadequate to the enterprise, he should call upon the Officer Commanding the neighbouring Division for aid, and report to Government and to the Commander in Chief.

6th. No Assistant or Subordinate Magistrate is authorized to call out troops—When any such Officer thinks Military aid necessary, he must refer to his superior, the Principal Magistrate of the District.

The foregoing rules are to be observed whenever it can be done without danger to the public safety. Should any extraordinary case occur which admits of no delay, Civil and Military Officers must then act according to the emergency and the best of their judgment. Such cases however can rarely occur, unless when an enemy becomes the assailant, and therefore occasion can hardly ever arise for departing from the regular course of calling out troops only by the requisition of the Principal Civil Magistrate of the Province to the Officer Commanding the Division.

Ordered that the foregoing Resolutions be published in General Orders to the Army, and be communicated for the information and guidance of such Civil Officers as they concern.

G. O. G. 8th April 1825.

The Honorable the Governor in Council is pleased to direct, that the operation of the General Orders of the 21st December 1824* as it relates to the Chargers of Cavalry Officers, shall not be considered as having effect until the 1st of June next, and accordingly permits Officers of the Horse Artillery, Dragoons, or Native Cavalry who may have already received Remount Horses under the operation of the former regulations to return them into the ranks upon the Survey of a Committe as prescribed by Regulation, receiving back the price originally paid to Government.

Remount Horses supplied to Officers *after* the receipt of this order will however be subject

subject to all the provisions of the General Orders of the 21st of December last—none of these Horses will be received into the ranks after the expiration of four months from the time they may have been in use, unless under the provisions of the 8th Paragraph of that order, which as well as the provisions, contained in the 7th Paragraph of the same order will be applicable to any Remount Horses *already* in the possession of Officers, and which may not be returned into the ranks within four months from this date.

Officers who may wish to sell their Remount Horses in the Regiment, after the expiration of four months will be at liberty to do so agreeably to the 20th Paragraph of the IVth Section of the Regulations of 1806, but it will not be necessary to tender these Remount Horses to Officers absent from the Regiment on permanent Staff duty, while it will rest with the Commander in Chief to sanction the private sale of such Horses out of the Regiment, provided it be duly certified by the Commanding Officer, that they had been previously tendered to the Officers present with the Corps.

Officers disposing of Remount Horses under the foregoing rules, whether in or out of the Regiment, will provide by their own means the Chargers required to replace those which may have been sold; and Officers Commanding Regiments will be held responsible, that each Officer shall at all times be possessed of the established number of efficient Chargers.

The 9th Paragraph of the General Orders of the 21st December last relating to this subject is hereby cancelled.*

G. Q. G. 8th April 1825.

The Honorable the Governor in Council is pleased to extend the Provisions of the Government General Order of the 5th January 1816,† regarding the mode of drawing the pay and allowances of Officers of His Majesty's Service when absent *on Staff duty or "on leave to proceed to Europe"*—to the case of *all* Officers who may be absent from their Regiments whether on duty or on leave.

G. O. G. 12th April 1825.

The Honorable the Governor in Council is pleased to direct, that a First Dresser be allowed as a part of the establishment of each Troop of Horse Artillery European or Native, that a Toty be allowed to each Native Troop, and that an allowance of Rupees 17 Annas 8 monthly be granted to the Medical Officer in charge of each Native Troop, for the provision of Mats and Cumlies when serving beyond the Frontier.

The Governor in Council also authorizes a similar allowance to the Staff and Cantonment Surgeons in charge of Hospitals for Native Details at all Stations beyond the Frontier.

The Honorable the Governor in Council is pleased to direct that the rule established in General Orders dated the 2d of December 1817,‡ for the custody of vacant buildings at the Presidency and Bangalore, shall be considered applicable to all other Garrisons and Cantonments, when similary circumstanced.

Instructions to be observed by Invaliding, &c. Committees.

The Proceedings of the Committees are to be conducted in strict conformity with the Regulations of the Service, the General Orders noted in the margin, and agreeable to the Forms laid down in General Orders dated 22d September 1822, adding thereto, a Column for the *General Number*, immediately after the Column of Rank, and particularly observing the following points.

G. O. C. C. 3d Nov. 1821.
G. O. G. 26th July 1822.

It should be distinctly stated in the Column headed, "*why Recommended*" against the name of each individual, recommended to be transferred to the *Veteran* Establishment, that he is "*unfit for Field, but fit for Garrison duty*;" and in the case of every individual recommended to be *Pensioned*, that he is "*unfit for any duty*;" and the same, as the case may be, respecting men recommended to be Discharged. It is not enough, that diseases, or injuries, should be stated, leaving to be inferred, the *fitness*, or *unfitness* of the subjects. It is also of great importance that attestations of Commanding Officers of Corps to character, be in no case omitted—Cases not entitled under the Regulations, should be sparingly recommended by Committees, and the ground of every special recommendation distinctly stated.

The periods of Service of the Individuals recommended to be Invalided, Pensioned or Discharged, are to be made up to the 31st December 1825, at which time they will be struck off the Effective strength of the Army—The Committees are also enjoined, to make separate Proceedings for *each Corps, Detachment, and Department*; and are also directed to prepare separate Proceedings for Natives attached to Regiments of Europeans, as the blending of the names of Europeans, with those of Natives, creates much confusion, and can on no account be admitted.

The practice adopted by General Committees, of retaining their Proceedings till the whole of the Individuals to be brought before them, have been examined, is to be discontinued; and the Commander in Chief directs, that General Committees do transmit to Head Quarters, through the prescribed channel, their Proceedings by Corps, and Detachments, as soon as possible after the examination of the Men belonging to them are completed.

Officers Commanding Divisions, and Forces, in which General Committees assemble, are requested to dissolve them, as soon as their Proceedings are closed, and they have examined and ascertained, that they are prepared in strict conformity to the orders upon the subject, and the President and Members ordered to return to their duty.

G. O. G. 5th April 1825.

1. The Honorable the Governor in Council is pleased to authorize the appointment of

of a Serjeant to each Company of European Foot Artillery to be designated Brigade Serjeant, and to receive the allowance of a Colour Serjeant of European Infantry.

2. The Governor in Council is also pleased to authorize the appointment of a Havildar to each Company of Golundauze, to receive the allowance of a Colour Havildar of Native Infantry.

The Honorable the Governor in Council is pleased to publish in General Orders, the following report of a Committee appointed to ascertain the proficiency of Lieutenant Rowlandson, of the 1st Regiment Native Infantry, in the Persian Language.

To

The Secretary to Government in the Military Department.

Sir,

We have the honor to report for the information of the Honorable the Governor in Council, that in compliance with the instructions conveyed in your letter of the 8th February last, we have examined Lieutenant Rowlandson, of the 1st Regiment N. I. with regard to his proficiency in the Persian Language.

We were not enabled to complete the examination until within these very few days.

We have now the greatest satisfaction in reporting that his Persian translation was not only entirely free from defects, but eminently distinguished for chasteness of style, and elegance of execution. It was fully equal to any that has been yet submitted for our examination, and we have no hesitation in placing Lieutenant Rowlandson in the number of the best Persian Scholars that has appeared before us.

Lieutenant Rowlandson's translation of a long passage from the Anwar Sohile into English was as might be expected, after what we have above stated relative to his Persian acquirements perfectly free from error, and his colloquial powers with regard to fluency, command of language and pronunciation, were much above the common order.

After so unqualified an approbation of Lieutenant Rowlandson's acquirements in Persian, it is scarcely necessary to add, that we consider him eminently well calculated for the discharge of any duties in which the knowledge of that language may be requisite.

2. As occasional cases occur, where the issue of small quantities of mutton, poultry, or other fresh meat may be indispensibly necessary, and as sending stock of this description, expressly for the sick would be attended with much inconvenience—His Lordship in Council is pleased to direct, that henceforth whenever there may be *urgent necessity* for the issue of such fresh provisions, they are to be furnished by the Commander of the Vessel on the requisition of the Medical Officer, through the Officer in Command of the Troops.

3. The payment for such occasional supplies will be made in Europe on the production of a Bill upon honor that the Articles charged for were duly furnished, and the prices affixed believed to be at the rates in which the Articles stand the Commander: The Bills of course to be countersigned by the Officer in charge of the Troops and the Medical Officer.

The Honorable the Governor in Council is pleased to cancel the 2d Para. of the Regulation established in the General Order dated the 19th of October last,* and Para. 17th of Section 7th of the Regulations for the Department of Military Accounts in the Office of Accountant General passed on the 1st June 1824, and to substitute in lieu thereof the following Paragraph.

"In cases of sickness duly certified, no certificate from Paymasters relative to demands will be hereafter required to accompany applications for leave of absence, but previously to the embarkation of an Officer on sick certificate, it will be necessary that he should adjust all public demands against him or furnish to the Accountant General security for the Amount."

G. O. C. C. 24TH MAY 1825.

The Arms, Accoutrements and Appointments of all Ranks, whether Native Commissioned, Non-Commissioned or Rank and File, of European and Native Corps, which are the property of Government, are invariably to be returned into Store, when the Individuals are Invalided, Pensioned, or become Casualties in any way; the practice which has in some instances obtained, of permitting Native Officers, on retiring, to take their Arms and Accoutrements with them, is consequently prohibited in all future cases.

G. O. G. 3D JUNE 1825.

The Honorable the Governor in Council is pleased to direct, that a Petty Maistry shall be allowed to the Carriage Bullocks allotted to each Regiment of Native Cavalry or Infantry when marching from Station to Station or employed in the Field, even when the number of Bullocks may be less than fifty.

G. O. G. 17TH JUNE 1825.

The following extract from a lettter from the Honorable the Court of Directors to the Government of St. Helena under date the 7th of January 1825, is published in General Orders.

Para. 174. "We observe that your Artillery and Infantry appear to have been principally recruited by men enlisted for limited periods of service on their return from India, a practice which, whilst it introduces an inefficient description of Soldiers, causes a material expense to the Company, the Bounties granted to such men at your Island being in the aggregate much larger than would be paid to Recruits enlisted in this Country for an unlimited term of service.

175. "We have therefore determined that the St. Helena Artillery and Infantry shall in future, be recruited entirely from England by men enlisted as far as may be practicable for unlimited service.

176. "We accordingly desire that until further orders, you discontinue the practice of enlisting Soldiers on their return from India, and we shall instruct the Governments of Bengal, Madras, and Bombay to give publicity to this arrangement."

In obedience to the orders of the Honorable the Court of Directors the following regulations in the Medical Department are published.

The Members of the Medical Board shall hereafter be relieved from that situation at the expiration of four years from the date of their respective nominations. In the case of the present Member this rule is to operate from the 1st of May 1824.

The salary of each Member will in future be Rupees 2,450 per mensem, to commence from the 1st of May 1824, but this Regulation is not to affect the salary of the present First Member of the Medical Board.

G. O. G. 17th June 1825.

* With reference to the General Orders under date the 28th of May 1824,† and under instructions from the Honorable the Court of Directors, The Honorable the Governor in Council is pleased to declare, that all vacancies occurring in the Senior List in the first two years after the introduction of the new arrangements shall be filled up as formerly, so that instead of barring promotions from casualties occurring on that List after the 1st of May 1824, such bar shall not operate until the 1st of May 1826. This indulgence will on no account be allowed to extend beyond that period.

The share of Off-reckonings of any Officer transferred to the Senior List between the 1st of May 1824, and the 1st of May 1826, will be divided from the date of the transfer between the two Senior Lieutenant Colonels in that branch of the Service to which he belonged in the same way, as has been directed with respect to shares on the occurrence of each vacancy amongst the Colonels of Regiments.

The Lieutenant Colonels so succeeding will be entitled to compensation for the difference between a half and a full share from the dates at which they would under the former system have respectively ceased to draw the fixed share of £540 per annum, and been admitted to a full share of Off-reckonings.

G. O. G. 21st June 1825.

The Honorable the Governor in Council is pleased to publish the following Extract from a General Letter in the Military Department, from the Honorable the Court of Directors, dated the 10th November 1824.

2. "Several instances have lately occurred of Military Officers in the Company's "Service arriving in England upon furlough, producing to our Auditor, Certificates "granted in India shewing their claim to an arrear of Pay for a perjod anterior to "the date of the commencement of their furlough.

3. "It is our desire that you immediately adopt such measures as may be neces- "sary for the payment in India, to Officers of your Establishment coming to Europe "of the full amount of their pay up to the date of their embarkation."

2. In order to give effect to the above orders from the Honorable the Court of Directors, it is directed that the Accountant General shall not issue Certificates of last pay to Officers proceeding to Europe, unless they shall have drawn their subsistence up to the latest date; but if, in any case, a departure from this rule should be unavoidable, the particular circumstances which may prevent the pay being drawn are to be explained on the face of the Certificates for the information of the Honorable Court—these provisions are not, however, to interfere with the advances of pay to which Officers are entitled on proceeding to Europe.

Lieutenant Colonel P. Vans Agnew, C. B. of the Infantry, is permitted to retire from the Honorable Company's Service from the 1st Proximo in compliance with his request.

The Honorable the Governor in Council takes this opportunity of expressing in General Orders his high sense of Lieutenant Colonel Vans Agnew's meritorious conduct during an uninterrupted service of 25 years.

G. O. G. 28th June 1825.

As it is sometimes necessary that Troops under orders of march, should be equipped and move out of Garrison or Cantonment two, or three, days previously to their actual movement, and in like manner that they should retain their Equipments for a short time before entering into quarters, on their arrival at their new destination—The Honorable the Governor in Council is pleased to determine, that on all such occasions, the actual date of the supply of the Equipments and of their discharge shall be reported by the Officers of the Quarter Master General's Department in Divisions to the Quarter Master General of the Army, by whom, under the Authority of the Commander in Chief, a corresponding communication shall be made to the Military Auditor General and Commissary General.

G. O. G. 28th June 1825.

It having been represented that inconvenience arises from the system established by General Orders of the 26th June 1819,* under which the whole of the Pay and Allowances of Corps, &c. of the Honorable Company's Service are drawn in one General Abstract:—The Honorable the Governor in Council deems it expedient to direct that separate Abstracts for Troops, Companies, &c. shall be furnished as formerly, in lieu of the General Abstract—the Abstracts payable at the Head Quarters of Corps to be prepared by the Regimental Paymasters by whom their amount is to be drawn—those of detached Troops and Companies by the Officer Commanding or in Charge as at present.

The Military Auditor General will issue such instructions to Paymasters as may be necessary for giving full effect to the above Regulations.

G. O. G. 5th July 1825.

The Honorable the Governor in Council deems it expedient to extend the provisions of the 2d Para. Page 387, of the Code of Pay Regulations, under the Head "Court Martial Allowance" to all European Garrison, Cantonment, and Regimental Courts Martial—the usual Allowances authorized thereby on account of a Moulah and Bramin, when it may become necessary to employ them are accordingly to be drawn and certified in the manner directed by that Regluation.

The Honorable the Governor in Council has been pleased to fix twelve Miles per day (in place of 15) as the rate at which travelling batta is in future to be drawn by Officers in cases when they may become entitled to that allowance.

With reference to the General Orders of the 17th July 1804*, permitting the personal allowances of Officers to be drawn in the higher rank on promotion, from the date of their Commissions respectively, The Governor in Council has been pleased to authorize Tent Allowance and House Rent being included in future in the arrears payable under that Regulation.

G. O. C. C. 14th July 1825.

Lieutenant General Bowser, Commanding the Army in Chief, has much satisfaction in publishing to the Army the following Extracts from the Proceedings of a Board of Officers assembled at Secunderabad for the Examination of Officers in the Hindoostanee Language.

"Lieutenant Osborne of the 19th Regiment N. I. was required to translate from "English into Hindoostanee, and from Hindoostanee into English, without having "recourse to a dictionary, or any other book of reference.

"The specimen selected for translation into Hindoostanee, consisted of an English "letter on business; an original Hindoostanee letter, and a portion of the Bagh-o-"Bahar were given for translation into English.

"Lieutenant Osborne in his translation into Hindoostanee, has failed to express "correctly the sense of one sentence; with this exception, his exercise is performed "with sufficient accuracy. In his translation from Hindoostanee, Lieutenant Osborne "appears not to have clearly understood the sense of a few words, but in other "respects these exercises were very correctly executed.

"Lieutenant Osborne reads, and converses with fluency and ease, writes a beautiful "hand, and appears to the Committee fully qualified to perform the duties of a Regi-"mental Staff Officer."

G. O. C. C. 16th July 1825.

The Honorable the Governor in Council having been pleased to extend to the Families of Soldiers who may die after their return to this Presidency, before being discharged from Hospital, or in consequence of wounds, or disease on Foreign Service, the benefit of the Regulations for the grant of Pensions, in cases of death on Foreign Service, Lieutenant General Bowser directs, that on the occurrence of such Casualties, the Commanding Officers of Stations, will obtain from the Surgeons, under whose care the men may have been placed, Certificates to the foregoing effect, and having countersigned these Certificates, will forward them to the Superintendent of Family Payments with such particulars as he may require in regard to the deceased, and to the Families having Claims on their account; and they will particularly account for any considerable period, which may have elapsed between the date of return, and that of the Casualty.

Bowser, Commanding the Army in Chief is pleased to order, that the Officers of the Commissariat Department, shall resume the Uniform worn by its several Ranks, anterior to the General Order of the 8th December 1823,* being issued; and that part of the said General Order, as it relates to the Dress of the Commissariat Department, is hereby cancelled.

G. O. G. 8TH JULY 1825.

With reference to General Orders under date the 17th Ultimo,† and under instructions from the Honorable the Court of Directors, the Honorable the Governor in Council is pleased to declare, that the amount of the Annual Advance to be made to Officers who may succeed to Half Shares of Off-reckonings between the 1st of May 1824, and the 1st of May 1826, shall be the same as they would have received on the old system, viz. £543 from the Fund, so long as they would have continued on the Junior List, and that £750 shall be the amount of the advance from the date when they would have passed through this List—Of the last advance £400 is to be made from the Fund; and 350 from the Honorable Company's Treasury.

Those Officers who may succeed to Half Shares, after the 1st of May 1826, and who will not be entitled to the benefits of compensation for the difference between a half and a full share are to receive an advance from the Fund at the rate of £400 per annum.

G. O. G. 19TH JULY 1825.

With reference to General Orders under date the 27th of January 1815,‡ the Honorable the Governor in Council is pleased to direct, that all expenses on account of Messing furniture for European Troops shall cease, and that as the Articles already provided become unserviceable they shall be disposed of by the Commissariat.

G. O. G. 22D JULY 1825.

The Depôt of Stationary being frequently found inadequate to meet the requisitions of different Heads of Departments, and Staff Officers entitled to supplies of that description, the Honorable the Governor in Council, deems it expedient to direct, that in those cases, the Indents of Officers entitled to be supplied *without* payment, for such articles as the Depôt cannot furnish, shall in future, be passed by the Military Board on the Commissariat.

This Regulation is not however, to extend to Staff Officers who are permitted to Indent on the Depôt for supplies of Stationary on payment.

G. O. G. 22D JULY 1825.

G. O. G. 26th July 1825.

The period of four years for which Major General Sir John Doveton, K. C. B. was appointed to the Staff of the Army under the Presidency of Fort St. George, having expired on the 6th Instant, The Honorable the Governor in Council has been pleased to resolve that Major General Sir John Doveton shall stand re-appointed to the Staff of the Army from that date, under the authority granted to the Government for that purpose by the Honorable the Court of Directors in their Letter of the 20th of April 1803.

G. O. G. 26th July 1825.

1. The Honorable the Governor in Council is pleased to attach the Allowances of first Class Brigadiers to the Commands of the Second Class enumerated in the 18th Paragraph of the General Order of the 3d December last*—the Allowances attached to the Command of the Light Field Division of the Hyderabad Subsidiary Force and of all Field Brigades, and other Commands, remaining as at present.

2. The above encrease of Allowances to have effect from the 1st of March last.

G. O. G. 26th July 1825.

1. Circumstances having led to a reconsideration of the instructions of the Honorable the Court of Directors published in General Orders of the 3d of December last,† regarding the Pay and Allowances of the Army; The Honorable the Governor in Council has determined, pending a reference to the Honorable Court, that Commanding Officers of Corps under the rank of Regimental Colonel or Lieutenant Colonel Commandant, shall not be entitled to full Batta, except when the whole of the Troops under their Command receive that allowance.

2. ‡ It has also been determined that when Officers Commanding Corps may be detached or in any manner separated from them by duty, they shall not be entitled to the Regimental Staff Allowances attached thereto during their absence, unless specially selected for the detached duty, which in each case will be specially considered by Government, it being a principle of the Honorable Court's orders that the Regimental Staff Allowances shall be payable to the Officers in actual Command only.

3. In the cases of absence on duty referred to in the preceding Paragraph when the parties may not come under the special exception alluded to, they are to receive, in common with the Officers serving under them when similarly circumstanced, Travelling Batta and Court Martial Allowance, or full Batta, according as they may be detached from Garrison or the Field.

4. The Governor in Council has further determined with reference to the Pay Table published in G. O. of the 3d of December last, that Officers of European Infantry serving regimentally with their Corps within the limits of the Centre Division of the Army, at the Depôt at Poonamallee, at St. Thomas's Mount, and within the Presidency Command shall receive only half Tent Allowance, but when marching they are in all cases to receive full Tent Allowance.

G. O. C. C. 8th August 1825.

The Honorable the Governor in Council having ordered the Rules and Regulations for the Field Exercise and Evolutions of His Majesty's Forces, dated Horse Guards 10th March 1824, to be adopted by the Army of Fort St. George, they will be circulated to the several Departments and Regiments for their information and guidance. In introducing this new system, detailed instructions will be issued to Officers Commanding Divisions from the Adjutant General's Department, and the strictest responsibility will rest on all General Officers, Colonels and Commanding Officers of Divisions, Stations and Corps, for the accurate observance of every part of these Regulations and Orders. No formations are to be executed, except such as are now prescribed, and no deviations will be permitted without special authority from the Commander in Chief.

Lieutenant General Bowser also directs, that the new Manual and Platoon Exercises dated Horse Guards 25th August 1823, shall henceforth be practised by all Regiments of Infantry, except the Rifle Corps and Light Infantry Corps. Cavalry when dismounted on Foot Parades, and Artillery Corps and Companies when in Battalion, will observe the Rules and Regulations now established for the Infantry.

G. O. G. 29th July 1825.

The Honorable the Governor in Council deems it expedient to rescind the 56th Para. Page 310 of the Code of Pay Regulations by which an allowance of Rupees 17½ per Month was authorized to be drawn by Adjutants of Native Corps, when no Serjeant Major should be attached. The continuance thereof is considered unnecessary in consequence of the subsequent reduction of the duties of Adjutants and the increase to their Office allowances.

G. O. G. 29th July 1825.*

On the 20th May 1806 the pension of 52½ pagodas per month being the amount of the allowance of the celebrated Seid Ibrahim, which had lapsed by the death of Seid Bahader his brother, was continued to Seid Guffoor, his nephew. Seid Guffoor died in November 1814, and a minute inquiry has been instituted for the purpose of ascertaining the person entitled to succeed to the pension. The result of the enquiry has satisfactorily established the Seid Mahomed, the son of Seid Jumal and nephew of Seid Ibrahim, as nearest heir to that Commandant and as such ought to enjoy the pension which was granted as a memorial of his fidelity to the Government, and to be put in charge of the Tomb erected at Chinnapatam, the place of his burial for the same purpose. The Honorable the Governor in Council has accordingly resolved that the Seid Mahomed shall receive the pension of 52½ pagodas per mensem from the 1st of May last, and

* *Attention called to this order, which is to be fully explained to every Corps, &c. vide G. O. C. C. 24th August 1825, page 167.*

and that the arrears which have accumulated since the death of Seid Guffoor shall be applied to the repair of Seid Ibrahim's Tomb and the erection of a convenient building for Travellers and Pilgrims. Any balance which may remain will be paid to Seid Mahomed, and the fixed allowance of three pagodas each per mensem, will continue to be paid for two fakeers and also the allowance for two lamps at the Tomb.

The Governor in Council is pleased to direct, that this G. O. shall be particularly explained to the Native Officers, Non-Commissioned Officers and Sepoys of the Army.

G. O. G. 5th August 1825.

The Honorable the Governor in Council is pleased to direct, that the revised rules and regulations for the Field Exercise and Evolutions of His Majesty's Forces published by His Majesty's Command, and directed to be established in General Orders by His Royal Highness The Commander in Chief, dated Horse Guards, 10th March 1824, be adopted without any deviation in the Army of this Establishment, and that all such Orders, hitherto issued, as are found to interfere with or to counteract their effect and operation be hereby annulled.

G. O. G. 5th August 1825.*

"A Hindoostanee letter, composed for the occasion, purporting to have been written by a person sent secretly to obtain Intelligence regarding the proceedings of an

"enemy

" enemy—this he was required to read and explain verbally in English, which he did " tolerably well, but not with a success equal to his written Translations.

" The Preamble, Crime, and Sentence of a Native General Court Martial he was " next required to translate into Hindoostanee, and write in the Persian character—he " performed it in a short time, written in a free good hand ; there were errors but of a " minor description, and considering that he had not a Dictionary or aid of any kind, " we are of opinion the result entitles him to great credit.

" In the colloquial part which closed the examination, Lieutenant Bainbridge was " very successful, and did not at all hesitate to give immediate replies in good language " and style to the many questions which were put to him on various subjects.

G. O. C. C. 12th September 1825.

Lieutenant General Bowser, Commanding the Army in Chief, has much satisfaction in publishing to the Army, the following Extracts from the proceedings of a Board of Officers, assembled at Bangalore, for the examination of Lieutenant Fitzgerald of the 42d Regiment N. I. in the Hindoostanee Language.

"An Extract from the Muntakhabat-i-Hindi was rendered by him into English "with great correctness—and the more difficult task of translating a story, from the "Gulistan, and the 1st Article, Sect. 2d of the Articles of War into the Hindoostanee "Language, was executed in a very elegant and correct style. The mode in which "the latter exercise was performed shews that Lieutenant Fitzgerald has paid the "strictest attention to the grammar and to the idiom of the language.

"In a conversation of some length carried on with a Moonshee, Lieutenant Fitzgerald expressed himself with great ease and fluency, and with a pronunciation sufficiently accurate. His hand writing is also particularly good.

"In conclusion, we beg leave to state that we consider the Lieutenant fully competent to execute the duties of Interpreter and Translator in the Hindoostanee Language."

G. O. C. C. 5th October 1825.

Lieutenant General Bowser cannot quit Bangalore without recording the expression of his approbation of the Soldier-like appearance, efficiency and discipline which he has witnessed in the successive Reviews of

His Majesty's 13th Regiment Light Dragoons.
Detachments, Horse, and Foot Artillery,
2d Regiment Light Cavalry,
31st Regiment Light Infantry,
36th Regiment Native Infantry,
42d Regiment Native Infantry, all which Corps appeared in the Field and executed the Evolutions selected for the occasion, with a celerity and precision, reflecting the highest credit on them, and affording the surest pledge of their fitness for service, as well as of the zeal and ability of their respective Commanding Officers.

Associated as Lieutenant General Bowser has been with the Troops composing the Garrison and Cantonment of Bangalore, during the long period of his Command of the Mysore Division of the Army, he naturally feels a peculiar interest in the high character the Corps have ever maintained, for regularity of conduct, military feeling and discipline, and he takes leave of them in the full confidence, that Lieutenant Colonel Boyse, C. B. Commanding the Station, supported as he is by zealous and able Officers, will maintain the interior economy of Corps and promote their discipline, as a collective Body, in field movements and discipline.

The orderly, sober and regular conduct of the Soldiers, warrants the Lieutenant General in indulging himself, by extending an act of grace to all Soldiers, European and Native belonging to the Cantonment who are now in confinement, and as none are so, for capital offences, Lieutenant General Bowser directs the release of every individual, whether in General or Regimental confinement, and that they be pardoned and return to their duty.

G. O. C. C. 26th October 1825.

Lieutenant General Bowser requests, that Lieutenant Colonel Greenhill, Commanding Presidency Cantonment, will accept of his best thanks, for the zeal, energy, and ability which he has displayed in completing and equipping for Foreign Service, the 1st and 32d Regiments Native Infantry, in little more than a fortnight after receiving the orders to prepare them, and which could only have been accomplished with much care and attention on the part of Lieutenant Colonel Greenhill.

Lieutenant Colonel Nixon, Commanding the 1st Regiment, and Captain Palmer, Commanding the 32d Regiment N. I., also merit the Lieutenant General's thanks.

G. O. G. 4th November 1825.

to their situation. The Oculist will also consider it to be an important part of his duty to encourage native practitioners to attend him, for the purpose of acquiring a knowledge of diseases of the Eye and the best modes of treating them, and he will carefully and kindly explain to them the principles on which he acts, as far as they may be capable of comprehending them.

7th. A First Dresser, and two Medical Pupils will form the public Establishment of Medical Servants attached to the Eye-Infirmary—All other Servants such as Native Assistants, Coolies, Cooks, Toties, Watermen, &c. are to be found by the Oculist from the allowances hereafter mentioned.

8th. The Eye-Infirmary is open for the reception of European and Native Soldiers, as well as for Europeans and Natives not belonging to the Public Service; Military patients, European and Native, will be admissible into the Infirmary on the requisitions of their Commanding Officers founded on Medical Certificates—Europeans not in the Service, and Country born persons who are entitled to be treated in other Hospitals as Europeans will be admissible on requisitions signed by the Town Major Fort St. George founded on the certificate of Medical Officers in charge of Garrisons or Districts. Natives will be admissible at the discretion, and on the responsibility of the Oculist.

9th. A building is provided for the Eye-Infirmary at the expense of Government, in which is included a suitable residence for the Oculist, an operation room, a consultation room, and a dispensary are to be set apart within the walls of the main building. The accommodation for the patients, and for the servants of the Infirmary will be provided in the detached buildings.

10th. Each European and Country born patient in the Eye-Infirmary, shall be furnished with an Hospital cot, bedding and clothing, according to the practice of other European Hospitals, and they will be dieted in like manner. The Native Soldier will be furnished with a cot, mat and pillow, but he will clothe and diet himself. The Civil Native Patients in Hospital, will each have a cot, cumly and a small pillow.

11th. The allowances to be drawn by the Oculist are as follows. The Regimental pay and allowances of his rank according to existing Regulations, and a Personal salary of 525 Rupees per Mensem. The Surgeon will likewise draw a monthly allowance of Rupees 120, for the provision of servants, country medicines, cots, and bedding, and generally for whatever is usually provided by Surgeons drawing an allowance of that nature.

12th. For each European and Country born or half Cast, treated in hospital, the Oculist will draw the usual allowance of Surgeons of Hospitals, viz. (8 Fanams) Annas 9 Pice $11\frac{47}{100}$ per diem, and for which he will furnish every necessary article, of diet, clothing, cots, bedding, and generally, whatever is furnished by the Surgeons of European Hospitals for the use of the Sick. This allowance will be payable on the principles which obtain in the case of the Garrison Hospital Fort St. George, with respect to Europeans whether belonging to the Army or not belonging to it. For every Native Soldier he will draw the usual allowance granted to Garrison Surgeons, namely (40 Cash) Pice $7\frac{47}{100}$ per diem; for every Native Patient, the Oculist will draw 3 Annas per diem, for victualling them, and for providing mats and cumlies; but this allowance is restricted to those patients who remain within the Infirmary, and is not allowed for out-patients. In order however to assist out-patients, who may be thrown off their usual labour during treatment, a daily batta of 1 Anna is allowed to be drawn, and paid to them.

13th. The Oculist will keep the prescribed registers and other hospital books and furnish monthly reports to the Medical Board, as at present; and an annual report and statement of expenses for submission to Government and eventual transmission to the Honorable the Court of Directors.

14th. European Medicines and Instruments, and an operating Chair and Stool are provided at the public expense for the use of the Eye-Infirmary.

15th. It is of much importance that European and Native Soldiers afflicted with diseases of the Eye which have resisted the curative means employed by their respective Medical Officers, and who may consequently be deemed proper objects for treatment in an Eye-Infirmary, should be transferred to the Institution in proper time. On the one hand they should first obtain all the benefit to be expected from active treatment in their own hospitals at the commencement of the disease. On the other hand their transfer should not be delayed too long least the disease become altogether incurable. Medical Officers will be guided by their judgement in this respect, and will accordingly be most careful to bring to the notice of their respective Commanding Officers, every case of disease of the Eye amongst the Men under their charge which they may consider to require the aid of a professed Oculist. Commanding Officers are enjoined and authorized to adopt immediate

diate measures for the safe transport of the patient from the station where he may be, to the Eye-Infirmary at the Presidency.

16th. The preceding rule is to be equally applicable to Men of His Majesty's Regiments as to those of the Honorable Company's Service.

17th. It will be the special duty of Invaliding, &c. Committees to recommend all Men for transfer to the Eye-Infirmary respecting whose cases there may be any doubt. The Committee in such instances will however dispose of the case conditionally, stating in a remark "Subject to the result of examination and treatment by the Oculist"—The Oculist when required, is to attend at General Invaliding Committees at Poonamallee and Fort St. George to give his opinion on any Opthalmic cases which may be referred to him by the Committee. It is particularly enjoined that a very full account of the Medical treatment of each case of Opthalmic disease coming before an Invaliding Committee, or recommended to be sent to the Eye-Infirmary shall accompany the Individual for the information of the Committee and eventually of the Oculist.

The Honorable the Governor in Council has been pleased to grant Pensions to Subadar Major Gholam Mohdeen of the 3d Regiment of Light Cavalry and to Subadar Major Tolaram of the 35th Regiment of Native Infantry equal to the amount of their full Pay and Staff Allowance in consideration of their long and meritorious services extending in the former case to 52 years, and in the latter to 58 years, as brought to the notice of the Government by the Officer Commanding the Army in Chief.

The Governor in Council has also been pleased at the recommendation of the Officer Commanding the Army in Chief to pension Subadar Ragnoat Sing of the 3d Regiment of Light Cavalry on the full Pay of a Subadar of the 2d Class, in consideration of his high character and meritorious services during a period of 51 years.

G. O. G. 18th November 1825.

The following extract from a General Letter from the Honorable the Court of Directors in the Territorial Department dated the 25th of May 1825, is published in General Orders.

Para. 6. "We desire that in future a remittance be granted through the Company in such cases as it may be desired for Fees of Commissions in His Majesty's Service and for the proceeds of the Effects of Officers and Soldiers of the King's and Company's Service dying in India, and that the payments whether made by Bills drawn in India or upon application by the legal representatives in England, be adjusted at the same rate of exchange as is observed in the repayment of advances made by the Company for His Majesty's Service in the East Indies."

G. O. G. 29th November 1825.

The Honorable the Governor in Council is pleased to publish in General Orders the following report of a Committee appointed to ascertain the proficiency of Lieutenant W. G. T. Lewis of the 46th Regiment of Native Infantry, of Lieutenant C. M. Palmer of the 14th Regiment of Native Infantry, and of Lieutenant G. Perks of the 23d Regiment of Light Infantry in the Hindoostanee Language.

To

The Secretary to Government in the Military Department.

Sir,

We have the honor to report for the information of the Government, that in conformity

mity with the instructions contained in your letters of the 7th and 11th Instant, we have examined Lieutenant Lewis of the 46th Regiment N. I., Lieutenant Palmer of the 14th Regiment N. I., and Lieutenant Perks of the Wallajahbad Light Infantry with regard to their proficiency in the Hindoostanee language, and that the result has been most creditable to the exertions of these three Gentlemen.

The usual exercises were submitted to them all and we were not able to detect in their several Hindoostanee Versions a single error of either Orthography or Grammar, whilst their style of writing, though essentially differing from one another, was each commendable in its particular way. In the translation from Hindoostanee into English one word was only incorrectly rendered in the Version of Lieutenant Palmer, a single Parenthesis in that of Lieutenant Perks, whilst that of Lieutenant Lewis was free from error.

In the colloquial part of the examination, which was of a more extended nature than usual, the three Gentlemen were engaged in a desultory conversation with the Moonshee, and acquitted themselves in a manner entirely satisfactory, the pronunciation of all three being particularly good, whilst the language of both Mr. Lewis and Mr. Palmer was distinguished by great fluency and command of idiom ; Lieutenant Lewis has the more merit for his acquisitions in this important part of the language, that they have been principally obtained in Europe under the tuition of Mr. Gilchrist the Orientalist.

We have great pleasure in concluding our Report to state our opinion, that these Officers are fully qualified to perform the office of either Translators or Interpreters in any situation in which such duties may be required from them.

We have, &c. &c.

2. Although the farriers of Native Cavalry Corps, are entitled to arrack and provisions in the field, it is to be understood that on no occasion hereafter shall they be entitled to receive provisions when marching, unless a regular provision department shall have been provided for the use of European troops proceeding with the same detachment —the usual dry batta being drawn instead.

With reference to the General Order of the 4th November 1820*—The 2d Regiment Light Cavalry will bear upon its Returns 1 Jemadar instead of one Subadar, and the 8th Regiment Light Cavalry will bear upon its Returns 1 Subadar instead of one Jemadar—as " on Command at Madras with the Body Guard."

Para. 1. The Honorable the Governor in Council having resolved that Eight Companies or Karkanahs of Drivers and Draught Bullocks, consisting of one Darogah, four Chowdries, eighty Drivers, and one hundred and sixty Draught Bullocks each, shall be raised for the service of the European Foot Artillery under this Presidency, has been pleased to publish the following regulations for general information.

2. The Drivers to be raised and organized under instructions which the Commandant of Artillery will receive from Head Quarters; their height not being under 5 feet 4 inches, nor their age below 18 nor above 28 years. When the Establishment has been completed, recruits should not be entertained who are above 22 years of age.

3. The Drivers and Cattle to be under the general controul of the Senior Officer of Artillery wherever they may be stationed; but in special charge of the Officers Commanding the Companies of Foot Artillery, to which they may be attached.

4. The pay and batta of the Artillery Drivers are fixed as follows.

	Monthly Pay.	Daily Batta.		
	Rupees.	A.	P.	
1 Darogah	17 0	2	5	87
1 Chowdry	12 0	1	10	40
1 Driver	6 8	1	2	93

Batta to be allowed in the Field, at Field Stations, or when Marching. An allowance of Rupees 3 8 0 per mensem, is allowed to each Company for Stationary; also an allowance of Rupees 10 0 0 per mensem, for a Non-commissioned Officer, for the purpose of assisting in superintending the Cattle, and the receipts and issues of gram and forage.

5. The Drivers to be paid and mustered, and their Registers, Records and Accounts to be kept according to the forms and system of the Native Troops; the Officer to whose Company they may be attached being charged with the duty of drawing their pay on abstract, together with the further allowances specified in the 4th paragraph of this regulation.

6. The Drivers to be subject to the rules of Military Discipline, and the Articles of War; and are not to be discharged from the service but under authority from Head Quarters.

7. The Drivers to be allowed medical aid, and to benefit by the Regulations for the issue of grain or compensation money and family certificates the same as the regular troops. Those who may be disabled in the execution of their duty or wounded in action, to be eligible to the pension list; and the families of drivers killed in action, will be entitled to pensions, the same as the heirs of sepoys.

8. The Companies or Karkanahs of Cattle, consisting in the first instance of Bullocks of all serviceable ages from six upwards, to be formed and delivered to the Artillery by the Commissariat, and to be annually recruited by Bullocks, not younger than six years of age, from the Breeding Establishment in Mysore, on the requisition of Head Quarters, through the Quarter Master General of the Army.

9. The recruit Cattle supplied from that Establishment for the service of the Artillery Companies, shall be inspected at Seringapatam, by Committees of Officers; the survey reports to contain a general description of the cast, figure, bone, strength and fitness of the animal; and each Bullock when passed shall be brauded in the presence of the Committee on the off haunch with the two final figures of the year, and the letter A. (Artillery.) If there be any Artillery Officers at Seringapatam, their services will be required on such Committees.

10. No standard height is yet fixed for the Bullocks; and the present allotment to all descriptions of Ordnance and Ordnance Carriages, shall continue in force, until further orders.

11. When Bullocks become unfit for the service either from age, accident, or incurable distemper, they will be cast on regular survey, the proceedings being forwarded to Head Quarters thro' the Quarter Master General of the Army; Copies being transmitted

mitted at the same time to the Commissary General, and to the Commissariat Officer on the spot.

12. In the Field or at Field Stations in cases of emergency, the Cast Cattle will be replaced temporarily by the Commissariat Officer on the spot, under the orders of the Officer Commanding the Force; such Cattle being eventually relieved by fresh Bullocks from the Breeding Establishment, in the manner prescribed in the 10th paragraph.

13. All Cast Bullocks to be branded with the letter R. (rejected) in presence of the Officers of Survey; then delivered over to the Commissariat, and struck off the Returns of the Company or Karkanah. Such Cattle will be disposed of under the orders of the Commissary General.

14. The Monthly Returns of the Artillery Companies to which Draught Cattle are attached, when sent to Head Quarters, are required to include in additional columns, both the Drivers, and the Bullocks; separate Returns of the latter only being sent to the Commissary General, with the particulars of all Casualties, and a copy of the same to the Commissariat Officer on the spot.

15. The Bullocks shall be invariably turned out to graze daily, whenever grazing ground is procurable, and circumstances will permit.

16. Each Draught Bullock is allowed 2 seers of gram, and 14lbs. of dry forage daily in Cantonment, and 3 seers of gram and 14lbs. of dry forage in the field or marching with guns or carriages; and half a seer of common salt per month. When dry forage is not procurable, double the weight of green is to be issued to the Cattle. It will rest with the Artillery Officer in charge, to diminish the allowance of gram, whenever the health of the Cattle or the abundance of forage may render such reduction advisable.

17. The dry forage for the use of the Cattle in Cantonments will be provided at the most favorable season by the Commissariat, and at once delivered to the charge of the Artillery, 10 per cent. being added to cover wastage. Gram will also be delivered in quantity, where the Artillery have accommodation for the same, as in the Department of Cavalry supplies, the same wastage being allowed, viz. ¼ per cent. monthly. In both these cases returns of receipts and issues are required to be made to the Military Board. In the field or when marching, gram and dry forage will be furnished by the Commissariat daily, Drivers being allotted for bringing in the forage; and when green forage only is procurable whether wild or cultivated, the Drivers will necessarily cut and bring it in.

18. Each Bullock to be allowed one full sized Cumbly-jhool annually; and each Company or Karkanah feeding-gunnies 100 feet long (in convenient pieces) and 18 inches broad; five soaking skins, and 35 fathoms of picketting ground-rope (coir when procurable) every four months. Pickets, head-ropes, hand-rubbers, grass-knives, and whips (one of each to each Driver), and 10 gram-baskets, to be furnished in the first instance by the Commissariat, and afterwards kept complete by the Drivers.

19. The whole of these articles to be in charge of the Establishment of Drivers. The Cumbly-jhools, feeding-gunnies, gram-baskets, pickets, picketting-ropes and hand rubbers to be carried when marching by the Commissariat, which department will be allowed to entertain Carriage Bullocks for the purpose; for the Carriage of gram, and for foraging, not exceeding 12 for every 100 Draught Cattle.

20. Massauls and Medicines for Sick Cattle, and shoes for tender-footed Bullocks to be provided by the Artillery Officer in Charge of the Cattle, to be charged for in monthly Bills; which will be paid by the Paymaster, when countersigned by the Senior Officer of the Artillery on the spot, and the Officer Commanding the Force.

21. The success of this plan, especially on actual service, will in a great degree depend on a proper, mutual co-operation between the Officers of the Artillery and of the Commissariat, in maintaining the Cattle in the most efficient order and condition; and the Honorable the Governor in Council expects from them both, every exertion calculated to promote this important object.

22. It will of course rest with the Commandant of Artillery, to obtain such Returns as he may require, from the Artillery Officers in charge of Drivers and Cattle; and to give such orders, under the sanction of the Commander in Chief, as may be deemed proper, regarding the interior management of the same, whether with respect to the promotion of Drivers to the higher ranks, or for the care and complete efficiency of the whole.

23. The Officer Commanding the Army in Chief will be pleased to give such subsidiary Orders as may be necessary to give effect to these regulations.

G. O. G.

G. O. G. 20th December 1825.

It having been represented to the Government that the receipts for Stoppages on account of Family Payments from Corps and Departments on Foreign Service, have been very considerably delayed in consequence of the Pay and Allowances of the Troops being frequently issued in the first instance, by advances on receipt subject to future adjustment on the delivery of regular Pay Abstracts; The Honorable the Governor in Council deems it expedient to direct, that the following course of proceeding regarding such advances, shall be observed in future, and desires that the Field and Regimental Paymasters on Foreign Service, and all Staff or other Officers to whom the new Regulation may apply, do pay the most particular attention to its provisions.

That all Regimental Paymasters and Staff and other Officers when authorized to draw advances of one or more months' Pay and Allowances on receipt, on account of themselves, or of Corps and Establishments shall invariably consider themselves entitled to receive the net amount only, after deduction for Family Certificates—and, in such cases the Expedition Paymasters are to pass their receipts for the amount of Family Stoppages as part payment of the advances, for the full amount of which they are to take credit in their Accounts Current, and to debit themselves with the sums received on account of Family Payments.

That in the General Abstracts for the Pay and Allowances on account of which the advances may be made, the Regimental Paymasters, or other Officers in place of making the usual deduction on account of Family Certificates at the foot, are to insert—"No Stoppages made on account of Family Certificates, the amount having already "been paid to ———————— as per copy of that Paymaster's receipt on the back of "this Abstract."

That as Casualties must often occur amongst the individuals on whose account the advances are made, before the sums so advanced become due to them so as to cause some small deficiencies in the Regimental Paymasters or Staff or other Officer's Funds on the delivery of Abstracts for adjustment, those Officers, when such deficiencies arise, are to forward bills for the amount to be passed for payment by the Military Auditor General if found correct.

Adverting to the authority given to the Superintendent of Family Payments (by the 24th Paragraph of General Orders of the 22d July 1814*) to deliver Bills for overpayments on Family Certificates, it is directed that such Bills shall be authenticated by him, not only with reference to the date on which Casualty Rolls reach his Office, but also to the period for which Stoppages may have been made on account of the Individuals to whose Family Certificates the Rolls may apply.

G. O. G. 15th November 1825.

The Honorable the Governor in Council is pleased to determine, that the Ammunition Camels, at present attached to the Native Horse Artillery, shall be received on the strength of that Corps, and cast under the same regulations as now exist for receiving and casting Remount Horses. Committees of Officers will accordingly be held, in January each year, or at other times, under special emergency, at those Stations where Troops of Native Horse Artillery may be posted, for the purpose of casting such Ammunition Camels as may no longer be fit for the Service; the Proceedings of the Committees will be forwarded for the information of the Commander in Chief, to the Quarter Master General of the Army, who will upon those documents, arrange under His Excellency's Orders, with the Commissary General for the supply of the Camels required to replace those cast, from whatever Depôts of Public Cattle may be most convenient.

G. O. G. 3d January 1826.

Ordered that the following Extract from the Honorable Company's General Letter in the Military Department dated the 16th June 1815, be republished in General Orders.

Para. 139. In consequence of the numerous applications, which have been preferred to us by our Servants, on leave of absence in this Country, for advances of Money on loans—We think it proper to recal your attention to our Orders in the Military Department of the 26th February 1808, upon this subject. Those Orders declared our determination not to make any pecuniary advances to Officers at Home beyond what they are allowed by the existing Regulations of the Service, and you were required to publish them in General Orders to the Army; but as a Resolution of this description, in order to be generally known to a body which is continually receiving an accession of new Members should be occasionally republished, and being fully persuaded that a strict observance of this Resolution, will prevent much trouble and inconvenience, besides loss to the Company, we direct that our orders above adverted to be in future circulated for the information of the Army in the month of January in every year, and we shall take the necessary steps for reminding Officers, who may arrive in England upon Furlough, of our determination upon the subject in question.

G. O. G. 3d January 1826.

The Honorable the Governor in Council is pleased to direct, that all Lieutenant Colonels Commandant at the Presidency be considered Members of the Clothing Board, and that they take their seats accordingly.

G. O. G. 3d January 1826.*

The Honorable the Governor in Council having had under consideration the inadequate Establishment of Warrant and Non-Commissioned Officers attached to the Commissariat, and the orders of the Honorable the Court of Directors restricting the services of Conductors to the Ordnance Department exclusively, has been pleased to order the following alterations and additions.

2. The Establishment of Warrant and Non-Commissioned Officers attached to the Commissariat shall consist of the following, exclusively of those on Foreign Service; the services and distribution of the whole being at the disposal of the Commissary General for the purposes of the department.

One Head Overseer on the pay and allowances of a Deputy Assistant Commissary of Ordnance.
Eight Overseers on the pay and allowances of Conductors of Ordnance.
Seven Sub-Overseers on the pay and allowances of Sub-Conductors of Ordnance.
Fourteen Staff Serjeants on the pay and allowances of Engineer Serjeants; and the following alterations are accordingly made in the existing Establishment.
Conductors R. Goddard, C. Francke, and H. Holmes to be Commissariat Overseers.
Sub-Conductors Thomas Wall, T. Murray and J. Drewitt to be Sub-Overseers.

The Non-Commissioned Staff attached to the Commissariat on Foreign Service to be considered Supernumerary to the above Establishment.

No future appointments shall be made to the situation of Arrack Godown Serjeants, such of the present Arrack Godown Serjeants as may be fit for the new Establishment being transferred to it, as Commissariat Staff Serjeants, on the recommendation of the Commissary General.

All

All future appointments to this Establishment shall commence with the Rank of Serjeant, and be made by the Commander-in-Chief on the official application of the Commissary General, and promotions to the Superior Ranks shall not be regulated by the principle of Seniority, but according to particular merits, and services, and on the recommendation of the Commissary General through the Commander-in-Chief to the Governor in Council.

The duties required of the persons composing this Establishment being those of inspection and check, it will be inconsistent with these objects that they should themselves be charged with the immediate custody of Stores or the disbursement of Money.

G. O. G. 3d January 1826.

The Honorable the Governor in Council having resolved* that four Extra Regiments of Native Infantry shall be raised for the Service of this Presidency, is pleased to request, that the Officer Commanding the Army in Chief will give the necessary orders for their immediate formation.

Each Regiment to consist of 10 Companies of the same strength and Establishments in all respects (excepting the European Officers and Subidar Major) as a Regiment of Native Infantry of the Line.

Each Regiment will be commanded by a Captain Commandant with one Adjutant, one Quarter Master, Interpreter and Paymaster, being Subaltern Officers.

The Extra Regiments will be raised at the following Stations, viz.

1st Extra Regiment at Palamcottah.
2d Extra Regiment at Bangalore.
3d Extra Regiment at Cuddapah.
4th Extra Regiment at Ellore.

The Honorable the Governor in Council also directs, that the Extra Regiments shall be paid, clothed and equipped in the same manner as the regular Regiments of this Establishment, and that the Commanding Officers and Staff shall draw the same Staff Pay and Allowances as the Officer Commanding and the Regimental Commissioned Staff of a regular Regiment of Native Infantry.

The Honorable the Governor in Council is further pleased to direct, that all the Regiments of Native Infantry (not on Foreign Service) including the Four Extra Regiments shall be immediately recruited five additional men per Company, making the Establishment of those Regiments, each 950 Privates.

The Honorable the Governor in Council also authorizes an addition of ten Men and Horses, with Saddles and Horse Appointments complete to the Establishment of each Troop of the 1st Regiment of Light Cavalry, together with a further addition of 100 Men and Horses with Saddles and Horse Appointments complete to be borne as Supernumeraries on the strength of the 1st Regiment Light Cavalry, to supply Casualties in the Squadrons of that Regiment employed in Ava. These new Levies to be recruited, trained, and organized with the Detachment of the 1st Regiment of Cavalry at Arcot, and to be borne on the strength of the Troops composing that Detachment until further orders.

It is with feelings of attachment and regret cheered by the pride of honorable recollections, that *Lieutenant General* Bowser for the last time addresses the Army of Fort St. George.

The ties of more than half a Century during which the *Lieutenant General* has had the honor of being associated in the interest of the Officers and Soldiers of that Army, must necessarily

necessarily be strong, and in offering them the tribute of his sincere admiration and the gage of his perfect regard and esteem, he can temper the painful feeling of permanent separation, by the knowledge and recollection alone, that this gallant and distinguished Army is at the very zenith of its glory and its reputation; and that the same Army which aided the exploits of a COOTE and witnessed the dawn of a WELLINGTON'S career, should, at this epoch, be proving itself equally zealous, devoted and efficient in a new and unusual service, wherein the strong ties of Cast and prejudices of habits and customs have vanished beneath the touch of Discipline and attachment to the Service; and that valour which had hitherto been almost limited to the narrow confines of a Country, has proved itself of general application wherever required or directed. With the proud consciousness of having shared the dangers and honors of such an Army, and being the oldiest Soldier serving in India, *Lieutenant General* BOWSER now bids his Comrades a last, a heartfelt, and an affectionate Farewell! acknowledging with a grateful recollection the zeal, ability, and public spirit by which he has been aided in his duties, by all the Staff and Departments, who are alike distinguished for a high Military Pride and Ambition, to maintain the distinguished reputation of the Army in all its branches.

It having been represented that Regimental Paymasters have not conformed to Circular instructions issued from the Office of the Superintendent of Family Payments regarding the transmission of Monthly Statements of Stoppages, Lieutenant General Bowser directs, that the attention of those Officers may be immediately called to that part of their duty, and to be informed that any instances of neglect in that respect, particularly as regards the Troops on Foreign Service, will be most seriously recognized.

high military spirit with which the Native Troops of this Presidency have proceeded to Ava and Arracan, and the patience with which they have borne the privations and hardships they have been subjected to, and also with the view of enabling them to provide for the expense of bringing back their families to the Head Quarters of their respective Corps, the Governor in Council is pleased to direct that three Months' batta shall be paid to all Native Troops and Military followers on their return from Foreign Service in Arracan and Ava.

G. O. G. 7th February 1826.*

1. The Honorable the Governor in Council deems it expedient to cancel the 24th Paragraph of the Regulations for the Family Certificate Department, published in General Orders dated 22d July 1814† concerning losses occasioned by payments made to Families for periods between the dates of Casualties, and of reports thereof reaching the Superintendent; and to direct, that the following course shall be observed in future regarding those charges.

2. The Superintendent's Bills, prepared in every respect as heretofore, are to be sent to the Adjutant General's Department, in order that it may be certified on the face thereof that no improper delay appears to have occurred in the notification of the Casualties—the Bills so authenticated are to be sent by the Superintendent to the Military Auditor General, who is authorized to pass them for payment.

3. In cases when it may appear, by communications received by the Adjutant General from the Corps or Departments on whose account the charges are made, that the Notifications of Casualties to the Superintendent have been improperly delayed, and that payments on the Family Certificates of the deceased Troops have been occasioned thereby, which would not otherwise have taken place, the Adjutant General is to withhold his Certificate, noting on the Superintendent's Bills the date on which the communications from the Corps or Departments reached his Office, and the Superintendent is to call on the parties to account for their neglect in not reporting the Casualties at an earlier period, holding them responsible for the excess charges arising therefrom.

4. On receipt of the replies, or explanations of the parties, the Superintendent is to transmit them with the Bills to the Military Auditor General who is authorized to pass the charges, if he considers the delay satisfactorily accounted for, that is, as having been occasioned, by circumstances over which the parties had no control—otherwise the Bills are to be rejected, and the Superintendent is to proceed to the recovery of the amount, in the manner directed by General Orders 16th April 1822‡, adhering also to the rules prescribed by that Order, in the case of appeals to Government being desired.

G. O. G. 10th February 1826.

The Honorable the Governor in Council is pleased to direct, that the following General Order by the Supreme Government be published, and that a Royal Salute and three Vollies of Musketry be fired at all the Military Stations under the Presidency of Fort St. George on the occasion therein mentioned.

G. O. C. C. 28th November 1805 is republished for general information, and the attention of Commanding Officers of Corps particularly called thereto.

"The benefit to be derived by the Native Branch of the Army from Vaccination "induces the Commander in Chief to desire, that Commanding Officers will recommend "to the Soldiers of their Corps, and to the Followers of them, who have not had the "Small Pox to be vaccinated; and, for the purpose of Vaccinating Soldiers and Fol- "lowers, Medical Officers of Corps are directed to apply for Vaccine Fluid either to "the Superintendent of Vaccination at the Presidency, or to the nearest European "Vaccinator.

"A Return of the numbers vaccinated shall be made Monthly by Medical Officers "to the Superintendent."

With reference to the existence of Small Pox amongst the Sepoys and Followers of the Army it is directed, that every Recruit, on being entertained for the Service shall be specially examined by the Medical Officer; and, if it shall not, satisfactorily appear that he has either had the Small Pox or been vaccinated, he shall be required to submit to the Vaccine Inoculation—The Medical Officer can always be supplied with Vaccine Matter on application to the Local Superintendent at the Station, or in its neighbourhood, or to the Superintendent General as the case may be. It is recommended that, where the Sepoy may evince any dislike to the operation from prejudice of Cast, the Native Vaccinators in the employ of Government when at hand, may operate under the inspection of the Medical Officer.

With reference to the Circular Letter of the 18th August 1825 it is requested, that Commanding Officers of Stations and Corps will favour by every means in their power the introduction of Vaccine Inoculation amongst the Families and Followers.

In consideration of the sudden and heavy losses which are sometimes occasioned amongst bodies of Horses by Epidemic and Contagious Diseases which no human skill or caution can prevent, and which had not been contemplated in the allowance made for Officers' Chargers, it has been provided by the Regulations of the Service, that under such circumstances, the expense shall be defrayed by Government.

It is, however, explicitly to be understood, that compensation for loss of Chargers will only be granted in cases in which the Horse is actually present and mustered with the Regiment or a Detachment thereof, and that all Officers taking a Charger away from the Regiment to which they belong, whether upon leave or Staff duty, will do so at their own risk and to the entire forfeiture of the compensation aforesaid.

Commanding Officers of Mounted Regiments will be held responsible for the correct keeping of Registers of Officers' Chargers specifying their Height, Colour, Age, and distinguishing marks, and will be required to forward such Register to the Adjutant General of the Army, on the first day of every year for the information of the Commander in Chief. No Horse once mustered as an Officer's Charger is to be sold or exchanged without permission previously obtained of the Commanding Officer of the Regiment, and until another Horse equally efficient and fit for Cavalry duties shall have been submitted to, and approved of by him. An authenticated Extract from the Regimental Register will be required to accompany the Bill for compensation for Chargers lost by Epidemic or

Great inconvenience having occurred to the Public Service from the optional removal of Writers employed on Public Pay in the Offices of Officers in the Staff and in the Departments both Divisional and Regimental; these individuals are hereafter invariably to be considered as Public Servants not removable at the option of Officers in charge of such Offices without communication with the Commanding Officer or Head of the Department, who will be the best judge of the expediency of such removal, and who is responsible for the efficiency of every branch of the Department under his Command. Although such Writers are not enrolled and mustered as followers, they are nevertheless supported by an allowance granted by Government for that especial purpose, and their removal at the option of Subordinate Staff or Departmental Officers has been an innovation upon the spirit of the Regulations of the Service.

G. O. G. 17th March 1826.

G. O. G. 9th May 1826.

The Honorable the Governor in Council has much satisfaction in publishing to the Army of Fort St. George the following General Order by the Right Honorable the Governor General in Council.

FORT WILLIAM, 11th April, 1826.

General Orders by the Right Honorable the Governor General in Council.

The Relations of Friendship between the British Government and the State of Ava having been happily re-established by the conclusion of a Definitive Treaty of Peace, the Governor General in Council performs a most gratifying act of duty, in offering publicly his cordial acknowledgments and thanks to Major General Sir Archibald Campbell, and the Army in Ava, by whose gallant and persevering exertions the recent contest with the Burmese Empire has been brought to an honorable and successful termination.

In reviewing the events of the late War, the Governor General in Council is bound to declare his conviction that the achievements of the British Army in Ava have nobly sustained our Military reputation, and have produced substantial benefit to the national interests.

During a period of two years from the first declaration of hostilities against the Government of Ava, every disadvantage of carrying on War in a distant and most difficult country has been overcome, and the collective Forces of the Burman Empire, formidable from their numbers, the strength of their fortified positions, and the shelter afforded by the nature of their Country, have been repeatedly assailed and defeated. The persevering and obstinate efforts of the Enemy to oppose our advance having failed of success, and his resources and means of further resistance having been exhausted, the King of Ava has, at length, been compelled to accept of those terms of Peace, which the near approach of our Army to the Gates of his Capital enabled us to dictate. Every object, the Governor General in Council is happy to proclaim, for which the War was undertaken, has been finally and most satisfactorily accomplished.

With sentiments of the highest gratification, His Lordship in Council further declares his persuasion, that the result of the contest, by teaching the Burman Nation to know and respect the Power which it had for a series of years insulted, by its haughty demands and unprovoked aggressions, will prevent the interruption in future of those friendly relations, which it is the interest of both States to maintain, will pave the way, for a freedom of intercourse hitherto unknown, and promises to open to Commerce new and advantageous sources, calculated to promote the interest and the prosperity of both Countries.

To the consummate Military talents, energy and decision manifested by Major General Sir Archibald Campbell, to the ardour and devotion to the Public Service, which his example infused into all ranks, and to the confidence inspired by the success of every Military operation which he planned and executed in person, the Governor General in Council primarily ascribes, under Providence, the brilliant result that has crowned the gallant and unwearid exertions of the British Troops, in Ava. Impressed with sentiments of high admiration for those eminent qualities so conspicuously and successfully displayed by Major General Sir Archibald Campbell, His Lordship in Council rejoices in the opportunity of expressing to that distinguished Soldier, in the most public manner, the acknowledgments and thanks of the Supreme Government for the important service he has rendered to the Honorable East India Company, and to the British Nation.

The thanks of Government are also eminently due to the Senior Officers, who have so ably and zealously seconded Major General Sir Archibald Campbell in his career of victory. Brigadiers General Cotton, MacBean, and MacCreagh, deservedly hold a high place in the estimation of his Lordship in Council, who has repeatedly had occasion to notice, with applause, the gallantry, skill, and promptitude displayed by those Officers in the execution of the various important operations entrusted to their direction.

Animated by the same noble spirit, Brigadiers Miles, Shaw, Elrington, Armstrong, Smelt, Hunter Blair, Brodie, Pepper, Parlby, Godwin, Hopkinson, and Sale, have entitled themselves to the distinction of receiving from the Governor General in Council, on this occasion, the renewed expression of the sense entertained of their eminent services, for which they have on various occasions received the thanks of Government through Major General Sir Archibald Campbell.

Amongst

Amongst those zealous and gallant Officers, some have been more fortunate than others in enjoying opportunities of performing special services. The ability with which Lieutenant Colonel Godwin, of His Majesty's 41st, achieved the conquest of the fortified Town of Martaban, and its dependencies, appears to confer on that Officer a just claim to the separate and distinct acknowledgments of the Governor General in Council. In like manner, Lieutenant Colonel Miles, and Brigadier General MacCreagh, have entitled themselves to the special thanks of Government for their services, the former in the capture of Tavoy and Mergui, and the latter in that of the Island of Cheduba.

The limits of a General Order necessarily preclude the Governor General in Council from indulging the satisfaction of recording the names of all those Officers whose services and exploits at this moment crowd upon the grateful recollection of the Government, by whom they were duly appreciated and acknowledged at the time of their occurrence. His Lordship in Council requests that those Officers will, collectively and individually, accept this renewed assurance that their meritorious exertions will ever be cordially remembered.

The frequent mention in the Public Dispatches of the gallantry and zeal of Lieutenant Colonel Sale deservedly marks that Officer as one who has established peculiar claims to the distinguished notice of His Lordship in Council; the services of the Bengal and Madras Foot Artillery under Lieutenant Colonel Hopkinson and Lieutenant Colonel Pollock, and of the Bengal Rocket Troop and Horse Artillery under Captains Graham and Lumsdaine, demand also the special acknowledgments of Government. The Governor General in Council acknowledges, with peculiar approbation, the gallant and indefatigable exertions of that valuable Corps the Madras Pioneers, under Captain Crowe. His Lordship in Council desires further to express the high sense which Government entertains of the zealous and meritorious services of Lieutenant Colonel Tidy and Major Jackson and the Officers of the Adjutant General's and Quarter Master General's Departments, and of Captain Snodgrass, Military Secretary, and Captain John Campbell, Personal Staff of the Commander of the Forces in Ava. The services of Superintending Surgeon Heward and the Officers of the Medical Department, and of Captain Fiddes and the Officers of the Commissariat, are fully appreciated by his Lordship in Council.

The Governor General in Council finds himself at a loss for adequate terms to describe the satisfaction with which the Government regards the general good conduct of the Troops, European and Native, who have served in Ava. Their patient endurance of the fatigues, privations and sickness to which they were unavoidably exposed in a hostile country, and in an inclement season, subsequent to the Capture of Rangoon, was not less conspicuous and praiseworthy than the spirit and determined resolution with which they maintained, during that period, an incessant and most harassing warfare of posts. Their irresistible gallantry in storming the Burmese Stockades, however strong their defence by nature or art, and the success which crowned their repeated encounters with the enemy, reflect equal credit on the Troops who achieved those exploits, and on their Leaders, who justly confiding in British energy, discipline, and courage, were never deterred by the most formidable disparity of numbers or difficulties of position from assaulting the enemy whenever the opportunity could be found.

While the Governor General in Council enumerates, with sentiments of unfeigned admiration the 13th, 38th, 41st, 89th, 47th, 1st or Royals, 87th and 45th Regiments, the Honorable Company's Madras European Regiment, and the Bengal and Madras European Artillery, as the European Troops, who have had the honor of establishing the renown of the British Arms in a new and distant region, His Lordship in Council feels, that higher and more justly merited praise cannot be bestowed on those brave Troops than that amidst the barbarous hosts whom they have fought and conquered, they have eminently displayed the virtues and sustained the character of the British Soldier.

To the Native Troops of the Honorable East India Company, who have so often successfully emulated their European Comrades in Arms, the highest meed of approbation and applause is not more cheerfully accorded than it has been honorably won. The Madras Sepoy Regiments, destined for the Expedition to Ava, obeyed, with admirable alacrity and zeal, the call for their services in a foreign land, involving to them many heavy sacrifices and privations. This devotion to their Government reflects the highest credit on the character of the Coast Army, not more honorable to themselves than it is doubtless gratifying to the Government of Fort St. George, as affording unequivocal proof of the sentiments of gratitude and attachment with which that Army acknowledges the paternal anxiety and care that ever watches over and consults its best

best interests and welfare. The detachments of the Bengal Native Troops employed in Ava, consisting of a portion of the Governor General's Body Guard, commanded by Captain Sneyd, and details of Native Artillery, have been animated throughout by the noblest spirit of gallantry and zeal; the former, more especially, are in a peculiar degree, entitled to the warmest thanks of the Supreme Government for their voluntary offer of Service beyond Sea, and for their distinguished conduct in the Field under their Native as well as European Officers.

The conduct of that portion of the Naval branch of the Expedition which belongs to the East India Company has been exemplary and conspicuous for gallantry and indefatigable exertion, and it has fully shared in all the honorable toils and well earned triumphs of the Land Force. The Governor General in Council experiences the most sensible gratification, in offering to Commodore Hayes, to Captain Hardy, Senior Captain of the Bombay Marine, and to the several Commanders and Officers of the Bombay Cruizers, which have been employed in the Irrawuddy, and to the Officers in Command of the armed Brigs and Divisions of Gun Boats, the cordial thanks of Government for their zealous and meritorious services. Although not Commanding in person the Honorable Company's Naval Force in the Irrawuddy, Commodore Hayes has amply entitled himself to the special notice and consideration of Government on this occasion, since it was mainly owing to his professional and unremitting exertions that the Armed Flotilla from this Port was so efficiently equipped, and thus enabled to acquit itself in a manner which has repeatedly been honored with the approbation of His Excellency the Naval Commander in Chief of His Majesty's Squadron in the East Indies, and the Officers of the Royal Navy, under whose orders they have been employed, in conjunction with the Armed Boats of His Majesty's Ships. The Governor General in Council has not overlooked the spirit and bravery characteristic of British Seamen, manifested by several of the Masters and Officers of Transports and Armed Vessels in various actions with the Burmese in the vicinity of Rangoon.

It belongs to a higher authority than the Government of India to notice, in adequate and appropriate terms, the services of His Majesty's Squadron, which has co-operated with His Majesty's and the Honorable East India Company's Land Forces, in the late hostilities with the Government of Ava. The Governor General in Council, however, gladly seizes this opportunity of expressing the deep sense of obligation with which the Supreme Government acknowledges the important and essential aid afforded by His Excellency Commodore Sir James Brisbane in person, as well as by the Officers, Non-Commissioned Officers, Seamen and Marines of His Majesty's Ships, which have been employed in the Irrawuddy. Inspired by the most ardent zeal for the honor and interests of the Nation and the East India Company, His Excellency the Naval Commander in Chief, lost no time in proceeding with the Boats of the Boadicea to the Head Quarters of the British Army at Prome, and directing in person the operations of the River Force, rendered the most essential service in the various decisive and memorable actions which, in the month of December last, compelled the Burmese Chiefs to sue for Peace.

But, while recording his gratitude to those who have partaken of, and survived this arduous contest, the Governor General in Council must also advert to the early and deep regret occasioned by the death of Commodore Grant, under whose personal direction the ships of the Expedition first proceeded against Rangoon. The heartfelt satisfaction arising from the success of the British Arms in the Burman Dominions, must now also be tempered with feelings of sorrow for the loss of the many brave Officers and Men who have fallen in the course of the War. Their Memory will ever be associated with the heroic deeds, and splendid triumphs of the British Army in Ava, and will be regarded with affection and respect by their Sovereign and their Country.

In testimony of the brilliant services achieved by the Army under the Command of Major General Sir Archibald Campbell, the Governor General in Council is pleased to resolve, that all the Corps, European and Native, in the service of the Honorable the East India Company, who have been employed in the Burman Country, including the Corps which were detached by that Officer from his more immediate command, for the conquest of the Enemy's possessions of Cheduba. Negrais and Bassein on the one side, and Martaban, Ye, Tavoy and Mergui on the other, shall bear on their Regimental Colors the word, "Ava," with the words "Rangoon," "Donabew," "Prome," "Malloon," and "Pagham," as they may have been respectively present at one or more of the actions at those places. With respect to the King's Regiments, the Governor General in Council will recommend to His Majesty through the proper channel, to grant the same distinction to them. Medals also, bearing a suitable device, are to be distributed to all the Native Troops which at any period during the War were employed

ployed under the Command of Major General Sir Archibald Campbell, including the Officers and Men of the Flotilla and Gun Boats serving in the Irrawuddy.

The Governor General in Council cannot conclude these General Orders, expressive of his high approbation of the merits and services of the Army, under Major General Sir Archibald Campbell, without intimating, at the same time, his entire satisfaction with the conduct of the two divisions of British Troops, intended to penetrate into Ava from our North-Eastern and South-Eastern Frontiers, and also of the British Force employed in the expulsion of the Enemy from the country of Assam.

The latter service, namely, the conquest of Assam, was achieved by the Force under Lieutenant Colonel A. Richards, with the most complete success, the Capital, Rungpore, having surrendered on terms, and the Burmese Troops having been entirely expelled from that Country.

On the side of Cachar, physical difficulties of an insurmountable nature having arrested, at its very outset, the progress of the Army under Brigadier General Shuldham, no opportunity was afforded to that Army of displaying those qualities of courage, perseverance, and zeal, which the Governor General in Council is satisfied it possessed in common with its more fortunate brethren in Ava.

Similar and no less serious impediments ultimately opposed the advance of the fine Army under Brigadier General Morrison over the mountains of Arracan into the valley of the Irrawuddy: but the capture, by the Detachment under Brigadier W. Richards of the Fort and Heights of the capital of Arracan, afforded an earnest of what would have been effected, had opportunities offered, by the judgment, prudence and skill of the Commander and Officers of that Division, and by the valor, zeal, and intrepidity of the Troops of which it was composed. The Governor General in Council deeply laments the general sickness which attacked, and utterly disabled for further effective service, the South Eastern Division of the Army, and the loss of many brave Officers and men, who fell victims to the noxious climate of Arracan.

In testimony of the high sense entertained by Government of the services of the Troops, by whom the Provinces of Assam and Arracan were conquered, the Governor General in Council is pleased to order, that the several Native Corps who were employed in those countries, shall respectively bear on their colours the words "Assam," and "Arracan," as the case may be, and His Majesty will be solicited to grant to the 41th and 54th Regiments the same distinction. In further proof of the approbation with which the Government regards the meritorious conduct of its Native Troops serving in foreign countries, Medals, with an appropriate device, shall be presented to the Troops which assisted at the conquest of Assam and Arracan.

G. O. G. 9TH MAY 1826.

With reference to the General Order of the 3d of January 1826,* the Honorable the Governor in Council is pleased to direct that the Pay and Allowances of the Head Overseer, Overseers and Sub Overseers, of the new Establishment of Warrant Officers authorized for the Commissariat, shall be drawn by each individual in one Abstract from the Pay Department, under the Head of "Commissariat Established Allowances" to be signed by himself, and countersigned by the Officer of the Commissariat, under whose orders he may be serving. With respect to the Commissariat Staff Serjeants their *Army* Pay (being that of a Serjeant of effective European Infantry) is to be consolidated with their Staff Allowance, as sanctioned by the above General Order, and drawn from the Pay Department for them by the Commissariat Officer under whom they may be placed, adding to such Abstracts as an extra charge, the house rent allowed to Staff Serjeants, when public quarters are not provided for their accommodation.

2. The Warrant Officers in passing through the country, at Stations where there may be no Commissariat Officers, will receive (on producing regular Pay Certificates) their pay on abstracts countersigned by the Commanding Officers; while the Pay of the Staff Serjeants will on similar occasions be drawn by the Public Staff Officer of the Station in the same manner as that of any detail belonging to any other branch of the Service.

3. The Pay and Staff Allowances of Arrack Godown Serjeants not transferred to the new Establishment, will continue on the same scale and be drawn in the same manner as heretofore; but when casualties occur and when temporary appointments are made in consequence by Commanding Officers on the spot, on the application of Commissariat Officers, the persons so appointed will be designated "Acting Commissariat Staff Serjeants," and receive as such, their Staff Pay only under the authority of the Commissary General until the regular appointment shall appear in General Orders or until the acting Commissariat Serjeant can be relieved by a Serjeant of the regular establishment. The same rule is to be followed when Stations may be temporarily occupied by European Troops, and where it may also be necessary to make such temporary appointments on the emergent application of the Commissariat Officer for that purpose, such Acting Serjeants receiving their Military Pay as before, and their Staff Pay (as at present), being entered in the accounts of the Commissariat.

When admitted, the payment of the Pensions will commence from the date on which the allowance of Rupees 8 per month ceases; but both allowances are never to be payable for the same period, and the latter is not to be drawn for Widows of Men of the Honorable Company's Service beyond six months, without the sanction of Government.

Referring to the General Orders of the 13th of May 1825,† by which Officers drawing travelling or full batta on account of temporary detached duty were exempted from the forfeit of House Rent, The Honorable The Governor in Council desires it may be understood, that such exemption is only considered applicable when the Officers are to return to the Stations from which they may be detached, as in such cases it is supposed they remain subject to the expense of House Rent; but when drawing batta on account of removal to another Corps or Station, or when proceeding to the field or to a field Station, House Rent is to cease from the date of their departure, and to recommence on their arrival at the new Station to which they may be removed.

G. O. C. C. 15th May 1826.

The Commander in Chief is pleased to publish to the Army the following General Order by His Excellency the Right Honorable The Commander in Chief in India.

Sir George Walker, is particularly gratified to find, that the Madras Army has on all occasions merited, the Soldier's best reward—the approbation of his Superiors!—and His Excellency trusts, that they will be confident, he participates in every sentiment which marks the Military qualities that distinguish them as an Army.

General Orders by His Excellency The Right Honorable The Commander in Chief.
Head Quarters: Calcutta, 14th April, 1826.

The Services of the Army lately employed against the State of Ava having been successfully terminated by the conclusion of an honorable Peace dictated to that Power; The

* *Vide page* 137. † *Vide page* 153.

The Right Honorable The Commander in Chief in India, embraces the happy occasion, to express to the Troops of His Majesty and of the Honorable Company from the Presidencies of Fort William and Fort St. George, who were employed in the late war, his best thanks, and acknowledgments for their highly praiseworthy conduct on every occasion which presented itself for distinguishing themselves.

The difficulties met with by the Troops during the progress of hostilities, in every quarter in which the war was carried into the Enemy's Country were of a nature, surpassing what has ever before been experienced in India, while the baneful effects of the extremely noxious climate in which the Troops had to maintain their positions, added to the severe privations and fatigues to which they were unavoidably exposed throughout the whole period of their Service have been borne without a murmur.

Owing to these causes, the losses sustained by the Army during two years of hostility have been great beyond example, and cannot be remembered, without the deepest sympathy and regret, whilst the zealous devotion and fortitude manifested by those who have borne up against such aggravated distresses, must ever be a theme of applause and admiration.

His Excellency is also highly gratified in having to observe, that the conduct of the several Corps and Detachments, on every occasion, where the enemy gave them an opportunity of engaging, was fraught with that spirit of Gallantry and Courage, which ever distinguishes a British Soldier, and through which they invariably overpowered and defeated the Enemy ; the successful results of their Services are to be appreciated by the terms upon which the war has happily been brought to a conclusion.

To Major General Sir Archibald Campbell, K. C. B. Lord Combermere has to offer the expression of his high admiration of the manner in which the Service in Ava has been achieved ; and His Excellency does not fail to recollect with applause the services of Brigadier General Morrison, C. B. in the reduction of the Province of Arracan as well as of Lieutenant Colonel A. Richards, in reducing the Enemy's power in the Province of Assam.

Amidst the great variety and extent of successful operations which have marked the progress of the war, it would be difficult to enumerate the several occasions or to particularize the names of the many Officers who, in the Command of Divisions, Brigades, Corps and Detachments, or of those who employed on the Staff of the several Armies, have had opportunities of bringing themselves into notice ; yet His Excellency feels it due to the following Officers to acknowledge with applause and approbation the sense he entertains of the important services performed by them.

Brigadier General MacBean, C. B. Second in Command with the Army in Arracan, and Commanding the Expedition against Ramree.

Brigadier General Willoughby Cotton, Second in Command under Sir Archibald Campbell, and Commanding the Madras Division in Ava.

Brigadier General M. MacCreagh, C. B. Commanding the Bengal Division in Ava, and at the reduction of Cheduba.

Brigadier E. Miles, C. B. Commanding at the reduction of Tavoy and Mergui.

Brigadier H. Godwin, Commanding at the Capture of the Fortified Town of Martaban.

Brigadier W. Smelt, Commanding the Lower Provinces and at Rangoon, who by the report of Sir Archibald Campbell has distinguished himself by the zeal and judgment with which he conducted the arduous and difficult duties of his Post in co-operation with the Army in advance.

To these Officers, Lord Combermere offers his cordial thanks and acknowledgments.

It will be a most pleasing duty to His Lordship to render justice to the above meritorious Officers, as well as to many more of His Majesty's and the Honorable Company's Services, who have been specially reported, as having availed themselves of opportunities of acting a distinguished part, by bringing them to notice for such marks of favor as His Majesty may be graciously pleased to consider their services merit.

There are, likewise, many other Officers whose names could not be included in the above enumeration, who have been reported to the Commander in Chief for favorable consideration—To them, Lord Combermere desires to offer his assurance that their merits and claims will be held in recollection, and that their future prosperity and advancement will form an object of His Lordship's anxious desire.

G. O. C. C. 16TH MAY 1826.

In obedience to the Orders of the Honorable the Governor in Council, The Commander in Chief is pleased to notify, that the Uniforms of the Head Overseer, Overseers, and Sub-Overseers, of the Commissariat, shall be Scarlet, the Appointments Silver, and the Buttons plain, that in all other respects they shall correspond with those of Deputy Assistant Commissary, Conductor and Sub-Conductor of Ordnance respectively, and that the Dress, &c. of the Commissariat Staff Serjeants shall be the same as that of Staff Serjeants of Garrisons.

Upon which Charges the Court came to the following decision.

" The Court find the Prisoner Lieutenant Colonel Paterson, His Majesty's 13th Light Dragoons, guilty of the first " Charge, with the exception of the word " falsely," the " misstatement appearing to have been inadvertently not " wilfully made, nor was it made with a view to justify the " breach of a Regimental Order.

On the reasons assigned by the Court, I confirm the Finding and Sentence.

(Signed) G. T. WALKER,
Lieutenant General.

The Reprimand which it is Lieutenant General Sir George Walker's duty here to communicate to Lieutenant Colonel Paterson, will, he hopes, admonish him to be more particular in future, in all explanations required by his Senior Officer, and to bear always in mind, that, however severe the terms in which they may be addressed, it is a duty to the service of his Country that he is fulfilling, and not to be considered an act of subserviency to the Individual.

The

The Lieutenant General cannot however but regret, that it should have been found necessary to assemble a Court Martial at so great an expense and inconvenience, both to the Individuals and Government, and to have placed an Officer of rank in a situation so painful to his feelings on a trifling misunderstanding, which five minutes personal conversation, with a due suavity of manner, might have cleared up. He cannot but deprecate communication by Letter between Officers in the succession of Command, where personal explanation can be obtained, independent of great waste of time that might be more usefully employed; it must be in every one's observation, that a gentlemanly manner and tone of voice (always to be expected between Officers) will often give a moderate and proper expression to a phrase, which may, in a letter, appear harsh and offensive; and when it is recollected how much the public service suffers by such misunderstandings, and what bad example they hold out---the Lieutenant General must require personal communication to be adopted, when practicable, on all matters of duty between Officers in the immediate succession of Command, when it is necessary to enter into explanation or detail.

The Lieutenant General must at the same time desire that Officers in superior Command may abstain as much as possible from interfering in the interior details of Regiments. Nothing but repeated irregularities can excuse this, as it must evidently imply negligence or incapacity on the part of the actual Commander, and in so much weaken the respect necessary to his authority---and when irregularities or mismanagement really requiring such interference, do actually occur, the case is of such a nature as necessarily to form a report to the Superintending General for the information of the Commander of the Forces. In the mean time the chain of responsibility must be kept up in all its links, giving as well as taking the respect due to each, and the Lieutenant General will feel bound to notice any breach of it. Lieutenant Colonel Paterson is now released from his arrest and is to re-assume his Command.

G. O. C. C. 22D MAY 1826.

Lieutenant Colonel Boyse, 13th Light Dragoons, Commanding the Cantonment of Bangalore, was arraigned on the following Charge preferred against him by Major General Sir Theophilus Pritzler, K. C. B. Commanding the Mysore Division of the Army.

"For disrespect to me as the Officer Commanding the Division in treating my "orders with contempt, by issuing a Regimental Order, bearing date 7th Febru- "ary 1826, in direct opposition to the instructions conveyed to him personally by "me on that day, before the Commanding Officer and Officers of His Majesty's "13th Dragoons assembled for that purpose, and in communicating the same "through the Adjutant of the 13th Dragoons in direct and immediate disobedi- "ence of those my orders."

"Such conduct on the part of Lieutenant Colonel Boyse, being unbecoming "his character as an Officer, prejudicial to His Majesty's Service, and subversive "of all order, and Military regulation and discipline.

BANGALORE, 15*th April*, 1826. (Signed) T. PRITZLER, Major General, Commanding Mysore Division.

Upon which Charge the Court came to the following decision.

Opinion.—"The Court having taken in mature consideration the Evidence on the "prosecution, together with what Lieutenant Colonel Boyse, C. B. has adduced in "his defence, is of opinion, that he, Lieutenant Colonel Boyse, C. B. His Majesty's "13th Light Dragoons, is not guilty of the crime laid to his charge—and do there- "fore most fully and most honorably acquit him of all and every part thereof."

The above Finding and Sentence is Confirmed.

(Signed) G. T. WALKER,
Lieutenant General.

Although the Lieutenant General has thought it expedient to confirm the Finding and Sentence of the Court; taking notwithstanding a very different view of the course of its proceedings, he cannot add his approval—and should certainly have sent them back

back for revision, had it not appeared useless, after the Court had allowed its opinions to be biassed by the admission of a mass of papers and other matter, totally irrelevant to the subject before it, and thence, among other irregularities, licensing the prisoner to place upon the face of its proceedings a most unjustifiable and wanton attack upon the character of an Officer of Rank not under its cognizance, and leaving him therefore without the means of justification. In fact, instead of confining itself to the sole evidence connected with the Charge, viz. the Instructions of Major General Sir Theophilus Pritzler, and the Regimental Order issued by the Prisoner; instead of giving its own unbiassed opinion upon the subject submitted to its consideration, it appears to have surrendered its post to the Subalterns of the 13th Light Dragoons, and allowed them, to sit in judgment between their General of Division and the Prisoner; the natural consequence of which has been, that the facts in issue, facts most important to the Discipline of the Army, however distinctly proved, have been lost sight of, viz. That Major General Sir Theophilus Pritzler had given instructions to Lieutenant Colonel Boyse and the Officers of the 13th Dragoons, defining the Command of the *Regiment* as vested in *Lieutenant Colonel Paterson*, who in all respects was to be obeyed as such, forbidding at the same time any other channel of communication to the Officers, either to Lieutenant Colonel Boyse or to himself, but through him. Now as Military Discipline has never yet admitted of the anomaly of two Commanding Officers of the same Corps, this might have been thought sufficiently explanatory, especially to an Officer of 23 years standing: Nevertheless, after hearing these instructions, and on the very same morning, as if in defiance of them, it is proved and admitted that Lieutenant Colonel Boyse, took home with him the Adjutant of the Regiment, and this Officer whom he had just heard forbidden to have any communication with him but through the channel of his Commanding Officer (Lieut. Col. P.), was actually employed by him in the issue of a *Regimental Order*, contrary to the authority just defined by the Major General, as vesting in Lieutenant Colonel Paterson---An order, even going to the extent of weakening and degrading the power and respect necessary to the situation, by taking from it all means of reward, and leaving with it all the odium of punishment—An order, as if intended to keep up that spirit of party, which the instructions of the Major General were specifically intended to overset—An order above all, totally disregarding His Majesty's Regulations, which strictly defines all the restrictions necessary for Officers in Temporary Command, in forbidding any change of Orders and Regulations previously established by the more permanent Commanding Officers, without superior authority, but no where providing for the double interference of both at the same time.

Mem.
That Officer having signed the Returns and being in actual Command of the Corps, while Lieutenant Colonel Boyse had held that of Commandant of Bangalore with a Salary for that duty for upwards a year.

As to the remark of the Major General that Lieutenant Colonel Boyse was the Commanding Officer of Lieutenant Colonel Paterson, as the latter was of the Regiment, it could admit but of one Military sense, that of his Command of the Cantonment, which gave him all necessary authority over the 13th Dragoons as of all other Corps within it, and it can hardly be doubted that all proper instructions issued by him, to its Commanding Officer for its welfare would be attended to, or if neglected, he had always the power of reporting that neglect to superior authority, though not of arbitrary interference with the internal management of his inferior, who by signing the Returns became at once the only acknowledged and responsible Commander, and of course vested with all the power necessary to fulfil his Duties.

The Court, however, has honorably acquitted the Prisoner Lieutenant Colonel Boyse of all this; he is consequently to be released from arrest, and to return to his duty and Command. The Major General of the Division is however desired to have the order in question expunged from the Regimental Books of the 13th Dragoons as trammelling the authority of the Commanding Officer, and contrary to the spirit and meaning of His Majesty's Regulations, to which *his* attention must however be particularly called—at the same time that, not losing sight of the probable return to Command of his Senior, he will of course be expected to consult with and attend to his recommendations on all important concerns of the Corps, not inconsistent with his responsibility and the due authority necessary to his Command.

These instructions will be entered in the Orderly Books of all His Majesty's Regiments on this Establishment, and will be taken as the Rule of Duty on all similar situations in future.

By order of His Excellency Lieutenant General Sir George Walker, G. C. B. & K. T. S.

(Signed) R. TORRENS, Lieut. Col.

Dep. Adjt. Gent. His Majesty's Forces.

G. O. C. C. 24th May 1826.

As from some late examples, it appears, there have existed doubts with some individuals of this Army with respect to the meaning of certain Orders for the guidance of Officers, who being Seniors of their Corps may hold at the same time superior Commands at the same Stations; and as the possibility of two persons interfering at the same time in one Command must be attended with the most mischievous effects to Military Discipline, in the creation of parties, the encouragement of trivial complaints, and the lowering of the proper authority: It is for the future to be distinctly understood as the Rule of Duty throughout this Army, that Officers accepting or executing Superior Commands with or without salaries attached thereto, the duties of which require the Signature of Returns and the Details of their own Corps to be left to the next in rank, resign thereby all authority to interfere personally in the internal management of it for the time being; the immediate and complete Command of which is vested in the Officer who, by his Signature to the Returns, is rendered alone responsible for its Discipline and Character; Junior Officers however, so situated, being expected to consult and attend to the recommendations of their Seniors in all important concerns of their Regiments not inconsistent with their own responsibility or the due authority necessary to the maintenance of their Commands, keeping always in view the spirit as well as letter of the principles laid down by His Majesty's Regulations of not allowing during his temporary absence any change in the written Orders and Regulation laid down by the more permanent Commanding Officer, in which as all wholesome and necessary restriction is included, no further interference on the part of the Senior can be allowed than what is given by his Superior Command over that Corps in common with all others in his Cantonment, as in the case of a Brigadier General or Colonel on the Staff, where in case of any failure of Discipline or inattention to his proper instructions he has always in his power to report that neglect to superior authority, but in no case can be allowed an arbitrary interference in its internal management.

This Regulation is not however to be construed to extend to the temporary changes of Command arising out of the chance meeting of Corps, or to any temporary Command indeed that does not require the abandonment on the part of the Senior of the Signature of Returns and of the superintendence of the usual details and duties---and to prevent all doubts upon the subject, all previous orders inconsistent with the principle here laid down, are henceforward to be considered null and void.

G. O. G. 2d June 1826.

The Honorable the Governor in Council deems it expedient to direct, that the practice of charging King's pay in advance to the 24th of the month shall be discontinued, and that all Regiments of His Majesty's Service shall in future draw pay (subsistence) for all ranks, in advance for the entire month as prescribed for the Company's Army, which will place the two Services precisely on the same footing in regard to periodical payments.

2. The Military Auditor General is accordingly directed to issue the requisite subsidiary instructions for giving effect to this Regulation, and the Musters of His Majesty's Troops will in future take place on the 1st in place of the 24th of each month.

G. O. G. 2d June 1826.

With a view to promote regularity and security in the transmission and delivery of letters from and to the Native Soldiery, and to regulate the application of the privilege conferred on the Native Troops in regard of their letters, The Honorable the Governor in Council has been pleased to pass the following rules.

First. That Officers franking letters from or to Commissioned and Non-Commissioned Native Officers and Sepoys, or other Natives borne on the Returns of the Army, including

including Guides and Public Dooly Bearers, shall cause them to be directed in English, in addition to whatever address they may bear in a Native language.

Secondly. That it shall be the duty of Commanding and Staff Officers of Stations, to see that due pains are taken to find out all Military Persons to whom letters are addressed, and to satisfy themselves that the letters are carefully delivered.

Thirdly. That Officers Commanding Regiments and Detachments shall send daily to the Post Offices where they are respectively stationed, a Drummer and a Sepoy writer or other fit persons, to enquire for Letters directed to the Native Officers or Men of their Regiments or Detachments, and to give a receipt for any letter which may be obtained by them, and that such Commanding Officers shall farther adopt the best measures in their power, for the safe and early delivery of whatever letters may be given in charge to the persons whom they depute to receive them, as also that the practice here enjoined shall be followed, to the requisite extent, by Officers Commanding Stations, and Public Staff Officers, whose especial attention is moreover, required in aid of the speedy and careful delivery of letters from Regiments or detachments, on Field or Foreign Service to the Families of Native Officers or Men belonging to them.

Fourthly. That Officers franking letters of the Native Soldiery, shall be obligated to observe that the provisions in the Post Office Regulations respecting such letters, are duly attended to, and that the privilege accorded to the Native Troops with regard to their letters is not misused.

G. O. G. 13th June 1826.

The Honorable the Governor in Council is pleased to publish to the Army the following letter from Brigadier General Cotton, on his retiring from the Command of the Madras Division of Troops in Ava.

To DAVID HILL, Esq.
Chief Secretary to the Government,
at Fort St. George.

Sir,

The command of the Madras Troops in Ava, which I had the honor to hold during the greater part of the War, having terminated by the ratification of Peace between the British Government and the King of Ava, it is impossible for me to take a final leave of the distinguished body with whom I have been associated without expressing to His Excellency the Honorable the Governor in Council my sense of the zeal, gallantry, and discipline which the troops from Fort St. George have displayed throughout a long course of arduous service.

2. It is not within the confined limits of a report possible to do justice to individual merit, but the exemplary conduct of every Officer and Soldier who has been employed, whether of His Majesty's Regiments, or of the Honorable Company's European and Native troops, has been so conspicuous as to preclude the necessity of selection, and to deserve that I should solicit to place my grateful acknowledgment of their services upon the records of Government.

3. The fatigues of the various campaigns, and their uncommon privations, have been cheerfully shared by all indiscriminately; but the patient endurance by the Native Regiments of the vicissitudes of so novel a service, waving the prejudices of caste, and the customs by which they have been influenced by ages, are beyond the measured terms of praise, and evince how well they have deserved the truly paternal care and indulgence of an enlightened Government, which have been extended with equal liberality to the European and the Native Soldier.

4. The support which I have universally derived from Lieutenant Colonels Armstrong, C. B. Brodie, Pepper, Godwin, and Parlby, has been only equalled by the gallantry with which they have led their Brigades whenever opposed to the Enemy, and I hope I may be permitted to pay the tribute of regret for the loss of Lieutenant Colonel Commandant Macdowall, Lieutenant Colonel Conry, and the remaining brave Officers and men who have fallen in the execution of their duty.

5. I have had repeatedly occasion to bring to the favorable notice of the Honorable the Governor in Council the zeal and ability with which their respective Departments have

have been conducted by Captain Hitchins, Deputy Adjutant General, and Captain Steel, Deputy Quarter Master General; and I beg to repeat that they have always deserved my confidence.

6. The indefatigable exertions which have been exemplified by Superintending Surgeon Dr. Heward, and the Subordinate Medical Officers; the regularity which has been preserved in the hospitals; and the professional skill which has been evinced, call for my best acknowledgments.

7. The Madras Commissariat under Captain Tulloch, Assistant Commissary General, has been remarked for its efficiency in all emergencies; and I mention him to Government as an able and zealous Officer.

8. To Major Stock, and subsequently to Captain Tod, Paymasters, I am indebted for the attention and regularity with which the duties of the Pay Departments have been carried on.

9. Lieutenant Colonel Hopkinson, Commanding the Artillery, and Lieutenant Underwood, Commanding Engineer, having been always employed with the Officer Commanding the combined forces, the acknowledgment of their valuable services rests with higher authority.

10. Having gone through the pleasing duty of expressing my sentiments of the gallantry and meritorious exertions of the Madras Division of Troops, I beg respectfully to offer my sincere thanks to the Honorable the Governor in Council for the proud distinction of having been entrusted with so important a command; and to assure His Excellency that the height of my ambition will be to find myself placed upon any future occasion in a post so flattering and so honorable.

I have the honor to be,
Sir,
Your most obedient humble Servant,
(Signed) WILLOUGHBY COTTON,
Brig. General.

CALCUTTA,
May 29th, 1826.

The Governor in Council deems it proper to repeat in G. O. the acknowledgments of Brigadier General Cotton's distinguished services in Ava, which have already been often conveyed to that Officer. To zeal, judgment and gallantry, and to the most active and unremitting attention to all the duties of his arduous and important command, Brigadier General Cotton has united in a remarkable degree the faculty of carrying other men's minds along with him, and has thus brought the division under his orders to act with one heart and hand. The Governor in Council is persuaded that the sentiments expressed in the foregoing letter will be peculiarly gratifying to every individual both of the Staff and in the line who served in that Division.

The troops of this Presidency who were engaged in Foreign Service against the dominions of the King of Ava have already been honoured by the approbation of the Governor General in Council, and, though this Government is sensible that its praise cannot add any weight to that distinction, yet it is a grateful duty which it gladly discharges to follow the example of the Supreme Government in acknowledging the admirable military spirit displayed throughout the Service in Ava and Arracan, by every officer, non-commissioned officer and private of His Majesty's and the Honorable Company's troops, European and Native.

The Expedition to Ava has been distinguished from every former Expedition sent from India, by its duration, by its great privations, by difficulties of every kind arising from the climate and the nature of the country, by its constant harassing duties, and by its frequent conflicts with the Enemy. The European troops, in meeting and overcoming all these obstacles have nobly sustained the character of the British Army. The Native troops have proved themselves worthy of fighting in the same ranks with European Soldiers.

In many former instances the Native troops of this Presidency have cheerfully gone on Foreign Service; but in none has the spirit of enterprise been so high and the devotion to the service so universal as, in the late war. No less than seventeen Regiments (the 1st, 3d, 7th, 9th, 10th, 12th, 16th, 18th, 22d, 26th, 28th, 30th, 32d, 34th, 36th, 38th, 43d,) besides the head quarters and two squadrons of the 1st Light Cavalry, detachment of Golundauze and of Gun Lascars, the head quarters and four Companies of the 35th Native Infantry and the head quarters and seven Companies of the 1st Battalion Pioneers, actually proceeded to Ava and Arracan: two Regiments more (the 24th and 31st) and the remainder of the 35th were in readiness to follow; the orders for foreign service were received by all of them with enthusiasm: whole

Regiments

Regiments embarked without the deficiency of a man; and repeated instances occurred of extraordinary forced marches of parties absent from the Head Quarters of a Regiment about to embark, in order that they might not be left behind. Conduct so honourable to the Native Army, so gratifying to the Government, does not cease to be of use with the occasion which called it forth; its influence will reach to future times; and it will long be regarded, both in India and in Europe, as a memorable example for imitation to the sepoys, and for emulation to the successors of those European officers who have made them what they are.

It is directed that this General Order be translated and carefully explained to the Native officers, non-commissioned officers and sepoys of every Native Regiment in the service.

G. O. G. 16th June 1826.

G. O. G. 16th June 1826.

The Honorable the Governor in Council has been pleased to resolve, that the enlistment of Recruits for the Dooly Corps shall cease, and that another Corps, the strength of which will be determined hereafter, shall be gradually formed under the following Regulations.

2. That able bodied Dooly Bearers not younger than 18 nor older than 40 years shall be entertained under the orders of the Commissary General, in numbers as nearly equal to the Casualties, which occur in the existing Corps, as may be found convenient.

3. That this new Corps shall be formed into Companies of 90 Men each, with one Head and three Petty Maistries.

4. The Head Maistries, Petty Maistries and Bearers of this Corps, shall receive the same pay and batta as the existing Dooly Corps; the batta being drawn under the same circumstances which now entitle the Dooly Corps to that allowance. The subjoined table will regulate the pay and batta of both Corps according to the Currency now adopted for the Military Accounts. The Maistries are not to be allowed any thing extra for keeping the Companies complete; a duty which will belong to the Officers of the Commissariat under the orders of the Commissary General.

5. The pay of the new Corps to be drawn and adjusted until further orders in the Commissariat accounts, supported by regular Abstracts and Muster Rolls.

6. These Bearers will be entitled to benefit by the regulations for the issue of grain or compensation in lieu of it, the same as other public *followers*, as also by the regulations for the grant of Family Certificates, but are to have no claims to prize money. They shall also be entitled to medical aid the same as the men of the existing Dooly Corps.

7. That each man on the returns on the 31st of December every year, shall be entitled to receive a good serviceable Cumbly, but shall have no claims for Clothing. The Officers of the Commissariat will however see, that the Maistries and Bearers provide themselves, and maintain in good order, at their own expense, two Jackets of stout white Cotton cloth, also one Turband and one Cummerbund; the Head Maistries, Petty Maistries, and Bearers being distinguished from each other by such marks as the Commissary General may think proper to establish.

8. That these Bearers when permanently disabled by the enemy on Service, and the next heirs of men killed in Action, shall be entitled to pensions according to the rules applicable to Native Troops under similar circumstances.

9. That the Bearers entertained under the above regulations shall not be liable to be discharged without the sanction of the Commissary General, or the sentence of a Court Martial. Men of this Corps discharged at a distance from their Homes will be allowed 3½ Annas for every twenty miles of the distance to enable them to return: but if the discharged Bearers should be in an infirm state of health, the same allowance shall be given to them for every twelve miles, at the discretion of the Commissary General; the same allowance under similar circumstances being extended to the existing Corps.

10. When men of the existing Corps become unfit for the Service or request to be discharged, the Commissary General will be the judge of the grounds on which the discharge

discharge is recommended or applied for, his countersignature being required to the discharge certificates. And when Bearers of the existing Corps are brought before General Invaliding, Pensioning, &c. Committees, extracts of the Proceedings are to be furnished to the Commissary General, who is required to refer such points to Government as may be necessary.

11. A reasonable leave will be allowed to the Bearers of the new Corps when not in the Field, never exceeding six months, during which time they will receive no pay; but their pay, together with all other advantages will be granted only to the substitutes temporarily engaged in their room, by the Officers of the Commissariat, in immediate charge.

12. The Head and Petty Maistries shall also be entitled to a similar leave; but receive during their absence, the pay of a Bearer only, the difference being drawn for the men appointed to act for them; the reduced pay of Maistries during their absence will not however be drawn until their return; and if they overstay their leave, it will be forfeited and remain undrawn; such circumstance, when it occurs, being explained in a note at the foot of the Abstract. Any Maistry or Bearer overstaying his leave, will be considered a deserter, and liable to be dismissed the Service.

13. These regulations are not in any way to diminish the advantages already allowed to the existing Corps of Dooly Bearers; but as their numbers will gradually decrease, and as the Head and Petty Maistries would thus be liable to lose by the progressive reduction of the strength of the Companies, there will be no deductions made from their present allowances in consequence of vacancies not being filled up. The remaining Companies will be reformed from time to time as circumstances may permit; and any Maistries who may become Supernumerary, will be drawn for as such until otherwise disposed of.

14. The exchanging of Bearers from one Company to another, can be sanctioned only under authority from the Commissary General; the Maistries of Companies and Petty Maistries of divisions are therefore held responsible for a strict observance of this order, by the men of their respective Companies and divisions; and in the event of its being discovered that the Maistries have connived at Bearers exchanging from one Company to another, without proper authority so to do, the Maistry of the Company and the Petty Maistry of the division to which the Bearers exchanging respectively belong, shall be liable to be dismissed the Service or reduced to the rank of a Bearer. This rule is also ordered strictly to apply to the existing Corps of Dooly Bearers.

15. No stationary is specially allowed on account of these Bearers, and the Officers in charge in making out their Abstracts, &c. will be entitled to use the public stationary supplied for the ordinary purposes of the Commissariat; the same rule being also observed with regard to the accounts, &c. of all other Dooly Bearers.

16. The existing Corps shall be denominated the 1st Corps of Dooly Bearers, and the new Corps the 2d Corps of Dooly Bearers, and the same Returns, &c. which are now required to be made of the former Corps will also be required of the latter.

17. With respect to the Hired Bearers for occasional service in the Provinces, it will be proper that they should be engaged on the terms most advantageous to the public, in the manner already in practice by the Commissariat. The full hire, however, shall in no instance exceed 7 Rupees monthly, and it is expected that in various situations the hire of Bearers, especially in their own district, or for local duties, will be considerably less.

18. All Hired Dooly Bearers when employed on actual Field Service beyond the frontiers of the Honorable Company's Territory, shall be entitled indiscriminately to the same *pay* and *batta* as the Corps of Dooly Bearers on whatever terms they may have been engaged originally, and on no occasion whatever will hired Bearers receive higher wages than the pay and batta of the Dooly Corps.

19. When hired Dooly Bearers are collected at any Military Station from the neighbouring Country, they will receive an allowance to be regulated by the Commissary General from the date of their leaving their villages until delivered over to Corps, &c. on the presentation of Indents, or if collected for the purpose of being sent on service to another part of the Country, they will receive that allowance as above provided until they are mustered and brought upon monthly pay.

20. Hired Bearers discharged at the conclusion of any *Field Service* to enable them to return to the places at which they were entertained for that service, will be allowed 3½ Annas for every twenty miles of the distance. The Hire of all Bearers engaged for temporary service by the Commissariat will continue to be adjusted in the accounts of that Department.

21. Hired

21. Hired Dooly Bearers are already entitled to benefit by the regulations for the issue of grain or compensation in lieu of it, as public followers, as also to medical aid. It is now resolved, that they shall also be entitled to benefit by the regulations for family Certificates when in the Field in time of War, or on *Foreign Service*.

22. The next heirs of Hired Dooly Bearers in the public Service who may be killed in Action on Foreign Service beyond Seas: the next heirs of any Hired Dooly Bearers who may die on Foreign Service beyond Seas: Hired Dooly Bearers permanently disabled by the enemy whether on Foreign Service or in India, and the next heirs of those killed in Action in India will all be eligible to the pension list, each case being specially disposed of according to circumstances by the Honofable the Governor in Council.

23. The Officer of the Commissariat in engaging Hired Dooly Bearers for Field or Foreign Service temporarily, will fully explain to them the advantages to which they become entitled under these regulations.

24. The Sick Soldiers, whether Europeans or Natives, at Stations where Bearers are maintained, are always expected to benefit by their services in being carried out to take air when recommended by the Medical Officers and ordered by Commanding Officers. The Medical Officers to whom they are thus furnished, will be responsible that they are not otherwise employed; and regular Indents will be required for the Bearers whether they are wanted for the day, week or month. Dooly Bearers attached to Hospitals or kept up for the conveyance of Sick from the Barracks to the Hospitals, are on no account to be employed in any other manner, than in carrying the Sick.

25. When Public Bearers are required for working parties in Cantonments, either for the Commissariat or any other Department, Indents will also be required, specifying particularly the service for which they are wanted.

26. When Public Bearers are unemployed, Officers, or families arriving at, or leaving the Stations where they are maintained, may be assisted with Bearers at the discretion of the Commanding Officer, who will be at liberty to post sets at places from whence they can be readily recalled, if required for the Public Service. In such cases, however, the Batta of the Bearers, when travelling to and fro, and while posted (equal to what is allowed to the Dooly Corps), must be borne by the parties employing them; and paid into the Office of the Commissariat.

27. Families and individual Officers at Stations where public Bearers are maintained may be allowed the use of sets occasionally, at the discretion of Officers Commanding; such sets of Bearers not being subject to any other employment than the conveyance of Palanquins or Doolies, the parties paying into the Office of the Commissariat a sum equal to the Batta of the Bearers during the time they may be kept. Persons supplied with Bearers under this rule, will on no account take them beyond the distance of 10 miles, such Bearers being considered to be always in readiness for employment with the Troops.

28. Staff Officers proceeding post upon *duty* or returning, may have Bearers (when not required for public purposes) posted for them to a reasonable distance, at the discretion of Officers Commanding, without being chargeable for the Batta, provided the Bearers are already in receipt of that allowance.

29. Public Bearers, however, are not to be supplied for any purpose whatsoever without Indents, and all such Vouchers, are required to accompany the monthly returns rendered to the Commissary General. All Indents for Bearers required under the operation of the five foregoing paragraphs, besides the usual signature of the Officer of the Quarter Master General's Department on the spot, are required to be countersigned by the Officer Commanding.

30. Dooly Bearers in whatever manner employed, are not to be subjected to ill-treatment or punishment by the persons to whom they may be attached for the time being. If guilty of any irregularity, a complaint in writing is required to be made to the Commissariat Officer in charge, who will take the orders of the Commanding Officer on the case reported.

31. That part of the 10th paragraph of the VIIth Section of the Commissariat Regulations allowing certain Arms for the Bearers of the Dooly Corps is hereby cancelled, and this Order is directed to be considered as a Supplement to that Section.
